

MINNEAPOLIS NEWS.

OFFICE—No. 6 Washington Avenue, opposite Nicollet house. Office hours from 6 a. m. to 10 o'clock p. m.

BUSINESS ANNOUNCEMENT.

Mr. S. J. Clark has been appointed sole business manager of the Minneapolis department of the Globe. Contracts and receipts for advertising will not be recognized unless executed by Mr. Clark or direct with the St. Paul office.

H. P. HALL, Secretary St. Paul Globe Printing Co. St. Paul, Oct. 25, 1883.

A special telegram from Minneapolis appears in the St. Paul Globe this morning which reveals the rumor that the Minneapolis and St. Louis road is to pass into the hands of the Black Island, by a change of stock. General Washburn was shown the telegram by a Journal reporter and most emphatically pronounced it without foundation.—Journal.

The above paragraph reminds the Globe of an occurrence when the Globe announced that Bill Washburn was in the east negotiating a partial sale of the Minneapolis & St. Louis railroad. The matter was brought to the attention of Washburn, and Washburn promptly and vehemently replied that he had never offered the same for sale, nor would he, and furthermore that he could not do so under the arrangements with the city of Minneapolis, (which had given him a big bonus upon the express and specific stipulation that the railroad should be purely a Minneapolis institution, owned and operated by Minneapolis gentlemen, with Minneapolis as the headquarters.) The sequel proved that Mr. Washburn and the truth were seriously at loggerheads. The Globe correspondent in the present instance is a much more reliable man than W. D. Washburn.

Good Deacon Nettleton is evidently chagrined because his howls about gaming houses were treated with silent contempt by the grand jury.

For fear of losing somewhat of his prestige, Bill Washburn has entered the Hennepin county campaign, and has "tripped his bar."

There are no female prisoners now in the county jail.

The real estate transfers filed yesterday aggregated \$80,950.

The Mastodon at the Pence are still the drawing attraction of the week.

George N. Morgan Post, G. A. R., will meet at the armory this evening for muster.

The Boston restaurant is open day and night for the accommodation of its patrons.

The bill of the Ames Zouaves occurs in "Currier hall" this evening, for the benefit of the rifle fund.

The lumbermen are completing their arrangements for the winter's campaign in the pluries.

It seems that all the Journal's hotel schemes are short-lived; "sure to fade and die," as it were.

Four wags were before his honor yesterday, but were discharged, the cheapest way to get rid of them.

The insurance investigation will be resumed at 3 o'clock to-morrow afternoon in the city council chambers.

It is said that the new block to be erected on First Avenue south and Fourth street will be seven stories high.

At the meeting of L. P. Plummer Post G. A. R. in B. F. Cole's office last night ten new members were mustered in.

The Scandinavian Republicans will hold a mass meeting at Peterson's hall, south Washington Avenue this evening.

They say Bill Washburn made a speech before the Republican committee. The committee should be commiserated.

Joseph W. Molyneux, of Ohio, and Wm. B. Clark, of Wisconsin, were admitted to the bar yesterday in the district court.

Licenses to wed were granted yesterday to Nels Anderson and Annie L. Bergeson, John A. Nilson and Annie M. Magnuson.

A. Berg reports the larceny of a \$20 overcoat, stolen from his room in a boarding house on Second street Wednesday evening.

At the Grand last night "Ferguson the Dude" opened his season for the balance of the week, to an audience which certainly did a deal of laughing.

To-morrow morning Engineer Waters will set his new ten million gallon capacity pump into operation, pumping water from the well to the patrons of the system.

The Brott & Walker machine, for the manufacture of fuel from sawdust and peat, works satisfactorily, and in the spring a stock company will be organized.

Dora Howard, a demi monde mistress, paid her monthly assessment into the police court, amounting to \$52.50, while the six "boarders," as they are denominated, each paid \$12.50. One-third of this goes to the sisterhood of Bethany, while the balance will enhance the city exchequer.

Billy Ryan is a victim of ill fortune. He sat served a thirty day's sentence at the county jail for vagrancy, and had not breathed free Minnesota air but a few hours before he was discovered reeling, top a sidewalk, jolly drunk. He was arrested and yesterday Judge Bailey gave him another ten days' sentence.

A drunken woman who was in company with two inebriated bums was arrested last night. The trio were found reeling up the street. One man had his arm around the woman's waist, while the other was clinging to her neck; a disgusting sight. Officer Kennedy cared for them.

F. B. Taney treated his wife most cruelly and was arrested. In the municipal court yesterday he was charged with disorderly conduct. He was fined \$5 and costs, and upon her promise that the man would behave in an orderly manner in the future the court suspended sentence.

The St. Elizabeth church fair well being held at Market hall, was well attended last evening. This evening and Saturday evening it is expected the ball will be full to overflowing, to the entertainment and energetic pastor, Father Jeram, who deserves encouragement for the good work he has accomplished while in the city.

THE DISTRICT COURT.

Four Indicted Prisoners Sentenced to State Prison Yesterday—Michael Garrity Taken to Chicago Last Evening on a Requisition to Arrest for Train Robbery—Who to the Menace and What They Had Done.

In the district court yesterday sentence was passed upon four criminals, who will be taken to Stillwater to-day. The first upon whom sentence was pronounced by Judge Lochren, yesterday, was Walter E. Mulvey, who was indicted by the grand jury upon a charge of embezzling \$7,000 from C. Aultman & Co. about one year ago in this city. In September of last year Mulvey was sent by employers upon a collecting tour through the Northwest, and after collecting some \$300 from a firm at Elizabethtown, he disappeared at Ferguson Falls, and was not heard of until last July, when he was arrested in St. Louis in company with a woman who passed as his wife. He was brought to this city, where he had a legal wife, who in the tenderness of her womanly nature forgave her recalcitrant husband, and has proved a true and noble wife to him since his recalcitrant husband's infidelity.

Acting upon the advice of his attorney Mulvey entered a plea of guilty, when arraigned yesterday, and threw himself upon the mercy of the court.

His counsel, Hon. J. B. Gillilan, made a strong plea for leniency, and among other things said that the two men at Elizabethtown from whom Mulvey collected money were named John J. Ferguson Falls and got him intoxicated; that next morning upon awaking from his drunken stupor he found his money gone, and being stung with remorse and fearing punishment he fled the state, and whatever wrong he may have since committed resulted from that one false step.

The learned counsel, if inclined to be poetical, could have quoted the following pertinent lines: He that once sins, like him that slides on ice, Goes swiftly down the slippery ways of vice; Though conscience checks him, yet these rubs get o'er, He glides on swiftly and looks back no more.

Again, while the amount taken in notes, drafts and money exceeded \$10,000, all had been refunded save a few hundred dollars, so that the loss to Aultman & Co. had been comparatively light.

The duty which devolved upon Judge Lochren in passing sentence was an exceedingly unpleasant one and he was visibly affected. The prisoner was the son of an old comrade that served with Judge Lochren in the army, but justice is inexorable and punishment must be inflicted for wrong doing. In a voice trembling with deep emotion the judge sentenced the young man to two years' hard labor in the state prison.

Senator Gillilan will try to secure the pardon of his client from the governor.

The next upon whom sentence was passed were a brace of burglars named Evans and Lennon, who were indicted for attempting to burglarize a dwelling on the East side, but were caught by an officer before they committed the deed. They pleaded guilty and were sentenced to eight months in the penitentiary.

The fourth man upon whom sentence was passed was George Mjohol, who was indicted in March, 1882, for carrying J. C. Oswald's name to bogus check drawn on the City bank, and who then absconded. He returned to the city after a year's absence and was arrested by Sheriff Stoddard, whose eagle eye fell upon him. He received a sentence of two years at Stillwater.

Michael Garrity, who was arrested and placed in the county jail on the 15th of last June, on the charge of robbing W. J. Buckley, of Cleveland, at the Quady hotel, Second Avenue south, of \$427, while his victim was asleep in bed up stairs, was not indicted by the grand jury for a good and sufficient reason, which the Globe now gives for the first time. Garrity had been arrested in Chicago, with a companion named Leahy for a train robbery of \$500 and gave bail in the sum of \$1,000 to make his appearance at the fall term of the Cook county district court, Illinois. He skipped northward, and left his bondsman to pay the forfeited bail. It happens that who are behind the West hotel, is a friend of the bondsman, and hearing of Garrity's imprisonment here he lost no time in acquainting his Chicago friend of his whereabouts.

Mayor Ames was written in reference to the matter, and was strenuously urged to exert what influence he possessed in obtaining the discharge of Garrity, in order to be in the Cook county court and sufficient reason, which the Globe now gives for the first time. WOMEN MADE PRETTY.

A Physician Tells How Women May Preserve Their Beauty.

Good Health, Warm Clothing, Exercise, Careful Diet, and the Charm of a Clean Well-Kept Face.

[Chicago Herald.] "Why, I can tell when a woman is degraded the moment I see her face," said a west side physician to the writer. "I ask her casually, not meaning to be officious, 'How is your health?' and invariably comes the answer, 'All right, doctor.' But it's not all right. Sunk eyes, hollow cheeks, round shoulders, blue-lined features, sallow complexion, often marked with patches of deep yellow, chapped lips, tainted breath, do not exist when the health is all right. The American women," he continued, "are going down, and going rapidly, too. Why, not one in a hundred sleeps enough or at the proper hours; they don't at the right kind of food, they don't get the right kind of clothes; they don't take outdoor or in-door exercise. What does an aimless walk amount to, or a drive, lolling in a close carriage? Bah, it's procreptuous. Our women are outrageously, shamefully lazy.

"Just get your pencil out, and I'll tell you what to advise them if they want good complexions.

"In the first place, she wants plenty of warm, loosely fitting underclothing, with one more than two, heavy woolen skirts, long from the shoulders or corsets, for the sex would fall to pieces without corsets; they are all that keep women in an upright position. Now, then, you want good, thick shoes, with room for at least three toes spread out, rubbers, a gossamer, light hat, wraps and gloves, and an umbrella if convenient. For outdoor exercise have the young woman do the marketing and the buying and make it a habit to take back superfluous purchases. Do as much of this shopping as possible without the aid of a streetcar. Teach her a lesson in economy by sending her on an errand down town, making her walk the distance to save 1 cent. If the trip does not exceed five miles, two doses a week will not do her any harm. Exercise to be beneficial must have an object, and that is nothing better for a woman's muscular development than a limited amount of household work regularly. Sweeping is good, so is dusting, when the windows are open admitting air and sunshine without a draught; bread making can be done in a couple of hours, and is invaluable for exercising the arms, chest and lungs; gardening is first-rate, and so with rowing, skating and horseback riding, if such exercise can be indulged in. But impress upon your readers that exercise means work.

"Now for the diet. Some people eat themselves to death and others are died to death. When a woman is feeble the first thing she does is to take a hearty meal. The very worst thing she could do, as nature purposely takes away the appetite, for when a woman is feeble her feebleness extends to every muscle of the body, and the stomach, being made up of a bundle of muscles, has less share of flexibility. It requires several hours for the stomach to work off a meal, and to give it that amount of work when it is already in an exhausted state is like giving a man who has worked all day a task that will take him the night to perform. Eat little, eat it slowly, and eat it when you are hungry. Avoid pastries, too much fatty substances, and everything that does not agree with you. Always on rising drink as much cold water as the system will bear. Break your breakfast with fruit, a baked apple, a dish of berries, grapes, raisins, or any kind convenient, only make the item imperative. The best thing in the world to aid digestion is a couple of figs, or any fruit, fresh or dry, containing seeds. Don't drink much coffee, and none if you can subsist on milk or water. Have what you like for dinner; make your supper light and meaty, but avoid the rich. Eat that fruit is golden in the morning, silver in the noon, and lead at night, eat a small quantity of fruit before retiring; if, however, it does not agree with the stomach, avoid it in future.

"I would advise your young lady readers to take their baths daily if they so desire, only have them at night just before retiring, as they will thus escape many severe colds. Take warm, but not hot water, which is too hot for the system. Let your lady break her breakfast with fruit, a baked apple, a dish of berries, grapes, raisins, or any kind convenient, only make the item imperative. STILLWATER GLOBULES.

Nels Peterson, employed in one of the prison shops, met with an accident yesterday afternoon, which will probably lay him up for some time. Mr. Peterson was engaged with others in setting up an engine. As they were raising the axle to its place one end accidentally slipped and fell with a drum on Mr. Peterson's right foot, the toes of which were dreadfully mangled.

The nomination of Mrs. Munger for superintendent of schools has brought up the question of whether or no women are eligible to the position. Below will be found the decision of Attorney General Wilson. "The law contemplates voting only in school district meetings and incorporated cities and villages for the election of public school officers either in such city or village, that is, to serve within it. Hence, women cannot vote for a county superintendent of schools, under the present school law, and they are not eligible to that office."

Gustave Nord and Wm. Wiesner once more will occupy their old quarters in the county jail. The prisoners are from Chicago county, and have been tried at the present term of the district court, and for that purpose both were taken to Pine City on Tuesday last. At the opening of court on Wednesday morning, Fayette Marsh, of this city, counsel for defendants, pointed out so many defects in the indictments that the attorney general, who was present on behalf of the state, refused to proceed with the trial. The prisoners were consequently remanded, and were again brought back for another trial.

The grand jury of Chicago county has been called together again.

The continued absence of Edmund LaFebre, a resident of the Soule settlement, gives rise to unpleasant suspicions concerning his whereabouts. On Wednesday last week he left home with a load of wheat, which he intended to market in this city. He is known to have had a considerable sum of money about him before he disposed of his grain. On the day named above he received pay for the load brought in that morning, and for some that he had delivered a few days before so that he had between \$300 and \$400 on his person. All day Wednesday he was seen in different places, and was at no time thought to be under the influence of liquor. In the evening he was in the Bridge square saloon with some friends. During the time spent in this place LaFebre is said to have imbibed quite freely, but not sufficient to render him incapable of taking care of himself. He left this saloon between 11 and 12 o'clock, and has not been heard of since, with the exception of an untrustworthy rumor that he had been seen at the depot in St. Paul. His wagon and team were found in the barn where he had placed them, and were taken home by a son of the missing man. A neighbor gives it as his opinion that LaFebre had gone west to invest his money in land, and that he would return as soon as he transacted his business. In the meantime his family are nearly crazed at his absence. His wife and daughter were in the city yesterday, their faces bearing the indisputable evidence of the great trouble thus suddenly brought upon them.

COSMOPOLITAN STATION, N. Y., Dec. 23, 1878. GENT—A number of people had been using your hitters here, and with marked effect. In one case, a lady of over seventy years, had been sick for years, and for the past ten years has not been able to around half the time. About six months ago she got so feeble she was held in a hospital by physicians, being of no avail, I sent to Depot, forty-five miles away, and got a bottle of Hop Bitters. It improved her so she was able to dress herself and walk about the house. When she had taken the second bottle she was able to take care of her own room and walk out to her neighbor's, and has improved all the time since. My wife and children also have derived great benefit from their use. W. B. HATHAWAY, Agt. U. S. Ex. Co.

A TANNER'S TALE.

What Senator Blair's Committee Learned in Massachusetts. [Boston Daily Globe.] Yesterday the following question was put to a witness by Senator Blair: "Is there anything else you would like to say?"

Witness—The men complain some about this human hide business, do you mean? Senator Blair—What do you mean? Witness—Why, this tanning of human hides.

Sensor Blair—You do not mean to say that this has been done to any great extent? Witness—Yes, sir, I do.

Sensor Blair—Do you know of it personally? Witness—Yes, I saw hides myself, as much as five or six years ago, heard of them eleven years ago, and know men who heard of them eighteen years ago; the business has been increasing ever since until lately; three or four months ago it was stopped.

Sensor Blair—What have you seen? Witness—I have seen several whole hides of women that had been tanned. They were perfect, and looked as natural as you see.

Sensor Blair—Where did you see them? Witness—I have seen them at Miller's tannery in Cambridge—the last one about a year ago.

Sensor Blair—Do you know any one else who saw these things? Witness—Yes; Dan McDermott, of Somerville, saw one; also a man named Worster, of Somerville. McDermott got a small piece off, and carried it in his pocket for two years.

Sensor Blair—Is this business done anywhere else? Witness—Yes; it is done in Woburn.
