SCARLET FEVER HOLDS GRADY

CASE WILL BE TRIED THIS WEEK

MRS. PROULX IS QUARANTINED CASE FROM DISTRICT COURT

Mrs. Minnie Grady, the woman who is charged with drugging and then robbing Mrs. Emma Proulx of \$500 worth of diamonds while they were out for a buggy ride on the road to Roker one Sunday about two weeks ago, is stoically awaiting trial in a cell in the women's department of the county jail. Saturday night her two daughters and little son went away to Great Falls to live with their uncle, and yesterday and today she lacked the daily visits from them which were wont to break into the monotony of her confinement.

Mrs. Grady is not disposed to be sociable with the other women confined in the jail, and considering their character small blame attaches to her for that. Most of the other inmates are from among the depraved habitues of Pleasant Alley and Galena street, and Mrs. Grady is far above the class they represent, no matter the result of her forthcoming trial on the charge of robbery.

Scarlet Fever Flag.

While Mrs. Grady has been immured within the whitewashed walls of the county prison reflecting upon the hard and sorrowful paths of women who amuse themselves on the Sabbath day with drives, hot whiskies and headache medicine, Mrs. Proulx, the alleged victim of her machinations and insatiable greed for gems, has been enjoying the bizarre features of a quarantine for scarlet fever. Mrs. Proulx has the fever and is held and stayed from the society of ladies, who go driving and prescribe for the rheumatism, by the yellow flag of the health office.

The public is no doubt waiting for the prosecution of Mrs. Grady on the charges of robbery and assault, and County Attorney Breen was interviewed this morning relative to when he would start the legal ball rolling that may gyrate her into the state prison.

Trial Begins Soon.

"We'll move in that matter this week, in all probability," said Mr. Breen. "But Mrs. Proulx is quarantined for scarlet fever, and she is the principal witness and we are waiting for her to get well and become available."

"How long has she been quarantined?"

"Since about the time Jimmy Reynolds made his last roar," replied the official with a complacent grin, referring to the chief of police.

Mr. John N. Kirk is Mrs. Grady's attorney, and he said today that he would have a consultation with Mr. Breen at once concerning Mrs. Grady's case and the filing of an information against her. Mr. Kirk was engaged in the Nixon house case all of last week and the week before and had no time to take the matter up sooner.

In all probability there will be either a preliminary examination this week or an information filed against the defendant. Perhaps there will be both. The county attorney's office staff will begin on the case at once.

HALCYON TAX DAYS

CITY TITHES GATHERED WHILE APRIL SUN SHINES.

SOME ESCAPE THE COLLECTION

Tax Falls on Just and Unjust, Like the Rain—Men Paid by Check From Out of Town Go Scott Free—Sad Week for Salaries.

These are the days of the poll tax man. You pick up your pay check expecting to see the usual amount which you have already settled as to distribution and you are electrified to discover that its several dollars below the usual amount.

The first thought that flashes through the disturbed brain is that the boss is cutting expenses and that your salary has been reduced, but a further glance discloses the presence of a little receipt which informs you that Silver Bow county is grateful to you for two dollars poll tax, and you cannot suppress a little resentment at the fact that Silver Bow county did not after the manner of your other creditors present a bill and give you a chance to figure out assets and liabilities with a little more accuracy.

"The poor man always pays his taxes," said a man today, when he discovered that his check was a little short.

"It doesn't seem just fair to me that because we get our money in the form of salary we are expected to pay the taxes of a number of those who do not."

An Old Offender.

"There are men in Butte who are far better able to pay taxes than the poor clerks and workmen, but they never put a cent in the county treasury. That is a well known fact."

"Yesterday a man said to me, 'I haven't paid a cent of tax during the 13 years that I have been in Butte,' and he was earning a good salary too, but he didn't get his pay in a manner that made it convenient for the poll tax man to get it, and besides this fellow was one of the inmates, for there are a certain number who are immune, why, I am sure it would be hard to tell. They are simply exempt from taxation because no one collects."

"Now, I am not kidding because I have to pay a tax. I believe that every American citizen ought to contribute to the support of the country's government, whether local or national, but I do not think, and there are thousands who agree with me, that the working people ought be called upon to pay it all."

Depends on Pay Rolls.

"The tax collector depends upon the pay rolls for the names of those from whom he collects, and as there are hundreds here in Butte whose names do not appear on any pay roll, many of them indeed are paid by concerns in the East, they escape paying taxes at all."

"The peculiar point about this is that these men are the best paid, and the ones who can most easily afford to pay taxes."

"I would like to see some statistics published showing the number of men in this city who do not pay poll tax."

"It would not be a bad idea to publish a list of those who do not and post it in a conspicuous place as the registry lists are posted. That would give everybody an opportunity to see who are paying and who are not."

RECALLS SULLIVAN MURDER

Judge McClernan today gave ex-Mayor McCarthy the privilege of selling for \$250 a quarter interest in the Crystal lode mining claim located about two and a half miles from Pipestone Springs.

The interest belongs to the estate of Con Sullivan and Mr. McCarthy as administrator of the estate has been offered \$250 for it.

Testimony was adduced to show that the property had not produced anything and that there are no producing mines near it.

Con Sullivan, his brother Florence, and one Rooney were murdered on Unamik Island, Alaska, 11 months ago. They were Butte men.

Con Sullivan owned considerable mining property here, the Homestake in Park canyon being also one of the discoverers of the famous Bunker Hill and Sullivan group in the Coeur d'Alene country.

According to Mr. McCarthy, there is an indebtedness of about \$10,000 against the estate.

HANCOCK HURT AT ORIGINAL

Three physicians are this afternoon in consultation as to the advisability of amputating the shattered limb of Richard Hancock, the man who was injured Sunday at the Original mine, and who is now hovering between life and death at the St. James hospital.

Hancock's condition is serious, although he felt a little better today than he did last night. It is believed that the amputation of his right leg will be necessary to save his life, although there is a question in the minds of the attending physician whether he will survive the operation.

Hancock and four other miners were coming to the surface from the 1,300-foot, ringing on the cage, and supposed that the skip which went up ahead of them had gone into the chute at the collar of the shaft. It appears that the skip stopped in the shaft and was struck by the cage. The collision dislodged a large iron roller, which crashed through the cage.

Hancock's right leg was broken in several places and his foot was mangled terribly.

Hancock is married and has a family. Judge M. H. Parker of Jefferson county is among the visitors in the city today.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes, or any external or local application, is just as unreasonable and senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes almost immediately fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors, which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive effete matter, and when rich pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable painful symptoms disappear, and a permanent, thorough cure is effected. S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.
