

The Globe has always been supplied to the news on the trains, but at the present time encountered difficulties which do not now need to be re-counted. At the present time it ought to be found everywhere. Parties who cannot in the future obtain it on the trains or of newsmen will confer a favor by reporting the matter to this office with particulars.

SUBSCRIPTION RATES.

The enlargement and improved news facilities of the Globe necessarily involve an advance in subscription rates. This advance is quite moderate in comparison with the increased expense of conducting the paper. Hereafter the subscription price of the Globe will be as follows:

Seven issues per week, delivered by carrier, mail or supplied by newsdealers—ONE DOLLAR PER MONTH.

Six issues per week (omitting Sunday) by mail, as follows:

One month, 30 cents; three months, \$2.50; six months, \$5.00; twelve months, \$10.00. Postage is prepaid on all papers sent by mail.

The response to the advertisement in the Globe for pointers is quite rapid and the demand will soon be supplied. There were but five or six cases remaining and should arrive by telegraph. The fact that the Globe pays forty cents per 1000 ems, which is more than any other office in the state, renders the situations attractive.

The star jury have succeeded in finding two scape-goats for the sins of Dorsey, Brady & Co.—men who have scarcely been heard of in connection with the case—upon these has been visited the disgrace of conviction. Miner and Readwell were simply sub-contractors, and their share of the profits of the steel were infinitesimal. The Dorseys and Brady have grown wealthy upon the proceeds of their expedited contracts, and although the evidence against them was positive and unequivocal, the jury failed to agree as to their guilt or innocence. The defendants are evidently as proficient in fixing juries as they are at manipulating political conventions.

Tax case of James Tracy under sentence to be hanged at Chicago on Friday is a somewhat peculiar case. A police officer in trying to arrest some men who were in the act of committing a burglary, was shot and killed. Tracy was arrested, tried and convicted of the crime, and sentenced to death. The evidence against him was purely circumstantial, and many outside of the jury room have had grave doubts of his guilt. Now, with the shadow of death resting upon him, Tracy comes out with a statement, written by himself, which shows him to be not only a man of good education but of fine mental endowments, and views the evidence against him with the acuteness of a trained lawyer. He demonstrates to the entire satisfaction of thousands his entire innocence, and asserts in language of rare emphasis his guiltlessness. He does not expect a reprieve, but entreats the public not to regard his nerve on the gallows as a specimen of villainous bravado. He fears death only for the manner of his taking off. It seems to us that this is a case where grave doubt of the guilt of the prisoner exists, and the governor of Illinois would be justified in granting a respite to the end that the facts may be fully inquired into. It should be an ineffable disgrace to our laws if an innocent man should suffer on the gallows for a crime of which he was guiltless.

THE CHICAGO WHEAT GAMBLERS.

Very little sympathy will be wasted on the "shorts" in the late July deal in wheat on the Chicago board of trade, and their frantic efforts to evade the consequences of their own rashness only serve to bring them into ridicule. The transaction in which they lost their money was simply a gambling operation. They laid a bet that the price of wheat on the 31st of July would be less than it was when they sold the options. They did not own a bushel of wheat, nor did they ever expect to have any they could honestly call their own. They hoped to buy options at a lower price than they had paid and pocket the difference. If they had won it is to say that they would have claimed all the difference, and nothing would have been heard of the immorality of the transaction. Their ox was gored, however, and they appeal to the courts for relief from payment of their losses.

Men who gamble, either with cards or in stocks, grain or provisions, must expect to lose their stakes some time or another. They cannot always win, nor can they expect to be paid when they win and repudiate the game when they lose. They take their chances with their eyes open, and fully understanding the consequences of a mis-calculation. The only manly course for them to pursue is to pay their losses as professional gamblers pay theirs, and to be more careful next time. By their present course they disgrace the profession of gambling. It will do them no good to invite public sympathy, for people generally regard the board of trade deals and the resultant gains and losses as only a part of the economy of nature—rather, a fresh illustration of "dog eat dog."

The Northern Wisconsin Fair.

[Special Telegram to the Globe.]

OSKOSH, Wis., Sept. 11.—The thirtieth annual fair of the Northern Wisconsin Agricultural and Mechanical Association opened this morning. Exhibitors, superintendents and workmen were busily engaged yesterday and to-day perfecting arrangements, and by to-morrow everything will be in running order. The display of farming implements is immense—never before so extensive. The race track is in fine condition and \$2,000 are offered in prizes for Tuesday, Wednesday, Thursday and Friday's races. The fair promises to be a grand success, as it is favored by beautiful weather.

Board of Public Works.

The board of public works held an adjourned meeting yesterday afternoon at which the following business was transacted.

The following assessments were confirmed: for grading Maiden Lane through block 74, Dayton & Irvine's addition; for grading Farquier street from Greenbraid to Earle street; for grading Dale street from Summit to Marshall avenue; for grading Goodrich avenue from Fort street to Leach street; and for constructing a sewer on 12th street from Jackson to Robert street, and on Robert street to 11th street; and for grading Flornal and Layton streets from Grand avenue to Summit avenue.

The assessment for grading Forbes street from Pleasant avenue to Banfill street, and for grading Mount Airy street from L'Orleans street to Broadway, was laid over until the 15th inst.

Bids were opened as follows:

For grading Beaumont street, F. Beyer, \$1,200; G. E. Heubner and John Hansler, \$1,200; Moline & Brussell, \$1,071. Contract awarded to Moline & Brussell.

For grading Jessie street: Moline & Brussell, \$1,350; Heubner & Hansler, \$1,600; P. H. Thornton, \$1,175. Contract awarded to P. H. Thornton.

A number of orders from the council were referred to the city engineer to examine and report, after which the board adjourned.

Sioux Falls Granite.

The announcement has been made more than once in these columns, that the Jasper Granite, found at Sioux Falls, is a beautiful as well as a very hard and durable species. It takes a very high polish and is as handsome a granite as was ever seen anywhere. It is now to be put to a new test, and that is street paving. It has been examined and tested by those who are experts in the business, and they pronounce it one of the very best kinds of material they have ever found. A contract has been made by the leading quarry at Sioux Falls with a prominent street paving contractor in Chicago to deliver four hundred car loads. Sheds are now being erected at the quarry, and as many men as can be accommodated will be kept at work all winter as fast as possible, getting out the stone and preparing it for the market.

Another Girl Outraged.

A report came to the chief of police yesterday that a little ten year old girl had been outraged on in Arlington hills. There is something rather curious about the matter. It is claimed that the outrage was committed about two days ago, but no outrage has been committed. The mother, on the contrary, asserts that one has been committed. The little girl says the act was done by a tramp, and still she does not give any very satisfactory account of the affair. The police authorities have been looking around to see if they could find any one in that neighborhood upon whom suspicion could fall, but thus far have been unsuccessful.

RAIL AND RIVER

Kansas wheat is being shipped this way in considerable quantities.

General Manager Haupt, of the Northern Pacific road, has gone to Morris.

The gross earnings of the St. Paul & Duluth road for August are \$103,500.

General Traffic Manager Hiland, of the Chicago, St. Paul & Omaha road, has gone to Chicago.

Mr. Barnes, general passenger and ticket agent of the Northern Pacific road, has gone up the road.

Frans Peterson, traveling agent of the National Line Steamship company, of Chicago, is in town.

General superintendent Stinson of the St. Paul & Manitoba road has issued the following circular:

It is reported that during the first week in September the Chicago, St. Paul & Omaha road earned \$109,376.

Miss Amelia Thompson has received the appointment of secretary of general ticket agent Dodge, of the Duluth road.

The eastern train on the Milwaukee road was two hours late yesterday afternoon, owing to the heavy load of passengers.

Geo. Hazzard, of the St. Paul, M. & St. Louis, is arranging for another excursion to Portland, Me. to leave St. Paul on the 19th Gen. Superintendent Stinson, Assistant Superintendent Wakeman, and Roadmaster Mayer of the St. Paul & Manitoba road, have gone to Fergus Falls.

Mr. Davis, the general ticket and passenger agent of the St. Paul & Manitoba road, is having his room cleaned up and whitewashed. While this process is being gone through with Mr. Davis takes up his quarters in the next room with Gen. Alexander.

It is rumored that L. S. Kemble, general freight agent of the St. Paul & Manitoba road, has resigned and accepted the position of general northwestern agent of the Albert road. Mr. Kemble is a man of great ability and is peculiarly fitted for the department he occupies. He is a decided gain to any road that secures his services.

Supd. Lincoln of the Omaha line, has made the following appointments to go into effect Sept. 11: T. E. Clarke, assistant superintendent of the St. Paul division; H. R. Magill, Geo. Noble, train dispatchers. The assistant superintendent, in addition to his other duties will have full jurisdiction over the train department, including the train dispatchers and their assistants, and during the absence of the superintendent will also act for him. The train dispatchers will give orders for the movement of trains and distribution of cars.

Mr. C. W. Crenshaw having resigned the position of master of roads, the office is abolished, and the following appointments are announced: J. C. Bennett, roadmaster of Fergus Falls division, with headquarters at St. Paul, J. W. Mayer, roadmaster of Breckinridge division including branches and extensions, with headquarters at Delano, Minn. M. Munson, roadmaster of northern division, including branches and extensions with headquarters at Crookston, Minn. Roadmasters will be accountable to division superintendents, and will make requisitions on them for all material and supplies required. They will also select their own assistants, subject to the approval of the general superintendent. The office of master of roads having been abolished, until further notice the bridges, building and water supply of this company will be in charge of Mr. N. D. Miller, assistant engineer, with headquarters at St. Paul.

A New Railroad Deal.

[Special Telegram to the Globe.]

New York, Sept. 11.—It is rumored that a railway deal is in process of completion by which the Manitoba Southwestern will pass from the hands of the company that now controls it into the hands of the Northern Pacific Railway company. This arrangement, if carried out, will put an end to a very costly dispute, which has retarded the construction of the line referred to. Two prominent members of the syndicate are now said to be in New York closing arrangements with the Northern Pacific, who have the controlling interest.

Beer Notes.

The Josie will probably be the St. Louis boat of the Diamond Jo line to-morrow.

The state board of equalization are still engaged upon the personal property of returns of the different counties.

The steamer Minneapolis from St. Louis left yesterday forenoon at 11 o'clock, with a good passenger list for St. Louis.

The Alex. Mitchell, of Commodore Davidson's electric light line, will be the next boat for St. Louis, and will leave this noon for that city.

The Mary Morton arrived Sunday night at 9 o'clock, and left for St. Louis at 10 o'clock Monday morning with a good list of passengers.

The U. S. tariff commission will reach St. Paul to-day, and hold a session at the Metropolitan to-morrow. As per announcement, parties desiring to get the tariff fixed before the commission, will have to put the same in writing, but the commission will, as far as possible, allow an opportunity for a brief oral explanation of such transcribed views.

Dakota Politics.

Col. Lounsbury, of the Bismarck Tribune, who was in the city yesterday, said of the nomination of John B. Raymond, who will be elected by a majority ranging from 25,000 to 30,000. He was in no way responsible for the trading, and his friends did not need to resort to it, as he was the second choice of everybody. He is not inclined to criticize Pettigrew, on account of the trade, whom he thinks saved his baggage if not himself, and will bob up suddenly in the next campaign, will have a division of Dakota, which he believes will be accomplished this winter. Col. Lounsbury supported Pettigrew in the campaign preceding the convention and at the convention supported a north Dakota man under instructions.

The Wisconsin State Fair.

[Special Telegram to the Globe.]

FOXD LAKE, Sept. 11.—The state fair opened to-day with excellent weather. A continuous stream of exhibitors is going toward the grounds. The streets are crowded. The entries will be greater in number than last year. There are plenty of accommodations for visitors. The fair really opens to-morrow, with races and lady rides. Minnesota fair exhibits are coming on every freight train. The special passenger trains to the city are well patronized. All the state fair officers are on the grounds. Saturday will be the big day. The entries close to-night. At this hour there are over fifty thousand people present. The electric light is an attraction.

A strictly reliable rheumatic remedy is St. Jacobs Oil. It never disappoints.

Three members of Congress at large will be elected in Kansas this fall.

SUPPLY AND DEMAND.

THE WHEAT CROP OF '82, AND HOW IT WILL BE DISPOSED OF.

Definite information as to the extent and character of the crop—the granaries of Europe and America nearly exhausted—Increase of Consumption Probable—No Likelihood of an Unprofitable Market—The Chicago Transactions.

CHICAGO.

[Special Telegram to the Globe.]

CHICAGO, Sept. 11.—Under the influence of the favorable reports regarding the growing crop and the continuance of fine weather, along with prospects of a steady increase in the arrivals, holders manifested a desire to realize, and the large offerings produced a decline in corn of 1/2c for cash and September, 3c for October, 1 1/2c for November and seller the year, and 3/4c for January and May. A large business was transacted, and all classes of buyers were in attendance. The shorts filled in at a lively rate. Vessels were engaged to carry 100,000 bushels. The market was active, and the feeling greatly unsettled, with another sharp decline in prices, which was most marked for cash and the near futures. The speculative offerings were unusually large, caused partially by the exhaustion of margins which necessitated parties to throw their property on the market. The dealings closed at about the outside prices of the day. No. 2 was sold early at 64 1/2c @ 65c, then declined to 64 1/2c, with not much change to sell at the declining prices, and closed at about 64c. High mixed was in good demand and sold at 63 1/2c @ 67c early, but declined to 63 1/2c and then fell off rapidly to 61 1/2c and closed at about 63c. Rejected sold at 63 1/2c @ 64c and closed at about 63c. It was reported that the corn deals of the late A. S. Ricker, amounting to 3,000,000 bushels, were sold out to-day because the margins were exhausted and there was no body authorized to put up additional margins. The receipts to-day were large, shipments small, and sellers hammered the market all day and at one time the greatest excitement prevailed. No failures were reported to-day, but it is expected several will occur to-morrow. David Dows & Co., who had Ricker's corn, not only unloaded that but were free sellers on their own account, which produced almost a panic in the market at one time, and it was almost impossible to get a bid for October corn for some time. It was reported the large shipment of corn to France had caused a sharp decline there, and consequently tended greatly to depress prices.

Margins will be called for generally to-morrow on all corn deals on the basis of 63c for September, 75c for November, and 50c for May, and it is probable that several houses will be unable to respond. In September corn the offerings were liberal and the market very weak. Early a few trades were made at 63 1/2c @ 64 1/2c, but it was almost impossible to sell, buyers being scarce and scarcely any trading until 6 3/4c @ 6 1/2c was reached. It continued to decline, selling off to 6 1/2c @ 6 1/4c, and closed at about 6 1/4c. October corn was active, and also offered freely, with sales at 63 1/2c @ 66 1/2c and closed at 63c bid. Opened a 66 1/2c and 66 1/2c, sold down with slight fluctuations, to 64 1/2c, up to 65c, then down to 63c. November was active, and sold at 60 1/2c @ 62 1/2c, and closed at about 60 3/4c. It opened at 62 1/2c and 62 1/2c, sold to 61 1/2c @ 62 1/2c, and then down to 61c @ 60 3/4c. In ear corn trading was fairly active, and sold at 54 1/2c @ 56 1/2c, and a rumored sale at 56 1/2c. Closed at about 54 1/2c, January ruled rather quiet, and sold at 54 1/2c @ 54 1/2c, and closed at about 51c. May, fair trading, with sales at 52 1/2c @ 53 1/2c, and closed at about 52 1/2c.

The downward tendency of the leading cereals had a marked influence over oats. There were, in consequence of the decline, free offerings of futures, and the demand was slack. About 1 1/2c decline occurred in prices. The cash offerings were only moderate, for the arrivals have become small. Inquiry is light, however, bids reduced, and prices 1 1/2c lower. Cash, No. 2, sold at 31 1/4c @ 31 3/4c outside; early No. 2, white sold at 33 1/2c @ 34c and rejected at 29c, sample lots were hard to sell even when concessions were allowed. Demand light.

There was a fair demand for spring wheat, and No. 2 sold at 98 1/2c @ 99 1/2c and closed about 98 1/2c. No. 2 sold at 86c, and rejected sold at 66 1/2c for future delivery. Trading centres in No. 2 wheat, regular, or No. 2 wheat. The market was fairly active on speculative account, and prices subject to only moderate fluctuations, and varied but slightly from Saturday's figures.

The receipts were fair and the arrivals of spring wheat show an increase. Early in the day the feeling was strongest, prices 1/4c higher, then fell off 1/2c but again rallied, selling up 1/4c @ 3/4c, but about noon weakened off, selling inside prices and finally closed about 1/4c lower to the same as the closing figures on Saturday.

The bulk of the sales fluctuated within the narrow range of 1/2 cent. September met with a moderate demand, and offerings not large, with sales at 98 1/2c @ 99c, but few sales at 99c, and closed about 98 1/2c. October, moderate trading, with sales at 94 1/2c @ 94 3/4c, down to 91c, up to 94 1/2c, and back to 93 1/2c @ 94c, fluctuated and closed at 91c. November trading light, with sales at 93 1/2c @ 94c, and closed about 93 1/2c. In winter wheat receipts are heavier, the demand from speculators and shippers fair, and sales were at Saturday's prices, closing weak at the inside.

In provisions, the market was active, but pork and lard weakness, was the prevailing feature. The drop in values of corn making holder weak kneed, and under large offerings mess pork declined 15c per bbl on cash and the near futures, and 25c @ 30c on the long futures. Lard fell 20c @ 30c per 100 lbs. Meats were quiet, owing to light offerings, but prices were about 10c per 100 lbs lower. The receipts of live hogs during the week were 60,807, a gain of 81,265 for the week previous, and 93,286 for the corresponding week.

The quality of the animals was somewhat irregular. A fair number of good lots were received, for which good prices were paid, but the bulk of the offerings consisted of common and medium quality, and included a fair percentage of coarse fed hogs. Packers purchased to a fair extent, and shippers bought about the usual number. Prices were stronger early in the week, and were advanced 5c @ 10c per 100 lbs, on the

better qualities, but towards the close the feeling was easier again, and the improvement in prices was lost. Sales ranged at \$7.75 @ 9.35, according to quality, with the bulk of the sales at \$8.00 @ 9.00 for fair to good lots. The receipts of hogs at the principal western packing points continue light and the quality poor.

The packing returns still show a further gradual reduction, and will probably continue to do so until near the approach of the winter packing season. Packing operations were conducted on a moderate scale during the past week. Manufacturers are still cutting a few hogs, but the high prices demanded checks business to some extent. The manufacture is confined almost exclusively to meats required for the domestic trade, though foreign fancy meats are made to some extent by parties especially engaged in the trade. Short ribs, long clear sides, and short clear sides were moderately firm having the preference, pork of all kinds is neglected. Lard is forwarded sparingly, and the yield is light owing to the poor quality of the hogs. Another of the shorts in the July wheat has appealed to the courts for protection against the avidity of the longs. Judge Jameson issued an injunction this morning on complaint of Geo. Barber, restraining the board of trade from taking any action on the report of the settlement committee. The bonds, as in the other case, were fixed at \$15,000.

MINNEAPOLIS

The Light Infantry drilled last evening. Several new hotel schemes are maturing.

Mrs. H. E. Ladd departed yesterday for a trip to Boston.

The Republican ward caucuses will be held this evening.

Democratic headquarters will probably be opened this week.
