THE NUPTIALS OF J. L. GILLESPIE, a prominent young gentleman of Minneapolis, and Miss Isabella M. Crawford, of Watertown, were celebrated last evening. A host of personal friends of the happy couple surprised them with the presentation of an elegant silver water service and a handsome set of glass water service. Brooks' Brigade brass band gave an enjoyable serenade.

THE GRAND WAS FAIRLY FILLED last evening upon the occasion of the first appearance of Gran's English Opera company in Le Coque's new opera comique, "Heart and Hand." Unquestionably the opera from a musical standpoint has more attractive features than "Girofla" by the same author, and was well received.

THE CONGREGATIONAL CLUB. The regular monthly meeting of the Congregational club was held in the Nicollet house parlors last evening, with President C. W. Hackett, of St. Paul, in the chair, and about fifty members present.

THE LIGHT FALLS THROUGH A pane of glass in the top of the press on a drawn, greenish face, with little gray eyes turned blankly upwards in a glassy stare, arched eyebrows and a high, hooked nose. The pursed-up mouth and wrinkled cheeks are those of an old woman; it is as if the spell, which by her strong will and her mingled common sense and vanity, the virgin queen cast all her life over those around her, had passed away; rather, she had died on his person.

THE INDIAN WAS THERE. A private letter from Dartmouth college to the Boston Transcript says: "We heard Matthew Arnold here about a week ago. There was a large audience present. Nearly every one was satisfied. A curious little incident happened after the lecture. Prof. Parker gave him a reception, and during a conversation Arnold said that this college was founded for the education of the Indian, and that there was one here at present. Mr. Arnold expressed a desire to see him, as he had never seen an Indian. So Eastman, who is a full-blooded Sioux, and a fine specimen of his race, was summoned. He came into the room, cool, collected and master of the situation, whereas Mr. Arnold was completely nonplussed. Whether his fancy had pictured a wild man, fierce with war paint and tomahawk in hand, is not known; but at all events he colored up like a boy, held out his hand, and stammered out his British egotism coming up unawares—'Ah! ah! you were there—you were there. How did you like it?' (referring to his lecture). It was an amusing sight to see the best representative of English culture stand before him so calm, collected and unshaken, while the Indian, in some of his writings, doubted whether the education of the Indian was practicable."

ROBBED BY THE MAN HE PRAYED FOR. Mr. Hoyt, a Methodist minister, attending conference at Statesville, N. C., a short time ago, was asked by a stranger, Arnold, who met him on the street, to go a little distance and pray with a dying man. Instantly responding to this request, Mr. Hoyt was led to an obscure place and shown the person said to be dying, who was lying in the street. Upon kneeling to pray with and for the prostrate man, the preacher was seized around the neck by the alleged sufferer, and held while the confederate robbed him of about \$400 in money and what was on his person. Mr. Hoyt had the money to turn over to the conference, with his annual report of collections for various purposes.

GEN. SHERMAN'S HOME. Gen. Sherman has received houses and other presents worth \$50,000, since he became general. The amount of the \$400,000 worth of diamonds given by the khedive to Mrs. Fitch, and since divided among the general's daughters. DO THE WICK INHERIT THE EARTH?

(Boston Saturday Evening Gazette.) The eagle plucks the raven, And the raven plucks the jay To whose voracious craving The cricket falls a prey.

The fish dies at leisure Upon the smaller fry, And the minnow eats with pleasure The poor, unconscious fly.

The miser skins his neighbor, And the neighbor skins the poor, And the poor man dooms to labor Spurns the beggar from his door.

And thus the world is preying, The strong upon the weak, Despite the proverb saying, "The earth is for the meek."

"Gath," interviewing an American just returned from Mexico, says: "What is this curse of the Apaches you speak about? How many Apaches are there?" "It is believed that there are now only sixty-five, but every one of them is most determined and successful murderer. In the revolutions which have occurred in the northern states of Mexico the people have been refused permission to bear arms, and consequently four or five of the Apaches, well armed, can come in and slaughter a whole town. There is no doubt that a very large portion of the country, not only in Sonora, but in Arizona, once populated with good settlements, has been laid waste and returned to nature by these Apaches. Fifty years ago they were a powerful nation, I have been told well armed, and disposed to be friendly to the Americans, but terrific murders on Mexico they would ride hundreds of miles into Mexico, and were cruel as the grave. They seemed to delight in blotting out every vestige of man's hope and thrift.

In time quarrels arose between them and the Americans, and they were roughly handled, until the United States government would let the Gringo men get on their feet, and they would very soon be extinct. But the United States, guided by eastern sentiment, would rather see whole countries of America perish than one Apache. Gen. Crook went recently from the San Carlos reservation into Mexico and brought out the squaws and invalids and all those who were a burden to the warriors. From that time to this the little vestige of assassins have been free to extend their murderous outrages. The camp where I slept a week ago was raided by Apaches the next night, and five out of eight men killed. They understand fully the impolicy of the American executive. They will bury their arms and come into camp to be fed when they have hard times, and then go out and dig their guns and scatter themselves over hundreds of miles, unwillingly going 200 miles to kill one man. They are armed with the best class of guns, frequently with repeating Winchester or Henry rifles, for which they pay the highest rates, taking the money from the bodies of those they have killed.

A few young men, say sent from Colorado to California, investigate the mining resources of the Sierra Madre mountains, and they carry on their bodies the gold they expect to use. They go to sleep in a wild waste, with no one near them, and the last we know of them is in their graves. Their gold watches and gold chains go to buy the finest cartridges made in the United States. Whenever you kill an Apache you find that he has the standard ammunition of America, labeled U. S. The Apache, while not a very tall Indian, is very powerful and sinewy, indurated to that hot climate and burned almost as black as a negro. He does not wear anything on his body, except a horse tail plait, which he wears as a head band, and a good rider. He has no friendship with any human race of beings. Blood and murder are his trade. The Mexicans are as afraid as death of these few Indians. The Americans merely want that military arm to be taken off which at present is the protection of these fiends. The Mexicans are as afraid as death of these few Indians. The Americans merely want that military arm to be taken off which at present is the protection of these fiends. The Apaches who were brought up to the San Carlos reservation by Gen. Crook had \$5,000 in gold, some of it in the hands of the Indians. Their gold watches and gold chains go to buy the finest cartridges made in the United States. Whenever you kill an Apache you find that he has the standard ammunition of America, labeled U. S. The Apache, while not a very tall Indian, is very powerful and sinewy, indurated to that hot climate and burned almost as black as a negro. He does not wear anything on his body, except a horse tail plait, which he wears as a head band, and a good rider. He has no friendship with any human race of beings. Blood and murder are his trade.
