CHANGES BEING MADE

IMPROVEMENTS IN COPPER CITY COMPANY'S GREAT STORE.

PUTTING IN PASSENGER LIFT

Claimed That the Renovated Store Will Excel Any Similar Establishment in the West—Several New Features Added.

(Special to Inter Mountain.)
Anaconda, Jan. 17.—At an expenditure of several thousand dollars, the Copper City store is undergoing some changes that will add greatly to the appearance of that establishment.
F. J. McGrath, who succeeded D. J. O'Donohue as manager of the cloak and millinery department, has been supervising the attractions on his floor.
His department is to be benefited more than any other by the change, and when the work is completed he will be at the head of one of the finest salesrooms in the West.

Equal to Butte.
It will equal, if not be superior, to any of the kind in Butte.
Another innovation will be the installation of a passenger elevator to convey customers to the various floors of the building.

No other business house in this kind is equipped with anything of this kind, so it will no doubt be a much appreciated improvement.
A waiting room for ladies will be one of the number of improvements to be made. This room will be located on the second floor in the vicinity of the millinery and fashion department.
A number of clerks heretofore employed on the first floor have already been transferred to Mr. McGrath's department.

WILL HOLD THEIR PLACES.

School Teachers of Anaconda Now on Roll Will Be Retained.

(Special to Inter Mountain.)
Anaconda, Jan. 17.—According to Supt. J. A. Koontz of the Anaconda public schools it is not likely that there will be any change of teachers in the city schools, notwithstanding the resolution passed recently that only teachers holding first grade certificates shall be given employment.

"This resolution," said Superintendent Koontz, "does not apply to substitute teachers, and the only cases of teachers not having certificates, employed as such, who have been working regularly.
"I think these teachers will be kept on as they are, and while they are doing duty as regular teachers they are really substitutes.
"They are all doing good work in their respective departments."

SMELTERMEN MAKE MERRY.

Dance Given Last Night Was a Distinct Social Success.

(Special to Inter Mountain.)
Anaconda, Jan. 17.—The second annual ball given by the members of the Mill and Smeltermen's union last night at Hibernia hall was a big social success. It was by far the best affair of the kind ever given by the union, which fact acts as a source of pride to the members of the various committees and others who contributed to making the occasion an enjoyable one.
Everything went along without a hitch to mar the pleasure of the merry dancers, and the program, which in many respects was a novel one, was carried out to the letter. The program was as follows:
Grand march and quadrille, "Our President," waltz, "Butte M. and S.," two-step, "New Works," French minuet, "Our Mayor," lancers, "City Fire Department," waltz, "Butte Miners," Columbia, "Our Sheriff," two-step, "Our Vice Presidents," princess, "Women's Protective Union," free silver, "Our Treasurer," quadrille, "Converter Boys," waltz, "City Council," two-step, "Our Secretaries," lancers, "Retail Clerks," waltz, "Lower Works," bon ton, "Police Force," quadrille, "Cigar Makers," Baltimore, "Machinists," two-step, "Central Labor Council," society minuet, "Our State Senator," waltz, "Carpenters," schottische, "Our Visitors," quadrille, "Do You Belong," medley, "To A. M. & S. Union, No. 117."

The committees in charge of the dance were as follows: Committee on arrangements, Fred C. Green, T. C. O'Keef, John Morrissey, Joe Casey, John Lacey and William Dennis; reception committee, A. J. Legrand, Charles Ahearne, James Sheehan, Pat Tierney, Bernard Oats, Matt McDonough, R. W. Rule; floor committee, O. C. Hallett, A. Gerue, John Sheehy and Robert W. Vobig; usher, John Tierney, E. J. Dugan and George Shuttley.

Hereafter these meetings will close promptly at 9 o'clock.
Saturday evening there will be a platform meeting, with short addresses by the pastor and a few others. No meeting will be held next Monday night, as that evening will be taken for rest.

BEGIN TRACKLAYING

WORK EAST FROM LOS ANGELES CAN NOW BE PUSHED.

GRADING ANOTHER SECTION

Duplicate of the Short Line Route Over Bolter Summit—Reasons Given Why San Pedro May Buy Short Line Track.

(By Associated Press.)

Salt Lake City, Jan. 17.—Vice President J. Ross Clark of the San Pedro, Los Angeles & Salt Lake arrived yesterday, and was closeted all the afternoon with Attorney Whittemore, and in the evening was at the Alta club until the 10:50 train for Butte, on which he traveled to Montana.

In conversation last evening, Mr. Clark gave out some interesting news. Tracklaying has commenced on the road East from Los Angeles and will be kept up now uninterruptedly. Grading has also been commenced on the section between Pomona and Ontario, so when the steel gang reaches Pomona another section will be graded east of there. As to the work in Utah, Mr. Clark said he hoped it could now be started, but surveys are now engaging all the time of the local officials.

Fear More Legal Trouble.

Another 20-mile section map was filed in the United States land office here yesterday.

This is for 20 miles north of the map filed two weeks ago, and brings the line up to Fairfield, and is one more indication that the smelter route will be established.

But the map filed for the line over Bolter summit is liable to cause further legal entanglements, for the Oregon Short Line filed a map last November over the same summit, prior to the San Pedro's filing. The news was withheld until the Tribune published it a short time ago.

The Short Line's route is for the Ophir-Tiatic cut-off line from the Garfield branch.

Mr. Clark and other San Pedro officials know nothing of the reported negotiations in New York for the purchase of the Short Line's track from Salt Lake to Calientes.

DEFICIT OF \$14,000,000.

German Budget Shows, But This Is Covered by Surplus of 1900.

(By Associated Press.)

Berlin, Jan. 17.—The minister of finance, Baron Von Rheinbaben, in the lower house of the diet, presented the budget for 1902, in which the ordinary estimates show a deficit of 70,000,000 marks (about \$14,000,000).

This, however, the minister explained, had been covered without special difficulty—thanks, primarily, to the imperishable services of the late finance minister, Dr. Miquel, whose foresight had collected a surplus which at the end of 1900 amounted to 71,500,000 marks (about \$14,300,000).

The budget for 1902 estimates the Prussian revenue at 2,614,167,144 marks (about \$523,823,429), the ordinary expenditure at 2,467,457,174 marks (about \$493,491,434) and the extraordinary expenditure at 146,709,770 marks (about \$29,341,944). Compared with the revenue for 1901, the expenditure shows a decrease of 31,847,462 marks (about \$6,369,492).

The heaviest reduction in revenue comes under the head of state railroads, the estimated profits on which show a decrease of 32,779,769 marks (about \$6,555,953). Among the extraordinary expenditures, an outlay of 37,755,000 marks (about \$7,551,000) is provided to supply the railroads with 250 additional locomotives, 550 passenger cars and 3650 freight cars.

Referring to the Polish question, the Baron reminded the Poles by saying: "Who sows the wind, reaps the whirlwind," adding that they were now going to reap the whirlwind.

BARONESS A YUKON MINER.

Story of a Woman of Title Hustling in Far Off Gold Fields.

(By Associated Press.)

Chicago, Jan. 17.—Baroness Lillian von Tisse, a German woman of noble birth, who is a woman miner in Alaska, is in Chicago after an absence of four years at Cape Nome, Dawson City and other points in the goldfields.

She came here to buy machinery for hydraulic mining and a ten-room portable house, which she will have shipped in sections to Cape Nome. She will return to the Klondike in the spring.

The baroness is only 39 years old and is unmarried, having taken her title from her father, Baron Karl Von Tisse, of Leipzig, Germany, who came to the United States about 28 years ago and lived both in Cincinnati and St. Louis.

She went to the Klondike, not because it was necessary for her to make her own living, but because of a love of adventure. A fortune was left her by her father, and the first business in which she engaged was wheat speculation in Los Angeles. She left Seattle early in the spring of 1898 alone, and has been alone in her adventures ever since.

She traveled without aid, did her own sledding with her own reindeer, shot the rapids of the Yukon and other rivers in Indian canoes, did her own prospecting, staked out her own claims and then guarded them against deprecation with a rifle which she knows how to use well. When she began to pan and dig she struck gold in enormous quantities, and when she left Cape Nome she brought with her nearly \$200,000 in gold. She left behind her four claims, and has had offers while here of \$100,000 for a half interest in one of them.

SELLS M. D. DIPLOMAS.

Fraud Order Against the Central University of Medicine and Science.

(By Associated Press.)

Washington, Jan. 17.—The postmaster general has issued an order denying the use of the mails to the "Central University of Medicine and Science," and J. W. Norton Smith, president, 68 Montgomery street, Jersey City. The university represented that it was an incorporated institution in good standing and that it had an extensive medical faculty. To those desiring to practise medicine

the University of Medicine and Science sold diplomas at prices ranging from \$5 to \$20, according to the ability of the prospective M. D. to pay. The scheme is identical with that operated in Chicago by James Armstrong, under the title of the Metropolitan Medical college. Armstrong was tried before Judge Kohlsaat in the United States circuit court and sentenced to one year in jail.

The department of justice will probably take action against J. W. Norton Smith, who is named in the fraud order as the promoter of the present scheme.

ADMIRAL WALKER'S INFLUENCE.

The Secret of It Is That He's Senator Allison's Brother-in-Law.

(By Associated Press.)

Washington, Jan. 17.—Two senators were today discussing the proposition for the sale of the Panama canal, and reference was made to the well-known fact that Admiral Walker, the chairman of the Isthmian canal commission, would have recommended the selection of the Panama route had the proposition for the sale been submitted to the commission before the report was handed to the president. Then the senators fell to discussing the personality of Admiral Walker, and one of them said:

"He is a remarkable man. He has great ability, and in addition he has very large influence with the powers that be in congress and out. I can't account for it. He always got good commands at sea, and when he was chief of the navigation bureau his word was law. He is one of the most influential men in Washington and his opinions have great weight in congress. When he makes a recommendation it is generally acted upon favorably, and I'd like to find out the secret of it all."

"Why," said his colleague, rising with a pitying smile, "don't you know?"
"No, I don't. What is it?"
"Well, nothing, except that he is Allison's brother-in-law."

No further explanations were needed or asked.

BOTTLE TO BRIDEGROOM.

The Ohio River Aids in Making a Match by Carrying Message.

(By Associated Press.)

Pittsburg, Jan. 17.—Clara Plumb of Dewey station on the Baltimore & Ohio railroad, above McKeesport, has made known her marriage to Thomas Morgan, of Carroll county, Ohio.

About a year ago Miss Plumb wrote her name and address on a paper and, placing it in a bottle, threw it into the Monongahela river.

She also stated that whoever found the bottle should open correspondence with a view of matrimony. Fate guided Thomas Morgan to the banks of the Ohio, near Steubenville, not long after that and east the bottle into his hands.

He responded promptly and their wedding occurred several days ago. Mrs. Morgan is an orphan about 30 years and the groom is 19 years older, and is said to be well-to-do.

CLEVELAND BASS MOUNTED.

Ex-President and Dr. Bryant Were Arrested for Catching It.

(By Associated Press.)

Boston, Jan. 17.—A black bass 7 1/2 inches long, for catching which Dr. Bryant of New York was fined at Monterey last summer, although former President Grover Cleveland also laid claim to it, has been handsomely mounted, inclosed in a glass case, and is now on exhibition at the office of the fish and game commissioners at the state house.

Mr. Cleveland and Dr. Bryant on that particular trip were constantly under suspicion, and when the natives learned that "the fat man with the white hat," whom they told the deputies to watch, was the former president, and that he had caught a fish half an inch shorter than the law allowed, there was a sensation.

BICYCLIST'S LARGE EARNINGS.

Wm. Martin Said to Have Made \$37,000 on an Australian Race.

(By Associated Press.)

Salt Lake, Utah, Jan. 17.—John M. Chapman, the well-known professional bicyclist, has received a letter from Melbourne, Australia, which states that William Martin, known all over the world as "Plunger Bill" Martin, won the big Australian handicap race held at Melbourne early in December, in which race he cleared \$37,000.

The race is a two-mile handicap, with a first prize of \$2000, and Martin, it is claimed, backed himself to the extent of \$35,000.

Martin intends to return to his home in Lowell, Mass., next spring.

NEW CURE FOR CANCER.

French Doctor Now Experimenting With Arsenic and Quinine.

(By Associated Press.)

Paris, Jan. 17.—Dr. Lucien Leroy has communicated to the Academy of Medicine his belief that cancer can be cured internally by the administration of arsenic and quinine simultaneously in the rapacious doses.

He says that he cured in a few days a case of cancer of the lungs, the patient being a woman 57 years old.

He is experimenting further and intends to communicate the results to the academy.

He believes that the parasite of cancer is very similar to that of intermittent fever.
