ST. PAUL, SUNDAY, SEPTEMBER 30.

The correspondent of the Springfield Republican who accompanied the Villard party writes that Livingston is assured a future as a railroad junction and centre of repairs.

A fair sample of the Minneapolis plan of swilling real estate transactions was given in the Minneapolis papers of yesterday where they record the sale of a lot by the daughter of A. S. Elyett, of this city, to Gen. Averill for \$22,500.

The German hog breeders having succeeded in preventing a prohibition of the importation of American pork into that country, Englishmen have learned thereby how to shut out competition in the supplying of meat.

And by chance there came down a certain priest that way; and when he saw him, he passed by on the other side. And likewise a Levite, when he was at the place, came and looked at him, and passed by on the other side.

The important reason for the indifference which the multitude of men and women feel towards all those who do not belong to them, or whose interests are distinct and separate from theirs is selfishness.

It is not in business only that men fail many shipwreck honor and good name because it was no one's business to throw them a plank.

The stock of goods which John Mathis constantly carries at his great carpet store, No. 11 East Third street, is something immense, but at the present time it is, if possible, more complete than ever.

E. H. Schliek has the latest in ladies' fine shoes, 33 Wabasha, corner Fourth.

A state organization of the Beta Theta Pi college fraternity was effected on Thursday evening last in Minneapolis, by adopting a constitution and electing the following officers:

Executive committee, Messrs. Becker, Sprague, Dixon, Charles T. Thompson and S. L. Baker of Minneapolis.

The first annual meeting and banquet occurs on the first Thursday in December. The Beta Theta Pi is the most powerful of Greek letter fraternities, numbering 6,000 members in the United States, a large proportion of whom are men of national reputation.

Call at E. H. Schliek, corner Fourth and Wabasha, and examine his fall stock of boots and shoes.

is the reason why so many professing Christians do so little good. They mount to the top of the temple of their own goodness, and call out, like the muzzin on the Moslem mosque, "to pray, to pray."

Bargains are presented by Mr. Kavanaugh in his column on second page of to-day's paper.

MINNEAPOLIS TO-DAY. The War on Her Unjust and Demanding. To the Editor of the Globe:

MINNEAPOLIS, Sept. 29.—There is, and until St. Paul swallows Minneapolis, or vice versa, and so makes the two one, there will be rivalry between these cities, so near each other, and so nearly equal in population, the names in the directories showing that St. Paul is only a few thousands ahead.

But the style of warfare recently made by the Dispatch, on the one hand, and the Tribune on the other, is, to say the least, unwarranted and unjustifiable. Recently the Dispatch has stated that six wholesale houses in Minneapolis had branched out in twelve months, and one of them bankrupt when they branched; that one of them doing business on a capital of \$15,000, owed \$96,000 and was paying \$6,500 per year store rent.

They are not to blame for the condition of things among us and have to do an uphill business at best, competing with these exploring adventurers and now have to bear the penalty of their money by paying killing rates of insurance.

What makes it worse is that while our rates are raised 25 per cent, St. Paul is lowered 10 per cent, as if to emphasize the difference and throw new difficulties in our way.

At a matter of fact St. Paul has no need of jealousy of Minneapolis on the score of wholesale business. When one goes down Third street and sees two whole squares lined with wholesale grocers, and sees the large number of new houses opened in the last year and learns that near a score of other new firms are waiting for store rooms to be completed, it strikes one as rather small and decidedly ungenerous, and considering the amount of paper carried by St. Paul banks—impolitic to make war on and embarrass the few wholesale houses here who own their stores and dwellings and could not very well if they wished remove to the "commercial center," as they have to call St. Paul.

Minneapolis is a manufacturing city, St. Paul is a commercial one. Each is necessary to the other, and it is high time that better relations were established, toward which Mayor Ames and the greater part of our citizens are willing to work—for the newspapers to cease strife and all will soon go well.

AT THE FRONT.

The Usual Record Which is Made by John Mathis.

Christianity teaches that all men are brethren, and that, next to love of God, is love for one's neighbor. When a man has religion enough to break down the barriers of selfishness and indifference that hedge him in from the rest of the world, and strength enough to bear other's burdens, he can call himself a Christian.

Are women more anxious to promote each other's welfare than men. There are Christian Homes and Magdalen Homes and it is quite the thing to be interested in them; and a directorship on their boards is a position to be desired.

The Lights of London. In referring to "The Lights of London," which is being acted at the Opera house to-morrow evening, an exchange has the following:

The more announcement of the coming of Barnum and London Circus is sufficient to put the entire city in a state of excitement. Old and young, rich and poor, enthuse over this event, when they would not over any other, and well they may, for the entertainment furnished this year is of such a royally magnificent character that it has been compared to a cyclone of splendor by the press and public of the country.

Racing at Midway Park. On Thursday afternoon next, October 4, a farewell complimentary benefit, tendered by the horsemen of St. Paul, will be given at Midway park to Capt. A MUSEMENTS.

There came a close at the Opera house last night one of the most successful engagements ever played in this city. Reference is made to the appearance of the "Red Goodwill" comedy company which packed the Opera house on each occasion of their performance in this city.

Potzger, M. Emil Geist, the St. Paul Liederkreis, the members of the Arion Society, the Dramatic club and the First Regiment band.

The new Opera House is rapidly approaching completion and the knowing ones say that going to be the most magnificent structure ever erected in this city.
