Democratic success had been anticipated, and those who world consider success as a reason for influencing the stock market, had generally acted on their judgment before the election had occurred. The overwhelming extent of the victories of the opposition to the administration may however. position to the administration may, however, have influenced others to-day, but there have been but few changes in the stock market which cannot be accounted for by other than political reasons. I've Got a Grandmother. [Del on Free P. a.s.]

What would the little children do if there were no old faces to look into; no tender broken voices to soothe their joys and sorrows? Fathers are only men to their children. They never take the little ones on wonderful jou neys; there is no room among their ledgers and bank books for broken dolls and battered kites; they lave no time to tell of the babe in the manger, and where heaven is, and if Jacob's ladder reaches there. "O, won't you get a whipping when you get home?" said one child of another who had been guilty of some naughtiness. "No," was the instant response, "I've got a grand mother." That would indeed be a dreary childhood that had no memory of white hair and patient, loving eyes--no old people of its very own.

He Was Good to him Auchor.

The story is told of a scene in the Western Union telegraph office in New York: A number of gentlemen interested in stock operations were clastered around the tape, elbowing each other anxiously, to read the quotations. A little man with a black beard entered, and approached the tape, which he could barely reach. A big, took him by the sleeve, and saying, patron-

burly, good-natured fellow in the crowd izingly: "You are a little fellow, and we'll let you in," shoved him into position.

The little man smiled, and looked at him through the corner of his eye, glanced at

the tape, thanked his new-found friend, and retired. An amused by-stander stepped up and said: "Do you know who that is?" "No,' said the other carelessly.

Society people in Washington expect a very brilliant winter, which will be inaugarated by the Garfield monument fair, to be followed by a round of receptions, of which those given by the president will be the most conspicuous. Patrick Carey, a 'longshoreman in New

Popular belief in the wiscom of vaccination has received a severe blow in a part of Germany, where a large number of children, both those vaccinated for the first time and others revaccinnated after an interval of twelve years, have fallen dangerously ill, the flesh about the punctured part decaying and sloughing off, and the bodies being covered with sores and boils. Sage wanted to affirm in reference to some stock of Mr. Chapin, but discontented stockholders, as the voters were termed, insisted upon Sage being swern.
