

MESSAGES POUR IN FROM FOUR WINDS

EVERY SECTION OF COUNTRY SEEMS TO BE INTERESTED IN COMING MEETING OF CONGRESS.

PRESIDENT M'DONALD OF A. L. U. WRITES A LETTER

Is Highly Gratified at Honor Shown Him in Appointment as a Delegate, and Will Be Pleased to Attend—Latest List of Delegates Appointed and Something About the Men Coming.

Day by day interest in the coming meeting of the International Mining Congress increases. Letters and telegrams are being received by the score asking for information, rates, etc. In addition to being present at the meeting of the congress, many of the correspondents are anxious for information about the different mining districts of Montana, which they evidently propose to visit before returning home.

From late advices it is now certain that every Montana mining camp will be represented, both by an exhibit of ores and full delegations.

Dan McDonald, president of the American Labor Union writes Secretary Mahon as follows: "Your special and esteemed favor of the 21st inst., which conveys the intelligence to me that I have been appointed by you as a delegate to the coming convention to be held in this city just received."

"I appreciate very highly your mark of distinction and honor in the selection of myself as a delegate to the said congress and I take this early opportunity of accepting and to assure you that if nothing happens I shall be in attendance."

E. W. King of Gilt Edge, Montana, in accepting his appointment as a delegate, notifies Mr. Mahon that he will be in attendance and bring along a few samples of the ores characteristic of the Judith and North Moccasin mountains.

Exhibit of Valuable Gems. Mr. Nat Y. Hess, the well known newspaper man of Deer Lodge, writes that he will send an exhibit of the sapphires which are found on Dry Cottonwood creek, near that place. He expects to send not only the stones in the rough, but also many beautiful specimens that have been cut, and he asks a guarantee for their safe return.

E. H. Gray, of the United States Steel Corporation, New York, writes that he greatly appreciates the compliment of the invitation to the congress but regrets that it will be impossible for him to attend.

Official notification was today received that a large delegation from Calumet, Michigan, will be present and it is already known that the other towns in the lake copper country will be well represented.

The Business Men's association of Helena are making arrangements for an excursion to that city during the meeting of the congress. The chairman of the executive committee of that association has named a committee for the purpose of making the necessary arrangements. The following named gentlemen were appointed: W. M. Biggs, E. L. Flattery, F. J. Edwards, C. C. Newman, A. W. Smithers and F. K. Turner.

Latest List of Delegates. Names of delegates appointed to the congress and received by Secretary Mahon this morning follows: The following delegates were appointed by Hon. Henry G. Melville, governor of Washington: John B. Slater, Colville; W. A. Gray, Winlock; L. A. Woodard, Clarkston; L. K. Armstrong, Spokane.

These were appointed by the county commissioners: Silver Bow county, Ed Hughes, George Major, Prof. A. N. Winchell, Dan Brown, George T. Wade, all of Butte. These were named by the county commissioners of Lewis and Clarke county: Hon. W. M. Biggs, A. M. Holter, Albert Kleinschmidt, John Longmaid, Moses Manuel, Robert A. Bell, Frank M. Esler, B. H. Tatem, Col. Thomas Cruse, Helena; Joseph Luttrell, Rimini; Alexander Burrell, Marysville; J. A. Widmer, Canyon Ferry; Fred Decker, Jr., Fletcher; E. B. Braden, East Helena; Samuel Quail, Helena.

These are to be delegates from Helena: Wilton G. Brown, Thomas S. Rogers, J. M. Rowand, William C. Busket, John Longmaid, Helena; L. L. Lush, Marysville; Charles H. Smith has been named by the Board of Trade of Jacksonville, Fla. Frank S. Lathrop will represent the board of trade of Savannah, Ga. These have been named by L. C. Cille, mayor of Clarkburg, W. Va.: I. M. Kelly, Col. T. M. Jackson, Mr. Goodfellow.

DISCOVERER OF VIPOND DISTRICT IS IN BUTTE

William C., Not Satisfied With Beaverhead County Outlook, Will Explore Districts in Utah.

William C. Vipond, discoverer of the Vipond mining district of Beaverhead county, came in from Garnet during the week and will leave for Idaho in a few days for the purpose of looking at some mining claims there, which he believes may be good. From there he will go south, taking in the eastern part of Nevada, a section of Utah and then Arizona, where it is thought there are still many veins of good ore which prospectors have overlooked.

Mr. Vipond has prospected in all of the states and territories of the west, and when the gold excitement in Alaska broke out he came very near going there. He understands the mining business from the surface to the 5,000-foot level and could hold a good position as a manager of properties, but the desire to own and operate for himself is stronger in his composition than the desire to work for others in any capacity. While in Garnet he had charge of the mines owned and operated by Dr. Peter Mussigbrod, of Warm Springs. He says the Mussigbrod properties are looking fine and that the mill is turning out bottom with regularity.

HEAVY CONSUMPTION IS NOT SHOWN BY FIGURES

Man Who Ought to Know Says the Situation Could Be Better Than It Is Now, Although Strike Is Bugaboo.

"Statistically, says the managing director of a prominent copper producing company in the East, "the copper situation could not be in much more desirable shape than it is at the present time, but yet it must be admitted that quotations do not respond to the statistical position of the metal, or to the heavy consumption of copper that is constantly going on."

"I have not been in the Nautucket valley recently, but I have had conversations with manufacturers of their agents who have been in town and they all report a rushing business. Deliveries of copper ordered some weeks ago have been heavy but stocks on hand and futures must be nearing exhaustion, and before long the metal market should respond to an increased demand which must come from the manufacturers."

"It is true that the coal strike is somewhat of a bugaboo, but as yet the mammoth output of the mines is still being maintained."

UNITED TRAVELERS OWN COLUMBIA GARDENS NOW

As You Read This, They Are Breaking the World's Records Out There in a Number of Events.

There will be things doing out at Columbia Gardens this afternoon. The members of the United Commercial Travelers' association will spend the afternoon there and will compete in some athletic games prepared for the occasion. There will be a baseball game between the "Thicks" and the "Thins" and the winning team will receive 1,000 cigars for its trouble.

Another event which will doubtless attract much interest will be a tub race across the lake. As there is no time recorded for this event the winning contestant will establish a world's record and will incidentally receive 100 cigars. There will be a corps of physicians on hand to treat those unfortunates who fall overboard.

A blindfolded race is scheduled to take place and should furnish considerable amusement. Then the fat men will try out to see who is the fastest sprinter; the winner will challenge Arthur Duffy, the world's champion. The "Thins" will also race.

The events at the gardens will begin at 2:30 o'clock. A special car will leave the corner of Main and Park streets at 1:30.

MONTANA MONEY IN MEXICO

Senator Clark and Northern Capitalists Deal With Mexicans.

[BY ASSOCIATED PRESS.] Fort Worth, Tex., August 9.—One of the largest mining deals made in Mexico for a long while is to be closed during the present month. The property is known as the Rosario mine and is located at Guadalupe Calvo, state of Chihuahua, and is one of the richest gold properties in the republic.

The purchasers are a syndicate in which Senator Clark of Montana is interested, and the price is said to be over \$1,000,000. The owners of the mine live in this city, two of whom are now in Mexico to make the transfer. The Clark people have held an option on the property some time, and have already spent \$50,000 in development.

Robert D. Grant, formerly general manager of the Parrot properties in this city, has just finished an inspection of the Silver King mine in Utah. He says it exceeds anything in the way of a mine he has ever seen.

Some of the ore bodies in the southwestern part of the city are rich in gold and silver. The last shipment from the property of the Britannia Mining company, which consisted of eight or ten tons, is said to have returned 153 ounces of silver and \$30 per ton in gold, making a total value of about \$110 per ton.

A. W. Noble, a druggist in East Park street, has struck a body of good ore in a claim located between the Nine-Mile house and Pipestone Springs. George Noble, his brother, has charge of the work of exploration. The ore is gold-bearing and was struck at a depth of 40 feet. Mr. Noble owns the property.

Malcolm Gillis and Eugene Carroll, who are working the Moose mine under lease, have opened up a six-foot body of \$30 ore on the 200-foot level of the property. So far this month they have shipped more ore than they did during the whole month of July. The average output at present is one carload per day. All of the ore goes to the Boston & Montana smelter near Great Falls.

MARKS OF DEADLY FLUID ON LEWIS' MANGLED BODY

Prospector Was Killed by Lightning, Not as Was First Supposed, by an Explosion of Powder.

Coroner Johnson and Undertaker Richards returned from the Highland mining district last night with the body of John T. Lewis, who was killed by lightning during the thunder storm Thursday afternoon. Lewis' left arm was torn to shreds by the bolt and there were marks of the deadly fluid on his body. It was thought at first that an explosion of giant powder had caused his death.

The body of the dead man was found by Mr. and Mrs. Lee Gottlieb Thursday evening, but it was then so late that Mr. Gottlieb could not come to town. Yesterday morning he notified Henry Miles, foreman at the Basin creek reservoir of the Butte Water company, and Mr. Miles came into the city and notified the coroner.

Lewis has a nephew, J. O. Roberts, living in Lime Springs, Ia., who is the only relative the old man is known to have in the western country. He is a commercial traveler. About a year ago he visited the old man. He has been notified of the old man's death and will probably come to Butte to attend the funeral, no time for which has been set.

CONICELLI LEAPS FROM MOVING TRAIN TO DEATH

Boy's Head Strikes Stone and He Receives Injuries That Will Probably Have Fatal Result.

Ernest Conicelli, a 12-year-old Butte boy, met with an accident yesterday near Melrose that will result fatally. The boy had been sent to Melrose for some fishing supplies from a small camp six miles north of the town. He walked to Melrose but boarded the Oregon Short Line passenger train to return. The train was going at a rapid rate when the camp was reached, but notwithstanding this the boy jumped.

His head struck a large rock and was badly crushed. A physician who attended the boy declared his chances for life were slim. Young Conicelli's father witnessed the accident and is heartbroken over the affair.

When Others Fail Consult the Vellek Doctors

OUR METHODS OF TREATING men's diseases are original, distinctive, thoroughly scientific and supremely effective. Were this not so we would not be making announcements in public print. No physician is justified in the use of newspaper space unless able to offer and render a superior service such as cannot be obtained elsewhere. We wish especially to appeal to men who have been disappointed in the promises held out by other doctors. We wish to impress upon them the fact that our skill and superior methods justify us in making men's diseases our specialty. We wish to prove conclusively that we are not offering treatment such as the average country doctor is able to give. No matter how many physicians have failed to cure you, you can come to us with complete assurance that if we accept your case the treatment given will be absolutely scientific and fully effective.

Our method of curing Stricture is new and entirely original. No cutting or dilating. The stricture is dissolved and completely removed and all affected membranes thoroughly cleansed.

Our treatment for Specific Blood Poison forces the very last taint of virus from the system, and all this is accomplished without the use of dangerous minerals.

VARICOCELE

This most prevalent of all diseases of men is also the most neglected, either through dread of the harsh methods of treatment commonly employed, or through ignorance of the grave dangers that accompany the disease. As varicocele interferes directly with the circulation and process of waste and repair throughout the organs, the necessity of a prompt and thorough cure cannot be too forcibly emphasized. We cure varicocele in one week by an absolutely painless process. Our cures are thorough and absolutely permanent, and are accomplished without the use of knife, ligature or caustic.

WEAKNESS

So long as physicians continue along the old lines of treatment of this disorder men will continue to be disappointed time and again in their efforts to obtain a cure. We have found that disorders entirely local are responsible for premature loss of power, etc., and that there is not even the slightest possibility of obtaining a cure through use of internal remedies. Our treatment is directed toward the removal of all abnormal conditions throughout the organs involved, and we do not fail in a single instance to restore complete and permanent activity of all the functions.

Our book, "Live All Your Life A Man," will be mailed free. It is an instructive treatise that will prove helpful to afflicted men.

We offer consultation free, either at our office or by mail, and we are always glad to render any advice that may be helpful. All correspondence strictly confidential.

DEPARTMENT OF THE INTERIOR, UNITED STATES LAND OFFICE.

Helena, Montana, April 23, 1901.

Reports in duplicate, marked Exhibits A and B, having been filed in this office on the 12th day of April, 1901, by the commissioners appointed for this land district under an act of congress approved February 26, 1895, entitled "An act to provide for the examination and classification of certain mineral lands in the states of Montana and Idaho," as amended by the act of June 6, 1900, showing the classification of lands within the land grant limits (or the indemnity land grant limits) of the Northern Pacific Railroad company, made by said commissioners from March 1, 1901, to March 31, 1901, both dates inclusive, as follows: By Commissioner Watson Boyle. Unsurveyed Lands Classified as Mineral. Description No. 2. Beginning at the northwest corner of Section 5, Township 1 south, Range 6 west, and running thence west 500 miles; thence south 50 miles; thence east 500 miles; thence north 500 miles; thence west 500 miles; thence north one mile; thence west 40 chains; thence north one mile; thence west 20 chains; thence north one mile; thence east 20 chains; thence north to the place of beginning. This description intended to cover Township 1 south, Range 7 west, and Sections 7 and 19, west half and southeast quarter Section 29, Section 31, southwest quarter, and west half and southeast quarter of southeast quarter Section 23, Township 1 south, Range 6 west, when surveyed. Notice is hereby given in compliance with the fifth section of said act that any person, corporation or company feeling aggrieved by said classification, may within 60 days after the date of the first publication hereof, file in this office a duly "verified protest against the acceptance of said classification, which protest shall set forth in concise language the grounds of objection as to the particular (government subdivision of) land in said protest described," whereupon an order for a hearing shall issue. That portion of the report of the commissioners marked Exhibit B, is on file in this office and open to the examination of interested parties. Notice is further here given that by the terms of said act of February 26, 1895, "that as to the lands against the classification whereof no protest shall have been filed" "the classification when approved by the secretary of the interior, shall be considered final, except in case of fraud."
