HOW THEY TALK

CHRONIC KNOCKERS OF ANACONDA GET IN THEIR WORK.

TALK OF THE TROUBLE MAKERS

Trying to Spoil President's Reception by Crying Partisan Politics—Want to Get Committee Honors After They Worked Themselves Into Fits in Vain Endeavor to Defeat McKinley.

(Special to Inter Mountain.)

Anaconda, May 2.—There are a few individuals in this town who can be classed as professional "knockers." President McKinley and his distinguished party are scheduled to arrive in Anaconda on the first of June and these particular ones are going about saying that the Lincoln club is going to manage the entertainment of the visitors to the exclusion of everyone else.

Not a Partisan Matter.

Nothing is further from the truth than that. It is true the members of the Lincoln club have discussed the coming of the chief executive, and the president of the organization has been instructed to name a reception committee, but further than that nothing has been done depending definite information as to the hour of the arrival of the presidential party.

The action taken thus far is simply a club matter. The organization does not intend to do any dictating as to who shall participate in the affair. The members will place themselves subject to the wishes of the new mayor and city council who will be in supreme authority in welcoming the party to the city.

New Mayor Will Act.

No doubt one of the first acts of the new mayor, after he is inducted into office next Monday, will be the appointment of a non-partisan reception committee. But the Lincoln club will have a part in the proceedings, and so will other civic organizations. The Austrian club will be there with its splendid band, also the various fraternal organizations in the city.

The Lincoln club will only exercise such privileges as those allowed other organizations and nothing more. It is foolish for anyone to think anything else.

LONG SENT TO THE ASYLUM

Strange Delusion That Anaconda Is Hamilton, His Home, and His Family Hidden Away.

(Special to Inter Mountain.)

Anaconda, May 2.—The sanitary commission which examined into the case of E. N. Long, who was taken in charge on the grounds of being insane, concluded their work about 5 o'clock last evening and ordered a commitment issued to the Warm Springs asylum, which was done and an official from the sheriff's office delivered him to the authorities of the institution today.

Long's home is in Ravalli county, but he has insisted for some time that Anaconda is Hamilton and that his family is hidden away from him and that he is in search of them.

The cause of Long's derangement of mind is said to be from an injury he received while working in the Bi-Metallic mine in Granite in 1898, when he was caught in a cave-in, sustaining at the time a serious wound on the head.

Sprinkler at Work Today.

Anaconda, May 2.—The city street sprinkler made its first appearance this morning and laid the dust on all the streets in the business portion of the city long before the hour of opening the day's business arrived. The dust has been a source of great displeasure and annoyance to business men and people in general for several weeks and the appearance of the sprinkler this morning brought forth a sigh of relief from every quarter and spread a smile of satisfaction on the face of every person visiting the business portion of the city.

FALL OFF IN IRON TRADING.

Great Buyish Rush Over for the Present, and Prices Take a Drop Downward.

(Special to Inter Mountain.)

New York, May 2.—The iron age says, in discussing the iron and steel trade: "The buying hunger is appeased and in many directions the tonnage of new orders has fallen off considerably as it could not otherwise than do after so prolonged and heavy a purchase movement. Pittsburgh reports further sales of basic pig iron, and it is intimated that the leading interest will soon take quantities of Bessemer pig for the second half for which little has been done so far. Apparently there is also a reserve buying power in forge irons. On the other hand, Cincinnati reports at least one round transaction in southern pig iron, on the basis of \$11.25 for No. 2 at Birmingham against \$11.75 which has recently ruled. Eastern Pennsylvania, too, displayed some irregularity in prices of foundry iron.

"The steel market is quiet and \$24 for billets is the basis for the moderate business which is going.

"Steel rails are active and orders are liberal. Some mills have been forced to turn away orders in considerable quantity on account of their inability to fill them in time."

FINANCIAL CRISIS IN BRAZIL

Going to Resume Gold Payments in the Near Future—No National Loans.

(By Associated Press.)

Rio de Janeiro, May 2.—The message of President Campos Sales at the opening of the Brazilian congress May 3, will deal with the coffee question and the financial crisis.

It will declare that the government has absolutely refused to authorize national loans and will affirm the intention of the treasury to resume gold payments within the period arranged with Great Britain and to provide a reserve of £4,000,000 to guarantee future years.

It will also advise the construction of a port at Rio Janeiro by state aided private enterprises.

Twelve Millions for Hats.

(By Associated Press.)

New York, May 2.—An effort is on foot to combine the straw hat industries of this city and Baltimore. The new concern will be known as the American Straw Hat Manufacturing Company. It will be incorporated under the laws of New Jersey and its capital will be \$12,000,000.

SET THEIR PRICE AND NOT WAIT

Famous Union Works for Sale to the Ship Trust or Any One Who Has the Money.

(By Associated Press.)

San Francisco, May 2.—Irving M. Scott, vice president and general manager of the Union Iron Works, when asked about the reported combination of the big ship-building plants, said that he had received no notification of any such combination. "There has been an effort to bring about this deal for the past eighteen months," said Mr. Scott, "but all previous attempts have fallen through. We have not been peddling the Union Iron Works about for sale, and when we were approached with a proposition to buy the plant we simply replied that we would sell at any time we got our price for it. We told them what we thought the plant was worth and rested with that. If the deal has been completed it means that they have accepted our price."

LAUGHING IN THEIR SLEEVES

English Shipping Interests Will Remain British, Despite Morgan and His American Gold.

(By Associated Press.)

New York, May 2.—There is a good deal of inflammatory rhetoric in a portion of the English press on the subject of Mr. J. Pierpont Morgan's raids on English shipping, says the London correspondent of the Tribune, but it would be foolish for Americans to deceive themselves respecting the real judgment of the shipping interests in England. It is an open secret that American competition in ocean freights is not feared when syndicate steel interests buy fleets which can be sailed under a foreign flag alone, but only when it threatens to cheapen the costs of shipping. The Leyland line has cleared a handsome profit, and other lines are willing to sell out on similar terms.

English agitation over the operations of the syndicate is fictitious. If Mr. Morgan goes into business as a ship broker on a large scale, half the commercial marine of England will be his for the asking. But convenient as this policy may be for speculative purposes, it will not create an American merchant marine.

CONTROL OF HAVANA CIGARS

Two Great Companies Combine and Will Handle Most of the Product.

(By Associated Press.)

New York, May 2.—It is understood that negotiations which have been pending for two or three months between the American Cigar Co. and the Havana-American Co., have been concluded, by which the property of the latter company, which is controlled by the American Tobacco company, will pass into the control of the latter. The terms of the deal are kept secret.

The result of this acquisition will be to give to the combination the control of a large share of the Havana cigar output.

FLEECING THE WESTERNERS

Bucket Shops Running in Defiance of Law—Evasion of the War Tax.

(By Associated Press.)

New York, May 2.—Chas. H. Treat, collector of internal revenue, is hopeful that he will be able to uncover a lot of the bucketshops, which, under the pretense of doing a legitimate brokerage business, are evading the war revenue tax.

He has received letters from men in the far west and south telling how they had been fleeced by certain bucketshop proprietors in this city through dealings that were based solely on the public market quotations. Mr. Treat says he will investigate these statements and if found correct he will impose the full excise tax on the concerns in offense.
