

ANOTHER UNITED STATES PLANNED

SOUTH AMERICAN REPUBLICS THINK UNION AFFORDS STRENGTH AND MAY TRY IT.

CHILE AND ARGENTINA CONTRACTING PARTIES

The United States of South America Would Be the Title of the New Amalgamation and They Would Endeavor to Secure the Balance of Power in This Southern American Continent.

[BY ASSOCIATED PRESS.]

Valparaiso, Sept. 26.—Beginning with the first speeches made by the Argentine delegates and several Chilean statesmen in the course of banquets and entertainments given to the former, the idea that an alliance between the republics has been only suggested indirectly.

After reviewing the struggle for independence, when the armies of both countries fought several battles together, General Kerner declared that the fathers of the two nations sought the establishment of the United States of South America, which up to today had been only a dream, but now has every probability of realization.

The Evils of Disunion.

"We have seen evils brought about by disunion," continued the general. "We may calculate with the good the union of the countries would bring forth.

"The chiefs of the navies and armies of the two countries sitting around this table have a brilliant chance to work for the uniformity of the military institutions of the republics, and we, Chilean soldiers, raise our glasses, wishing that whenever the peace of either country is menaced, that the other would do what the armies did in the struggle for independence."

Mexico After a Big Railroad.

[BY ASSOCIATED PRESS.] Mexico, Sept. 26.—Great interest has been aroused by the announcement that the government has bought in London the controlling interest in the Inter-oceanic railway by purchasing the majority of newly created bonds on whose holders, by virtue of an arrangement creating them, is vested the administration of the property. The purpose of the government was to secure control of an independent railroad to the Gulf of Mexico.

Boris Admires Americans.

[BY ASSOCIATED PRESS.] Paris, Sept. 26.—The Matin this morning publishes an interview with Grand Duke Boris of Russia who left New York September 8 on the French liner La Lorraine. The grand duke expresses the highest opinion of the American people. "There are no idlers in that country," he is credited with saying. "Everybody works, millionaires and the sons of millionaires like all the rest."

Mining News

MINING AFFORDS BEST CHANCE TO GET RICH

There is No Business in Which Money is So Easily Made, if Once You Strike It.

D. F. Lewis, Salt Lake City, speaking to a representative of the Inter Mountain at the Thornton hotel last evening said: "No industry at the present day offers so many inducements to investors than does that associated with mining. Nor is there a business enterprise extant which provides anything like as heavy dividends as mining."

"A man can work along all his life time on a salary and never accumulate very much; but there have been instances in which a little attention to mining have made a man rich. Where is the business that on the investment of a few dollars will yield big returns like mining? A few dollars put into some properties have been known to make men independently wealthy. The late W. S. Stratton testifies to this fact.

"The stand is well taken that it requires a mine to make a mine, yet once the profit stage is reached, dividends come quickly and on a large scale. Money derived from mining is clean and not burdened with hardships and strictures on the toilers, as is the general rule with other industries, and money so earned affords pleasure alike to employer and employee.

"The miner glories in developing a rich pay chute of ore and the higher the returns extracted from the mineral the more pride he feels in his work. There are few kinds of labor in which the men take as much satisfaction as the miner does. The element of chance in mining is just sufficient to make the work interesting, and while driving a tunnel or sinking a shaft there is always the glorious uncertainty of opening up a rich vein."

A NEW DAWSON RAILROAD

Klondike Mines Prospect Is Too Slow in Developing.

The Dawson News of late date, says: "Unwilling to wait any longer for the construction of the Klondike Mines railroad, George Campbell and H. O. Fleming, who own extensive quartz claims on Eldorado, will apply to the government at Ottawa for a charter of their own. They propose to build a road from Dawson to Grand Forks and above. Mr. Campbell held a private conference with Deputy Minister of the Interior James A. Smart this morning. His object was to know if he could secure the necessary charter. He stated afterward that the deputy minister gave an affirmative answer, and that the interview was entirely satisfactory. The reason for the quartz men's move is that they are unable to develop their properties until they have a railroad. They have been waiting for the Klondike Mines project, but fear further delay. They promise to have the road from Dawson to Grand Forks completed early in the summer.

"We are interested in a group of quartz claims on Eldorado," said Mr. Campbell this afternoon, and will begin mining early in the year. A large amount of ore will be taken out. We were going ahead on the enterprise in anticipation of a railroad being built, but can't wait any longer. Therefore, we are applying, with the approval of Mr. Smart, deputy minister of the interior, for a charter. It will be secured in Ottawa. The road will run from Dawson to Grand Forks and above, probably connecting with the Canadian Northern system by the river Pelly or some other route. We may have a branch also to Rock creek, which will connect with the

POVERTY COMPELS RELATIVE OF A FAMOUS FAMILY TO MAKE AWAY WITH HERSELF.

[BY ASSOCIATED PRESS.] Chicago, Sept. 26.—Mrs. William H. Bensing shot and killed herself at her home in Irving Park, leaving motherless her seven children, the oldest of whom is 13 years of age. Her husband went to Los Angeles, Cal., several months ago in quest of health. Since his departure, it is said, the family has been in financial straits.

Mrs. Bensing was, according to the Chronicle, with her mother, who is still living, the last of an old American family of the name of Chadwick. Her brother, Captain Chadwick, served in the Spanish-American war and died near Chattanooga while on his way home at the close of the war.

AMEA STILL DRAWS HIS PAY.

[BY ASSOCIATED PRESS.] Minneapolis, Sept. 26.—Mayor Ames will get his salary for the rest of the year. When the salary list was prepared the city comptroller left the name off, but the city attorney insisted that it should be put on and so, for the remainder of the year, unless some taxpayer objects, A. A. Ames of West Baden, Ind., a resident and citizen of a neighboring state will have a check for wages as mayor of Minneapolis sent to him by mail. The city attorney says the mayor is mayor until his successor has been elected and qualified.

CRUEL WHEELS OF FLYING AUTO CRUSH A WEE BABY

Chicago Man Arrested for Running Over the Child of a Janitor—Released and Then Sought for Again.

[BY ASSOCIATED PRESS.] Chicago, Sept. 26.—Minnie Brouckman, the 4-year-old daughter of Henry Brouckman, janitor of an apartment building, stepped directly in the path of an automobile driven by Vernon Cassard, a board of trade broker, at Garfield Boulevard and Michigan avenue last night and was so severely injured that she died three hours later. Mr. Cassard did not see the little girl until the automobile was already upon her, but he brought the vehicle to a stop in time to save her from being crushed under the wheels.

Cassard, after the accident, went to the Fifteenth street police station and surrendered himself. He was released on a nominal bond, but when news was received of his victim's death, detectives were sent out to arrest him that he might furnish security for his appearance before the coroner's jury, but up to a late hour he had not been apprehended.

ISAAC A. SINGER IS SILENT.

[BY ASSOCIATED PRESS.] New York, Sept. 26.—Isaac A. Singer, one of the largest stockholders of the Singer Manufacturing company, is dead in Atlantic City. He retired from active business several years ago and traveled extensively.

proposed operations there. The road will be completed from Dawson to Grand Forks early in the summer. It will prove of immense benefit to the quartz interests of the district. At present we quartz miners are in a hole."

YEAR'S COPPER PRODUCTION

August Output Shows Slight Falling Off From July.

The product of copper for August shows a slight falling off from July, but still reflects a large increase over the corresponding period last year, the figures in tons being as follows: Month of August, 25,296; increase, 2,629; since January 1, 192,493; increase, 14,447.

The figures of production and export of copper for the month of August, compiled by John Stanton, are as follows: Produced by United States reporting mines, 23,196 tons; produced by outside sources (estimated), 2,100 tons; produced by foreign reporting mines, 9,504 tons; total, 34,800 tons. Exports, 12,429 tons. The largest of "outside sources" has become "reporting mines."

Screenings.

Hoisting machinery has been placed on the property of the New Syndicate Sapphire Mining company in Fergus county, Montana. A large force of men is developing the mines. The season's work is reported to have been very satisfactory.

The mill at Kendall, Fergus county, is crushing 300 tons of ore daily. The bulk of the ore comes from the west cut, which is now 75 feet wide and 100 feet deep. The new shaft is down 250 feet, where drifting goes on. The company's refinery is now ready for work. Iron pipe, to take the place of the wooden pipe in the ditch from Warm Springs, is arriving and will be laid before winter comes.

The placer mines on the Nizina river and its tributaries are proving to be one of the richest discoveries made in Alaska. The reports that continue to come from that locality not only verify previous reports, but show that the original discoverer had but slight conception of the value of these deposits of placer gold, native silver and native copper. About 500 claims have been staked and in every instance where the properties have been prospected they show up well.

Houghton Mining Gazette says that the Anaconda mine of Montana heads the list as the copper producer. This mine alone yields 100,000,000 pounds of the metal per year. A rich find of copper ore has been made near the Quill mine not far from Carson, Nev. Assays show 25 per cent copper with considerable gold. The ledge is wide. The value of the copper produced in the United States in 1887 was \$21,115,916; in 1900 it was \$101,222,712. The value of the copper exported from the United States in 1864 was only \$432,570.

The Sunrise mill and concentrator, near Phillipsburg are in operation. About 10 men are busy at the concentrator, which is handling about 50 tons of ore daily. The ore comes from the Bunker Hill mine, half a mile from the mill, at the mouth of Henderson canyon. All the claims in the district are reported practically controlled by the Henderson Mining company, which succeeds the Sunrise Mining and Milling company. About 50 men are employed. Charles D. McLure is president, Frank D. Brown manager and C. C. Spencer assistant superintendent.

MYSTERIOUS ENGLISHMAN WHO CONTROLS CONCERNS

Ohio Wishes to Know More of Certain Firm Before It Does Business in the Buckeye State.

[BY ASSOCIATED PRESS.] Columbus, Ohio, Sept. 26.—Quo warrant proceedings were brought in the circuit court yesterday by Attorney General Sheets to prevent the American Farm company, incorporated under the laws of New Jersey, from doing business in Ohio. The company has \$2,000,000 capital, and sets up as its object the purchase and control of mills, grain elevators, cars and all means of transportation for the products of farms.

The petition in quo warranto claims the company's methods violate the anti-trust law. The petition also says the company began business with only \$200 working capital, but has been making a show of being a profitable concern by paying dividends out of the capital stock.

The attorney general asks to know more of the Sir Edward Woote, who is cited in the company's circular as the company's "auditor of England," and who is supposed to be connected with the concern.

CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion — there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back or feet, and other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty corrupt particles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies.

Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

JOSEPH P. COLLINS, Administrator of the Estate of Lawrence Manning, deceased. Dated Butte, Montana, this 20th day of May, 1902.

MINING APPLICATION NO. 4554.

Helena, Mont., August 20, 1902. Notice is hereby given that Robert McBride and Jennie Adams, whose postoffice address is Butte, Montana, have this day filed their application for a patent for 125.3 linear feet, being 85 feet south-westerly and 1170.3 feet northeasterly from discovery shaft of the Six Thirty Lode Mining claim, upon which a notice of intention to apply for a patent was posted on the 25th day of August, 1902, situated in Summit Valley (unorganized) Mining district, Silver Bow county, State of Montana, designated as Survey No. 6651, in Township 3 north of Range 7 west, being more particularly described as follows, to-wit:

Beginning at the southwest corner, a point in the north side line of Survey No. 6281, a granite stone set in the ground, with a mound of earth and stone alongside, and marked 1-6653, for Corner No. 1, from which the northeast corner of Section 17, Township 3 north, Range 7 west, bears south 28 degrees, 08 minutes and 40 seconds west 4764.5 feet, and running thence south 84 degrees 11 minutes east 246 feet; thence north 70 degrees 20 minutes east 733 feet; thence north 61 degrees 55 minutes east 280 feet; thence north 18 degrees 21 minutes west 359 feet; thence south 70 degrees 22 minutes west 1234 feet; thence south 18 degrees 21 minutes east 325 feet to the place of beginning, containing an area of 11.79 acres, of which 5.20 acres are in conflict with Surveys No. 2834, 2835, 3043 and 4857, not claimed, leaving 6.59 acres claimed by the above-named applicants.

The location of this claim is of record in the Recorder's office of Silver Bow County, State of Montana, in Book "P" of Lode Locations, on Page 32.

The adjoining claims to these premises are Survey No. 2834, Cook Lode, and Survey No. 2835, Fredericksburg Lode, on the north; Survey No. 3043, Black Chief Lode, on the southeast; Survey No. 4857, Keokuk Lode, on the south; Survey No. 6181, Morning Star Lode, on the southwest, and Survey No. 4943, East Golden Chief No. 2 Lode, on the west.

FRANK D. MIRACLE, Register. Samuel Barker, Jr., Attorney for Applicants. [First publication, August 30, 1902.]

MINING APPLICATION NO. 4548.

United States Land Office, Helena, Montana, August 14, 1902. Notice is hereby given that James H. McDonald, whose postoffice address is Butte, Montana, has this day filed an application for a patent for 1,500 linear feet, the same being for 3500 feet in an easterly and 1,150 feet in a westerly direction from the point of discovery on the Rising Sun Lode mining claim, situated in Independence (unorganized) mining district, Silver Bow county, Montana, the position, course and extent of the said mining claim, designated by an official survey thereof, as Survey No. 6645, Township No. 3 north, Range No. 8 west, a notice of which was posted on the claim on the 23rd day of July, 1902, and being more particularly set forth and described in the official

field notes and plat thereof on file in this office, as follows, to-wit:

Beginning at the southeast corner, a granite stone, 6x18 inches, 14 inches deep, with mound of earth alongside, and marked 1-6645 for Corner No. 1, from which the one-fourth section corner to Sections 21 and 22, Township 3 north, Range 8 west, bears south 75 degrees 44 minutes west, 565 feet, and running thence north 79 degrees 10 minutes west, 2458.5 feet to the Southwest Corner No. 2; thence north 3 degrees east, 136 feet to Corner No. 3; thence north 20 degrees 21 minutes east, 431 feet to the Northwest Corner No. 4; thence north 79 degrees 11 minutes east, 1499 feet to the Northeast Corner No. 5; thence south 20 degrees 21 minutes west, 564 feet to Corner No. 1 and place of beginning, containing an area of 10.14 acres, of which 3.37 acres are in conflict with Survey No. 4840 and is not claimed, leaving an area of 15.77 acres, claimed by the above-named applicant for patent.

The location of this mine is recorded in the office of the recorder of Silver Bow county, on Page 417 in Book 2 of Quartz Lodes.

The only known adjoining claim is on the Northeast Survey No. 4840, the Carrie Lode.

FRANK D. MIRACLE, Register.

JOSEPH H. HARPER, United States Claim Agent.

Date for first publication August 15, 1902. MINING APPLICATION NO. 4563.

United States Land Office, Helena, Montana, September 18, 1902.

Notice is hereby given that Harry Flower of Chicago, Illinois, and Rachel Strasburger, whose postoffice address is Butte, Silver Bow county, Montana, have this day filed an application for a patent for 1,046.9 linear feet, the same being for 122.6 feet in northeasterly and 824.3 feet in southwesterly direction from the point of discovery on the "Bung Your Eye" Lode Mining claim, situated in no organized mining district, Deer Lodge county, Montana, the position, course and extent of the said mining claim, designated by an official survey thereof, as Survey No. 6103, Township No. 5 north, Range No. 12 west, a notice of which was posted on the claim on the 3rd day of September, 1901, and being more particularly set forth and described in the official field notes and plat thereof on file in this office, as follows, to-wit:

Beginning at the southern corner where is set a pine post 6 inches square witnessed by bearing trees and marked 1-6103 for corner No. 1, from which the corner to Sections 22, 23, 26 and 27, Township 5 north, Range 12 west, bears south 58 degrees 42 minutes east, 9,743 feet distant, and running thence, north 49 degrees 17 minutes east, 1,044 feet to Corner No. 2; thence, north 40 degrees 43 minutes west, 550 feet to Corner No. 3; thence, south 44 degrees 57 minutes west, 1,046.9 feet to Corner No. 4; thence south 40 degrees 43 minutes east, 471 feet to Corner No. 1, the place of beginning, containing an area of 12.23 acres, claimed by the above named applicants, of which an area of 0.07 acres is in conflict with the Gold Crown Lode Survey No. 5743.

The location of this mine is recorded in the office of the Recorder of Deer Lodge county on Page 40 in Book of Lode forms.

The only known adjoining claim to these premises is the Gold Crown Lode Survey No. 5743, claimed by D. Giles Brownell which conflicts with this survey upon the south.

FRANK D. MIRACLE, Register. (First publication Sept. 19, 1902.)

MINING APPLICATION NO. 4557.

Helena, Montana, Sept. 11, 1902. Notice is hereby given that Lulu F. Largey, whose postoffice address is Butte, Montana, has this day filed her application for a patent for 1,500 linear feet, being 1,208 feet westerly and 292 feet easterly from discovery shaft of the Orleans Lode Mining claim, upon which a notice of intention to apply for a patent was posted on the 25th day of August, 1902, situated in Summit valley (unorganized) Mining district, Silver Bow county, State of Montana, designated as Survey No. 6644, in Township 3 north of Range 7 west, being more particularly described as follows, to-wit:

Beginning at the northwest corner, which is also Corner No. 1 of Survey No. 4572, and a point in the tenth Course of Survey No. 3338, a granite stone set in the ground, with a mound of earth and stone alongside, and marked 1-6644, for Corner No. 1, from which the quarter section corner on the north boundary of Section 8, Township 3 north, Range 7 west, bears south 35 degrees 26 minutes 31 seconds west, 3,293.4 feet; and running thence south 22 degrees 08 minutes east, 450.5 feet; thence south 31 degrees 15 minutes east, 183.5 feet; thence north 83 degrees 22 minutes east, 1-465.5 feet; thence north 22 degrees 08 minutes west, 624 feet; thence south 83 degrees 16 minutes west, 1,500 feet to the place of beginning, containing an area of 20.59 acres claimed by the above named applicant.

The location of this claim is of record in the Recorder's office of Silver Bow county, State of Montana, in Book "W," of Lode Locations on Page 149.

The adjoining claims to these premises are Survey No. 4572, Black Eagle Lode on the north and Survey No. 3338, Poplar Grove Placer on the west.
