Local Notices—One dollar per line for three lines or less; 75 cents per line for ten lines or less; 50 cents per line for eleven lines or more.

PEN AND SCISSORS.

Along the River.

The Omaha Herald of the 5th, mentions that another severe shock of earthquake, lasting some minutes, was felt on the 4th by several persons in Omaha. The Union Pacific road is sending out from three to five trains daily, loaded with construction material. The temporary freight depot of the Chicago and North Western railway at Council Bluffs and a large new building, were swept away before the hurricane of Friday night. A new theatre was announced to be opened on the 3d. It is owned by Mr. Caldwell, a banker of that place, and Mr. Clapper, of St. Louis. The theatre will hold over a thousand persons and is handsomely decorated. Gen. Angur has issued orders to the commander of Fort Casper to send troops to points between Horse Bluff and Waggon Horn, to enquire into the late Indian depredations. The Republican says that the Platte river is now lower than it has before been known to be at this season of the year, and is still falling very fast. The wheat is said to look excellent throughout Cass county, notwithstanding the lateness of the season. Some fears are entertained of a raid by the grasshoppers, otherwise the prospect is flattering for a good crop. John Duff, Esq., one of the trustees of the United States land grant mortgage, executed by the Union Pacific rail road company, has deposited the mortgage deed for record. These will soon be put on the market. The jury in the case of Otway G. Baker, on trial at Omaha, for murder, failed to agree. He gets a new trial. Only one jurymen stood out, and for reason of opposition to capital punishment. Five counterfeit five cent coins are plentiful at Omaha. General Dodge is ill from the effects of a severe wound, received while in the service. Rev. Richard Wade was expected to arrive in Nebraska city last week with one hundred English families for his colony on the Nemaha river. A fine peach crop is expected in Kansas this season. Much improvement is going on in Topeka. Work will soon be commenced on the new court house. The Topeka Building Association intend to spend from twenty thousand to fifty thousand dollars in dwelling and business houses for rent. The Leavenworth Times says an effort is being made to erect a bridge over the Kaw, at Eudora. A company has been organized for that purpose, and a considerably large amount has been subscribed. Major Van Voast, just arrived at Sedgewick from Fort Omaha, reports to General Angur of the arrival of a messenger from Porter's train. The train was surrounded by a large body of Indians between Forts Laramie and Reno. Ninety-seven head of cattle were captured. Major Van Voast's party was charged by a large party of Indians in the night, about the 18th of April, when en route down, who captured his private horses but nothing else.

California.

Thirty-three thousand barrels of flour have been manufactured by three flouring mills of Sacramento within the last five months for the New York market. Three hundred tons of Cumberland coal have recently been landed at the Sacramento levee, for a foundry at Silver City. A portion of it has been forwarded across the mountains. The Napa Reporter says: We hired a boy the other day to help our devil. Hunting about the office for a "stick," he came across the "monkey wrench." After sticking away three or four hours, he laid it down in despair, with the remark, "That's the hardest stick to set type in I ever saw." Several respectable but fashionable ladies of Marysville, as we learn from the Appeal, are preparing to defy awkward custom, which obliges them to be stuck up against the side of a horse like a flowing circus poster when riding. They are making Turkish trousers and propose to wear them—on horseback. The old style is bad—for the women as well as the horse. The San Francisco Examiner says: "Never, in the history of the country were the Democracy so

firmly united." To this the San Francisco Flag adds: "We lately saw this great truth illustrated on the San Quentin boat. Two of them were united by Lorenzo Dow's magic chain—three links, two hooks and a swivel." Thos. J. Henly, a copperhead all through the war, has been appointed by the President, Railroad Inspector in California, vice Crane, of Alameda. J. W. Gale & Co., of San Francisco, have furnished statistics of the following products of Los Angeles for the years 1866 and 1867, and of the vines planted: The vines planted number 9,500,000. The wine produced was 1,000,000 gallons; brandy, 70,000 gallons. There have been shipped to that city 1,000,000 of oranges, aside from those shipped below and sent to the interior and mining regions. There were shipped of lemons, 82,000; of limes, 40,000; of walnuts, 20,000 pounds; of honey, 200 pounds. There are 4,000 fig trees which bear abundantly, say fifty pounds to the tree, or 200,000 pounds of figs; but no effort whatever has been made to dry any for this market, where they have been in good demand. Olives for 2,000 gallons are produced. They also send away a few castor beans and pomegranates. The above statistics have been furnished J. W. Gale & Co. by their correspondents in Los Angeles. During the past winter over 49 feet of snow has fallen in Cisco, according to measurement. There are in California 136,903 children under the age of fifteen years. The school expenses last year were \$853,229.19 and the receipts \$918,851.50.

Nevada.

The Trosspass of the 27th says: It is said that Jamison, the winner of the gold mounted billiard cue in California, will send the same to Jim Ordford, of Virginia City. The same paper says: We received a call, yesterday, from two old Humboldt friends and Ganders—O. B. O'Bannon and W. B. Judd. Both are on their way, to-day, for Montana, to go into business. O'Bannon has the appointment of Register in the United States Land Office, and Judd will establish a banking business. We learn from the Virginia Enterprise of the 25th inst., that the small-pox is on the increase in that city. Several cases were reported on the 24th, and the authorities were enlarging the pest-houses for the accommodation of the patients. The Enterprise of the 25th says: Jule Bulette, a woman of the town, was murdered in Virginia on the 20th of January last, and the house robbed of many valuables. No clue to the murderer could be discovered until a few days since, when circumstances came to light pointing to one John Millen as the perpetrator of the deed. After suspicion against him was aroused, evidence began to accumulate which fixed the guilt upon him beyond a doubt. In his trunk was found many of the articles taken from the house at the time of the murder, and many valuables which he had disposed of were recognized as having belonged to the murdered woman. After finding himself caught, he made a clean breast of it and confessed that he committed the deed, and asked Chief Edwards to take a pistol and blow his brains out. Afterwards he said he wanted to be hung as soon as possible; that he did not wish to live any longer. Millen was arrested at the instance of Miss Martha Camp, a friend of the murdered woman, who not long since found a man crouching behind her bed, armed with a knife and bludgeon. She gave the alarm, and at once the ruffian made his escape. She got a pretty fair view of the man's face and afterwards recognized him on C street and caused him to be arrested. He has been for some time lodged in the county jail on a charge of an attempt to rob and murder Martha Camp, and it was not until lately that facts were discovered against him, going to prove him the murderer of Jule Bulette. Millen is a Frenchman. The News of the 25th says: The following is a statement of the amount of bullion shipped or received for assay during the past week: From the office of Wells, Fargo & Co., in Virginia, there were shipped 17,254 lbs. of assayed bullion, valued at \$394,375.16; from their office in Gold Hill, 5,154 lbs., valued at \$142,395.24. During the past week, Wells, Fargo & Co. have shipped from Virginia and Gold Hill over eight and a half tons of silver bullion, worth \$536,770.40—a good deal over half a million dollars. The Reese River Revue of the 1st says: The amount of bullion shipped from this city during the month of May is as follows: By Wells, Fargo & Co., \$123,904.53; by Ripley & Miller's Fast Freight, \$13,541.49; total amount shipped, \$137,446.04. The Chollar-Potosi Company are now taking out from 350 to 400 tons of ore per day. No sardine of a mine.

Oregon.

The county assessor of Walla Walla gives the following statement in his official returns for the present year, showing the property valuation and agricultural condition of that county: Number of horses, 3,788; of mules, 1,726; of cattle, 7,511; of hogs, 7,068. Acres of corn, 2,307; of wheat, 7,729; of oats, 4,945; of barley, 1,123; of timothy, 568. Number of fruit trees, 34,810. Total acres of taxable land, 21,132. Amount of poll tax, \$1,760. Total assessment of property, \$11,748,663. During the first week in May there were landed at the Dalles, from below, bound for Idaho, Montana and upper Washington and Oregon, 1,000 cattle, 7,000 sheep, 540 hogs, and 124 horses and mules. The Woolen Mills at the Dalles will be built at once. Stockholders are prompt in paying up assessments. W. P. Abrams has been elected to go to the East to obtain machinery. The Roseburg Ensign says: An extensive field of gold bearing quartz has been discovered and partially prospected, from the head waters of the North Umpqua river reaching out into the Cascade mountains. We have seen some specimens from there in which the gold is clearly visible with the naked eye. It looks like fine gold wires running in every direction through the rock. The Oregonian says: A scheme is on foot in this city to construct a drawbridge across the Willamette, connecting this shore with the high land at East Portland. A fire occurred at Albany, Oregon, recently, which consumed Joseph Lawrent's cooper shop. Loss \$3,000. 1,300 gallons of native wine were stored in the cellar of the building, all of which was lost. The Albany Journal says: Albany is a town of nearly 2,000 inhabitants, and is the greatest shipping point on the Willamette River, yet there is not

a licensed grog shop in the place! There are two places where liquor may be bought by the "bottle," besides a couple of larger conveniences. A general "bolt" from the Democratic party has occurred at Walla Walla, Oregon. An address is published, signed by two or three hundred persons, dissenting from the action of the Democratic County Convention, and calling for a mass convention to meet on the 14th of June to take further action. A fresh ticket will be nominated.

Idaho.

The Statesman says: There is a bit of quartz excitement in Boise City. Capt. J. W. Tucker has been finding some rich quartz on Cottonwood Gulch. The Indians stole twenty-one animals on the 22d ult. The Owyhee Bulletin of May 23d, received as we go to press, reports a fresh discovery made on Eagle Mountain last Monday, by some German, which is thought to be equal to the "Poorman" in richness. One "chunk" from the ledge is worth \$3,000. A Mr. Johnson and others claim prior location to the ledge. A slip of paper has been found in Boise City, written by the man who killed the late Hon. H. B. Lane and then himself, in an insane fit a short time ago in that city, which tells his home and former residence. It reads: "Illinois is my home. My name is G. S. Risley. Jacksonville papers please copy. A gang of thirty Chinamen had eleven horses stolen by Indians at the Palouse crossing, while camped. The Bulletin says the Rising Star ore of Flint District, yields from \$35 to \$17 per ton, by the roasting and common process. The post office is removed from Ruby to Silver City. In one week from the date of the great fire in Idaho city, May 19, over one hundred houses had been erected on the site of the ruins and business is resumed. They are lively boys over there. Lumber is \$50 per thousand, carpenters charge \$16 per day. Another Land office has been established in Idaho. It embraces all of the county north of the Salmon range of mountains, with the office established at Lewiston.

Utah.

The Vedette has "rumors" of dissensions among the Saints, growing out of the promulgation of the fact that Brigham Young, Jr., was ordained President of the Mormon Church before his departure for Europe. The old stagers don't appear to like Brigham Sr's gobbling proclivities when it touches their inheritance of Church honors. Brigham Young sent \$100 to James Pine, of Port Byron, New York, to pay a board bill contracted over thirty years ago. The crop prospect, barring the grasshoppers, is said to be good. The fears are that the crop of these lilliputian destroyers will also be heavy. The emigration steamer bringing over Saints from Europe is to sail on the 20th of June. P. L. Shoaff was 312 hours in going 113 miles on an eastern trip. The Vedette of the 2d says: A large train of families from California and Nevada made their way into and through town on Saturday last, from the west, and are slowly wending their way to the scenes of their childhood in America. They tired of the exciting life of the Pacific coast, and intend locating in some quiet or staid habit. No accounting for taste. Brigham Young, President of the Latter Day Saints, reached his 66th anniversary on Saturday, June 1st. The Telegraph has the following rather novel manner of stating the case: "BIRTH—Yesterday morning the wife of Mr. H. Margretts of a son after an interval of 10 years. We wish them all joy."

Colorado.

The News of the 25th ult. says: Gen. Hancock has ordered ten soldiers to every station between Lookout and Lake, and one hundred at Downer, Chalk Bluffs, Monument, Big Timber and Big Springs, and adds that he will send more men if required. This we learn by private dispatch. The same paper also has the following: There is a joy in the house of Capt. John C. Anderson; its ten days old and of the female persuasion. The Transcript says: On a stake at the mouth of Gray creek is written a list of water power claims, etc., by parties who certainly claim enough, and on the same stake somebody has written—"I claim all God's creation, and my wife claims the balance, commencing at this stake." The paper mill in course of erection at Golden City is being pushed forward energetically, and will be ready for the machinery before the specified time, July 1st. The Colorado papers claim that 1867 is big with fair prospects for a profitable mining season. The papers down there are snubbing the red man by commencing the name of Indian with a "lower case" "i." The Register of the 14th ult. says: The St. Nicholas Hotel was closed yesterday. The house seems to be an exceedingly unfortunate one. The Transcript says: Charley Danforth, who won his shoulder straps on board the old Keasage during a slight unpleasantness that occurred between that vessel and another called the Alabama, has been commissioned as Postmaster at Golden City, vice Uncle Miles, resigned, and took possession of the office on Monday last. The Times says: Persons who have lately talked with the railroad manager down the Platte, say he calculates to make 24 miles a day from this on (weather and Indians permitting,) and to have the U. P. R. R. running into Julesburg by the 16th of June, certain. The stages are running to the cars, now 15 miles west of North Platte, in forty hours from Denver. The time to Julesburg will be about 30 hours. Hence we can shortly strike Gotham by rail, excepting 30 hours of staging.

VALUABLE TABLE.—The following table will be found valuable to many of our readers: A box of twenty-four by sixteen inches square and twenty-eight deep will contain a barrel. A box twenty-six by sixteen and a half inches square and eight inches deep, will contain a bushel. A box twelve by seven and a half inches square, and nine inches deep, will contain half a bushel. A box eight by eight inches square, and eight inches deep will contain a peck. A box eight by eight inches square, and four and one-eighth inches deep, will contain half a gallon. A box four by four inches square, and four and one-fourth inches deep, will contain a quart.

THE LAST OF THE PENNS.—The Philadelphia Press says Granville John Penn, the great grandson of William Penn, the proprietor of Pennsylvania, died in London on the 29th of March. This announcement will be received with sincere regret by such of our citizens as had the privilege of making the acquaintance of this most estimable gentleman during his visits to this country in 1851 and subsequently. Mr. Penn was the eldest surviving son of Granville Penn of Stoke Pogis, who was the eldest son of Thomas Penn, one of the joint proprietors of Pennsylvania. Thomas Penn was the eldest son of William Penn, by his second wife, Hannah Callowhill. We understand that the only surviving descendant of the founder of this commonwealth who bears the name of Penn is an unmarried brother of the late Granville John Penn, who was also a bachelor; so that the name will soon be extinct. There are several descendants of the founder, however, of other names, among whom may be mentioned Lord Northumberland, Lady Gunon and the Penn-Gaskill family of this city.

THE RELIGION OF MASONRY.—"Never intermeddling with points of doctrine, in politics or religion. Masonry labors to improve the social order, by enlightening men's minds, by warming men's hearts with love of the good, by inspiring them with the great principle of human fraternity, by requiring of its disciples that their language and actions shall conform to that principle; that they shall enlighten one another, triumph over their passions, abhor vice, and pity the vicious man as one afflicted with a deplorable malady. It is the universal, eternal, immutable religion; such as God planted in the heart of universal humanity. Its ministers are all the Masons who comprehend it, and are devoted to it. Its offerings to God are good works, the sacrifice of the base and disorderly passions, and perpetual efforts to attain to all the moral perfection of which man is capable."

MUTATIONS OF FORTUNE.—A correspondent of the Cincinnati Commercial, writing from Indianapolis, says: "While passing through Union Depot, a few days ago, I was accosted by a one armed man, in faded blue. His apparent familiarity surprised me at first, but I soon recognized him as an old acquaintance. I first saw him fourteen years ago, working at a windlass in the gold diggings of Australia. He and his three partners hoisted by that windlass, from a single shaft, more than \$800,000. A few months later I bade him good-bye, as he sailed from Melbourne for New York, with \$200,000 in bills of exchange in his pocket. I next met him a wounded rebel soldier, lying on the battle field of Antietam. A little more than a year later, I saw him as a Union soldier, lying in a hospital at Tennessee. To-day he is a helpless wanderer, dependent on charity for a dinner."

A MODEL COMPOSITION.—An Indiana paper gives the following essay on "The Ox." Just as it came from the pen of one of its young contributors: "Oxen is a very slow animal, they are good to brake ground up, I wood drather have horses if they didn't have kolick, which they say is wind collected in a bunch, which makes it dangenser to keep horses tharn ox. if there was no horses the people wood have to wheel thare wood on a wheelbarrow. it wood take them two or three days to wheel a cord a mile. Cows is useul to. I have herd som say that if they had to be tother or an ox they wood be a cow. But I think when it cum to have their tits pulled of a cold mornin they wood wish they wasnt, for oson dont generally have to raise calves. if I had to be enny I wood drather be a heffer, but if i coodent be a heffer and hed to be both I wood be an ox. ISAAC SPIKER."

THE Hebrew National, a new weekly journal, published in London, gives some interesting statistics of the Jewish race. It says that there are now living, about 6,000,000 Israelites, about half of whom live in Europe. There are 1,300,000 in Russia; in Austria, 600,000; in Prussia, 354,000; and in all other parts of Germany, 192,000; in France, about 80,000; in Switzerland, 3,000; in Great Britain, about 42,000; in Syria and Asiatic Turkey, 52,000; in Morocco and North Africa, 510,000; in East Asia, 500,800; in Denmark, 6,500; in Italy, 4,500.

OFFICIAL VOTE OF CONNECTICUT.—The following is the official vote cast at the recent Connecticut election as compared with the vote of the previous year: 1867—Hawley, Rep., 46,583; English, Dem., 47,570; 1866—Hawley, 43,974; English, Dem., 43,433; increased vote—Hawley, 2,609; English, 4,337; Democratic majority, 987. It is thus seen that while the Republicans increased their vote by 2,609, their opponents increased theirs by 4,337. The Copperheads naturalized 2,000 foreigners on the eve of the election, and nine-tenths of that class voted the Copperhead ticket in Connecticut.—Sac. Union.

THE SOUTHERN VOTE.—"Veteran Observer" of the New York Times calculates that the whole vote of the late Confederate States will be 1,260,000. One-fifth of the whites will vote the Radical ticket, and it is probable that one-fifth of the blacks will vote the Conservative ticket. Hence he draws the following analysis: Conservative whites, 570,000; Conservative negroes, 110,000; Conservative vote, 680,000. Radical whites, 140,000; Radical negroes, 440,000; Radical vote, 580,000. This gives the Conservatives 100,000 majority.

A LADY says the first time she was kissed she felt like a tub of roses swimming in honey, cologne, nutmegs and cranberries. She felt also as if something was running through her nerves on feet of diamonds, escorted by several little cupids, in chariots drawn by angels shaded by honeysuckles, and the whole spread with melted rainbows.—St. Jo Union.

MASONIC.—The Supreme Council, thirty-third degree, Northern Jurisdiction of the United States, with the organizations of the higher degrees of Masonry connected with it, met in Freemasons' Hall, Boston, on the 16th, and were in session all the week. It is stated that one of the most attractive features of the Convention was the exemplification of the fifteenth and sixteenth degrees by the Boston Council of Princes of Jerusalem.

MASONIC CELEBRATION. St. John's Day, June 24th, 1867. The Masons of Virginia, Montana, will celebrate the 24th of June by a full dress regalia procession, in which all Masons of good standing in the several Officers of Masonry are cordially invited to participate. Ceremonies of the Day. Masonic Procession in Full Dress Regalia. Laying of the Corner Stone of the Masonic Temple. Address by Hon. H. L. Hozmer. To be followed by a Festival and Ball in the Council Chamber and adjoining Halls.

Order of Procession. Entered Apprentices; Fellow Crafts; Master Masons. Mark Masters; Past Masters; Most Excellent Masters; Royal Arch Masons. Knights of Red Cross; Knights Templars; Knights of Malta. Officers and Members of Grand Lodge. We ask that all the Masons and Sir Knights assemble and make the 24th of June a glad and joyous day for the Masons of Montana. The Masons of Virginia City expect their Brothers of the entire Territory to meet with them on that day, and extend the hospitalities of the Order to our Brothers from afar. J. B. BOYCE, Sr., L. C. LEE, WM. H. CHILES, W. M. STAUFFORD, J. JOSEF FELDBERG, Committee of Arrangements.

Joseph Griffith, William Thompson. GRIFFITH & THOMPSON, CONTRACTORS AND BUILDERS, Office, Corner Idaho and Van Euren Streets, VIRGINIA CITY, --- MONTANA.

1867. 1867

THE

MONTANA POST

THE ONLY newspaper in the Territory that receives the Associated Press dispatches from the wires. The regular and special dispatches are reported EXCLUSIVELY for THE POST, and are given to the public days in advance of any other paper in Montana, thus affording its subscribers the very latest news from all parts of the Globe. THE POST is also replete with choice Miscellany from the latest mails; city and Territorial matters; mining items; agricultural interests; the Arts and Sciences (and as a first-class

NEWS AND FAMILY PAPER

Has no equal in the Great West. For 1867, THE POST will be made most acceptable to the miner, the artisan, the tradesman, and the family fire-side. To its already large corps of correspondents, traveling and home, is added one from the great Paris Exposition, and full reports will be had from the capital of the fashionable world. To the interests of Montana and the mining regions it is firmly wedded, and nothing will escape its argus-eyes that will tend to promote the welfare of our young and beautiful Montana.

NOW IS THE

Time to Subscribe. Christian Robert VIRGINIA BREWERY, WE HAVE CONSTANTLY ON HAND A LARGE supply of LAGER BEER. MALT HOPS, BREWERY FIXTURES, BEER KEGS, ETC. All orders in our line of business will be promptly attended to. 139
