CUT BY A WOMAN

JOE BURROWS, A COWBOY, DANGEROUSLY WOUNDED.

BLOODY FIGHT AT DILLON

Colored Girl, Driven to Desperation by Taunts and Blows, Stabs the Intoxicated Cattleman.

(Special to Inter Mountain.)

Dillon, Aug. 28.—Joe Burrows, a cowboy, who has been a resident of this section for the last three years, was stabbed at 8 o'clock last evening by a colored woman known as "Toy."

The girl was evidently in a frenzy of rage, as seven distinct knife cuts were found in Burrows' back by the surgeon who dressed the wounds.

One of them starts at the point of the shoulder and extends to the point of the opposite loin. More than 70 stitches were taken in the wounds by the attending surgeon.

Burrows returned from a trip from Billings a few days ago and was celebrating. The colored woman claim he was in their house during the afternoon and abused "Toy," who is a little woman, weighing less than 100 pounds.

Knowing the temper which "Toy" possesses, the other girls locked her up to keep her and Burrows from fighting. When Burrows left the place he went into an adjoining resort.

At the rear of this house the trouble occurred. The colored woman state that Burrows picked a quarrel with Cora Fisher, and during the melee "Toy" came out and took a hand in the disturbance.

They claim that he slapped "Toy" and knocked her down and during the fight which followed Burrows was stabbed. "Toy's" statement at the jail was substantially the same.

Burrows claims he did not have a quarrel with "Toy"; he says he stubbed his toe and fell and "Toy" jumped on him and did the slashing. Cora Fisher came to the scene and held him, letting "Toy" go free, and she cut him twice after that.

GOOD FEEDING IN CANADA

Northern Montana Cattlemen Trying the Experiment of Crossing the Line.

(Special to Inter Mountain.)

Fort Benton, Aug. 28.—Charles W. Williams, foreman for C. W. Price, is moving his family from Chinook to a new location at Maple Creek, N. T. W., which will be his home in the future.

Mr. Price has for three years been putting in cattle on the range in the big bend of the South Saskatchewan, north of the Canadian Pacific between Medicine Hat and Saskatchewan Landing.

The range cattle business in that section is an experiment so far, and there is no other range herd of any size but Mr. Price's.

The last two winters have been so mild that they cannot be accepted as a criterion of ordinary conditions. The grass is very good, though some old-timers think that frost may prevent its curing properly.

The principal defect of the range is lack of shelter. That whole region is a high, bare bench and very level; there is no broken or rolling ground whatever.

There are no running streams and the coulees along the South Saskatchewan are only a few hundred yards long, the plains dropping off abruptly to the water's edge.

The general aspect of the country is very bleak and there is no sage brush. The range is dotted with small lakes and none of them are fenced; in fact, few settlers have gone in and there are no sheep at all.

If Mr. Price's experiment is successful, many range cattlemen from this side will go into the business into Assiniboia, as the only drawback will be the difficulty of stocking up.

The Canadian tariff on cattle is 20 per cent ad valorem and the appraisement is made upon the value in Canada, so that cattle cannot profitably be driven in.

The only other source of supply are the range herds in Alberta and stock from Ontario and Manitoba, the latter being generally inferior.

Representatives of two of the largest cattle companies in Texas were in northern Montana last week looking for an outlet for their young steers to replace that shut off by the recent opening of much of the Indian territory to the "man with the hoe."

They are looking over the Canadian ranges, but the tariff is likely to prevent their stocking up that country.

APPEARANCE MUCH IMPROVED

Wall Completed Around the Monument to Soldiers at Great Falls.

(Special to Inter Mountain.)

Great Falls, Aug. 28.—The work of constructing the outer wall circling the soldiers' monument in Highland cemetery has been completed and in a few days the grounds will be graded and sodded.

The wall adds much to the appearance of the monument, and the effect of the whole structure is far more imposing than on the day it was dedicated last May.

The wall is 18 inches in height and in the form of a square set diagonally to the base of the monument proper. It is constructed of cream colored sandstone, the same as that which composes the monument.

It measures 32 feet from corner to corner, and at its nearest point to the monument there is a space of five feet.

On each of the four bastions there has been placed an iron vase twenty inches in height, with a water capacity sufficient to supply growing plants therein for twenty days.

When the work of sodding is completed and the walks which encircle the monument have been finished, the entire monument and its surroundings will present an effect which cannot but receive the admiration of all visitors to the cemetery, and which will redound greatly to the credit of the monument committee, of which Captain Gregg has been the moving spirit ever since the erection of the shaft to the memory of veterans was first commenced.

Adjutant W. H. Safford has been engaged for several months in looking up the record of every soldier now lying beneath the soil in the shadow of the monument, and it is expected that by next spring the government will ship the head and foot stones to be placed at their graves.

There is considerable detail to be attended to before the government officials will approve of each individual headstone, and the record of each soldier must be absolutely clear and defined before the order can be given for it.

A mistake even in a name may prove a bar to securing it. There is no question about the identity of every one of the veterans buried in Sheridan Post No. 18 plot, and of their complete worthiness to be honored with a headstone at government expense.

The graves of those whose record cannot be verified, however, will be marked by head and foot stones at the expense of the post.

PARDON APPLICATIONS DENIED

Governor Toole Declines to Act in the Case of Several Men Who Ask Freedom.

(Special to Inter Mountain.)

Helena, Aug. 28.—Several convicts who had sent in applications for pardons have been doomed to disappointment, the governor having declined to act on them. Among those whose applications have been rejected are:

Edgar Burlingham, committed from Gallatin county, May 5, 1888, for a term of 10 years, upon a charge of burglary.

J. H. Godson, committed from Flathead county, November 20, 1900, for a term of one year, upon a charge of forgery.

Elmer Ensminger, committed from Silver Bow county, June 21, 1899, for a term of five years, upon a charge of burglary.

O. A. Erickson, committed from Fergus county, April 1, 1901, for a term of three years, upon a charge of larceny.

W. C. Mitchell, committed from Park county, February 19, 1900, for a term of three years, upon a charge of robbery.

Cuthbert McGillis, committed from Teton county, April 4, 1901, for a term of one year, upon a charge of grand larceny.

Cloth Skirts Worth \$20 to \$25 for \$14.50. \$17.50, \$18.50, \$20.00 Silk Dress Skirts \$13.95.

Mercury AND Potash. Everybody knows that Mercury is a dangerous medicine even when administered in very small doses, and few constitutions can stand it for any length of time. Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhoea follow its use. Now, the doctors will tell you if you have Contagious Blood Poison you must take the minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on ad infinitum, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment. S. S. S. is the only antidote for this destructive virus, and an infallible remedy for this peculiar poison. It destroys and eradicates every particle of the poison, and makes the blood as healthy and pure as before the disease was contracted. When I was about twenty-one years of age, or eighteen years ago, I contracted Blood Poison in a bad form, and am amazed that the rapid progress the disease was making would soon have made me a life-long invalid or ended my life. As my system came under the influence of S. S. S., the sores, spots, and pimples gradually disappeared, and soon no evidence of the disease was left. I am now thirty-nine years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it. S. S. S. is the only purely vegetable blood purifier known, and we offer \$1.00 for proof that it contains any mineral ingredient whatever. The general health improves as the Specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison disappear; strength returns and you are forever rid of this loathsome disease. Our Home Treatment Book on Contagious Blood Poison tells you all about the symptoms, different stages, etc., of this disease. We will mail you a copy free. If you need advice or special directions, write our physicians; it will cost you nothing and may hasten your cure. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Card Mounts, Professional and Amateur, Largest Variety in Montana. Write for samples; give size wanted always. Everything in Photography PAXSON & ROCKEFELLER. Red Cross Drug Store, 24 West Park.

James Jensen, committed from Carbon county, January 6, 1901, for a term of one year, upon a charge of grand larceny. J. L. Bonesteel, committed from Silver Bow county, December 19, 1896, for a term of 11 years, upon a charge of murder in the second degree.

PRISONERS CLEAN STREETS

Dillon Rapidly Becoming One of the Prettiest Towns in the Great State.

(Special to Inter Mountain.)

Dillon, Aug. 28.—Main street presents the cleanest appearance it has for many years and it is due to Chief of Police Stone's new policy of making the city prisoners work and earn their board during their incarceration.

At times in the past it was the custom to throw the prisoners in the county jail and let them board out their fines at the expense of the city. Now it is different.

When a city prisoner is able to do so he is given a street broom and told to sweep. If he does not work he does not eat and they all consent to work under such pressure.

Chronic offenders are getting more chummy about coming before "His Honor" and tramps are all giving Dillon the go-by since the new rule went into effect.

INDIANS KILLING THE DEER

Red Men in the Flathead Country Arouse the Ire of the Settlers.

(Special to Inter Mountain.)

Kalispell, Aug. 28.—County Attorney Oliver has received a telegram from J.

Teeters at Libby saying that Indians are killing deer at Loon lake and asking for instructions in regard to the matter.

The telegram states that there are five lodges of the noble redmen and that the settlers in that vicinity are complaining. The county attorney referred the matter to State Game Warden Scott for settlement.

A number of letters have been received by parties in this city stating that an indiscriminate slaughter of deer was going on in the western part of the county by Indians who were also using dogs in chasing deer.

The Indians have no respect for the game law and all seasons of the year look alike to them.

FORMER BUTTE MINER DEAD

Charles Flynn Expires at His Home on the Blacktail After a Short Illness.

(Special to Inter Mountain.)

Dillon, Aug. 28.—Charles Flynn died at the Flynn ranch on the Blacktail yesterday afternoon, having been ill for only four days.

He was well known in Butte, being one of the founders of the Butte Miners' union. From 1877 until three years ago he worked in the mines of Butte, quitting the business because the powder smoke caused him trouble with his stomach.

He was born in County Leitrim, Ireland, 64 years ago, and was unmarried. When he was 14 years old he emigrated to Australia, coming to America in '77, coming to Comet, Jefferson county, where his brothers resided. He left there after a few months and settled in Butte.

For the last three years he has been

was serious. Friday he was seized with serious attack of stomach trouble, and Sunday evening he took to his bed, from which he never arose.

The funeral will be held tomorrow afternoon, services at the Catholic church.

Getting at the Tax Levy.

(Special to Inter Mountain.)

Great Falls, Aug. 28.—At the last meeting of the city council, the matter of making the city tax levy was brought up by Alderman Matteson, who stated that the auditing committee had no report to make in the matter, for the reason that it had been unable to get the city assessment for the present year. It had been reported that the assessment this year would be \$4,800,000, but this, the assessor informed him, was wrong, and the opinion was that the assessed valuation of city property for 1901 would be in the neighborhood of \$6,000,000.

New Janitor for State Normal.

(Special to Inter Mountain.)

Dillon, Aug. 28.—John H. Brundage has been elected as janitor of the State Normal, and the executive board of the school has decided to partition off the upper story of the boiler building into two rooms which will be used by the janitor as a residence. The advantages to be derived by having the janitor at the buildings at all times are many, and this new arrangement is considered an excellent one.

Typhoid Epidemic at Missoula.

(Special to Inter Mountain.)

Missoula, Aug. 28.—The Sisters' hospital reports 22 cases of typhoid fever, and the indications are so great for an epidemic that no new cases are con-

tracted for, that those holding contracts that bind the hospital for care and treatment may be cared for.

Uneasiness at Helena.

(Special to Inter Mountain.)

Helena, Aug. 28.—There is great uneasiness in labor circles here over the recent discharge of 30 smeltermen from the East Helena smelter. The dismissals are believed to portend labor trouble.

Narrow Escape From Death.

(Special to Inter Mountain.)

Great Falls, Aug. 28.—William Meadow, an engineer at one of the laundries here, had a narrow escape from death yesterday. He was caught in the shafting and whirled through the air several times before the machinery could be stopped. Several bones were broken and he was badly bruised.

Mining Claim Sold.

(Special to Inter Mountain.)

Helena, Aug. 28.—A syndicate of eastern capitalists has purchased the Crow creek copper group of 10 patented mining claims in Broadwater county, in which several Helena people are interested.

Dog Attacks a Woman.

(Special to Inter Mountain.)

Missoula, Aug. 28.—While riding a bicycle yesterday Mrs. A. Colombe, wife of a contractor, was attacked and severely bitten by a dog owned by Edward Larson. The dog was later shot.

Liquor for the Indians.

Helena, Aug. 28.—Willis Nichols of Birch creek is on trial in the United States court here on a charge of having sold liquor to Indians.
