TALK.

Greystone, the country seat of Mr. Samuel J. Tilden, was formerly owned by John T. Waring, a flourishing manufacturer of hats in the village of Yonkers, Westchester county, N. Y.

There is record of a loony old Virginian who treacherously said, "Give me liberty or give me death." We have changed all that. The text now is, give me money and don't bother about anything else.

AN ELEGANT RESORT. The "Palace" which George Eckles has opened in St. Paul.

Among the many wonderful improvements that have been achieved of late in our city, indicating our metropolitan advancement, none receive more admiration and hearty praise, than Mr. Geo. W. Eckles' magnificent Palace saloon at the corner of Seventh and Sibley streets.

The philosopher observant of mystifying incongruities would be somewhat posed in trying to reconcile the propulsive and intriguing ambition for political honors as they are rated to-day in America, with the enormous wealth of Tilden, and more unaccountable yet, with his fastidious exclusiveness of disposition.

In Peter Harvey's Reminiscences of Daniel Webster occurs the following dialogue between the statesman and a farmer who once stopped his work to ferry him across a broad stream that he might continue his shooting.

"That is Daniel Webster, I believe?" "That is my name."

"Well, now, I am told that you can make from three to five dollars a day plaidin' cases up to Boston."

"Yes, I sometimes am so fortunate."

"Wal, now, it seems to me, I declare, if I could get so much in the city plaidin' law cases, I would not be a wadin' over these marshes this hot weather shootin' little birds."

Who similarly favored by fortune would invite and seek the immense bore of political life with all its undertow of hireling service, and mercenary machinery moving in obedience to the plotters' signal?

What are we to think of such perverse instances of mistaken ambition anyway? It's all a muddle, as Stephen Blackpool says.

Only this week I saw a man in the post-office anxiously working for his own reelection, to whom official salary is nothing, whose patronage, never much, is hampered by old liabilities, and yet there he was looking hot, uneasy and bothered talking to a job lot of fellows, handy to have about at such times perhaps, but give me an ounce of civet, good apothecary.

which can be used to attract and enthrall the multitude in art galleries, museums and architectural grandeur, besides having a margin for the expensive luxury of presidential ambition? What a silly question!

MUSIC ON TAP.

Bands Supplied at a Moment's Notice—The Wages Which Professional Musicians Get.

Philadelphian Times. Among the reputable musicians the headquarters of the musical society form a sort of an exchange for the employment of talent. There the managers of balls and of theatres and those who desire to employ sweet music in diverting and entertaining their guests can engage performers of all kinds.

The men who engineer the trombone and the tuba, notwithstanding the lung power that those instruments demand, are not quite so well paid, and no matter how skillful they may be, there is a general prejudice that bars them out as soloists.

There are about a dozen musical leaders in the city who stand ready at a moment's notice to supply music for any occasion, from a ball or a concert to a funeral.

How far the duel is not only winked at but actually enforced in Germany is perhaps scarcely known to the majority of our English readers, and yet it is a fact which is reported in the country or a perusal of the daily papers will scarcely fail to reveal.

When any German officer is challenged the question goes before the "court of honor" of his regiment, composed generally of the senior members of each commissioned rank of the service.
