OFFICE-No. 6 Washington lavenue, op wosite Nicollet House, Office hours from & m. m. to 100'clock p. m.

Now that the cedar block pavements have been completed on Nicollet avenue to a point beyond Fourth street, why does not the contractor begin work on Hennepin avenue at the intersection of Washington avenue? It is of considerable importance that the pavements ordered down should be so far completed as possible before the inauguration of our coming fair, which promises to bring more people by thousands than has any previous occasion of the kind to our city.

THE poor children went on their annual excursion to Lake Minnetonka yesterday. Their little hearts were full of happiness as they boarded the Lyndale cars yesterday, which, it is hoped, was more than realized. Everybody contributed to make the day one long to be remembered by those whose tenjoyments are too few for their necessities for mental and bodily develop-

THE daily press of this city is entirely too virtuous to their business instincts. They stand by and let a stranger named McCord maliciously misrepresent our A No. 1 Fire Department and not a word is offered in defense of our noble corps of fire laddies. It's a question of moneypieces like those which Judas received.

INCENDIARY fires are becoming so frequent all over the country, and especially in large cities, that property owners are looking into the causes; and in this city the response is unanimous that it is the result of over-insurance. If there was a proper law forbidding this ontrage, there would be less fires. McCord, stand up.

Our citizens have the reputation of being of an unusually hospitable nature. The GLOBE urges upon them the necessity of fully sustaining that reputation by coming handsomely to the front this week and extend to our eight hundred distinguished guests a voluntary hospitality which shall never be forgotten.

THE Board of Water Commissioners, by a little streak of luck, have obtained enough six-inch pipe to connect the fair grounds with the water mains in the southern portion of the city. As far as fire and police are concerned the arrangements this year will be more complete than ever before.

Ir is to be hoped that the step taken towards securing a balance-sheet as between the assessment rolls and the city treasurer's receipts will not prove to be one with the heel toward the anxious taxpayer. By all means let us have a showing.

A FIRE in a pile of lumber in the center of a yard in the East Division last Sunday, was confined to the pile in which it originated, and still McCord speaks of our Fire Department as being inefficient.

According to the report of the Board of Equalization the city valuation, for taxation purposes, is about four and a half million dollars more this year than last.

It is now known that Charley Fisher, who escaped from the city lock up by way of "that ventilator"-or elevator-boarded a Northern Pacific train at the East side junction. Minneapolis is doubtless rid of him for a time at least, which is perhaps in the interest of our commonwealth rather than his permanent incarceration.

An attractive feature of the great fair will be the international bicycle contest between the champions of England and America. The champion long rider of England, H. W. Higham, who has traveled on his machine a distance of 1,040 miles in seventy-two hours will encounter John S. Prince, of Washington, D. The fancy and skilful bicyclist, Fred Rollinson, of the national capital will also delight thousands with his wonderful feats of drollery which are perfectly inimitable and laughter provoking.

He is the clown among the bicyclists. Cot. H. J. Raffensperger is certainly a princely fellow. Yesterday he took the local members of the press in carriages to the East Side addition, to visit and inspect his lands. Now, it is a notorious faet that newspaper men really know little of the relative virtues of real estate, and consequently unable to give other than the genial colonel's theories. He is a good talker and it only requires a few moments' conversation with him to convince the stubborn skeptic that the East side addition is the coming property. To the unsophististicated it actually does look as thought the colonel had "struck it rich." All large Size, with an alley in the rear, fronting on August 16, 1883, at 2 o'clock Streets sixty-six and one hundred feet wide, only 15 to 20 minutes' ride from the Nicollet House,

The Monroe Street Railroad was completed through the East side Addition in November last, and the cars are making regular trips from the Nicollet House. One-half of the Houses and vacant Lots to be sold are located on the street through which the cars are now running, one-quarter of them are only one block, and the balance two and three blocks from the cars. There are three stores near the terminus of the street railroad, one containing a good stock of goods, and another stock will be opened there very soon; the third store has been used for a school, anticipating the erection of a large New School House in this locality by the city soon. The lower part of the Eastside Addition is but fifteen minutes' walk from the large brick school on Monroe street; a good church is in the neighborhood. Every block left blank upon the map is built upon, and 175 new houses in the vicinity are now occupied. One of the most important improvements to be made will be the new Monona Norwegian College to be constructed. This structure is to cost from \$50,000 to \$100,000, and will also add largely to enhance the value of the property. The new City

Isles the

Nineteen large and magnificent Lots in this addition are to be sold at the same time, affording the most picturesque and romantic scenery that extends for miles and surrounds this charming Lake, only fifteen minutes' drive from the Nicollet House. Its salubrious and invigorating air, together with the many advantages this beautiful addition possesses, being all high ground and commanding a view unsurpassed, overlooking the city. The Lake of the Islee Addition is sure to become the most favorite locality for first-class private residences in Minneapolis, combining city with rural life, and yet only fifteen minutes' ride from the principal business pertion of the city. Several fine houses have already been built, and many of our leading citizens contemplate the construction of costly residences. A street railroad has been decided upon, which will run within a quarter of a mile of Twenty-seventh street and Hennepin avenue, the point to enter the Lake of the Isles. All these extensive improvements will greatly increase the value of this property, and parties buying at this sale will reap the benefit of the rise. (See views of the Lake in front of book.)

CONDITIONS AND TERMS OF SALE:

All the property to be sold as may be required, suiting all classes of purchasers. Terms to be only one-quarter cash, the balance, three quarters, can remain on mortgage, one, two and three years, in equal payments, at 7 per cent. interest, or if all Cash is paid, a discount of 10 per cent. will be made on all deferred payments. Ten per cent. of the purchase money must be paid at the time and place of sale, the balance of the cash payments in fifteen days from the day of sale, when the deeds will be ready for delivery. Title perfect and free abstracts furnished to every purchaser. This sale effers great inducements owing to the constant demand for houses in this vicinity, where values must double within a very shortime. The close proximity of all this valuable property to the business part of the city also offers an unusual opportunity to capitalists and investors that are seeking to make safe and profitable investments, not surpassed in any city in the United States.

22 A Free Omnibus will Leave the Nicollet House and Hamlin & Brown's office every afternoon, one week before the sale, at 2 and 4 p. m., to enable buyers to view the property and make such selections as they wish to purchase at this important sale.

Maps and hand-bills furnishing full particulars can be obtained on application to Hamlin & Brown, No. 303 Hennepin avenue, opposite post-office, and at A. H. Nicolay's, Real Estate Auctioneer, No. 250 Hennepin avenue, Minneapelis.

YOUNG MEN.

The following symptoms, frequently met with among young men, are produced by causes well known to themselves: Loss of Memory and Energy, Eyes growing Weak, Eruptions on the Forehead, Disturbing Dreams, Unrefreshing Sleep, Bad Feel-Disturbing Dreams, Eruptions of the Forenead, Disturbing Dreams, Unrefreshing Sleep, Bad Feeling on rising in the morning, Loss of Appetite, Palpitation of the Heart, Despondency, Timidity, Brooding over the Past, Apprehensions for the Future, Aversion to Society, an Unnatural Preference for Solitude, and many others. Dr. Spinney would say to the unfortunate sufferer who may read this notice, that you are treading on dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage—remember you are approaching the last, and the time must come when the most skillful physician can render you no assistance. In no case has the doctor failed of success. Then let not despair work itself upon your imagination, but avail your selves of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim Death hurries you to a premature grave.

MIDDLE-AGED MEN.

There are many of the age of thirty to sixty who are often troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear or the color be of a thin, milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. The Doctor will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. Pamphlet with full particulars, sent free to any address. Cal or address DR.
