

DETECTIVE SHOOTS NEW YORK ROBBER

TWO MEN ATTEMPT TO HOLD UP THE PROPRIETOR OF A STORE AND ONE IS PROBABLY SHOT.

FIFTY DOLLARS TAKEN OUT OF CASH REGISTER

One of the Men Escaped From the Store and Got Away But His Partner in the Crime Was Brought Down by the Officer's Revolver—Shooting Caused a Great Deal of Excitement.

New York, May 30.—Detective Sweet, a former member of the army, has mortally wounded a man who is charged with attempting to rob a Second avenue store. The shooting was the culmination of a series of exciting scenes in and near the store.

When the proprietor and two employees were preparing to close the store last night two men entered.

One asked for some fish, and both employees went to the rear to execute the order. The proprietor was sitting near his cash register.

One of the strangers suddenly seized him with a grip known among the police as "the strong arm," as this was done the other man opened the cash register and extracted \$50.

The two employees ran over and seized the man who had the money while the proprietor held his assailant.

The alarm was given and as Detective Sweet entered one man broke away and dashed into the street.

After the last shot the fugitive staggered and fell.

At the hospital it was said he would die. Meantime the second prisoner escaped from the shop-keeper.

The shooting caused much excitement.

FIGURING ON WHAT TO DO WITH CORN TAX

May Convert a War Tax Into an Educational Fund for the Benefit of the Masses.

London, May 30.—A proposal that the corn registration duty shall be converted from a war tax into an educational fund has found favor on the unionist side. If this policy should be adopted, the cost of education will be made a charge upon the national exchequer and local taxpayers will be materially relieved.

The members of parliament advocating this change perceive the advantage of taxing bread for the sake of educating the masses, since the working people would have less cause for complaint and the liberal agitation would be checked.

The protectionists do not disguise the fact that they wish to make the corn duty a permanent tax and to increase it as time goes on and they prefer to dispel the delusion that at present it is a temporary war tax.

GENERAL TREATY SETTLES THE WAR

CHILE AND ARGENTINA COME TO AN AGREEMENT AND BOTH ARE NOW SATISFIED TO BE GOOD.

STRAITS OF MAGELLAN NOT TO BE FORTIFIED

It Is to Last Ten Years and the Arbitrators Shall Be Two Foreign Powers of Which Great Britain Shall Be One—Settlement Has Created Great Satisfaction Through Both Countries.

[BY ASSOCIATED PRESS.] New York, May 30.—The outline of treaties between Chile and Argentina which have just been signed, is, according to a dispatch from Valparaiso as follows:

First—A treaty of general arbitration to cover controversies of every nature arising between Chile and Argentina, providing the said controversies do not affect the constitutional rights of the republics or cannot be decided by direct negotiations.

This treaty is to last ten years and the arbitrators shall be two foreign powers, of which Great Britain shall be one.

Second—A protocol providing for the neutrality of each republic in regard to the pending questions with other countries.

This protocol contains a clause that the Magellan straits are not to be fortified.

Third—A protocol to reduce the armaments of each republic to an equal footing and to cancel the contracts for the warships under construction.

As the carrying out of this protocol presents certain technical difficulties the British admiralty will decide any question, if the respective parties do not agree within a certain period.

The two protocols will be submitted to the congresses of both countries.

After these documents had been signed President Reisco sent a congratulatory message to President Roca of Argentina and thanked Minister Lother for the British government's gracious intervention.

The settlement has created great satisfaction throughout Chile. Several festivals are being arranged to celebrate it.

PREMIER ROSS IS AGAIN IN POWER

ONTARIO LIBERAL GOVERNMENT HAVE A MAJORITY OF SIX IN A FULL HOUSE.

[BY ASSOCIATED PRESS.] Toronto, May 30.—The election of the members of the Ontario legislature which took place yesterday, resulted in a return to power of the Ross liberal government.

At 10 o'clock last night the figures stood, 51 liberals, 46 conservatives, with one place to hear from which will probably elect a supporter of the government. Giving the government in a full house a majority of six.

No great issues were at stake, but the liberals have been in power for 30 years and the conservatives declared the government was corrupt and one of their election cries was "It is time for a change."

The liberals were led by the premier, the Hon. George W. Ross, and the conservative leader was Mr. James P. Whitney.

The advent of the new Ontario was probably the most complete plank in the policy of both parties and one on which both were agreed, although differing in the manner in which it should be carried out.

All the cabinet members in the Ross government were re-elected.

INDIANS ON THE WAR PATH

Yaquis Making a Raid Through Southern Arizona.

[BY ASSOCIATED PRESS.] Tucson, Ariz., May 30.—El Correo de Sonora of May 28 says the Yaqui Indians are again on the warpath.

On Tuesday Yaquis visited La Carmen and Hacienda, near Hermosillo and killed the governor of the ranch, and a servant, besides carrying off the provisions and taking away the best stock on the place.

Another band visited the ranch of Don Juan Maytorena, near Guaymas, and raided it, the occupants having escaped when they saw the Indians approaching.

Several other haciendas were visited and robbed.

The Guaymas papers say that the situation is serious, but whether a general outbreak has set in, it is unable to state at this time.

Found Forgotten Grave.

[BY ASSOCIATED PRESS.] New York, May 30.—In dismantling the little military cemetery at Willets Point, L. I., on orders from Adjutant general, a lone officer's grave was discovered in the heart of the burying ground where it had been hidden for nearly 35 years. It was the grave of Lieutenant Edward Houtard, of the Thirty-second United States infantry who had served throughout the civil war in the Army of the Potomac. The body was disinterred and taken out and buried in the officers' section.

Governor Taft has received a call from Ambassador Meyer. Bishop O'Gorman reported to him the situation of the Philippine question at the Vatican since the governor left, giving the result of his conferences with Cardinal Rampolla. The governor is expected at Rome today.

MISSOURI EDITOR AT WORLD'S FAIR

SOME NICE THINGS SAID ABOUT WHAT THE NEWSPAPERS ARE DOING FOR EXPOSITION.

World's Fair Grounds, St. Louis, May 30.—"The Missouri Editor and the World's Fair," is the title of an address delivered before the Northeast Missouri Editorial association at Warrenton, May 23, by R. M. White, editor of the Mexico Ledger and recording secretary of the National Editorial association.

"The fact is," said Mr. White, "the Louisiana Purchase Exposition has done, and is going to do more in the future, for newspaper men, than any great exposition which has preceded it."

"The World's Fair management realizes that the press has done and is doing for it. It is the avowed purpose of the World's Fair management to extend such facilities, such courtesies and recognition to the press, and on such a scale as were never before given by any exposition."

"If there is any message to deliver to the editors it is this: Treat the World's Fair as it deserves in its character in commemorating an event second to none in the history of the country; treat it as it merits in the development of features and qualities surpassing any previous International exposition; treat it from the standpoint of news."

"The management does not ask that the World's Fair shall be boomed, or puffed, or encouraged."

"It does ask for recognition in proportion to its worth in public interest."

MEMORIAL SERVICES

(Continued from Page One.)

my comrades, the men in the uniform of the United States, who have for the last three years patiently and uncomplainingly championed the American cause in the Philippine islands, are your younger brothers, your sons. They have shown themselves not unworthy of you, and they are entitled to the support of all men who are proud of what you did.

These younger comrades of yours have fought under terrible difficulties and have received terrible provocation from a very cruel and treacherous enemy.

Under the strain of these provocations I deeply deplore to say that some among them have so far forgotten themselves as to counsel and commit, in retaliation, acts of cruelty.

The fact that for every guilty act committed by one of our troops a hundred acts of far greater atrocity have been committed by the hostile natives upon our troops, or upon the peaceable and law-abiding natives who are friendly to us, can not be held to excuse any wrongdoer.

From time to time there occur in our country, to the deep and lasting shame of our people, lynchings carried on under circumstances of inhuman cruelty and barbarity—a cruelty infinitely worse than any that has ever been committed by our troops in the Philippines; worse to the victims, and far more brutalizing to those guilty of it.

The men who fail to condemn these lynchings, and yet clamor about what has been done in the Philippines, are indeed guilty of neglecting the beam in their own eye while taunting their brother about the mote in his.

Understand me. These lynchings afford us no excuse for failure to stop cruelty in the Philippines. Every effort is being made, and will be made, to minimize the chances of cruelty occurring.

But keep in mind that these cruelties in the Philippines have been wholly exceptional, and have been shamelessly exaggerated. We deeply and bitterly regret that any such cruelties should have been committed, no matter how rarely, no matter under what provocation, by American troops.

But they afford far less justification for a general condemnation of our army than these lynchings afford for the condemnation of the communities in which they have taken place. In each case it is well to condemn the deed, and it is well also to refrain from including both guilty and innocent in the same sweeping condemnation.

It behooves us to keep a vigilant watch to prevent these abuses and to punish those who commit them; but if because of them we flinch from finishing the task on which we have entered, we show ourselves cravens and weaklings, unworthy of the sires from whose loins we sprang.

We believe that we can rapidly teach the people of the Philippine islands not only how to enjoy, but how to make good use of their freedom; and with their growing knowledge their growth in self-government shall keep steady pace. When they have thus shown their capacity for real freedom by their power of self-government, then, and not till then, will it be possible to decide whether they are to exist independently of us or be knit to us by ties of common friendship and interest. When that day will come it is not in human wisdom now to foretell.

All that we can say with certainty is that it would be put back an immeasurable distance if we should yield to the counsels of unmanly weakness and turn loose the islands, to see our victorious foes butcher with revolting cruelty our betrayed friends, and shed the blood of the most humane, the most enlightened, the most peaceful, the wisest and best of their own number—for these are the classes who have already learned to welcome our rule.

General Eli Torrence, chief commander of the G. A. R. followed with a few remarks and then the services were brought to a close with the playing of "America" by the band, the choir and assembly joining, and benediction by Henry S. Stevens, department chaplain.

Immediately after the memorial exercises at the amphitheatre the monument erected to the memory of Colonel Edgar O'Connor, of the Second Wisconsin regiment was unveiled in the presence of a number of his comrades.

At the Soldiers' home, at Battle Ground cemetery, near the site of old Fort Stevens and at St. Elizabeth, where lie countless numbers of veterans who lost their reason as a result of military service, and who were buried in the asylum grounds and at other cemeteries, appropriate services were held.

Secretary Shaw delivered the oration at Battle Grounds cemetery.

ASHES COVERED BRITISH STEAMER

IT WAS IN SIGHT OF THE MOUNT PELEE ERUPTION AND WITNESSED THE ERUPTION.

[BY ASSOCIATED PRESS.] New Orleans, La., May 30.—The British steamer Louisiana has arrived here from Trinidad and Colon. Captain Edwards reports that the vessel passed through the storm of ashes precipitated by Mount Pelee, the Louisiana being covered several inches deep.

They were first observed on the afternoon of May 7 when the vessel was between Barbadoes and Trinidad.

The sky began to darken by degrees and at a distance a dark black pall was seen slowly mounting into the heavens and this forbidding gloomy bank of far-away clouds was rent and illumined by constant and vivid flashes of lightning.

The storm gained rapidly on the ship. At 4 p. m. the atmosphere was so thick with clouds and a strange haze that it seemed as if night had set in.

Captain Edwards took an observation of latitude and longitude and found that he was about 107 miles from Martinique.

DEFECTIVE ELECTRIC FIRE FIRES A TRAIN

Panic in Chicago Elevated Prevented by the Coolness and Nerve of the Motorman.

Chicago, May 30.—Nearly one hundred passengers on a Northwestern elevated train were thrown into a panic last night when defective electric wire set fire to the smoking car at Franklin and Superior streets.

Everybody in the train was thrown from the seats and the occupants of the smoking car rushed for the rear door.

It was with the greatest difficulty that some were restrained from leaping from the structure to the ground.

That no one was seriously injured is due in great measure to the coolness of I. J. Lanpher, the motorman.

As soon as the accident occurred Lanpher shut down his power and leaping out on the structure ran to the rear of the smoker and actually had to beat two men down off the rail of the platform before he could persuade them not to jump.

By this time the whole front end of the train was in flames and an alarm was sounded.

The blaze was quickly extinguished by a chemical engine.

GREATEST NUMBER, LOWEST AVERAGE

SEVENTY PER CENT OF IMMIGRANTS ARE FROM RUSSIA AND ITALY AND AUSTRIA-HUNGARY.

[BY ASSOCIATED PRESS.] New York, May 30.—Immigration is now at the highest point in the history of the country and the average of the class of people coming here is regarded by some of the officials as the lowest.

Coming the immigrants on board steamships due to arrive today and tomorrow the immigration for the month will reach the record-breaking total of 88,500.

In May of 1893, the previous record-breaking month, 73,000 people came into the country in the steerage of the Atlantic liners.

The bulk of the immigrants are from southern and southeastern Europe.

Immigration from Ireland, Germany, Norway, Sweden and Denmark has fallen off greatly.

In former years immigrants from these countries predominated.

Seventy per cent of the immigrants now coming in are from Russia, Austria-Hungary and Italy. Most of these are non-producers.

The immigration authorities say the great rush of aliens is due to the commercial prosperity of this country and industrial stagnation in nearly every European country.
