In order to give charitable persons, who may feel so inclined, an opportunity to contribute towards the payment of the amount, and also to give those interested an opportunity to post themselves regarding the work of the association, an all-day reception is announced for Friday. A committee will remain at the house above mentioned from 10 o'clock a. m. to 9 o'clock p. m. of that day, and it is hoped that the reception will result in the payment of the indebtedness.

THE SCANDIA BANK. The South Minneapolis Banking Institution—Paid Up Capital, \$60,000—Authorized Capital, \$250,000.

A Globe representative yesterday called at the Scandia bank, corner Cedar avenue and Fourth street, South Minneapolis, and held an interesting interview with the affable cashier, Alderman A. C. Hangan, from whom he learned the following facts in relation to the institution:

The bank is organized under the state laws of Minnesota and has a paid up capital of \$60,000 and an authorized capital of a quarter million dollars. It is a two-story brick building, 44x45 feet with all the modern improvements in water, gas and sewerage. The fire proof vault is as good as can be built and the same can be said of the burglar proof safe which is now being transported from Cincinnati and which is supplied with two combinations and one time lock.

The bank was opened on the 8th of last month and the business transacted since then has far exceeded the most sanguine expectations of the stockholders.

The deposits in the bank last evening were \$58,587. This gratifying work of six weeks has given much encouragement to the directors and officers of the institution. While receiving deposits and transacting a general banking business and offering as liberal terms as are compatible and consistent with judicious banking, the institution buys and sells foreign and domestic exchange, have their own correspondents in Europe and upward of 160 agents throughout the northwest selling foreign exchange for them.

Among others they have accounts with Messrs. Brown, Shipley & Co., London, England; Messrs. E. Dybdal, Christiansia; Privat bank, Nordhjem, Norway, and Aktiebolaget, Stockholm Handels bank.

Tickets are also sold on all the principal steamship lines, and particular attention is given to collectors. The public has the utmost confidence in the financial integrity and business in the directors and officers and the qualifications of the patronage extended to the institution since its opening.

The board of directors consists of Anthony Kelly, Louis Melchal, Mons. Grinager, R. Sundt and A. C. Hangan, and the bank officials are R. Sundt, president; Anthony Kelly, vice-president, and A. C. Hangan, cashier.

The Milling Review. The Northwestern Miller furnishes the following resume of the flour business for the past week:

Our millers will have cause to remember last week's experience with anchor ice and low water for a long time. After Wednesday the water became very low, and very few of the mills could run all during the balance of the week. On the 10th of the week they probably averaged a production of not over 11,000 barrels per day, so that our estimate made on Wednesday, needs to be corrected accordingly. The cold snap at the time undoubtedly had much to do with the low stage of the river, ice clogging and holding back the water temporarily.

The weather coming of warm again, the head of water since Sunday has been quite satisfactory, and the mills have made the respective possible use of it. The flour production of the week will average about 18,500 barrels per day, against 11,000 barrels last week. Should the water prove improve toward the close of the week (this being written Wednesday) the production will go above 18,500 bbls. The flour market is little different about a week ago. Some millers report a trifle more strength, but all do not agree on this point.

Our receipts and shipments were as follows for the week ending November 21:

Received. Shipped. Wheat, bushels, 405,000 176,000 Flour, bbls, 3,865 128,470

Last week. Flour, bbls, 5,735 130,295 Wheat, bushels, 421,500 135,000

The stock of wheat in store in the elevators (including the transfer) and mills of the city on Tuesday, was about 2,900,000 bushels. At St. Paul there were 650,000 bushels, against 320,000 last week, and at Duluth 1,251,300 against 1,634,400 bushels the previous week.

N. P. RIGHT OF WAY.

The Proceedings of the City Council Held Last Evening—Special Police—Fire Protection—Claims Against the City—The Northern Pacific Right of Way Ordinances, etc.—Proposals for Paving.

A regular meeting of the city council was held last evening and a vast amount of municipal business was transacted. An unusually large budget of communications and petitions were received and referred to proper committees.

NATIONAL HOTEL. Messrs. L. Fletcher & Co. petitioned for permission to remove the old National hotel building from its present site to Second avenue north, north of St. James hotel, and also to remove the wooden building now in rear of St. James hotel, promising to construct a four story brick fire proof building between that building and the hotel.

Referred to the committee on fire department with instruction to act.

FIRE PROTECTION. The proprietors of the various flouring mills asked that the city purchase as an auxiliary to the fire department system 500 feet two and one-half inch hose, with suitable carriage, and fifty feet of three and one-half inch hose with two inch nozzle, to be kept by the mills fire department. Referred to committee on fire department.

SPECIAL POLICEMEN. The mayor reported the appointment of John Kendall as special policeman for duty one block each way from the corner of Third street and Twelfth avenue south, without pay from the city, and Owen Hart the same, for duty at the dime museum. Confirmed.

FIRE-ALARM BOXES. Chief Stetson, of the fire department, asked for the purchase of fifteen additional fire-alarm boxes. Upon motion of Ald. Clark the purchase was ordered.

The sisters of St. Joseph were granted permission to build a retaining wall in front of their convent and schools on Fourth street, between Sixth and Seventh avenues north.

The matter of the deed of land for street purposes from Parker and wife was referred to city attorney.

The report of the clerk of the municipal court for the month of October was received. The report shows the amount of \$2,342.25 as the receipts.

The city clerk was instructed to draw warrants for the various amounts specified in the budget of claims.

The reports of the pound masters were received and placed on file.

The city engineer submitted plans for the proposed viaduct on Fifth street north across the right of way of the St. Paul, Minneapolis & Manitoba railway.

The matter of the suit of Geo. W. Jones vs. the city, for lands retained by reason of a defective crosswalk in front of the Mackey-Legg block, was reported by the city attorney. He explained that a judgment for \$1,000 had been given by the courts, and would have to be paid, together with the costs of the suit, amounting to \$61.

After a lengthy discussion, participated in by Ald. Walsh, Ald. Morse, Ald. Johnson, Ald. Wait and others, the matter was ordered paid out of the general fund.

The city clerk was instructed to draw a warrant for \$150 in favor of W. A. Richards as services as dog killer.

The committee on roads and bridges reported back the matter of the deed of H. T. Wells and others for street purposes and recommended that the same be accepted.

The committee on streets, grades and additions, reported back plans for widening of the street between the Oak Grove addition, Toulou's addition, Godfrey's addition with his second addition and Croft's addition and they were accepted.

The contract for grading Washington avenue south was awarded to Tobin & Fallon, and the contract for grading Eighth avenue south was awarded to Langdon & Co.

The committee on fire department reported back the matter of the appointments of firemen by the chief and recommended that they be confirmed, and they were so confirmed.

J. J. Palmer who wished to be released from his contracts for the construction of certain sewers was granted the release.

ORDINANCES. Ald. Hangan presented three specific ordinances drawn and submitted by the Northern Pacific Railway company. He wished to secure an immediate reading.

Ald. Walsh opposed such action on the ground that it would be injurious to property owners. He argued that it be referred it back to the committee on railroads and the city attorney so that it could be thoroughly looked up.

He wished to comply as far as possible to the desire of the many property owners who are interested. They have asked that the council be precipitate in its action, and the city council owes that much to those who alone are to be affected by the establishment of grades, whose property will be injured by the grading of the road. Ald. Lee and also Ald. Eichhorn came to the aid of Ald. Walsh in short arguments.

President Fryer read the vice president to the chair and took the floor to propose the motion to refer. He argued that everyone would have an opportunity to know what the ordinance contains if printed. Place it upon its first reading and then it will be officially published.

To cover that ground Alderman Walsh moved, in addition to his original motion, that the ordinance be printed. The roll call was taken resulting in eight yeas and eleven nays.

The question then recurred upon Alderman Hangan's motion that the ordinance be given its first reading and referred back to committee on railroads, and the motion was carried.

The first ordinance granted the St. Paul & North Pacific rights to construct and maintain the railway through the city as heretofore described in these columns.

The second ordinance changes the grade of First street north and Tenth avenue north.

The third and last ordinance vacates Fourth, Fifth, Sixth, Seventh and Eighth avenues north from First street to the river.

The city engineer was authorized and instructed to fit up the basement of Scandia bank for a South Minneapolis police station.

GRANITE PAVING. The committee on paving recommended that the city engineer be instructed to advertise for proposals for the material and for the laying of all granite paving ordered by the council, and for which assessments have already been made. Adopted.

CEDAR BLOCKS. The same committee also moved that the engineer advertise for proposals for all the cedar block pavements ordered laid.

A warrant was ordered drawn in favor of Bethany home for the sum of \$330, that being one-third of the amount of the fines of houses of ill-fame for the month of October.

A number of street opening resolutions were adopted and A. P. Chesley, J. C. Berry, J. O. Wild, J. G. McFarlane and

MINNESOTA NEWS.

Howell Mitchell, of Worthington, was found dead in his room at a hotel in Manhattan the other day. His death was caused by an overdose of morphia, taken to relieve him, and not with suicidal intent. He leaves a wife and three children.

The St. James Journal says that the New York children brought to that place in August of last year have proven great nuisances. Out of thirty distributed there all but seven have run away and are back in the old way of living in the larger towns.

A furious runaway occurred the other day at Albert Lee, by which one horse had a leg broken in two places. The mad team dashed into the school room, while the children were at recess, only two of whom were slightly injured. The escape of the other children from injury was marvelous.

The blow on Lake Pepin last Sunday is said to have been one of the hardest ever experienced on the lake. The white caps ran high and the little steamer Pepin broke from anchorage and it was with the greatest effort, with steam up, that she was kept from being dashed against the shore. So says the Graphic.

New Ulm Review: Two Sleepy Eye parties have gone to last over an insignificant stick of wood. Both men are determined. New Ulm attorneys have been retained to argue the case, and before the matter is settled up both parties will feel like kicking themselves all over Sleepy Eye for making such fools of themselves.

Renville Times: Hector and Erison were thrown out of the official count, the former town falling to send in its returns, the latter returning its vote for district judge instead of probate judge. This hitch will, in all probability, bring about a contest for the offices of judge of probate and county commissioner in the First district.

A peculiar accident occurred on the farm of J. F. Johnson, about two miles south of Sabin, by which a young man named John Lewis lost his life. St. Peter Journal: Last Sunday afternoon the house of A. Volk, on the shore of Lake Emily, was burned. But little of the contents were saved. It was a fine country seat, and the loss to Mr. Volk, of house and contents will fall but little if any short of \$5,000. Mr. Volk had only \$2,000 insurance. He is one of the most honest and upright men in Le Sueur county, and the public sympathize with him in this, his day of financial affliction.

Zumbrot Independent: One night last week a thief entered the house of R. Davis who lives in Mazepa township, and tramped from a bureau in Mr. Davis' bedroom about \$400 in clean cash. The bedroom was on the ground floor and the thief cautiously opened the window, went into the room, took the money and made his exit without arousing any of the sleeping company, and the theft was not discovered until the next day some time. Thieves are getting numerous in these parts lately.

Sleepy Eye Herald, Nov. 17: A fire broke out at noon yesterday in the Lorenzo house. It started in the floor of the second story and was caused by a defective chimney. It was soon extinguished and a part of the floor and partitions were torn up in order to get at it. The firemen got out the engine and within five minutes from their house laid a stream of water blowing from the south, and if the fire had once got beyond control it would have been good bye to a large portion of the town.

Worthington Advance: On Tuesday about noon, during the high wind, a prairie fire came down upon the farm of Robert Shore, in Ransom, and burned his barn and granary, together with considerable machinery, a quantity of grain, eight head of sheep, three fat hogs, and a number of smaller articles such as farmers have about barns. The loss is from \$500 to \$1,000. No insurance. The fire started about two miles north of Mr. Shore's place. A vacant house on the Clark place was also burned, and considerable hay toward Bigelow. Parties who saw the fire bearing down say that flames were carried fifty feet high and whirled about as in a whirlwind.
