

BY UNUSUAL POMP

CONSECRATE NEW BISHOP OF COLORADO DIOCESE.

MAGNIFICENTLY DECORATED

New Prelate Succeeds Rev. John F. Spaulding in an Important Episcopal Charge—Large Edifice Is Crowded.

(By Associated Press.)

Denver, Col., May 2.—Rev. Dr. Charles S. Olmstead, formerly of Pennsylvania, was consecrated as bishop of the Episcopal diocese of Colorado at St. John's cathedral in this city today, succeeding the late Bishop John F. Spaulding. The large edifice was crowded and more than half of those who desired to attend the services were unable to gain admission to the church.

The services, which were attended by unusual pomp and splendor, began at 10 o'clock this morning and were not concluded until nearly 1 p. m. The cathedral was magnificently decorated. An orchestra of 25 pieces and a choir of 35 voices furnished music.

After prayer and a hymn, Rev. Joseph Houghton of this city, master of ceremonies, recited the creed, which was responded to by the entire congregation. Bishop Leighton Coleman of Delaware then delivered an interesting and impressive sermon.

Robing New Bishop.

After further selections by the orchestra and choir, Bishop John H. White of Michigan City and Frederick W. Taylor of Quincy, Ill., clad in their Episcopal robes, advanced to Bishop-elect Olmstead. He arose and, with bowed head, was escorted to the center of the altar, where stood Bishops William H. Hare of South Dakota and Abel Leonard of Salt Lake, the committee appointed to consecrate.

The five formed a cross, as it were, while the testimonials of the bishop-elect were read. Then came his promise of conformity, one of the most solemn promises in the ritual of the church.

Scarcely a sound could be heard in the church except the voice of the bishop-elect as he made the responses.

The bidding to prayer was by Presiding Bishop Tuttle. It was a pretty ceremony and the entire congregation took part. The litany services followed. Next came the examination of the bishop-elect.

This was merely a matter of form to conform with the ancient ritual of the church, for during modern times it has been the custom to ascertain all the qualifications of a candidate for the office before he is presented for consecration.

Selections by Chairs.

The most important part of the exercises—the robing of the new bishop—was very impressive. As the committee on consecration said the words that made him a prince of the church, the work of robing him began.

He was invested with the purple and red of his office with much ceremony, while the choir sang an anthem from Mendelssohn.

After prayer and the communion service, Bishop Olmstead gave the benediction and the services were over.

Early in the morning, holy communion was celebrated at the cathedral and all the Episcopal churches in the city, with special prayers for the bishop-elect, and the welfare of the diocese.

At the conclusion of the ceremonies in the cathedral, a luncheon was served the bishop and clergy at Wolfe hall and later a reception was given at the Brown Palace hotel, in honor of Bishop and Mrs. Olmstead and the visiting bishops.

GERMAN COMBINE

LEADING PLANTS OF THE EMPIRE JOIN HANDS.

DO AWAY WITH COMPETITION

Also Expect to Repel the American Invasion of the German Markets

—Increase Tariff on Machinery.

(By Associated Press.)

Berlin, May 2.—German cast iron works and foundries are preparing to form a gigantic combination which will embrace all the leading plants of the empire.

The negotiations have progressed so far that an agreement has already been drawn up and signed by most of the concerns with the exception of the Union foundry and several other large works, which will, however, be obliged to enter the combination.

There will be no transfer of capital, but the main purpose will be to do away with competition and defend the market from "American invasion" and other interests.

The reichstag tariff commission, which, in a few days, take up the debate on the increased tariff for machinery, agricultural implements, tools and finished industrial products, which will strike more closely at American trade than that of any other country.

Raw material interests are demanding a high protective tariff to stop the progress of American iron, steel, coal, copper and other imports while manufacturers are again in favor of a low tariff so as to admit cheap American material.

American tools and agricultural implements have revolutionized the farm and factory methods of Germany and any attempt of the agrarians and raw-material men to exclude them will meet with bitter resistance.

SHOT THE SEXTON BEEF LEFT OVER PEACE PROMISING

CRAZY MAN USED A REVOLVER IN FRONT OF CHURCH.

POLICE FINALLY GOT HIM

Large Number of Citizens Fail to Make the Arrest—At Last Knocked Over by Little Boy.

(By Associated Press.)

Wilkesbarre, Pa., May 2.—After shooting a man twice, Peter Wannett held the police and a posse at bay for nearly two hours. Wannett fired many shots at the crowd, but was finally brought to earth by a boy who knocked him senseless with a stone.

Wannett was found parading before the Russian Catholic church, twirling a revolver and making remarks about the church.

Sexton Russinit came out of the church and Wannett began shooting at him. One bullet went through Russinit's arm and another struck his thigh.

Several persons tried to overpower the infuriated man, but were shaken off, and he ran, shooting at those who pursued.

When the police arrived he was on top of a steep bluff, and they could not reach him without exposing themselves.

They called upon citizens for aid, and the bluff was surrounded.

For more than an hour police and citizens tried to reach Wannett, but each time they approached he fired.

Finally, just as the police had secured rifles, Wannett dashed through the line, shooting right and left, and got away. He was brought to bay a mile distant, and another circle formed.

This time the crowd, having no other weapons, began throwing stones, and finally a boy brought the man down, and Wannett was then taken to jail.

MATTER OF TIME

PHILIPPINE ISLANDS WILL SOON BE PACIFIED.

REAR ADMIRAL REMEY BACK

United States Could Not Withdraw Troops—Chaos Would Result—Natives Certainly Not Capable of Self-Government.

(By Associated Press.)

New York, May 2.—Rear Admiral Remy, who has arrived here on the Brooklyn after a tour of sea duty in the far east, was interviewed on the conditions in the Philippines.

He said: "Concerning general conditions in the island, General Chaffee told me before I left that things were progressing satisfactorily—slowly but surely—and that pacification was only a matter of time.

"Talk of the withdrawal of the United States from the Philippines is based upon an inaccurate and incomplete knowledge of the conditions out there. The country could not withdraw. Chaos would be the result.

"My observations have convinced me that the natives are not capable of self-government yet.

The crew, officers and marines of the Brooklyn presented a loving cup to Rear Admiral Remy.

Cannot Open Negotiation.

San Jose, Costa Rica, May 2.—President Iglesias in his message to congress says that no negotiations can be made with the United States concerning the proposed Nicaragua canal bill before a constitutional amendment authorizing the leasing of land for the canal is made.

The president says also that the present crisis has resulted in the exportation of Costa Rican gold coin.

CONSUMPTION FALLING OFF

Result of the Agitation Against the Packers—Everything in Readiness to File the Bill—Awaiting Orders From Washington.

(By Associated Press.)

Chicago, May 2.—Leading packers submitted to a reporter that the consumption of beef has fallen off 3 1/4 per cent since the agitation against the packers began.

One thousand beef cattle—not 10,000, as was reported—were left over from yesterday.

One buyer declared that there would be more than 1,000 head left over today, while another expressed the opinion that the export business would clean up today's receipts.

The yards received 6,000 head of cattle yesterday, it was estimated, against 17,700 head a year ago.

Receipts for April were estimated at approximately 14,000 head less than for the same month a year ago.

The bill for an injunction to be filed against the so-called beef combine is completed, and, as Attorney Day, representative of the department of justice, will probably leave for the East tomorrow, all that remains to be done, it is said, is to wait for word from Washington to act.

The attorney general has a copy of the bill as it has been prepared in Chicago, and District Attorney Bethoa, while authorized to go ahead on his own accord and proceed as he may see fit, will probably await the attorney general's order as to the time of filing the bill.

BIG DEAL IS MADE

LAND FORMERLY OWNED BY THE ELDER ASTOR.

SOLD TO STEEL MILLIONAIRES

First Used for a Pasture by Early Dutch Settlers of New Amsterdam—Sited Outside the Gate.

(By Associated Press.)

New York, May 2.—Contracts will shortly be signed for the sale of the famous Bourcel building at Broadway, Thames and Cedar streets to a new corporation backed by the fortunes of several steel millionaires to be followed by replacing the structure with a modern 25-story office building.

The entire deal involves about \$5,250,000 and may be reckoned one of the most important transactions in the history of New York real estate.

The Bourcel building was once owned by the first John Jacob Astor. It formed a part of his daughter's wedding dowry. Mr. Astor acquired it in 1828 for \$121,000. The title to the land is a remarkably interesting one. It runs well back into the seventh century when William Dyre and his wife conveyed the land to Thomas Lloyd for \$2,550.

It was then described as a lot on the great highway, the Broadway of the present—"outside the gate," which means north of the Old Landgate at Broadway and Wall streets, one of the entrances to the city of New Amsterdam, when under Dutch rule.

The land was used for pasture.
