

BEFORE THE STORM

STRIKERS AND NON-UNION MEN AT M'KEESPORT RESTING UPON THEIR OARS PREPARATORY TO A STRUGGLE FOR SUPREMACY.

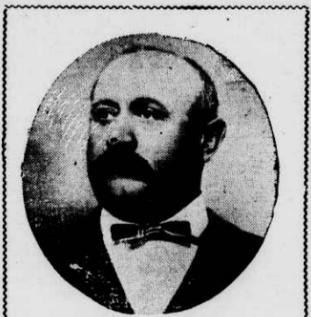

LEADERS OF THE STEEL WORKERS NOW EVEN DECIDE TO TALK, EXCEPT TO SAY THAT THEY ARE SATISFIED WITH THE OUTLOOK.

(By Associated Press.)

PITTSBURGH, Sept. 10.—There was no attempt today to resume operations at McKeesport. The streets were early thronged with thousands of strikers and the men who were turned back yesterday did not leave their homes. Except at the Huey street entrance to the mill, there was no disorder. A few bricklayers started into the place, but a crowd of Hungarians assembled there forced them to remain on the outside. The men operating the light department were unable to get to the works today, and it is probable the plant will be in darkness tonight. The tie-up is now about complete and it is likely the officials will shut down the plant indefinitely. At Demmler the works were running about the same as yesterday. The boat brought the Duquesne men but there was no excitement. The engineer and firemen of the boat struck this morning, but the firemen were brought back by deputies. The headquarters of the Amalgamated association were again in charge of the regular officers. Most of the men have returned to their homes in outside cities, and none but the resident members of the executive board remain in town. What action, if any, was taken by the board during its three days' session is not known. One report is that the board tried for three days to get another conference with President Schwab, but failed. The members, it is said, favored a settlement on the terms offered, and another trip to New York by President Shaffer and Secretary Williams may be made before the end of the week to strive for peace. The officials refuse to talk, save to express satisfaction with the situation.

and re-exporting it as the Porto Rican product. "The simple remedy is re-enactment of the provisions of the Foraker act, imposing a duty of 5 cents per pound on all coffee coming into Porto Rico. "With the additional of the stimulus of the protective duty against Brazilian coffee it is believed coming years will witness the complete restoration of districts which were laid waste by the hurricane and in which nothing has been done since."

CAN BE SENT FAR AWAY

False Swearing the Charge Against Emma Goldman and Other Anarchists.

(By Associated Press.) New York, Sept. 10.—Justice McAdam of the new York supreme court gives the opinion that Emma Goldman and other anarchists who are naturalized can be expelled from the country on the ground that they have sworn falsely in that they have obtained certificates of citizenship by fraud in testifying that they are attached to the principles of the government and would support its constitutional laws.

ASKS FOR THE NEWSPAPERS

President McKinley Manifests an Interest in the Affairs of the World.

(By Associated Press.) Buffalo, Sept. 10.—The president asked for the papers today and also asked when he would be allowed to sit up. With the exception of the physicians and attendants, only Mrs. McKinley and Secretary Cortelyou have been admitted to his presence. The report that his brother Abner McKinley saw him yesterday is incorrect.

AMERICAN MARKET WANTED

Outlet for the Porto Rican Coffee One of the Pressing Needs of the Islanders.

(By Associated Press.) New York, Sept. 10.—L. S. Rowe, chairman of the Porto Rican coffee commission, is now in New York, having arrived yesterday from San Juan. Speaking of the outlook on the island he is quoted as saying: "With two such men as former Governor Allen and Judge Hunt to serve the American people in the first colonial experiment, the success of the ultimate of the outlook was to be foreseen. "Under Governor Allen's direction the broad foundations of civil rule were laid, but it remains for Governor Hunt's administration to work out in detail the new system of government. "The most important economic need of the island at the present time is the opening of the American market for Porto Rican coffee. "One danger which has considerably disturbed the people is the possibility of introducing Brazilian coffee into the island."

BUTTE MAN IS IN TROUBLE

WILLIAM I. WRIGHT, SPECIAL REPRESENTATIVE OF THE PATTERN MAKERS LEAGUE OF NORTH AMERICA, CHARGED WITH ABDUCTION AND ROBBERY IN DENVER.

(By Associated Press.)

DENVER, COL., Sept. 10.—William I. Wright, said to a special representative of the Pattern Makers League of North America, is under arrest in this city on a charge of kidnaping and highway robbery. He is accused of complicity in the kidnaping of C. W. Wallers, a pattern maker, last Saturday night. Wallers was forcibly seized by half a dozen men, thrown into a covered wagon and driven 10 miles into the country. All his clothing was removed and he was told that unless he left Denver forever he would be killed. A rope was placed about his neck and he was threatened with instant death. After his clothes had been returned to him he was struck across the back 18 times with a rope. Wallers charges that the abductors

robbed him of his watch and \$65, but says that the watch was returned to him. He charges that a plot had been formed to drive himself and W. J. Hudson out of the city and that Wright had the trap set for him. Wright denies Waller's charges and declares that he was working to secure a revocation of the order expelling Waller and Hudson from the Pattern Makers' union. Wright came from Butte, Mont., two months ago and has been working at his trade in this city. The Butte city directory gives the names of two William I. Wrights, but they are both in Butte, one being a machinist at H. North Arizona, and the other a clerk in the freight office of the Northern Pacific at South Butte. Each denies being in Denver at present or having been there recently. "I do not; I never advocated violence. I scarcely knew the man. I was leaving Rochester, via Buffalo, when Czolgosz had a few words with me. "He said he had heard me lecture at a memorial hall in Cleveland last May and that he wanted to know me. He said he knew I was in Chicago and looked me up. I scarcely remember anything about him, save that his complexion was light. "Then how do you know that this man is the one who tried to kill the president?" "Oh," she replied with a shrug of the shoulders, "I guessed that from what the newspapers say." "What did you think when you heard that an attempt to kill the president had been made," the woman was asked. "With a wave of her hands and another shrug of the shoulders, she replied decidedly: "I thought, 'Oh, the fool!'" "The prisoner's manner thus far had been growing more and more excited,

MONTANA MAN KILLS A WEALTHY WIDOW

H. Walters, a Clothing Solicitor From Billings Shoots a Wyoming Woman Who Refused to Marry Him, and Then Cuts His Own Throat.

(By Associated Press.)

CODY, WYO., Sept. 10.—News has been received here from Thermopolis that a clothing solicitor from Billings, Mont., named H. Walters, shot and killed Mrs. A. L. Hoover of Otto, afterwards shooting himself and cutting his throat. It appears that he had been infatuated with the woman, who objected to

his attentions. Meeting her on the streets, he made a proposal of marriage. She refused, and he began shooting at her, the second bullet ending her life, while she was endeavoring to escape. Walters then shot himself and afterwards cut his throat. He is yet alive but will die. His victim was a wealthy middle-aged widow, conducting a large store at Otto.

Where President McKinley Reposes on a Bed of Pain.

PLAYING FOR DELAY IS MORROCCO'S SULTAN

Ruler Hesitates to Give Effect to the Convention Agreed Upon Last June.

Disturbances, Amounting Almost to Anarchy, Increasing Day by Day.

(By Associated Press.)

Tangier, Morocco, Sept. 10.—The sultan defers to give effect to the convention agreed to between his plenipotentiaries and Lord Lansdowne in June. Letters have been received permitting the exportation of potatoes and other vegetables, the shipping of which was formerly not allowed, but this formed only one clause of the convention. The disturbances in the country are increasing, and amount almost to anarchy in many districts. The minister of foreign affairs believes the Spanish captives carried off last May have been put to death. The Spanish government claims from the sultan £200 daily from the date of the capture until next Thursday, when it will take further steps. There is no indication that Madrid has yet decided what steps will be taken.

LAWS TOO DEFECTIVE TO BAR ANARCHISTS

Immigrant Commissioner Fitchie Points Out Weakness in the Statutes.

Incoming Persons Free to Land if Their Record Is Not Blotted.

(By Associated Press.)

New York, Sept. 10.—Immigrant Commissioner Fitchie, who is in charge at Ellis Island, says it is impossible to keep anarchists out of the country. "The law at present states plainly that no one shall be refused admittance because of his political beliefs," the commissioner added, "and the only way that an anarchist can be kept out is by proving that he had a criminal record on the other side." The declaration was made in response to a query as to what could be done in regard to a number of anarchists who are on their way over here from England. Scotland Yard officials have cable descriptions of these men, and it was thought that their entrance to this country could be prohibited.

EMMA ARRESTED!

Miss Goldman, Leader of the Anarchists in the United States, Captured By the Chicago Police.

Agitator Disclaims All Knowledge of the Assassin of the President, Except in a General Way.

(By Associated Press.)

Chicago, Sept. 10.—Captain Coleran, chief of detectives, has sworn out a warrant charging Emma Goldman with conspiracy to assassinate President McKinley. Miss Goldman, who was arrested today, is being held at the central police station in this city.

(By Associated Press.)

CHICAGO, Sept. 10.—Emma Goldman, the high priestess of anarchy, whose speeches turned to fire the brain of Leon Czolgosz, the would-be assassin of the president, was arrested here shortly before noon today. Her manner was defiant, as she was taken to the office of the chief of police, but she disclaimed all knowledge of Czolgosz and his crime, save that she admitted having met him here July 12. "Do you know that your words are what Czolgosz claims stirred him to shoot the president?" she was asked. "I do not; I never advocated violence. I scarcely knew the man. I was leaving Rochester, via Buffalo, when Czolgosz had a few words with me. "He said he had heard me lecture at a memorial hall in Cleveland last May and that he wanted to know me. He said he knew I was in Chicago and looked me up. I scarcely remember anything about him, save that his complexion was light. "Then how do you know that this man is the one who tried to kill the president?" "Oh," she replied with a shrug of the shoulders, "I guessed that from what the newspapers say." "What did you think when you heard that an attempt to kill the president had been made," the woman was asked. "With a wave of her hands and another shrug of the shoulders, she replied decidedly: "I thought, 'Oh, the fool!'" "The prisoner's manner thus far had been growing more and more excited,

ON ROAD TO RECOVERY

PHYSICIANS IN ATTENDANCE UPON THE WOUNDED PRESIDENT UNANIMOUSLY DECLARE THAT HE IS NOW PRACTICALLY OUT OF DANGER.

PATIENT SLEEPS WELL DURING THE NIGHT, AND CONTINUES TO MAKE GAINS THAT DELIGHT THE MEDICAL MEN AND PEOPLE OF THE COUNTRY.

(By Associated Press.)

Buffalo, Sept. 10.—The members of the cabinet came from the Milburn house at 3 o'clock. There was considerable formal discussion of business, but nothing in the nature of a cabinet meeting. As to the condition of the president, all the cabinet members were in the happiest frame of mind. They accepted the bulletins as assurances that the president would live. There is no purpose on the part of any of them to leave Buffalo, although Mr. Smith may leave tomorrow for a day or two. The others remain here as friends of the president and as citizens.

DR. BLAKEY, One of President McKinley's Physicians.

(By Associated Press.)

BUFFALO, Sept. 10.—Again what may be termed a crisis night, the fourth since the attempted assassination on the life of President McKinley, has passed, and without a single symptom unfavorable to the president's recovery. In fact the tone of the first bulletin this morning was most carefully worded, rejoicing that the patient had become more comfortable during the night than during any previous period since he was wounded. Both pulse and temperature are a trifle higher than yesterday morning, but so little as to cause no worry and in fact rather to give encouragement by the slightness of the change of condition. The Morning Conference. About 8 o'clock the doctors who had been with the president during the night began putting in an appearance for the formal morning consultation. Dr. Mynter was the first to arrive. He was followed soon by Dr. Wasdin, the Marine hospital corps specialist; Dr. Burney and the others in attendance. At this time the night watchers were relieved and those who had been in the room for the night came out for a short period relaxation. The results of the morning conference was made known about 9 o'clock as the doctors came from the house, although

It was some time after that the bulletin appeared. The faces of the doctors clearly indicated their satisfaction at the condition of affairs. As Roswell Parke came to his carriage he paused long enough to give a summary of condition prevailing. Condition Is Satisfactory. "The condition of the president this morning is entirely satisfactory. The president spent the most comfortable night he has had since the shooting. He slept well, and when he was awake he was cheery and even chatty," said he. "Do you regard the patient as out of danger?" Dr. Parke was asked. "I do not want to go that far. What can be said is that unless there are unseen complications we expect him to recover." "Have you considered the prospect of his removal?" "No; it is too early for that, but when he is moved he probably will go to Washington." Dr. Herman Mynter was the next of the consulting physicians to come from the house. He was followed by Dr. Eugene Wasdin and they walked down the street together. To the queries of the newspaper men Dr. Mynter said: "The president is doing splendidly, and he is out of the woods, if I may express it that way." On Road to Recovery. Dr. Mynter said further: "I have not been really optimistic, because I do not like to prejudice serious cases, but now I can say to you that everything in the present condition warrants the statement that he is on the road to quick recovery." Dr. Wasdin said: "I have believed throughout that the president had a fair chance of recovery. I now desire to say that the chances against that recovery are very slight. His temperature is splendid and his pulse is getting normal." Dr. McBurney was in high spirits as he walked away from the residence shortly after the other physicians had gone. His face was wreathed in smiles. "Is the president out of danger?" he was asked by an Associated Press representative. "We believe he is probably out of danger," he replied, measuring his words. The day, which had dawned wet and gloomy, cleared as the physicians departed.

POLICE DRAGNET IS CLOSING

JOINT ACTION BY OFFICIALS ALL OVER THE UNITED STATES LOOKING TO THE CAPTURE OF ANARCHISTS, ALLEGED TO BE GUILTY OF CONSPIRACY.

(By Associated Press.)

BUFFALO, N. Y., Sept. 10.—From two sources, each of which is unimpeachable, it is learned that the police of the United States are nearly ready to draw a dragnet and capture a host of anarchists, all of whom are believed to be concerned in the plot to murder President McKinley and other representatives of the government. Emma Goldman is believed to be a leader in the conspiracy. She was here in Buffalo the day before President McKinley arrived. The police of this city have questioned a relative of hers, from whom much information of value was obtained. The Goldman woman's arrest, it is said, will occur within a few hours, if, indeed, it has not already been effected. Evidence is not lacking that the plot was at least partly concocted in Buffalo. A telegram from Chicago says: Charles P. McMurray, employed by a wholesale grocery house in this city, has notified the police that on the night of July 12 and 13, he is not sure which, while waiting for his suburban train at the main station of the Illinois Central road, he overheard three men discussing plans to kill President McKinley and two well known New York capitalists. After talking a few minutes the three men shook hands and went toward the Michigan Central train for Buffalo. McMurray says he told the policeman on duty at the station, and after a few days had practically forgotten the occurrence. The description of one of the men given by McMurray is not unlike the appearance of Czolgosz, and it is known that on July 12 he was in Chicago, going east to Buffalo that night.

FORMER PLOT TO TAKE LIFE OF PRESIDENT

Anarchists of Paterson, N. J., Hatched a Plan Last May to Slay the Nation's Executive and a Man Was Sent West to Kill Him.

(By Associated Press.)

LOCKPORT, N. Y., Sept. 10.—Details of a previous plot against the life of President McKinley are given out on authority, it is said, by Senator T. E. Ellsworth. He is accredited with the statement that the plot was hatched in Paterson, N. J., about the first of May, and Emma Goldman, Louis Binstein and other prominent anarchists are said to have been concerned in it. A young tailor, Michael Anunzi, was the one to whose lot it fell to do the deed. At the time the president was on his tour of the west, and Anunzi left for San Francisco, where he expected McKinley would be by the time he reached there. But he arrived several days ahead and attended several anarchist meetings, where he met a young man to whom he told his purpose. The young man was a secret service detective, and Anunzi was arrested.
