

CHICAGO IS AFTER MINING CONGRESS

WINDY CITY AND STATE OF ILLINOIS WILL SEND LARGE DELEGATION TO BUTTE CONVENTION.

CIRCULAR IS SENT OUT URGING MINERS TO COME

Committees to Handle the Meeting Were Named Last Night—There is Much to Do and Efficient Men Have Been Selected to Take Charge of the Various Branches of the Work to Be Done.

Chicago has entered the fight for the next meeting of the Mining congress and will be here with a full delegation from Illinois. Those having the matter in charge are enthusiastic and have issued the following letter addressed to the mining men of Illinois:

"Your earnest attention is called to the fifth annual meeting of the International Mining congress which will be held at Butte, Montana.

"It is desired that Illinois be represented by men who are interested in mining matters and it is to be hoped that our state may have a full quota of representatives on the floor. The object of the congress is to have our mining laws changed to meet the necessities of the times and also to urge our government to provide a mining bureau, which will be represented by a cabinet officer whose rank will be the same as that of the heads of the other departments."

The letter then proceeds to explain the cost of the trip and how to become a member of the congress, closing with:

"Will you not join us? We hope to bring the 1903 congress to Chicago—will you help us do it?"

Committees.

As stated in yesterday's Inter Mountain the local executive committee of the congress met and appointed local committees. There is much to do and presumably only those were appointed who will give the matter their immediate personal attention. The title of the committees and the names of those appointed follow:

INTEREST IN BRITANIA SAID TO HAVE BEEN SOLD

Rumor is That Three-Sixteenths in British Columbia Mine Brought Just \$200,000 in Recent Sale.

It is reported in mining circles that a three-sixteenths interest in the Britannia mine, located on Howe Sound, B. C., has been sold for \$200,000.

This is the property which Frank M. Leonard of this city has been managing about a year. It is owned principally by Montana men, several capitalists of Libby and Kalispell holding shares in it.

The Britannia mine was brought into prominence a few years ago by Howard C. Walters, who got an option on a large controlling interest and succeeded in interesting sufficient capital to take up the option and organize a company for the purpose of developing the property. In his original deal with the owners of the Britannia, Mr. Walters was assisted by Libby and Kalispell money, among others who took a chance being C. E. Conrad of Kalispell, and Frank M. Leonard, J. T. Hillis, F. M. Plummer, William A. Hillis, Thomas Shaughnessy, John L. Scarlett and Joseph Lee of Libby.

While it is not known just how much these parties made out of the deal, it is generally understood that all of them made a very good clean-up on the investment. A large number of former residents of Libby are now employed in and about the mine in various capacities and it is the general impression that the big non-productive property may at any time be equipped with machinery which will make it one of the big Canadian producers of copper.

Mr. Walters is well known in Flathead county as the negotiator of the deal whereby the Pacific Northwest Mining corporation, an English company, acquired the famous Snowshoe mine at Libby from the original owners and under whose management many improvements were made prior to its disposal to Mr. Bowers and his associates, the present operators of the mine.

property is located near the Watska, in Rochester, Madison county.

In cleaning up the sluice boxes of the placer mine in Skelly gulch, Lewis and Clarke county, a few days ago a nugget weighing more than \$150 was found. There were several other valuable chunks of the yellow metal, but none half as large as the big hunk.

George W. Spees is reported as having taken several large nuggets of gold from his placer ground in Quartz gulch this season. Quartz gulch is a tributary of Rock creek, which empties into the Hellgate river, 20 miles east of Missoula. Some of the nuggets were as large as walnuts.

A. Swanson is developing two claims at the head of Cedar creek, Flathead county, that promises good returns. He has been working on them for years. The predominant value of the ore is silver, in which metal it is very rich. The metal appears in bromides.

Ten men are developing the Buckeye mine in the Cataract district of Jefferson county. There is a mill on the property and it is being put in shape for a test run. The property is owned by Davis and Judson of Lansing, Mich. There is some high grade ore in the bins, which will be shipped to Butte in a short time.

Don Davenport, who has a bond on the Kenwood mine near Helena, has informed George W. Huffaker, one of the owners of the property, that development work of the mine will be commenced before October 1. The bond covers a period of two years from June 1 of this year, but there is a stipulation in it to the effect that work must be commenced by October 1, or the option will be void.

Tom Maynard and the Clifford brothers have a very promising gold and silver producing property near the new camp of Bonanza, which is located on Steele creek, a tributary of the Big Hole river. It consists of two claims known as the Ixex and Ixex extension. A tunnel has been driven 200 feet on one of the claims. The vein is from 10 to 12 feet wide with a pay-streak of from one to two feet. Assays of the ore show the values to vary, some running as low as 10 ounces in silver and \$9 in gold and others as high as 500 ounces in silver and \$40 in gold.

PROPOSALS WANTED.

Sealed proposals will be received by the Trustees of School District No. 1 of Silver Bow county, Montana, up to 5 o'clock p. m. of the 26th day of August, 1902, for the erection and completion of a two-story brick school house, to be erected on lots 15, 16, 17, 18, block 10, Kemper addition to the city of Butte, Montana, and to be in full accordance with the drawings and specifications therefor, as prepared by W. Cures Create Confidence WE CURE MEN Cured to Stay Cured

WE CURE VARICOCELE IN FIFTEEN DAYS
Under our treatment this insidious disease rapidly disappears. Pain ceases almost instantly. The pools of stagnant blood are driven from the dilated veins, and all soreness and swelling quickly subsides. Every indication of varicocele soon vanishes and in its stead comes the pride, the power and the pleasure of perfect health and restored vitality.

WE CURE RUPTURE IN SIXTY DAYS
It will be to the interest of every one who is ruptured to come and see us before throwing any more money away on trusses. Our method of treating will contract the dilated-rupture opening, and restore it to the normal condition. There is no operation which will produce the same satisfactory results; nor does the treatment interfere with your usual occupation. Perfect protection from the very first we will cure you, and cure you PERMANENTLY.

WE CURE SPECIFIC BLOOD POISON IN NINETY DAYS
Our special form of treatment for this disease is practically the result of our life work, and is indorsed by the best physicians in this and foreign countries. It contains no dangerous drugs, and forces out every particle of impurity. Soon every sign and symptom disappears completely and forever. The blood, the tissue, the flesh, the bones, and the whole system are cleansed, purified and restored to perfect health, and the patient prepares anew for the duties and pleasures of life.

WE CURE NERVOUS DEBILITY IN NINETY DAYS
Our Cure for Weak Men stops every drain of vigor, and builds up the muscular and nervous systems; purifies and enriches the blood, cleanses and heals the bladder and kidneys; invigorates the liver, revives the spirits, brightens the intellect and, beyond all, restores wasted power.

REFLEX DISEASES
Many ailments are reflex, originating from other diseases. For instance, vital weakness sometimes comes from Varicocele or Stricture, innumerable blood and bone diseases often result from contagious blood taints in the system, or physical and mental decline frequently follows impotency. In treating diseases of any kind we always remove the origin—we cure the cause.

CORRESPONDENCE
One personal visit is always preferred, but if you cannot call at our office write to us your symptoms fully. Many cases can be cured at home.
