BOER CHIEFS ARE GIVEN AN OVATION

THEY WERE DRIVEN TO THE CAPE-TOWN TOWN HALL IN CARRIAGES DRAWN BY SIXTY PERSONS.

GEN. BOTHA PAYS TRIBUTE TO PRESIDENT STEYN

"Now Let Us Stop Bothering Ourselves About Politics," Said the General, "and Try to Make Ourselves Happy in South Africa"—Day of Surrender Most Painful Event in His Life.

[BY ASSOCIATED PRESS.]
Cape Town, July 29.—Generals Delarey and Botha were given an ovation yesterday at St. Ellenbosch. They were driven to the town hall, and each of the two carriages were drawn by 60 students. At a luncheon which followed the students acted as waiters.
General Botha, in a feeling address, said the day of surrender was the most painful of his life, but, now that it had been done, he prayed earnestly that his hearers should consider it God's will.
Although Afrikaner nationality, in a manner, had been buried, it would remain the most important factor in the social life of South Africa. General Botha paid a tribute to former President Steyn's abilities as a statesman.
"Now, let us stop bothering ourselves about politics," said the general, and try to make ourselves happy in South Africa, because we have no home elsewhere."

Blast Injured Four Men.
[BY ASSOCIATED PRESS.]
New York, July 29.—As the result of a premature blast in the Rapid Transit subway on Park avenue at Forty-first street today, four men were seriously hurt, two of whom, it is thought, will die.

SCIENTIFIC VALUE OF THE JAPANESE CURRENT

University of California Men to Make an Expedition in a Government Vessel to Study the Stream.

[BY ASSOCIATED PRESS.]
Berkeley, Cal., July 29.—Prof. E. E. Kitter, head of the department of zoology at the University of California, is the prime mover in an undertaking which promises to be of great scientific and economic value to the Pacific coast; namely, the systematic observation of the flow of the Japan current and the study of the biological conditions of that great stream.

The San Pedro and Santa Barbara channels will also be surveyed. The enterprise has the backing of President Harrison of the Southern Pacific Railroad company, the United States fish commission and a number of wealthy business men of Los Angeles.

The plans as they are now matured contemplate the establishment of a complete marine laboratory and museum at San Pedro to be a department of the University of California and open to all advanced students of biology. With this as a permanent basis the surveys along the coast and farther into the mid-Pacific will be made on vessels especially equipped for marine work of a scientific nature.

The United States fish commission has given strong assurances that the Albatross will be put at the services of the scientists for the deep sea work and for the investigations along shore a smaller vessel is to be provided.

PRESIDENT ROOSEVELT IS LENIENT WITH SOLDIER

Man Had Been Sentenced to Dishonorable Discharge and Death but Executive Makes It 15 Years.

[BY ASSOCIATED PRESS.]
San Francisco, July 29.—Orders received at the army headquarters in this city indicate that the president has saved a soldier from hanging. Guy Stevenson, Troop M, Ninth cavalry, was found guilty of criminal assault and sentenced to dishonorable discharge and death. The sentence was approved by the secretary of war, but the president has commuted the sentence to 15 years' imprisonment. Stevenson is now at Alcatraz Island, but will go to the United States penitentiary at Leavenworth, Kas.

PAIR OF HOLDUPS LANDED BY POLICE

GENTLEMAN BELIEVED TO BE LEADER IS FOUND WITH STOLEN GOODS IN HIS POSSESSION.

WAS SEEN COMING FROM HOUSE BY TWO PERSONS

Good Description Was Given Police, Who Laid for Hogan and Have Him Safe in Jail—James X. Sullivan Is Taken With Him and Suspicion Rests on Him Also—Think They Are the Men Wanted.

Tom Hogan and James X. Sullivan were arrested by Sergeant Dawson, Detective McGillis and Patrolman Parlin at John Hawke's livery stable, No. 204 East Broadway, about 9:30 o'clock, last night, on a charge of burglary, and locked up at the city jail. Later on they were transferred to the county bastille.
The police department has conclusive evidence against Hogan, but as to Sullivan it is a case of "birds of a feather flocking together."

About 1 o'clock yesterday morning Hogan was seen by two persons coming out of a rooming house at No. 360 East Park street. He was carrying a bundle. Later in the morning it was discovered that the room occupied by Edward Mahan and John Winston, miners employed at the Minnie Healy mine, had been entered and robbed of a set of gold cuff buttons, a razor, a knife, \$5 in money and some other articles belonging to Mahan. Mahan and Winston were at work when the robbery occurred.

Secured a Good Description.
The persons who saw Hogan leaving the house gave the officers a good description of him. It was not until 3 o'clock in the afternoon, however, that they secured a clew to his whereabouts. They then learned that Sullivan had hired a buggy at the Hawke livery stable, driven to the corner of Park and Arizona street, and there picked up Hogan. When Sullivan left the barn he told the liveryman he would be back at 8 o'clock, as he intended to drive only as far as the Five-Mile house, on the flat.

About 9:30 o'clock he returned to the stable. Hogan was with him. The three officers were there to receive the pair and as soon as they got out of the rig they were nabbed without ceremony and taken to the city jail. When searched by the jailer Hogan's pockets yielded a collection of articles, among which was a penknife that had been taken from Mahan's room, an envelope containing two locks of hair and a calling card bearing the name of Bernice Hazleton.

Find Cloth for Masks.
There were also two pieces of black cloth which the police believe were used as masks. The finding of the cloth leads to the opinion that both Sullivan and Hogan are two of the men who have been holding people up in Butte. They answer the description of the men who robbed the Clarence hotel barroom inmates about a week ago. They have been occupying a room in the Karlman block at No. 550 South Wyoming street. After the arrest the officers searched the room but found nothing.

Hogan is an ex-convict, having served two terms in the penitentiary in Deer Lodge. Sullivan is a brother of the man who worked on the sympathies of an old woman in Dillon last winter and wound up by beating her out of about \$300. The brother was arrested in this city for the offense, taken back to Dillon, convicted, and sentenced to three months in the county jail.

STRANGULATION CAUSE OF ERNEST BLOHM'S DEATH

Woman Found Dead in Chicago Saloon Is Identified—Man Who Accompanied Her Is Held by the Police.

Chicago, July 29.—The young woman who was found dead early yesterday morning in a winerom of a Wells street saloon, has been identified as Mrs. Ernest Blohm, who disappeared from her home in LaSalle avenue two weeks ago. The police have abandoned the theory of murder and state that the woman probably died from accidental strangulation. Edward Gough, the man who accompanied Mrs. Blohm, is held pending a further investigation.

DINNER TO FRANK KLEPETKO

Two Hundred Sit Down at a Banquet Given at Montana by President Scallon—Who Gave Toasts and Who Replied to Them.

[SPECIAL TO INTER MOUNTAIN.]
Anaconda, July 29.—Frank Klepetko did a mighty big thing when he turned over the new Washoe smelting plant to its owners, a masterpiece of modern engineering, a triumph of consummate talent.
Whether that achievement brought him more genuine satisfaction than the recognition of his qualities as a man and a friend, demonstrated by the banquet at the Montana in his honor last evening, it would be difficult to tell; for few men retire from an industrial battlefield with more enthusiastic demonstrations of the esteem and regard of associates and subordinates alike than does he to whom the honor was accorded last night.

Two Hundred Sat Down.
Two hundred men, associates and admirers of the eminent engineer, sat down to the banquet by William Scallon, president of the Anaconda company. The dining hall was tastefully and exquisitely decorated for the occasion with cut flowers, which, with the sparkling glass and silver made a pretty and inviting appearance.
Telegrams of regret were read from some whose business or other engagements prevented the possibility of their attendance. Among those who sent their regrets by wire were Col. Tom McTague, warden of the Deer Lodge penitentiary; John Bielenberg, the Deer Lodge stockman; Alex Burrell, superintendent of the Drum Lummon mine at Marysville, and Paul A. Fusz of the Granite Bi-Metallic properties at Philipsburg.

During the course of the evening, Mr. Scallon took occasion to make a public announcement of the success of Mr. Klepetko's work and incidentally predict for Anaconda a bright and prosperous future. Speaking as the representative of the company who had conceived the gigantic

NEGOTIATIONS BROUGHT TO END AND WAR IS ON

Insurrection Which Has Nearly Three Years Must Go On.

[BY ASSOCIATED PRESS.]
New York, July 29.—Peace negotiations which have been in progress in this city for the last week between Gen. Pampilla Kuitierrez of the Colombian government, and Gen. Gabriel Vargas Santos, chief of revolution in Colombia, have come to an abrupt end, and, according to the Tribune, the insurrection, which for nearly three years has existed in Colombia, must continue. General Gutierrez, chief of the government army at Panama, who arrived from Panama a week ago came, it is stated,

scheme, Mr. Scallon said that in justice to Mr. Klepetko, he felt called upon to deny, in an emphatic manner, the rumors persistently circulated regarding alleged faults of the new plant.
In every way it has proved even a greater success than was hoped for," said he, and his words were cheered to the echo. Mr. Klepetko was officially assured of the regret of the companies because of his retirement.

A Touch of Sadness.
There was a touch of sadness in the allusion to the deplorable death of W. J. Evans, general superintendent of machinery, and a eulogistic reference to the work of the late Marcus Daly brought forth the applause of the banqueters.
At the right of Toastmaster Scallon sat Mr. L. Klepetko and at his left Mr. Buzzo. Seated at the head of the table, to the right, was Mayor Stephens and of that to the left, Judge Naptan.
Appropriately the ice was broken by Mr. Scallon who arose and said:
"It is proper and fit at this time, gentlemen, that I propose a toast to the president of the United States." When the loyal toast was drunk, another was proposed to the guest of the evening. All joined in enthusiastically.

Scallon on Klepetko.
In speaking of Mr. Klepetko, Mr. Scallon said in part:
"The man who is about to take his departure from Montana to engage in broader fields is worthy indeed, of our compliments. The plant which is commonly called the new works stands on yonder hill a fitting evidence of the ability and skill of the honored guest at this banquet board this evening.
This engineer was given these millions

(Continued on Page Nine.)

as the special emissary of President Marroquin, to negotiate a treaty of peace with Gen. Vargas Santos. There had been several conferences between the generals, and so well had the plans toward pacification advanced that Generals Gutierrez and Santos were to have sailed Friday for Panama.
However, Gutierrez received a dispatch from General Salazar of the province of Panama, announcing a battle at Agua Dulce. Thereupon he gave notice that all negotiations were off for the present, at least. He gave as his reason that he could not continue the convention while there was a state of actual warfare.

Farmer Hanged Himself.
[BY ASSOCIATED PRESS.]
Beatrice, Neb., July 29.—Frank Pribbe, a wealthy farmer, hanged himself last night at his home near Odell. The cause of the act is unknown.

THE SENATOR WILL WATCH OUT FOR IT

WORKED TOO HARD TO GET MONEY FOR BUTTE FEDERAL BUILDING TO LET THINGS DRAG.

EVERY CENT OF IT WILL BE PUT OUT IN BUTTE

If There Is Any Money Left, It Will Be Used to Embellish Structure—Suggestions Made by Postmaster Irvin—Helena Secured Larger Sum for Her Building, but Senator Could Not Help.

Bids were opened yesterday at the treasury department in Washington for the construction of the federal building in Butte. The Congress Construction company of Chicago bid \$208,724; James Walsh of Butte, \$255,980; Smith & Goddard of Butte, \$256,268, and Shackleton & Whitway of Butte, \$224,304.
Senator Clark was apprised of this news this afternoon and asked if all the amount stipulated by the Congress Construction company would be used in the new building.

"I will see to it that every dollar of the \$300,000 appropriated goes into Butte's federal building," said he; "but I have no doubt but that the plans are so arranged that it will all be used. It will take about \$30,000 for the wiring and heating apparatus, and there will be left but \$50,000 or \$60,000 for embellishment of the grounds and other appointments.

Will Keep His Eye Open.
"No, you may be assured that after the hard fight I had to get that \$300,000, I am not going to rest easy until every dollar of it is expended here in Butte. None of it will be idle in the national treasury after we get through with it.

"I am sorry the contract does not go to a Butte man. I was in hopes we would be able to keep the money at home. Much the greater portion of the sum will be spent for labor here, of course, but it's too bad we couldn't keep it all.
Senator Clark was asked if he thought the building would be completed in two years.
"No, I don't think we will have our new building ready for occupancy before the summer of 1905, but I will see to it that the work goes on as fast as possible.

When Work Will Begin.
"As soon as the contractor's bond is approved in the treasury department the work will begin, but it is going to be an immense building, and will require some time to complete it.

"When I was over in Helena the Fourth of July," said the senator, "I saw that the contractors were going very slowly

TESTIMONIAL FOR THE COWBOY HERE

MOVEMENT STARTED TO RAISE A SUM OF MONEY TO SEND HUGH ANDERSON TO COLLEGE.

CITIZENS BELIEVE HE DID PUBLIC A SERVICE

Young Man Speaks Modestly of the Affair—Suffered Severely from a Nervous Shock and Expresses Regret at Being Obligated to Kill the Burglar—Coroner's Jury Renders Verdict.

Should the killing of a desperate criminal caught redhanded in the act of committing a burglary blight the ambitions of a young student who has devoted the past three years wholly to the effort to secure a college course? Shall the performance of a public duty in the protection of a woman and a child and the property of an absent owner counteract the manly struggle of a clean-cut, nervy young man who is fighting his way to social and professional preferment?

These are two questions with which the generous and public-spirited citizens of Butte are to discuss and determine within the next few weeks.

They come as the result of Hugh Anderson's manly rush to the defense of Mrs. Sam Treloar Sunday night, which brought about the death of burglar James Martin. They will be placed before the people of Butte in the movement started last night by enthusiastic admirers of Anderson, who are seeking to restore the young man's mental equilibrium, disturbed by the knowledge that he had taken a man's life.

Suffers from Nervous Shock.
Sunday night and until Monday morning Hugh Anderson suffered from the shock to his nervous system occasioned by his deadly aim at Martin.

It was not until Sheriff Furey had released him from nominal custody and the coroner's jury had exonerated him from legal responsibility for Martin's death the young man realized that he was not looked upon by the community as a man-killer. It was not until the crowds of appreciative citizens began to call on him and to congratulate him upon his act as a courageous deed that he realized that he was not a victim of adverse criticism, but instead, in the eyes of the public, a hero deserving of public and individual commendation.

When Anderson rushed to the defense of the Treloar home he took his own life in his hands. It was the chance that threw to him the victory over a criminal—the chance that might have turned the other way and resulted in his death instead of ending the career of a self-confessed and identified felon.

It is up to the citizens of Butte to (Continued on Page Four.)

LARGE LOSS OF LIFE FROM CYCLONE FEARED

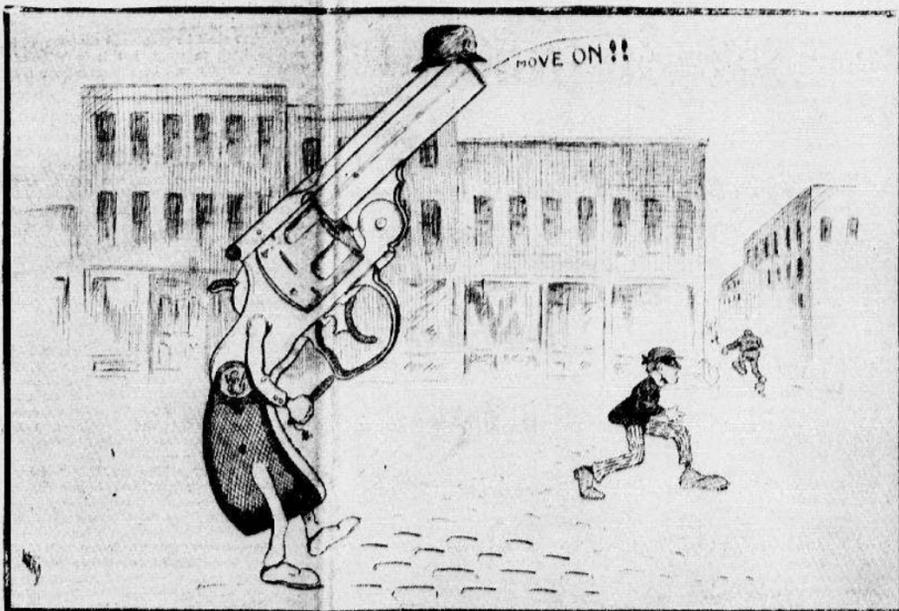

Gulf of California Is Visited by Storm Which Wrecks Public Buildings and Sinks Many Vessels.

[BY ASSOCIATED PRESS.]
San Francisco, July 29.—A special from Tucson, Ariz., says that a cyclone visited the Gulf of California coast on Thursday night, wrecking vessels and damaging many buildings in the coast cities. The wires have been down and news of the disaster has just been received.

At Guaymas five vessels in the bay were dashed ashore and sunk. Two of them—El Luella and El Gravinia—were steamers engaged in the coast trade. The public building containing the offices of the harbor master and collector of customs was totally destroyed. The residence of the English vice consul was unroofed and otherwise wrecked. The new municipal palace and city prison were both badly damaged. The streets of Guaymas in many places were strewn with fallen trees and wreckage.

At Mazatlan, the Romero Rubio, a large passenger steamer, was driven ashore and sunk. Five passengers were drowned and the rest reached the shore on wreckage and driftwood.

Another large vessel in the bay was also damaged. Between Guaymas and Mazatlan, a great deal of wreckage drifted ashore and it is supposed many small vessels were wrecked and a large number of lives lost.

BUTTE'S MOST EFFICIENT POLICEMAN.
