

MYSTIC SHRINE NOBLES

[BY ASSOCIATED PRESS.] San Francisco, June 7.—This city is now waiting to welcome the thousands of nobles of the Mystic Shrine who are coming here from all parts of the land to attend the imperial council of their order, which will be in session next week.

before nightfall. These are scheduled as follows: Moila Temple from St. Joseph; Buffalo party; Shaffer party from Philadelphia; Isis temple from Salina, Kas.; Lulu temple from Philadelphia; Murat temple from Indianapolis; Minneapolis, Cedar Rapids and Omaha parties.

RIFLE SHOOTING NATIONAL TROPHY

WILL PRESCRIBE UNIFORM SYSTEM OF RANGES AND TARGETS—TO RAISE PERCENTAGE.

[BY ASSOCIATED PRESS.] New York, June 7.—A meeting of the directors of the National Rifle Association of America will be held in this city June 12 to consider possible action by a committee of the association under a bill now pending in congress to provide for a national trophy and medals and other prizes to be contested for annually by military organization under regulations prescribed by the secretary of war.

UNKNOWN MAN LEAVES LARGE SUM TO HEIRS

Died Claiming That He Had Not a Relative on Earth—Known by the Name of Charles Hill.

[BY ASSOCIATED PRESS.] Los Angeles, Cal., June 7.—A fortune of \$142,000 in cash awaits the heir of an old man who passed under the name of Charles Hill, and who died at the Good Samaritan hospital two weeks ago.

Want to Go Home.

[BY ASSOCIATED PRESS.] Denver, Col., June 7.—The 27 Boer refugees in this city have formulated an appeal to the British ambassador at Washington relative to their return to South Africa. These 27 speak for the 90 Boers who are in Colorado.

CRUISER DIXIE IS BACK FROM PIERRE

MORE NEED OF HELP ON ST. VINCENT THAN AT MARTINIQUE—PEOPLE HAVE PLENTY.

THEORY OF THE GREAT GEOLOGY PROFESSORS

Mount Pelee Will Probably Smoke and Remain Active for Months, but it Will Not Smoulder and Again Blow Up in Another Gigantic Explosion—New Lake Will Form and Verdure Grow.

[BY ASSOCIATED PRESS.] New York, June 7.—Captain Barry of the cruiser Dixie just returning from bearing supplies to the volcano victims in the West Indies, said regarding conditions in the islands:

"Conditions are not as bad on Martinique as on St. Vincent, because on Martinique the people are fairly well supplied with everything and there is no danger in future eruptions. Only a small area of 12 square miles has been devastated, but on St. Vincent the destruction extends over a third of the island.

"The overheated rock, bursting against the water near the base of the mountain caused superheated steam and burst the mountain open."

Prof. Russell of the University of Michigan said: "Months will be required for the final scientific decisions. We have had an eminently satisfactory trip. The rocks and volcanic matter which we have collected must be cut into sections and analyzed before we can give extended opinions for publication."

Prof. Hill, who investigated the outbreak for the government, said: "Months will be required for the final scientific decisions. We have had an eminently satisfactory trip. The rocks and volcanic matter which we have collected must be cut into sections and analyzed before we can give extended opinions for publication."

"I think Pelee will smoke and remain active for months," said Prof. Russell. "It probably will be a case of Vesuvius again. I hardly think Pelee will smoulder and blow up in one gigantic explosion. I believe it will quit down and gradually die away. A new lake will form in the crater, tropical or verdure will grow where there is nothing but gray ash."

"The people will build new villages and towns at its foot and again hold their holiday picnics on its side and Pelee will remain quiet for probably 50 or 60 years."

"There should be at least a seismograph near every volcano—an instrument which records the tremors of the earth. It was operated by the Chinese centuries ago. The instrument would give the populace ample warning. The seismograph at Vesuvius for 25 years has done satisfactory and valuable work. There is absolutely no occasion for such tremendous loss of life as occurred at St. Pierre."

"I do not think Fort de France is in much danger from the volcano, but I do think she is in danger from a tidal wave. These tidal waves are of frequent occurrence in volcanic districts. They are caused by a sudden upheaval of the sea bottom. In case of such an upheaval Fort de France would surely be wiped out."

"As a safety position from tidal waves Morne Rouge is finely situated, as it is built on a high ridge. It is about the only town in the volcanic district so situated."

MYSTERY IS NOW CLEARED UP

Physician Who Went From Duluth to San Francisco Not Knowing It

[BY ASSOCIATED PRESS.] Duluth, June 7.—Dr. T. P. Story, a prominent Duluth physician, who mysteriously disappeared several years ago, has been heard from in San Francisco.

In a letter to his wife he says that since leaving Duluth his mind has been a perfect blank and he does not know how he reached the California city.

The only thing he can remember is that a man by the name of Watson befriended him in Seattle and he says that if Watson can be found much of the mystery would be explained.

NAVY SQUADRON DRILL

[BY ASSOCIATED PRESS.] Washington, June 7.—The navy department has made public the order for the assembling next winter of the vessels of the North Atlantic, South Atlantic and European stations to participate in the most extensive fleet maneuvers ever attempted by the navy in the West Indies.

The orders recite that about November 1, next, the department will assemble all available vessels which will be gathered at Culebra, Porto Rico, or Guantanamo, Cuba, and organized and drilled for two months as a fleet.

The commanders in chief of the three stations are given special orders to govern their respective commands.

Rear Admiral Higginson, commanding the North Atlantic station, is directed to assemble his vessels at Hampton Roads, Va., about November 15 and proceed to the scene of the maneuvers. He is directed to hold drills in the meantime with a view of inspiring healthy rivalry between gun crews to encourage officers and men to invent appliances to quicken ammunition handling and the loading of guns; to do away with tiresome lectures to the enlisted men and to pay special attention to gun pointing, all this to increase the efficiency of the squadron and to discover which of the officers and men are able to handle the ships to the best advantage in the maneuvers.

Rear Admiral Sumner, commanding the South Atlantic station, is directed to assemble his vessels at Bahia, Brazil, not later than December 5, fill with coal and report his readiness to sail north with vessels coaled and provisioned by December 10.

Rear Admiral Crownshield is charged to gather the vessels of the European station at Gibraltar not later than November 20 to coal there and proceed to the Cape Verde Islands, where the vessels will coal again and be in readiness to leave for the West Indies on December 15.

Royalty Dines With Choate. [BY ASSOCIATED PRESS.] London, June 7.—King Edward and Queen Alexandra will dine with Joseph H. Choate, the United States ambassador, some evening next week.

Letters From Secretary of War. MR. ROOT EXPLAINS ABOUT SALARY OF MAJOR GENERAL WOOD WHILE CUBAN GOVERNOR.

PRESIDENT PALMA GETS TWENTY-FIVE THOUSAND Gives Amount Allowed General Brooke by Former Secretary of War Alger—Compensation Has Not Varied Much From Fifteen Thousand Dollars Per Annum—Explains the Law.

[BY ASSOCIATED PRESS.] Washington, June 7.—A letter from the secretary of war appears in the report submitted today by Chairman Hull of the house military committee adverse to the resolution of Mr. Bartlett of Georgia asking for information as to the compensation paid to General Wood while governor of Cuba.

Secretary Root states that Secretary Alger made an allowance to General Brooke of the revenues of Cuba of \$7,500 a year, and continues: "There has been no change since that time except that when General Wood's commission as major general of volunteers expired, I made an order for further allowance equal to the difference between the salary of a major general and brigadier general so as to keep his total compensation at the same figure, the combined compensation received as an officer of the army and as governor of Cuba being always \$15,000 per annum."

"I see the Cuban congress has voted that President Palma's salary shall be \$25,000."

Secretary Root says that this has been fully made known to congress in former reports and neither house has made any objection.

Secretary Root says in his letter as to the legal phases of the subject: "I should hardly suppose that the house of representatives would wish to adopt a resolution which implies ignorance on its part of the authority of the president of the United States under the law of military occupation to appropriate and expend the revenues of the government of the occupied country."

HE KEPT HIS PROMISE Farmer Kills a Physician Who Returned to the Village.

[BY ASSOCIATED PRESS.] Garden Grove, Iowa, June 7.—Because he returned to this village in spite of a threat that his life would be taken if he did so, Dr. W. D. Duff has been shot and killed by W. H. Clark, a farmer.

Dr. Duff had formerly practiced medicine here but recently removed to Blockton, Ill. Bad feeling had existed between the two men and when the doctor departs the farmer promised to kill him if he ever returned.

When Clark learned that Dr. Duff had come back, he borrowed a shot gun and located the doctor in a drug store, he entered and fired two shots at him, both taking effect near the heart.

Clark at once gave himself up to the officer, remarking that he had kept his promise.

BUILD NEW MODERN HOTEL Mr. Frick to Erect a Monster Fireproof Hotel in New York.

[BY ASSOCIATED PRESS.] New York, June 7.—Contracts have just been awarded by Henry C. Frick of Pittsburgh for the erection, probably at Fifth avenue and Grand street, in that city, of a modern hotel to cost \$3,000,000, which it is promised will equal in apartments and comfort any in the land.

The new hotel will rise 18 stories and in design the structure will resemble closely the great office building which bears Mr. Frick's name and which is regarded by architects as a model.

The work will probably begin early in the fall. The hotel is to be constructed of fireproof materials from cellar to garret, with an exterior of granite and walls of Italian marble of the softest tints obtainable.

Shipping Project Visionary. London, June 7.—The statements which have recently appeared in the English press and which forecasted the formation of an all-British shipping combination, seem to be open to grave doubts. Judging from careful inquiries in the most influential quarters of London almost all of what has so far been printed is not only premature, but inspired, and its purpose is to assist toward the realization of the shipping project which is almost as visionary today as it was a month ago.

Makes Formal Announcement. [BY ASSOCIATED PRESS.] Washington, June 7.—Mr. Raikes, the British charge of embassy here, verbally acquainted President Roosevelt with the conclusion of peace between the British and the Boers. The president in response, requested Mr. Raikes to convey to King Edward his sincere congratulations on the termination of the war.
