Local Notices—One dollar per line for three lines or less; 75 cents per line for ten lines or less; 50 cents per line for eleven lines or more.

PEN AND SCISSORS.

California.

The Daily Examiner is the name of a Democratic paper which made its appearance in Sacramento on Tuesday last. It is edited and published by C. D. Semple. Horace Hawes has announced himself as an independent candidate for Senator in the San Mateo and San Francisco District. The aggregate wheat crop of California last year was 12,000,000 bushels, or 720,000,000 pounds, of which over one half was exported in the grain or in flour. The Napa Register says that place seems to be a sort of thieves' paradise. They thought thither from all parts of the State, and just at this time seem to have mustered in full force in "Spanish town." We are informed, says the Downville Advocate of July 20, that a short time ago a gang of Chinamen found a nugget of gold, near Kanaka Flat, which weighed forty-five pounds. The fact was not disclosed until after the Celestials were on their way to the Flowery Kingdom. We learn, says the Mariposa Gazette of July 20, that John F. Dorn was instantly killed on Friday last, on the Merced, by the carving of a tunnel in which he was working. Five or six miles from Monitor, Alpine county, in a northerly direction, is a large ledge of what carpenters pronounce a superior article of white chalk. A dispatch dated Grass Valley, June 17, says: A man named Thomas Farrell, in the employ of Huffaker, on Bear River, while driving a six mule team, was thrown from the mule he was riding and two wheels of the wagon, which was heavily loaded, ran over his body, killing him instantly. During the last two months seven ships, with 2,720 Chinese passengers, have arrived at San Francisco. One half of the U. S. Grant mine, at Meadow Lake, has been sold for \$32,000. A party connected with the Geological Survey of California have been taking the altitude and position of the high points in the vicinity of Aurora. The altitude of Aurora has been taken three times, and each differing. The highest gave it as over 7,400 feet. This party took it at the postoffice, and report it at a trifle less than 7,000 feet, which is doubtless authentic. Crystal Peak, near Sweetwater, is 10,350 feet high. Mount Corona is 9,300 feet above the sea. A point a little beyond it is 9,750 feet high. Yesterday morning, says the San Francisco Times of Friday, Colonel James Miller was found dead in his bed at the What Cheer House. The coroner was notified and performed an autopsy on the body, resulting in the discovery that the cause of death was apoplexy. Deceased was a native of Scotland, 25 years of age, and was lately Colonel of the Fifty-sixth Illinois Volunteer Corps. A lecturer in the East, speaking of the wonderful vegetation in the Golden State, says "so vast is the scale on which things grow out there, that a single tree will furnish five thousand cords of wood, making a solid pile four feet high, four feet wide and eight miles in length!" The number of names entered on the Great Register, in San Francisco, up to July 1st, was 16,550. The naturalized citizens number 7,109. Ireland is represented by the largest number on the Register, 3,679. A. W. Jamieson, says the Alta, holder of the champion cue of California, has accepted the challenge of Edward Morris, a new comer to California, to possess himself of it. The match is for \$500 a side, and to be played with in thirty days from July 17th, inst., 1,500 points, caroms, on a regulation carom table, crochets barred, with 23 inch balls.

Nevada.

The Enterprise says: S. M. Johnson, Esq., an old resident and respected citizen of Gold Hill, died July 18. Major O'Keefe, of Sacramento, and Mr. Clifford, of Washoe, better known as the "Spider," have concluded articles to jump two matches, in Virginia, on the 18th of August. The first match is for \$350 a side, two jumps; the second one is for \$500 a side, three jumps. A forfeit of \$100 is already staked. An attempt to burn Piper's Opera House was made on the night of July 17th. It was speedily extinguished. We understand that the Cresson Company, whose claim is on the Divide, are about to resume work.

A meeting of the stockholders has been called for the 27th inst., when the mode of going to work, etc., will be decided upon. The same of July 20th says: The funeral of S. M. Johnson, of Gold Hill, yesterday, was largely attended. Many from this city were present. The following is a statement of the amount of bullion shipped or received for assay during the past week: From the office of Wells, Fargo & Co., in this city, there were shipped 2,821 pounds of assayed bullion, valued at \$76,452 25; from their office in Gold Hill, 3,381 pounds, valued at \$101,274 97. The amount of crude bullion received for melting and assay was 124,486 ounces. J. J. Foster, says the Austin Recreant, of July 15th, a member of the Austin bar and at one time a lawyer of prominence on this coast, who was attacked by the small pox a few days ago, died at nine o'clock last evening, and was buried at half-past three o'clock in the morning. The Nevada Transcript says: Eugene Tucker, the young man who shot and killed Celina Boulet a few evenings since in San Francisco, proves to be a Nevada boy, as we learn from the Gazette. He is the son of Jere Tucker, who formerly lived in Nevada. Jno. Burke was killed and two others seriously injured by the falling of the timbers in the Chollar-Potosi, on July 20. They have ripe California peaches in Virginia City. The Enterprise of July 10 says: The business of sluicing tailings for sulphurets has grown to be of great importance to the country. There are already several miles of sluices for sulphuret saving in Storey and Lyon counties and still more being constructed. Within the limits of the city, below the Central Mills, nearly 3,000 feet of sluices have been put up during the past month. All these sluices are doing well, the lower ones catching about the same quantity of sulphurets as those above them. The R. R. Reveille boasts of ice a quarter of an inch thick on Reese River on the night of the 17th.

Utah.

The Telegraph of July 25th says: We are indebted to A. C. Bassett, Esq., for the following: The body of Tony Scholl, one of the missing miners from near the South Pass mines, was found yesterday evening and buried. He had been scalped. Sixteen Indians made a dash yesterday upon Laclede station and ran off sixty head of cattle of a train belonging to Wells, Fargo & Co. Nailor Thompson, who is in charge of the train, with four others, gave chase, recaptured the stock and ran the Indians seven miles. It is feared Jo. James and another packer, who possessed the Point of Rocks yesterday, are killed, as nothing has been heard from them. The Vedette of the 26th says: It is rumored that some prospectors, who ventured over the divide into the Wind river valley, in search of lost animals, a day or two before the attack, came suddenly upon a large band of fine horses and mules, about 2,000 in number, when they suddenly took the back track. The Indians won't hold that valley much longer. The miners are bound to go in there and stay, if they want to; and they will do it, too. The Telegraph says: Theodore F. Tracy, Esq., Agent of Wells, Fargo & Co., in this city, has courteously handed us for publication the following: "Laclede, July 21. "Big Pond station is burnt. One hundred and fifty Indians were at this place last night. GEO. INGMAN. "Sulphur, July 23.—Indians took ten head of stock from Rock Point and ran ten men and a coach from Big Pond to Dugway. One Indian was killed. Indians have come in large force. I fear we will have much trouble with them. GEO. INGMAN, Division Agent. "Laclede, July 23.—There are at least one hundred Indians around here, burning and killing. Mr. P. T. Brown, of the engineer party U. P. R. R., was killed twenty miles north of here. Please give me permission to take horses and go after them. I think we can drive them out of the country. "S. N. THOMPSON."

Idaho.

We take the following from the Lewiston Journal of July 4th: The Council with the Nez Perce Indians was concluded June 26th. The sum of many days "talk" seems to be promises of good behavior and honesty on both sides. We extract from the World of the 24th as follows: J. D. Cozad was sentenced to imprisonment at hard labor one year for assault with deadly weapon and Meyer Frank two years for grand larceny. Ed. Stock was found guilty of murder in the first degree, for the killing of Michael Claughesy on May 15th, 1867. Sam Raney and R. C. Leighton, tried for passing bogus studs, were acquitted. John Finnegan was found guilty for the same offense. We learn from the Avalanche that the Oro Fino & Morning Star Company propose to increase their capital stock to \$500,000, and buy out the tenants in common with them in these mines. The Avalanche also says the ore now coming out of the Oro Fino is richer than at any previous time this season. An editorial correspondence from Warren's Camp reports favorably of mining affairs there. The hill claims of Sanderson & Bemis yielded \$5,000 in four weeks with the labor of five men. Others are doing as well, and the high water had prevented mining in the stream. More men there than one year ago. At Florence, the mines on the tributaries of Summit Flat were paying largely. They will produce more gold this year than any one since 1863. Quite a number of quartz prospectors are in the northern diggings.

Colorado.

The News says: Prof. O. J. Goldrick, known from the Missouri river to San Francisco as the spiciest local of the West, has withdrawn from the Colorado Times. A correspondent of the Transcript, from some point on Clear Creek, says the prospects are good for about two thirds of a crop, while in some places the grain will yield as largely as last year. The News says: Bebe's mill is running ores from the Indian Jack, and Potosi lodes, with good results. The bed-rock has been struck in the gulch where Messrs. Cobb, Clough, Fry, and Hopkins are mining, and a fine clean up will soon be made. Messrs. Cobb, Fry & Co., are building a fourteen stamp mill to run on quartz from the Potosi lode. The skeleton of a man has been found near Chicago Lake, supposed to be the remains of Dr. Nash, who mysteriously disappeared two years ago. The fare from Denver to Chicago, by coach and railroad, is \$110. The Register says: For the month of June, 1867, there were taken from the Sanderford Company's mill, on Clear Creek—six stamps—six hundred and thirty ounces, whose currency value was \$14,000. The current expense to obtain this result, as shown by the Company's books, was \$3,200, which includes mining, milling and incidentals. The Times says: From recent runs made from the "Coyote" lode in Trail Run, we are furnished with results as follows: First, from thirty-eight feet of ore, eleven ounces and nine dwts. of gold, or at the

A quartz mill is to be built at Warren's the stock for which has been subscribed. Some assays are at work in the vicinity with profit. The Idaho World informs us that new mines has been discovered between Leesburg and Warren's Diggings, and that many were rushing to the new discoveries.

Oregon.

From the State Items of the Oregonian: During the month of June the Salem flouring mill shipped 3,135 barrels flour. A college is soon to be established at Philomath, Benton county, under the control of the Church of the United Brethren. Mr. E. N. Cooke, of Salem, has raised mulberries this year, probably among the first ever grown in the State. A man by the name of Cook, was killed on Coos river, June 29th, while engaged in felling timber. The Albany Journal has hoisted the names of Speaker Colfax for President and G. H. Williams for Vice President. The Sentinel still sticks to General Grant, but names no one for Vice President. Capt. Sprague's company, the last of the 1st Oregon Infantry, arrived in Jacksonville on Saturday, from Fort Klamath, and will be mustered out of service at once. T. H. Farrell, of Canyonville, has sued Sol. Abraham and George Haynes for slander, fixing the damages at \$60,000. The Jacksonville Sentinel of the 29th ult. says: As near as we can learn, over 5,000 cattle have passed through the valley for California and Nevada this spring. Another lump of gold has been picked up in Jackson county which is large enough to awaken some of the buried recollections of '49ers. It weighs 146 ounces. Governor Woods has accepted the Yaquna Bay Wagon Road, says the Record. He says of it that it is the best mountain road he ever saw. Governor Woods has accepted an invitation to stump the State of California in behalf of the Union State and Congressional tickets. The invitation comes from a large number of the most prominent Union men of that State. A letter from Canyon City to the Mountain says: We expect to have our quartz mill up and in running order before the middle of next month, on Elk creek, when Grant county will show to the outside world that she is as rich in gold bearing quartz as "any other man." The I. X. L. Co., at Prairie Diggings, four miles from here, also contemplate, putting up a mill this season. Their prospects are very flattering for large returns. The Sentinel requests the papers to publish an inquiry as to the whereabouts of Harvey B. Oatman, formerly of Jackson county. He was last heard from at Walla Walla, June 1st, 1866, and was then en route to Helena, Montana. Any information of his whereabouts, if living, or the circumstances of his death, if dead, will be thankfully received by his brother, Harrison B. Oatman, at Jacksonville, Oregon. The Pioneer Oil Company, incorporated last winter, C. M. Cartwright, President, have commenced work on Mill Creek, near the old Parsonage, says the Record, and expect to have their buildings completed by the 1st of September. The company expect to be making oil before the month of September is passed away. The Oregon Sentinel of July 6 speaks of huge bones having been found near Jacksonville. It describes a tusk eleven feet long, which was much decayed. There are no more definite particulars. The editor says: "This is the third locality in Southern Oregon in which the bones of these antediluvian monsters have been found, some having been dug out at Sterling a few years since, in an excellent state of preservation, and these discoveries show that this would be an interesting and profitable field for scientific research. The Oregon City Woolen Mills Company have stopped their mill for the season, on account of the dearth of the market, caused by a strike in the stock and importations from the East. An 8-stamp quartz mill is being made in Portland, for Mr. Puth, of Canyon City. A dispatch, dated Jacksonville, Oregon, July 13, says: Yesterday morning the body of a woman Mullan was found in a shocking state of decomposition in the house of Charles Mulford, with whom she had been cohabitating, about eight miles from here. She must have been dead several days, and Mulford, who was found nearly naked and partially deranged, could give no account of her death. She was formerly a school teacher in the valley, but lately has been very intemperate. A contract has been made to construct 150 miles of railroad in Oregon, commencing at Portland, thence through Oregon City, French Prairie, Salem, Albany, Corvallis and Eugene City. The price to be paid is \$35,000 per mile, including rolling stock. Mr. Elliot, the civil engineer, who surveyed the road from Marysville to Portland a few years ago, is a moving spirit in the work. Capt. W. E. Moitrop, an old and esteemed citizen of Oregon, died at his residence in Portland on the 15th inst., aged 65 years.

Business Cards.

rate of about \$1,000 per cord. Second run, \$ cord, fifteen ounces, three dwts. and ten grains. Third run, from three-fourth cord to twenty ounces. These results are suggestive of a rich lode as well as good milling. Dr. Holland of Clear Creek is operating a six stamp mill, and under his own personal management succeeds in getting good results. The Colorado gold ores are to be attacked by the Welshmen. A large lot of these difficult sulphuretted ores have been taken out to Wales and there reduced with such success that capital has been raised to bring out Welsh smelters and put up extensive works on the successful plan in Colorado. The following are the nominations on the Union ticket, made by the Convention in Denver, July 20: Councilmen, Charles A. Cook, Amos Stock; Representatives, C. H. McLaughlin, J. E. Wartzbach, B. B. Stiles, J. F. Gardner; Sheriff, Richard Sopris; County Treasurer, Clarence J. Clarke; Clerk and Recorder, W. D. Anthony; Probate Judge, Jacob Downing; School Superintendent, O. O. Kent; County Assessor, Allen B. Sopris; County Coroner, R. L. Hatten; County surveyor, Redwood Flesher; County Commissioner, J. M. Wilson; Justice of the Peace, J. S. Taylor; Constable, W. J. Benton.

Special attention paid to ladies and children traveling unattended. A Piano on Board.

Her speed, light draught and fine accommodations command the "Only Chance" to all travelers to the States. 150-w-td

Dr. B. ROBINSON, Physician and Surgeon, Miners' Drug Store.

(Opposite King & Gillette's Stone Block.) Main Street, Helena, M. T. Office Hours From 9 a. m. to 9 p. m.

In acknowledging past favors, the Doctor invites the attention of the Montana public to his successful mode of treating all GLEET and WHITE DISEASES, and their attending consequences—no matter of how long duration. He offers the advantages of his knowledge and experience to all who may stand in need of medical aid. This he does with that confidence which positive knowledge alone can give, and with the guarantee that all who seek, as those who have sought, will rejoice in a perfect restoration to health and vigor. In the Primary Stages of Syphilis and Gonorrhoea, a cure is guaranteed in a few days, and in the Secondary and Tertiary Stages, which arise from neglect or improper treatment, he gives assurance of a radical cure in as short a time as it can be completely and safely made.

The Doctor would urge those afflicted with Gleet and Stricture, to apply to him at once, as the earlier they are attended to the more easily will a cure be effected. Cases of Spermatorrhoea, Involuntary Discharges and Impotence are always aggravated by delay.

Affections of the Lungs, Liver, Kidneys and Bladder, whether acute or chronic, are treated with invariable success; and in all cases Doctor Robinson guarantees a cure if within the reach of scientific treatment. Ladies afflicted with troublesome Vaginal or Uterine discharges, falling of the womb, suppression or other irregularities of menstruation, to which their sex is peculiarly liable, would do well to consult the doctor personally or by letter. Patients living at a distance wishing to consult by letter must give a full description of their symptoms, age and habits of living, and the necessary medicine and medicine will be forwarded by mail or express, carefully packed and free from observation. All communications Strictly Confidential.

Consultations Free!

Address B. ROBINSON, M. D., P. O. Box 445, HELENA, M. T. Or, per any Express Line. 144-163

FABRICERS, ATTENTION! We have now at Virginia City, for sale, a few self-raking

Excelsior Reapers & Mowers, The cheapest and best machines in the world

Simple in construction, light in draught, easily adjusted to grain or grass, saving two hands more than any other. These machines have been able to compete with all others successfully.

THEY DO NOT GET OUT OF REPAIR EASILY. Are constructed principally of iron and steel, and those portions of them which wear out can be duplicated in the Territory

Call and get a pamphlet, and see list of premiums taken and recommendations

desiring to pay in

Gold Dust or Coin!

This change will necessitate an advance in the prices of goods; but I will make it to the advantage of all buyers buying in

This Market, BANNACK or ARGENTA!

To give me a call before purchasing either with currency, gold dust or coin.

JOHN S. ROCKFELLOW,

No. 5 Jackson Street, Virginia City, Montana. No. 25 Main Street, Bannack, Idaho. No. 15 Main Street, Argenta, Idaho. July 15-w-ff
