MINNEAPOLIS.

OFFICE—No. 6 Washington Avenue, opposite Nicollet House. Office hours from 9 a. m. to 10 o'clock, p. m.

The conference at Fargo last Wednesday for the purpose of calling a convention to kick against South Dakota hogging the name of Dakota, was very thinly attended, only a few counties being represented, and most of the delegates were evidently recruited on the streets of Fargo. The Bismarck capital outfit did not show up in force, because there was no necessity of their doing so at that meeting, but to Fatty Edwards was intrusted the management of the confab, and he, as usual, executed the orders of his superiors to the extent of his ability. Fatty managed to have his own way in regard to the time of holding the convention, and of course named a date near at hand, in the midst of harvest, when "the people" will be busy at work securing their crops. But this is the scheme of the gang. They do not want to see the people at Fargo on the 12th of September. The people will be there in full force, however, and after adopting resolutions and administrative resolutions, will advertise their proceedings as representing the sentiment of north Dakota. See—Grand Forks Herald.

It seems strange that a man with as much intelligence as the Herald genius should shoot off his half developed ideas in this style, especially when the facts do not warrant it. Edwards was there, and he made Dr. Hall take water, but the conference was not run by him, and many of his ideas were not even considered. It was a friendly conference, representing various ideas, and as the harvest will be nearly or quite over by the date mentioned, Sept. 5, it stands north Dakota in hand to be on the look-out for the grand old name it alone has made famous. When the ring begins to get in its work then go for it, but it does not pay to waste all one's valuable wind on a shadow.

THE HUMAN HAIR. "Yes," said a St. Louis barber in an answering question, "there are a good many curious things about the hair. I suppose you believe, as most people do, that frequent shaving will make the hair grow on your face. That is not so. Just think of it for a minute and try to explain to yourself how scraping your face with a razor can put new hair roots in your skin! What shaving does is to increase the thickness of the hairs already there—not their number. In this way frequent shaving makes the beard somewhat thicker. But at the same time, of course, it makes it coarser. A young Freshman with a little down on his upper lip might spend his entire time shaving himself and he could not start the growth of a single new hair. The beard is not nearly so troublesome to take care of as the hair of the head. The beard is so much smaller and thinner, for one thing. There are about 290 hairs to a quarter of a square inch of surface on the scalp, and only forty hairs to the quarter inch on the chin. Some of the hair follicles on the scalp, particularly at the back of the head, are often turned the wrong way, making what some barbers call a "cow-lick." This makes a man heaps of trouble, but it can be cured. Frequent brushing is the only remedy for it.

"Hair dyes," he went on; "oh, yes, we all have to use them more or less. I generally make my own, but I could buy just as good though they would cost more. If you will take any half dozen of the standard dyes you will find they are all substantially the same. Nitrate of silver and sulphur does the business. But there is not nearly as much dyeing of the hair now as there was a few years ago. Gray hair is more fashionable, and it is certainly prettier than dyed hair, which can always be detected, no matter how well it is done. The turning gray of the hair is no sign of any loss in its vitality. It is caused by a weakening of the coloring vessels, that is all. Tight hats cause grayness, as well as baldness. There is something mysterious about the hair. I have studied it carefully, and for a long time, and have come to consider a man's hair as something almost superior to the rest of his body. It is nearer immortal at any rate. I have seen hair taken from a coffin that had been buried for forty years, when all the rest of the body had disappeared. Not only had it grown long and thick after the death of the body, but it was still growing. Each hair seemed to have a life of its own."

A QUEER PLACE FOR A TOMB. Mary Jane, traveling through the South, writes the Louisville Courier-Journal: "While I was in Nashville I walked by the residence of Mrs. Polk, the widow of the ex-President, and noticed the President's tomb in the front yard. I never was married and don't know how I might act as a widow, but I don't believe I'd put my deceased other in the front yard where I could see his tomb before and after each meal and between times. I have no objection to another woman doing it, however *en contrain*. I admire the fidelity and love which prompt it, but I know several instances of widows who, if they had done so with their first husbands, their second would have offered a bill of exceptions, and, again, in some instances, if the practice had been followed, the whole front yard would have been filled with the mementoes of the widow's slain. Mrs. Polk's home is an old-fashioned structure of brick with a pillared portico in front, and presents a very manorial appearance."

FLIES that can pass themselves off as huckleberries have not lived in vain. The slanderers are the men whom Darwin meant. For all time they have been, and are still, tale-bearers. This world is a tally-ho coach, and the man who blows the horn attracts the most attention.

A VISITOR in Leadville, Col., says that in one of the churches there is a notice: "Please do not shoot at the organist; he is doing his best."

EVERYBODY KNOWS IT. When you have the Itch, Salt Rheum, Galls, or Skin Eruptions of any kind, and the Piles, that you know without being told of it, A. P. Wilkes, B. & E. Zimmerman and E. was dressed by Dr. Ames. The wounded man refused to give any information leading to the identity of him who did the carving. Yesterday the Blue Caps of the east side, and the Brown Stockings of South Minneapolis, played a game of ball at the terminus of the Monroe street car line. During the game, one of the Blue Stockings, in striking a ball, threw his bat and hit a member of the club, named Jos. Allyn, in the head, knocking him insensible. He was taken to his home in South Minneapolis. No dangerous injury was sustained. At 10:30 last night Officers J. C. Olson and John Sullivan arrested a teamster named Hapenny in Shaeffer's garden for wearing woman's apparel. Two chums of his were also taken into custody. They offered a desperate resistance, but were overpowered and conveyed in the patrol wagon to the lock-up. Hapenny says he appeared in feminine disguise for fear from the fact that parties have recently been attacked by desperadoes in female habiliments he will find he acted very unwisely.

THE GLOBE'S religious editor went through the fair grounds yesterday and makes bold to assert that there has never been such a collection of fine horses and cattle in this country as is now on exhibition at the Minneapolis fair. The managers say that everything else will be in proportion.

WE are dying to hear from the proxy. Rumor says he is going to reform again soon; and when he takes the vow to be truly good for the eighty-sixth time, then people may breathe freely for ten days. Perhaps Dr. Dexter can cure that gang of lying; if so, it would be a great card.

ARRANGEMENTS for the local display to show the Villard party the material which has built up Minneapolis are fast moulding into shape and everybody proposes to join the line. It will be the grandest affair of the kind ever attempted in the west.

IT is now generally conceded that it shall be a city affair and not run for the purpose of putting some individual to the front. Give the citizens a chance for once, and let the moguls take a back seat.

NETTLETON'S dirty-work-doer, Jordan, is now on the Journal. Perhaps it is unnecessary to mention the fact, as the tone of the paper would indicate it. It's a precious pair—Jordan and Shaw.
