A Survey of the Wisconsin Field. MILWAUKEE, Wis., Aug. 25.-A careful survey of the political field develops the fact that beneath the apparent popular indifference, powerful factors are working to secure the legislature, this fall's election being the first under the biennial session law. The fight throughout the state will undoubtedly turn largely upon the question of prohibition in all assembly districts, also surely in Guenther's congressional district, where Kanouse, president of the National Temperance organization claims already 2,000 votes as certain.

The anti-prohibitionists organized recently as the Wisconsin Protective association, making efforts to establish branches throughout the state. If the Republicans encourage the temperance issue, which will undoubtedly be done in some localities, the Protective association will receive almost the entire German vote, thus drawing largery upon the Republicans. The Protective association is commonly mistaken as a liquor dealer's organization and is accordingly underrated. It embraces the liberal elements of both the leading parties, principally Germans, and is likely on this account to force the nationality question. It is an important factor in this, the Fourth congressional district, numbering 1,500 members and claiming 8,000 votes. The Trades' assembly is only important in their district, polling nearly 6,000 votes.

In the First congressional district, Charles G. Williams, present Republican incumbent, is already renominated. Chances are undoubtedly certain for election.

In the Second E. W. Keyes is manipulating the local delegations successfully against the present incumbent, Hazelton, with chances favorable for his nomination. The district is almost certainly Republican. The Democratic chance was frustrated by Vila's refusal to accept the nomination. Briggs, late candidate for attentional incumbers, in the second dideate for attention as a second dideate for attention and the second dideate for attention as a second dideate for a second design and the second dideate for a second dideate for a second dideate for a second design and the second dideate for a second design and the se tion will receive almost the entire German

to accept the nomination. Briggs, late candidate for attorney general, is likely to be the Democratic nominee The Third is strongly Democratic, with The Third is strongly Democratic, with scarcely any interest developed in favor of Republicans. Bragg's chances are good, but they are thought to be impaired by suits brought by the proprietor of the Tre mont house, Chicago, for money advanced upon dishonored drafts of Bragg.

Upon the sergeant-alarms of the house of propresentatives a bitter personal fight for the

Upon the sergeant at arms of the house of representatives a bitter personal fight for the nomination is going on between Bragg and Delaney, with the chances favorable for the former. In the Fourth district the Republican nomince is almost certain to be Isaac W. Vanschaick, against the present Democratic incumbent Deuster. The situation is badly mixed up and Ducster has incurred the dislike of the Trades' assembly through his paper, the of the Trades' assembly through his paper, the Scelote, a German afternoon daily, which opposed the striking cigar makers. The Trades assembly will nominate their own candidate, thus strengthening the Republicau chances. The Protective association only favors a candidate who, like Deuster, distinctly pledges himself to favor their aims, and their support is likely to be thrown in favor of the

The Fifth district is strongly Democratic. The contest for nomination is between Rankin and Hudd, with the chances in favor of

the former.
In the Sixth district Guthrie's (the present Republican incumbent) renomination is doubtful, on account of his strong opposition to the publicans nominate Turger or Bowman; both are favorable to the temperance cause. On the other hand, there is doubt of Republican success without Gutherie's renomination.

If the Prohibitionists nominate, the Democratic chances are not unfavorable. Haben, mayor of Oshkosh, is the probable Demo-

lican. Hixon, of LaCrosse, has fifteen delegates of the nineteen necessary to a nomination certain. It is said he is unable to secure the other four. Senator Thomas is second in strength. He is liberal, but he is opposed be ause he is a railroad man. The probable compromise candidates, are Butt, of Viroqua,

welch of Baraboo.

In the Eighth district Price has received the Republican nomination, which is equal to an election. Under the full Republican and Probibitionists' strength no Democratic candi-

The Ninth is a new district considered Republican, but the Democrats are putting forward powerful efforts, detracted from by a Greenback nominatian. The Republican nominee will probably be Isaac Steveson, of Marinette, against the Democratic, Silverthorne, of Wausau, or Judge Parks, of Stevens Point, probably the formation.

probably the former.

The legislature is expected to lose its large

Republican majority. It is an interesting fight on account of the prohibition issue, which will likely be victorious in country districts not specifically German.

The Republican central committee last fall openly cut loose from the prohibitionists, but

means whatever, to secure the legislature. It is known secretly that the National Brewers' association will assist. The productionists have a strong organization to put in the field egainst the amost unlimited fund of their opponents. An interesting phase is the nationality question. Prominent Germans object strongly to having it dragged into the campaign, but the prohibitiousts force the issue. This matter will be one object of discus-

Republicans in Doubt.

ST. Louis, Aug. 24.-The Republican state central committee met here this morning and held an open session, at which there was a pretty general discussion of the question of pretty general discussion of the question of calling a state convention. From the statements made by members of the committee and by the general tenor of their remarks it would seem that a large majority of the Republican voters in the state oppose a convention. The committee will hold an executive sassion this afternoon, at which definite action on the question will be taken.

The committee, at its session this afternoon, decided, by a vote of 28 to 8, not to call a state convention. The individual members of the

convention. The individual members of the minority, who say the voters in their districts misority, who say the voters in their districts are decidedly in favor of a convention, will rally themselves with the popular movement inaugurated at Jefferson City some days ago, and through which a call for a convention will be made independent of the state com-

Its usefulness is as completely gone as that of an old fashioned broken bank note. By its unwarranted assumption in pr suming to exert a power that was never graded to it it forfeited its right to exist and its mandates will be heeded by the Republican masses in the state no more than if they were so much waste paper. The foreknowledge of the cut and dried action of the committee was sufficient of itself to start a strong and overwhelming movement in the party toward the sufficient of itself to start a strong and over-whelming movement in the party toward the holding of a convention and it was only kept to check to give the committee a chance to establish its loyalty and to render untenable of the committee of the poor any possible charge of inconsistency. Austin, Texas, Aug. 25 .- The convention of the Tenth congressional district nominated John Hancock by acclamation. The Upson delegates representing twenty out of fifty-two votes, would only consent to enter the convention upon the condition that Hancock's name be withdrawn, which being refused, they left in a body. Most of the bolting delegates favor protection and to that effect are in accord with ex-Governor Davis, the Independent candidate.

DETROIT, Mich., Aug. 25 .- In the Second congressional district of this state a good natured but strenuous contest is going on in the Republican convention, which met to-day. Each of the four counties comprising the district has a candidate, the candidacy of Willits, present member, being for his fourth term. At last reports thirty-nine ballots had been aken with no result.

Disposing of the Public Domain. WASHINGTON, Aug. 25 .- A statement of

the disposal of public lands during the fiscal year ended June 30, has been prepared at the general land office and shows that the total number of acres disposed of is 15,699,848. This is an increase over last year of about five million acres. The cash received for this land aggregates about \$8,361,091, against \$5,000,-000 for the last fiscal year. The number of acres entered for agricultural purposes as cash sales during the year amounted to 3,692,899 acres; for mineral pur-

The great increase in the disposition of public lands during the past fiscal year is said to be owing to the immense tide of immigration in the northwest, in Dakota more noticeable than in any other state or territory. A very large increase is also noticeable in Louisiana and Florida. The area of state and railway selections is more complete than ever before, and this adds greatly to the aggregate disposed of during the past year. The area of disposed of during the past year. trials Merrick resumed his argument for the prosecution this morning. During his argument he had a sharp discussion with Mr. Hinkle, counsel for the defense, when the court decided that Merrick's remarks were decidedly objectionable. Merrick continued his line of argument, when Hinkle objected.

Mr. Merrick said that Dorsey having stolen money from the treasury kept it back from the sub-contractor, defrauding the treasury on one hard and his employe on the other. The proposition laid down by Secretary Teller, that the people of the West were as much entitled to speedy mail facilities as the people of the East, he regarded as the wild remark of a man seeking popularity among his own of a man seeking popularity among his own constituents. I soon found that the enemy were being largely reinforced from Tel el Kebir. I could see trains arriving. I thoughi it inconsistent with traditions for the queen's army to retire before any number of Egyptians, and so decided to hold my ground until reinforcements arrived. All day long I have had an Egyptian force of 10,000 men with two guns in my front and on my right flank. The precision of the enemy's artillery fire was very good, but fortunately they fired common shell nearly all day, and when they did fire shrapnel their fuses were badly adjusted. The enemy had their cavalry regiments in line. The horses having been recently on board ship were not in condition to gallop much. The two-horse artillery guns were served with pluck and ability. It is quite amusing to hear some of those Norwegians, who never in their lives voted a Democratic ticket, urging the Democrats to nominate. One of them said to me to-day: "Well, the Democrats have a good chance to elect a member of congress this fall," and before I left him he declared that Nelson was sure to be elected.
