ALLEN COMES HOME

FOUND PROSPEROUS CONDITIONS IN THE EAST.

INQUIRY FOR MONTANA MINES

This State Looked Upon as a Favorable Field for Investment—Visit to the Nation's Capitol—Farmers Are Busy.

(Special to Inter Mountain.) Anaconda, April 19.—Wm. R. Allen, the well known mining operator, returned home last evening from an extended tour of the east, where he went upon an important business errand. He came home well pleased with the results of his trip, and will, in a few days, go out to his French gulch properties and prepare to open up this season's placer work and to push more vigorously than ever on the gold quartz mine now under process of development, and which promises to yield large returns before long.

While away Mr. Allen stopped at Chicago, Washington and New York, and everywhere he found much interest taken in Montana mining enterprises, and he was besieged on every hand with inquiries about the various camps and the more important mines of the state.

Want to Invest.

Men with capital are ready to invest in propositions of merit and with them Montana is looked upon as a favorable field.

Mr. Allen spent about 10 days in Washington, and while there had the opportunity of attending several sessions of congress. He met the members of that body from Montana who extended him many courtesies, and through them he had the pleasure of meeting many of the nation's prominent leaders.

"Financial conditions in the east are in good shape at the present time," said Mr. Allen today. "Everyone seems to be prosperous; factories are running full blast and a general good feeling prevails among all classes of people."

"The weather on the Atlantic coast has been very wet during the past few weeks. The precipitation has been so great that the farmers have been delayed in getting at their spring work."

Crops Need Rain.

In the middle states this has not been the case, and in that section agriculturists are somewhat perturbed over the continued dry weather. The farmers there are at work, however, and busy putting in the grain. The meadows are getting quite green on the low lands, where there is sufficient moisture."

Mr. Allen stopped a day in Salt Lake and met several former Anacondans, who have taken up their residence there. Among them were Messrs. Richardson and Adams, at one time associated with John Odson in the gent's furnishing business in this city. They are following the same lines there and doing a thriving business at one of the best locations in the Mormon city.

Mr. Allen will leave for French Gulch next Monday.

MISS SARAH M'MILLAN DEAD.

Young Lady Passes Away After a Long Illness.

(Special to Inter Mountain.) Anaconda, April 19.—After a lengthy illness, Miss Sarah McMillan, aged 19 years, died this morning at the residence of her parents, Mr. and Mrs. Hugh McMillan, 601 East Eighth street.

The deceased young lady came to Anaconda with her parents some 16 years ago and his resided here ever since. There are several other children, all residing at home, one of them, Miss Jennie McMillan, being a teacher in the city schools.

Mr. and Mrs. McMillan and their family are well and favorably known in Anaconda, and their many friends extend to them their deepest sympathy at the loss they have suffered.

The funeral arrangements have not yet been made.

LAY IN THE GUTTER

TWO 14-YEAR-OLD BOYS FOUND DEAD DRUNK.

JUDGE HAYES TO INVESTIGATE

This Is the Sixth or Seventh Time Minors Have Been Discovered to Be Intoxicated—Those Who Sell It Will Be Punished.

(Special to Inter Mountain.) Anaconda, April 19.—At 5 o'clock this morning two 14-year-old boys were found lying in the gutter on East Third street, dead drunk.

The officer who first discovered them succeeded in partially awaking one, and took him to the city jail.

The other was so under the influence of liquor as to be absolutely dead to the world, and was taken to a nearby house to sleep off the effects.

Judge Hayes, at the city hall, immediately gave the matter his attention and started an investigation as to where the liquor was secured, and he says, with good results.

"This is the sixth or seventh time that minors have been found in a state of intoxication," said Judge Hayes, "and it is time the matter was looked into."

"Persons who are found guilty of selling liquor to these boys will be dealt with as severely as the law will allow. We will get the fellows that furnished these boys with the intoxicants, all right, and when the others see what we do to them it will act as a sort of stop to that kind of thing."

WALSH AS JANIE MEREDITH.

Played to a Good House in the Margaret Last Night.

(Special to Inter Mountain.) Anaconda, April 19.—As "Janice Meredith" Miss Blanche Walsh has not near sufficient scope in which to display her ability as an emotional actress.

She plays the character of the continental girl to perfection, with but little effort, and the same may be said in a great measure of her support.

A well-pleased audience witnessed the production at the Margaret last night, and Miss Walsh's many Anaconda admirers gave her no end of applause. Still it seemed rather strange to see her clad in the costume of a girl of 100 years ago rather than in the robes of a mediaeval queen, and her company attired in the buff and blue and crimson as were the warriors of the time, rather than in plated armor or purple togas.

She was favored with a good house.

At the Theater.

(Special to Inter Mountain.)

Anaconda, April 19.—The Al. G. Field Greater Minstrels will make their annual bow to their legions of admirers at the Margaret theater next Wednesday. For years this magnificent company has regularly paid us a visit, and every recurring engagement has gone into history as an event of the season's amusement. Mr. Field has come to us each year with an assertion that he had something better to offer than upon his preceding visit, and to the credit of the comedian he said this promise has always been faithfully kept. It is not alone the performance which causes all the buzz of expectancy when the bright-colored paper is spread on the walls announcing the coming of the minstrel. Their noonday parade has always been a potent attraction.

The rustic drama, "Way Down East," which comes to the Margaret theater on next Friday, controlled by William A. Brady, continues to do a record-breaking business everywhere. It has been displayed that it has made records for long runs than any piece produced for several generations.

SHEEP GULCH COAL

INTEREST MANIFESTED IN THE PERRY FIND.

INDICATIONS OF A BIG MINE

Four-Foot Vein Exposed—Samples of the Product Found Brought to Town Cause Much Favorable Comment.

(Special to Inter Mountain.) Anaconda, April 19.—Considerable interest has been manifested in the past few days over the effort being put forth to open up a coal mine in Sheep Gulch, a short distance south of the county court house. Several months ago Isaac Perry and son located some lands in the gulch which showed strong indications of coal.

They at once began prospecting with the result that several stringers of the real article were exposed in an incline shaft sunk on the course of the rappings.

Mr. Perry at this juncture enlisted assistance and a company was formed and by disposing of a quantity of treasury stock funds were secured and work resumed on a more extensive scale.

Four men are engaged at the present time in driving a tunnel and sinking the incline to a greater depth.

Mr. Perry stated this morning that his men have opened up a well-defined vein, about five feet in width, which contains a good quality of coal.

It contains, he says, very little ash, and throws out a strong heat when exposed to the flames. The happy discoverer of the property is in jubilant spirits over the outlook and firmly believes that he is an interested partner in what is certain to become a bonanza.

Specimens of the product brought to the city have been very favorably commented upon.

FOR TIRED, NERVOUS WOMEN.

Rest and Sleep Will Make You New—Try Them.

(Chicago Record-Herald.) Learn how to do nothing. Practice cultivating complete rest. Any woman can do it. Begin by completely relaxing every nerve and muscle for five minutes a day.

If you are a home woman, go to your own room and give orders that in no event are you to be disturbed. Draw the curtains and close the door; lie down, if possible.

Say to yourself: "I have left care and worry and anxiety outside my door. I will rest my soul and body absolutely for these few precious moments."

Wide-awake repose, if complete, will prove inestimably restful. A few minutes of absolute relaxation, literally thinking of nothing, will greatly revitalize the nervous woman.

With regard to the amount of sleep required for women, an author of repute says well that one aspect of this subject is frequently overlooked. Extremely energetic women appear to take a virtuous pride in limiting themselves to four or five hours' sleep, really grudging that, and considering it more a disgraceful evidence of laziness and a reprehensible waste of time.

Now, viewed simply from a purely material and hygienic point, this is an error. It is quite possible to accustom yourself to so little sleep as to be greatly the loser thereby. It may not show immediately, but it will in the end.

From seven to eight hours' sleep is needed by all people leading active lives, and brain workers can least afford to cut down their allowance. If for any reason it is occasionally necessary it should be made up by extra sleep as soon as possible. Any other course undermines the strength insidiously and the penalty is invariably a breakdown of some sort. The severer the tasks imposed upon the brain, the more sleep it should be allowed.

The woman who cannot sleep is always a nervous subject. She should religiously take enough physical exercise each day to induce healthful fatigue. She should eat simple, easily digested food, avoiding tea and coffee later than her breakfast hour. Many women declare that tea and coffee have no effect upon their nerves. I know they are mistaken. Coffee and tea are excellent excitants and enemies of sleep.

The insomnia victim may be lulled to rest by a gentle massage—the hypnotic stroke will often act as a magical sleep inducer. Sometimes a rub with hair friction gloves will induce sleep. A tepid bath taken just before retiring has a sedative effect. But a hot bath is stimulating, and should not be taken at night by nervous subjects.

OPENING THE BIDS

FOR CONSTRUCTION OF NEW HIGH SCHOOL BUILDING.

BOARD WILL EXPEND MONEY

Remainder of \$13,000 to Be Used in Furniture and Equipment—Work to Commence Soon.

(Special to Inter Mountain.) Anaconda, April 19.—The proceedings of the board of education to be held tonight will be watched with interest for the reason that the bids for the construction of the new high school building on South Main, between Fifth and Sixth streets, will be opened by Clerk Harry Neel and placed before the board for consideration and the contract will probably be let to the contestant who proves to be the lowest bidder.

The members of the board are as anxious to get the new school building started, the intention being to have it completed and ready for occupancy by the beginning of the next school year in September.

Out of the \$38,000 voted by the citizens of Anaconda at a special election held some time ago, \$45,000 is to be used in the construction of the building alone, while the balance is to be applied in the purchase of the ground which has already been contracted for; also in the acquisition of furniture and equipment of the school.

It is the intention of the board of education to have one of the finest high school buildings in the state erected here this year.

It will be modern in every respect and a marvel of architectural beauty. Work upon the excavation will probably commence within the next ten days.

The Cahoon Hearing.

(Special to Inter Mountain.)

Anaconda, April 19.—The preliminary hearing of L. H. Cahoon, charged with the offense of burglary, alleged to have been committed in the vicinity of Lost creek, has been set for hearing next Friday before Justice Kennedy. In the meantime Cahoon is out on a \$500 bond.

CHINESE REBEL FORCE.

Missionary Who Says That Trade in Nan Ning Province is Paralyzed.

(By Associated Press.)

Hong Kong, April 19.—The Rev. Mr. Landis, an American missionary who has arrived from Nan Ning, province of Kwang Si, confirms the reports of the seriousness of the rebellion in the southern provinces of China. He says all trade beyond Nan Ning is paralyzed.

The stores there are packed with goods, stopped on their way to the interior. The total rebel force numbers about 10,000 well armed men. The country around Nan Ning is simmering with discontent arising from the oppression of the prefect of that district.

The rebels are friendly towards foreigners and Christians and allow the imperial post to penetrate into the rebel districts and deliver mail to foreigners.

REVOLUTIONARY LITERATURE

Political Prisoners Are Resorting to Starvation Tactics to Secure a Hearing or Their Release.

(Correspondence of the Associated Press.) St. Petersburg, April 12.—The St. Petersburg university and a number of other high educational institutions, were reopened yesterday. The attendance was light and bottles of ill-smelling chemicals were opened in many of the lecture rooms.

The student reports give the total number of arrests in Moscow during the last two or three weeks as 1800. They anticipated the exile to Siberia of the greater part of the 400 students who offered the government armed resistance in the University of Moscow.

The turbulent elements continue to utilize the theaters as places for the distribution of revolutionary literature. At Nijni Novgorod, during the recent celebration of the birthday anniversary of Gogol, the Russian author, leaflets were thrown from the gallery of a theater at a moment when the place was darkened. The ushers picked up the packages and began distributing them, thinking they were theatrical notices.

From many towns it is reported that political prisoners are generally resorting to starvation tactics to enforce their release or obtain a hearing.

Forty-eight persons thus secured their release a short time ago from a detention prison in this city, where they had been held without an inquiry for nearly a year.

In the great transport prison for condemned criminals here, which is now filled with political prisoners, the wardens are now seeking to dissuade their charges from refusing food by promising their release shortly.

Many students are preparing to go abroad for study. It is said that this action has caused more serious attention to be given to the project, attributed to the finance minister, M. DeWitte, to increase the fee for the issue of passports to go abroad.

General report has it that the minister seriously proposed to charge all Russians who desired to go abroad 300 roubles for the first six months and 200 roubles for each additional half year.

Passport fees were increased two years ago from five to fifteen roubles a year, the addition being for the benefit of the Red Cross society.
