

MAYOR HINCHCLIFFE TAKES PERSONAL COMMAND

He Instructs His Policemen to Be Aggressive and Is Going to Keep Peace.

WORKMEN ARE PROVIDED GUNS AND AMMUNITION

Paterson's Determined Chief Executive Increases His Police Force and All Have Firearms and Instructions to Use Them—Meeting for Today Arranged by Anarchists—Instant Arrest Will Follow Violent Language.

Paterson, N. J., June 19.—Mayor Hinchcliffe took personal command of the police of this city today. He went to police headquarters and had all the reserves lined up. Then he said to them: "Men, if your clubs prove useless, you know what to do. Be aggressive from the start."

In addition to the regular police force of 104 men, there were sworn in today twenty-three constables, twenty-five deputy sheriffs and ten firemen who are to do duty as policemen. All the men were immediately armed with revolvers and night sticks.

Ten silk manufacturing firms opened for business this morning. In each of these plants every employe was armed with a revolver. The weapons were supplied by the men's employers with the approval of Mayor Hinchcliffe.

At the Pelgram and Meyers mills, every fourth man was provided by the management with a gun with thirty rounds of ammunition. No dye shops started up this morning, although several were opened.

The dye house owners were willing to start operations but the men refused to go to work, as they feared violence.

As the morning advanced more of the silk mills opened up, including some of the largest in the city. It was reported that a number of silk mills in Jersey City had been shut down on account of the lack of material as a result of the close of the dye houses at Paterson.

Not to Incite Violence. Mayor Hinchcliffe announced today that only the executive committee of the Dyers' helpers union would be permitted to hold meetings for the present and that if at any of these sessions one word was uttered that tended to incite violence, the speaker should instantly be arrested.

The mayor insisted that representatives of the city be present at the meeting of the strikers' executive committee this morning.

About 400 Italian strikers gathered in that quarter of the city where the larger part of the Italian colony lives, and started to march to Turner hall only a block from police headquarters.

It is said that the proposed meeting today was arranged for at a meeting of anarchists last night.

The procession had barely gotten under way when the reserves charged the parade. There was a quick scattering in all directions.

Harry Harris, the reporter who was knocked down, beaten and finally shot with his revolver by the mob was very low today, but hope of his recovery is entertained.

OPENING OF THE TILDEN CLUB

Prominent Democrats to Speak at the Banquet—Mr. Bryan is Invited.

New York, June 19.—Former President Cleveland, David B. Hill, Governor A. J. Montague of Virginia, and Colonel Gaston of Boston, will be the speakers at the opening of the new Tilden club, Seventy-Fifth street and Broadway tonight.

William J. Bryan also received an invitation to be present.

There will be a reception and collation in the main hall, but on the floor above there will be a special banquet for 700 guests. There Mr. Cleveland and Mr. Hill will meet. The speech-making will begin before the banquet.

Leading citizens have accepted invitations to be present, including the Tammany triumvirate—Murphy, McMahon and Hafren.

MINING CONGRESS A SUCCESS

Governor Toole Doing All in His Power for the Butte Meeting.

Helena, June 19.—Governor Toole is doing everything in his power to make the international mining congress in Butte a success. Last week he invited all governors and lieutenant governors to attend or send representatives. Governor Dockery of Missouri and Governor Van Sant of Minnesota have sent personal regrets, but say they will send representatives.

Today Governor Toole sent another letter to all governors, giving indorsement to the idea of Irwin Mahon that the conference of governors, when the mining congress meets, would not only prove of benefit to the St. Louis exposition but to the country at large, also heartily renewing his previous invitation.

Favor General Strike. Saginaw, Mich., June 19.—The call for a national miners' convention has had the effect to stop negotiations for the settlement of the strike of 2,500 bituminous workers in Michigan, which have been in progress nearly two months. As President Williams signed the call for the convention, with the approval of the executive board, there is little doubt that Michigan will vote in the national gathering for a strike. The cities of this vicinity are already feeling the coal shortage.

MR. ROOSEVELT IS WELL SATISFIED

CONFERENCE WITH THE PRESIDENT RELATIVE TO THE PROBABLE FATE OF RECIPROCITY.

REPUBLICAN SENATORS MUST GO ON RECORD

South Dakota, Nebraska and Kansas All Favor the Measure, and President Roosevelt Believes That to Be Sufficient Indorsement of His Stand—Favors a Treaty With Cuba.

Washington, June 19.—Senator Platt, chairman of the committee on Cuban relations, today was an early caller at the White house, where he had a conference with the president on the subject of the probable fate of the Cuban reciprocity measure in the house.

He declined to make any statement concerning the president's views as expressed to him, but said, speaking entirely for himself, he would force the senators who are holding out against reciprocity to cast their votes either with or against the party. "There is not a beet sugar state," said the senator, "where, if the question was before a republican convention, reciprocity would not be indorsed."

"Where a lot of men are setting themselves up in opposition to their party they should be forced to go on record by their vote."

Nebraska and Senators. Senator Millard of Nebraska, who opposed the reciprocity plan, was present during part of the conference and the president remarked to him that Nebraska had indorsed his (the president's) course, and turned down her own senators.

To a number of callers today the president stated that he finds a sufficient indorsement of his stand on the Cuban question in the action of the conventions recently held in South Dakota, Kansas and Nebraska.

To a personal friend he said today he felt particularly grateful to Congressmen Burkett of Nebraska and Martin of South Dakota for their attitude in their conventions; also that he took a pride in the indorsements from the three states above named, because he was peculiarly well known to those.

It is known the president would negotiate with Cuba providing he had the assurance of 50 senators that they would vote for it, but he does not want to try this expedient without a guarantee before hand that it would carry.

ROYALTY ATTENDS AT ASCOT HEATH

IMMENSE CONCOURSE OF PEOPLE ATTEND AND SEE AN AMERICAN JOCKEY WIN.

London, June 19.—Gold Cup day, the most important from a social viewpoint of the whole Ascot week, attracted an immense concourse of spectators to the heath today. The royal procession, which was identical with Tuesday's, arrived on the ground about 1 o'clock in the afternoon.

Queen Alexandra, the Prince and Princess of Wales and the Duke and Duchess of Connaught and other members of the royal family and the Windsor guests entered royal carriages which, attended by a mounted cavalcade, drove up the course to the royal pavilion, greeted on all sides with salvos of cheers from the brilliant gathering of people.

The array of coaches and motor cars was unusually great and the club tents and the royal and other enclosures were filled with ladies in dainty summer costumes, Oriental princes in vari-colored raiment, and distinguished visitors from all parts of the world.

The all-ages stake was won by Reine des Fleurs, ridden by Reiff, the American jockey.

The Gold Cup, valued at £10,000, with £2,000 in specie, about two miles, was won by the Duke of Portland's William III. Osboch was second and Santoi was third.

Street Car Strike. Pawtucket, R. I., June 19.—Disturbances in the street car strike were resumed this afternoon, after two days of quiet. The cars on the Weeden and Prospect street lines were attacked with stones. Two employes were hurt by being struck with the missiles. The arrival of a detachment of infantry quickly put an end to the trouble.

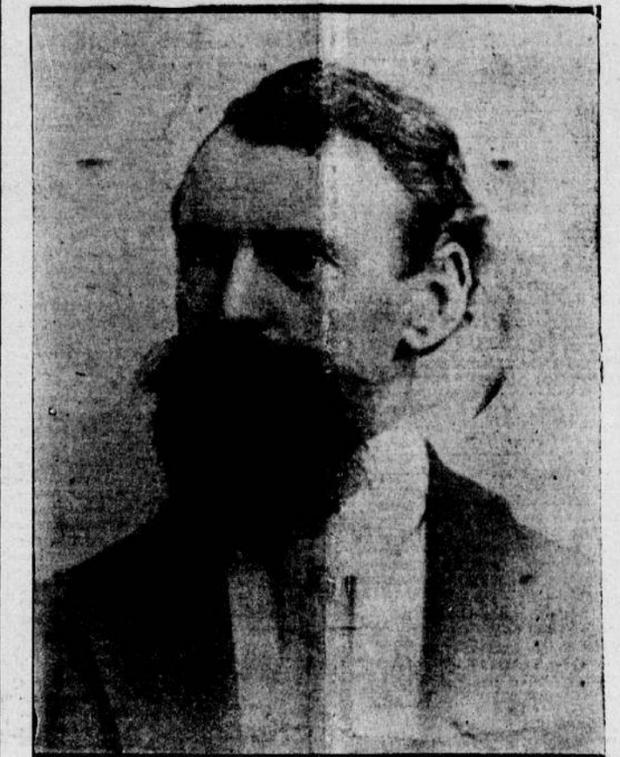

Granted an Extension. Helena, June 19.—The supreme court this morning granted an extension of 30 days for the respondent to file briefs in the case of the estate of A. J. Davis, John H. Leyson of Butte, administrator and appellant.

Degree Conferred on Mr. Payne. Hamilton, N. Y., June 19.—Colgate university today conferred the degree of LL.D. on Seneca E. Payne, chairman of the ways and means committee of the house of representatives.

Goes Through a Bridge. Shelby, N. C., June 19.—A portion of a mixed train on the South Carolina and Georgia Extension railway went through a steel bridge into Broad river this afternoon. One man was killed and 14 people injured.

CLOSE OF CANAL BILL DEBATE

Senator Clark of Montana Speaks in Favor of the Nicaraguan Route—Senator Morgan Closes the Argument.

UNITED STATES SENATOR W. A. CLARK OF MONTANA.

Washington, June 19.—When the senate convened today it was with the intention of beginning the voting on the Isthmian canal question at 2 o'clock.

Mr. Proctor of Vermont was relieved from service as one of the senate conferees on the military academy appropriation bill, and Mr. Burrows of Michigan was named in his stead.

Mr. Morgan of Alabama presented the following letter he had received from Secretary of State Hay, concerning the point raised in the canal debate by Mr. Kfitredge of South Dakota:

"I am requested by the minister of Costa Rica to inform the committee on inter-oceanic canal that he has been instructed by his government to make known to the senate of the United States that the government of Costa Rica is prepared to take all necessary steps to put themselves in a position to negotiate with the government of the United States for concessions for the Isthmian canal, on terms substantially as proposed by the government of the United States."

The communication was laid on the table.

The conference report on the bill to prevent the false branding or labeling of food or dairy products was agreed to.

Senator Clark Speaks. Consideration of the Isthmian canal question was resumed and Mr. Spooner offered formally his amendment as a substitute for the pending so-called Hepburn-Nicaragua canal bill.

Mr. Clark of Montana then addressed the senate in support of the Nicaragua canal route. He thought that if one half the objections to both the Nicaragua and Panama routes were valid neither route should be adopted. However, he was satisfied the consensus of conservative opinion in this country was that a great isthmian waterway should be constructed.

The American people, he said, were not to be deserted. "You may delay the project," said he, "but you cannot defeat it."

The difficulties of constructing the canal, he believed, were exaggerated. He thought the Nicaragua route was more to be preferred as it was, in his opinion, more feasible and practicable than the Panama route.

Mr. Clark declared that the Panama scheme was a hoodoo which ought to be shunned and avoided. He said the Panama

SUE THE FORMER TREASURER

National Hollow Brake Beam Company Want a Settlement.

St. Louis, June 19.—Eight suits aggregating \$100,000 were filed in the circuit court today by the National Hollow Brake Beam company of Chicago against Ward Leigh, former vice president and treasurer of the corporation, who now lives in St. Louis.

Failure to take up notes, neglect to turn over collateral security to the company, contracting debts without authority and drawing upon the company's funds without authority are the chief allegations set forth as a cause of action.

Mr. Leigh was treasurer of the Hollow Brake Beam company from July, 1882, to May of this year, when he resigned.

He also for a time was vice president of the company and chairman of the finance committee.

Arrive From Manila. San Francisco, June 19.—The United States transport Kilpatrick arrived today from Manila. She brought 658 casuals, of which 150 were marines and 53 enlisted men of Troop H, Third United States Cavalry.

Invited to St. Louis. Washington, June 19.—William D. Saunders, secretary of the business men's league of St. Louis, today invited the president to that city and secured a promise that if it can be arranged he will be there September 20.

PREACHER BARRED BY THE LEAGUERS

EPWORTH STATE CONVENTION REJECTS MINISTERIAL CANDIDATE FOR THE PRESIDENCY.

PASTOR MARTIN ROASTS BUTTE YOUNG PEOPLE

Declares Gilded Youth of This City Forget Early Teaching and Go to the Theater, Card and Dancing Parties, All of Which Is Shameful—Great Falls Chosen and Officers Are Elected.

Great Falls was chosen this afternoon as the next meeting place for the state convention of the Epworth League. Delegate C. E. Ludwig of the Catact City on behalf of the Methodists of that section, invited the delegates and his invitation was accepted without further discussion.

Rev. L. J. A. Smith of Philipsburg moved that the time of meeting be left to the executive committee, but provoked a laugh by adding that the committee make it a year from now. The date was left to the committee.

Rev. J. A. Martin of Hamilton moved that a street meeting be held tonight. The chair appointed him to conduct it. The preacher took occasion to remind the meeting that there was a crying need for evangelical work in Butte, as he learned that the young people of the church were much given to theater, card and dancing parties.

Denounced Butte Youths. "Over in the Bitter Root we don't do that," said he. "It's a shame the way our young people here in Butte are forgetting their early teaching."

As no champion for the gilded youth of Butte appeared the matter was dropped without further discussion.

"No ministers of the gospel need apply." This was the slogan of the Epworth Leaguers when the question of a president for the ensuing year came before it at the morning session.

When the nominating committee brought in its report with the recommendation that the Rev. Edward Mills of Stevensville be elected for the ensuing year, the convention refused to accept it, raising the objection that they did not want a pastor at the head of the state league.

Provoked Warm Discussion. For a time there was a warm discussion.

(Continued on Page Three.)

LARGE CROWDS IN HOUSE GALLERIES

ROUTINE BUSINESS TRANSCATED BEFORE OPENING DEBATE ON THE PHILIPPINE BILL.

Washington, June 19.—The attendance, both upon the floor and in the galleries of the house today was larger than usual in anticipation of the opening of the debate on the Philippine civil government bill. Some routine business was transacted before the regular order was demanded.

A number of conference reports were adopted.

The senate amendments to the bill to refund taxes on legacies, etc., were concurred in.

The regular order was demanded. It was on an amendment to a bill to amend the act for the relief and civilization of the Chippewa Indians of Minnesota, which was under consideration when the house adjourned yesterday.

The amendment had been offered by Mr. Eddy of Minnesota. It provided for open bids for the sale of timber lands on the Indian reservations in Minnesota.

Mr. Curtis of Kansas, Mr. Mayne of New York, and Mr. Lacey of Iowa, opposed the amendment on the ground that open bids would only inure to the benefit of Minnesota bidders.

The Eddy amendment was lost, 9 to 87. The bill then was passed.

At 1 o'clock the routine business had been disposed of and the house went into committee of the whole to consider the bill establishing civil government in the Philippines, with Mr. Gillett of Massachusetts in the chair.

Mr. Cooper of Wisconsin, chairman of the insular committee, began an extended speech opening the debate in support of the bill.

INDIANA REPUBLICANS MEET IN CONVENTION

Lively Contests Between Rival Candidates for Governor—Local Option Question.

Montpelier, Ind., June 19.—The republican state convention here today has before it some of the most bitter contests that have ever confronted a body of delegates in this state.

With great energy the supporters of three gubernatorial candidates, Gen. J. J. McCullough, of Bennington; P. W. Clement, of Rutland, and Fletcher Proctor, of Proctor, battled up to and even after the hour of opening the convention.

SPECIAL NATIONAL CONVENTION OF COAL MINERS

Expected That There Will Be No New Developments Until After It Is Held.

PLAN OF SETTLEMENT IS STILL HOPED FOR

Some Dissatisfaction Expressed by the Strikers Because the Date of the Meeting Is Set for One Month Ahead, but the Leaders Around Strike Headquarters Believe It Is a Wise Move—Condition in Anthracite Is Unchanged.

Wilkesbarre, Pa., June 19.—Now that the call for a special national convention has been made for July 17, it is not expected there will be any very important developments in the strike situation until that time.

It is not unlikely, however, that some of the bituminous workers will take action similar to that of the Central Pennsylvania district, which last night decided to cut down the soft coal production from that territory one-third.

Dissatisfaction was expressed by the strikers because the date was set a month ahead. While the leaders around strike headquarters will not talk, it is believed the fixing of the date for July 17 was a wise move.

A partial curtailment of coal production would have a serious effect on the business of the country, and it is hoped that during the next month some plan may be devised by which such a state of affairs can be avoided.

Conditions in the anthracite region remain unchanged.

NO CONFLICTS OCCURRED

Much Litigation Is Promised Within the Five-Mile Limit.

Blackfoot, Idaho, June 19.—Filing of Fort Hall reservation claims is going on steadily at the land office here. No conflicts have occurred, although the feeling against the "sooners," who, it is apparent, secured a majority of the more valuable sections, is still very bitter.

The lands within the five mile limit of Pocatello promise much trouble and litigation. These lands were to be sold at public auction on July 17, at the minimum price of \$10 an acre.

Unless parties who are exploiting them can show actual mineral deposits by that time, they will be "knocked down" by the land officials as agriculture lands, notwithstanding the mineral claimants.

AGAINST THE USE OF TOBACCO

Pity the Ship That Took it to England Did Not Sink.

Milwaukee, Wis., June 19.—Bishop Nicholson of the Milwaukee Episcopal diocese, has created a sensation among the priests and laity of the diocese by issuing a sort of a pronouncement against the use of tobacco.

The bishop maintains there is not one trace of spiritual help or physical gain from the use of tobacco, but untold evils have resulted from its use.

The extent to which the bishop's abhorrence towards tobacco goes is evidenced by the statement that if it is true that Sir Walter Raleigh introduced tobacco into England, it is a pity that the ship that carried him did not sink in the ocean.

NORBECK JURY IS DISMISSED

Minneapolis Detective Is Now a Fugitive—Believed to Be Guilty.

Minneapolis, Minn., June 19.—Judge Harrison today dismissed the jury that has been hearing the case of Christopher Norbeck, detective, charged with bribery. The fugitives have not been heard from and as there are other indictments hanging over him, it was decided after a county attorney, that it would be better to let the jury go.

His flight is considered a confession of guilt and its moral effect is the same as that of a conviction.

Return to Work. Hazelton, June 19.—The regular engineers, firemen and pump runners at the Sandy Run colliery, operated by M. S. Kemmerer & Co., returned today having, it is said, been granted the eight-hour day concession with the understanding that it is to continue indefinitely if other companies accede to the demand at the close of the strike.

Lose Copy of Contract. Helena, June 19.—The American Book company claim to have lost copies of its contract and bond with the state of Montana and State Superintendent Welsh following up his determination to secure a settlement for violations of that contract today forwarded to the Chicago office of that company certified copies of these papers.

Destroyed by Fire. Reading, Pa., June 19.—The Patterson pattern shops and drill works at Bardsboro, this county, were destroyed by fire today. The loss will aggregate nearly \$300,000.

Reductions in Sugar. New York, June 19.—The following reductions were made in refined sugar today: Grades 5, 6 and 7, ten points; all other grades, 5 points.
