HELENA MAN DIES OF HEART FAILURE

PATRICK KELLY SUCCUMBS TO DREAD DISEASE IN CORRIDOR OF HOTEL FINLEN.

CAME HERE FROM CAPITAL CITY ONLY LAST EVENING

Insidious Malady Gives No Warning of Its Fatal Approach and Sufferer Falls Dead While Waiting for an Attendant to Bring Him a Blanket for a Chill He Had Just Begun to Feel.

Patrick Kelly of Helena, aged 65 years, fell dead in the hallway of the first floor at the Finlen hotel this morning at 10:30 o'clock as a result of heart failure.

Kelly arrived in Butte from Helena yesterday afternoon on the Great Northern train due at 3:50 o'clock, and at once went to the Finlen hotel, where he registered as "Pat Kelly, Helena." He was assigned by Fred Hansen, the day clerk, to room No. 177, and last night at an early hour he retired.

This morning about 9:30 o'clock Kelly expressed a desire to take a bath and while in the bath room the chamber-maid fixed his room for the day. On coming from the bath-room, Kelly met the girl in the hallway and complained of being cold; he asked for a heavy blanket and the girl went into an adjoining room to get one.

It was while waiting in the hall for the blanket that Kelly was seized with an attack of heart failure. He sank down to the floor and was lying prostrate on his face when one of the other guests coming through the hall saw him.

Dead When Assistance Came. Clerk Hansen was at once notified and he went to the assistance of Kelly, who was then unconscious.

Kelly was placed in bed and Dr. W. W. Taylor was sent for. When the physician arrived the unconscious man was breathing his last and soon after was pronounced dead. The body was removed to Richards undertaking rooms, where Coroner Johnson will hold an inquest tomorrow evening at 7 o'clock.

It is not known whether Kelly has relatives living in Helena or not. Letters were found on his person addressed to the Grand Central hotel in the capital city. It is believed that he was a tailor in Helena at one time, but of late has followed mining. A pocketbook containing \$93 was found in his room at the Finlen.

HIS MUSICAL EAR CANNOT ENDURE IT

GERMAN PROFESSOR IS DRIVEN TO DISTRACTION BY UNHARMONIOUS NOISES NEARBY.

If Joseph Hebour, a big man with a strong German accent, isn't insane, he certainly acts like it.

Hebour ran into Clerk Winn's office at the city hall this morning at 9 o'clock and declared he wanted Mrs. Jennie Nash and her entire family arrested on the charge of making noises he didn't like.

"And where does this annoying Nash family live?" asked the police clerk. "They live at number 524 West Park street," said the German, "and dey makes life miserable for me."

"In what way?" again queried Winn. "Then Hebour told a long story of his troubles. He said he was a music professor and that he lived next door to the Nash household. He said that his ear is finely trained to harmony and that the slightest discord grates on him like the rude rasping of a file.

They Are All at It. He told the clerk that from Mrs. Nash down to the baby there was no harmony in the family and that discordant sounds they made gave him the creeps.

For this reason he wanted a warrant issued.

Clerk Winn finally induced the excited music teacher that he couldn't get recourse in police court, as the Nash family had a perfect legal right to be unmusical and if the Nash baby cried out of tune it was not the duty of the police court judge to rectify the evil.

Hebour went away grumbling at the inadequacy of the laws.

Family of Miserable and Destitute Roumanian Immigrants Ordered Deported by Officials.

New York, Oct. 3.—William Williams, the new commissioner of immigration at this port, has addressed a letter to the commissioner general of immigration, placing severe strictures on certain steamship lines. The letter concerns a Roumanian family of father, mother and five children, who were brought to this country in the steerage. The father is crippled and unable to earn a living, and the entire family is destitute.

"I find on personally examining these aliens," said the commissioner, "that they are typical of the class of Roumanians in regard to whom the state department has recently expressed itself in strong terms and are in effect paupers." The family will be ordered deported.

Millionaire Brewer Dead.

Portsmouth, N. H., Oct. 3.—Frank J. Jones, the millionaire brewer, died at his home here yesterday aged 70 years. He was a member of congress from 1865 to 1869, and the democratic candidate for governor of New Hampshire in 1880. In 1896 Mr. Jones voted for McKinley.

John Creft has removed his stand to No. 22 W. Park street.

SATURDAY IS THE LAST DAY

FIRE CHIEF MUST GO TO SALT LAKE

SANGER'S WIFE IS NOT EXPECTED TO LIVE—SERIOUS RELAPSE TAKES PLACE.

Fire Chief Peter Sanger last night received a telegram from Salt Lake announcing a serious relapse in the condition of Mrs. Sanger, who is being treated at the Sisters' hospital in that city.

The telegram announced that there was no hope of Mrs. Sanger's recovery and requested the chief's presence.

Chief Sanger was unable to leave today and sent one of Mrs. Sanger's friends in his place until he could get relieved from duty.

Advices from Salt Lake this morning stated that a week or two was all that the surgeons expected to prolong life.

GOODE WILL BE VERY GOOD NOW

GENTLEMAN WHO TOOK FACE OF A FRIEND FOR A PUNCHING BAG IS ARRAIGNED IN COURT.

AND TEN AND COSTS IS THE FINE HE RECEIVES

Owing to the Fact That Mr. Goode Will Not Be Good, but Insists on Preparing to Clean Out the Court Room, Judge Boyle Decides He Will Be Better Off in Jail and It Is Well Goode Is There.

"I tell you I didn't hit Tommy Hardeman, and if this here court insinuates I did, I'll—"

"No threats here, sir!" interrupted Judge Boyle, as James Goode was about to launch into a speech of what vengeance he would wreak if the court should declare him guilty as charged last night by Police-

Goode was arrested last night by Police-

man Lyden for using Thomas Hardeman's face as a piston rod uses a cylinder head. The officer testified that Goode was the larger man and that on getting Hardeman down at the corner of Main and Ghena streets he literally pounded the latter's face into a jelly.

"And I believe Goode would have killed the man had I not arrived in the nick of time," said the arresting officer.

Hardeman's face certainly bore evidence to this fact, for one eye was entirely closed and the other peered out from a blue ring that was made by a set of hard knuckles.

Now Will He Be Goode.

"But I say it wasn't me that did the trick," insisted Goode, "and I'm goin' to do things to the policeman that arrested me as well as you—"

Whether Goode would have attempted to carry out his threats during the session of police court or waited for the stilly darkness of night, is a question, but at any rate he didn't get a chance to do immediate damage for Sol Levy hustled him from the courtroom and an echo of "10 and costs" lingered on his ears as the heavy jail doors shut him in, thus saving the judiciary end of the city hall from an awful fate.

DOWN THE STEEP DESCENT

Man and Ore Car Roll Over and Over Each Other Without Injury.

There are some miners at the Gagnon who are willing to swear that Gordon Malloy leads a charmed life. This opinion is based on the fact that Malloy rolled down the steep dump at the Gagnon mine yesterday afternoon, together with the ore car he was pushing at the time, and after rolling and falling the entire distance of 30 feet, arose to his feet and walked away.

Malloy went to Murray & Freund's hospital after the accident where he was examined by a physician. While no external injuries were found on his body, there is a chance that internal injuries may develop and Malloy will follow the advice of the doctor and remain in bed a few days.

WHARTON SAYS IT WAS NOT SO COLD

WEATHER PROPHET FIGURES OUT THAT SEPTEMBER WAS AN UNUSUALLY MILD MONTH.

Manager J. R. Wharton of the street railway, who is also Butte's official weather prophet, has made out his weather report for the month of September. The report shows that September of this year was a milder month than September of 1901, notwithstanding the fact that many people are complaining of what they term an unusually cold fall.

Following are the figures on the weather for September of this year as well as for the same month last year:

September, 1902—Maximum temperature, 76; minimum temperature, 28; mean maximum, 63.9; mean minimum, 39.2; clear days, 23; partly cloudy, 1; cloudy, 6; precipitation, 10.

September, 1901—Maximum temperature, 77; minimum temperature, 24; mean maximum, 58.1; mean minimum, 33; clear days, 13; partly cloudy, 5; cloudy, 12; precipitation, 90.

BOZEMAN BIRD IS COMING THIS WAY

RICHARD MEYER HAS BROKEN JAIL OVER THERE AND IS HEADED IN THIS DIRECTION.

News has reached police headquarters that Richard Meyer, a criminal, has escaped from the jail at Bozeman and is making his way in the direction of Butte.

The escaped jailbird is described as being 22 years of age, 5 feet 2 inches in height, with curly hair, small blue eyes, light complexion and a scar on the right cheek. He weighs about 130 pounds and is said to be an inveterate cigarette smoker.

Meyer broke jail yesterday at Bozeman, where he was serving sentence for car-breaking. He has friends in this city, and it is almost certain he is coming this way.

Butte Labor News.

JESUS CHRIST WAS THE FIRST GREAT UNION MAN

Chicago Workmen Sounded on the Savior and Why They Do Not Go to Church More Frequently.

"The Reason Why Workmen Do Not Belong to the Church" was related in a symposium of letters sent by members of Chicago labor unions and read by the Rev. Roy B. Guild at a meeting of the Federated Churches of the West Side in the Windy City last night.

The opinions of the union men were classified by Mr. Guild into 17 heads, ranging from criticisms on the alleged prevailing atmosphere to be found in the houses of worship to the personal desire of the workmen to spend the day in their own manner.

Rev. Mr. Guild, however, said that the non-attendance of the workman as a general thing is not from an absence of religious feeling.

In his letter of inquiry he asked addressee's opinion of Jesus Christ, and a majority of the replies showed a deep spirit of reverence.

Only one letter showed a sign of disrespect, and many said that Christ represented an exceedingly pure type of union men. Some criticized the modern sermon and said the gospel was presented in an indigestible manner.

CHICAGO BUSINESS AGENT FINED FOR GETTING BUSY

Ordered a Recent Strike and It Seems That in So Doing He Displeased Both Sides in the Dispute.

W. E. Francis, business agent of the Bridge and Structural Iron Workers in Chicago, has been fined \$200 by the joint arbitration committee of the union and the employers because he ordered a recent strike of iron workers on the Rock Island depot.

Francis called out the men because the contractors gave the building of a "traveler" to the Brotherhood of Carpenters and Joiners. As a result work was stopped on buildings that are to cost \$9,000,000.

The strike involved iron men, hod carriers, hoisting engineers, masons, carpenters and bricklayers.

LOCOMOTIVE ENGINEERS ARE TO ASK MORE PAY

But Railway Officials Say Increase Is Not Likely to Be Granted—Hold a Meeting in Chicago.

Representatives of the local division of Bloomington (Ill.) Brotherhood Locomotive Engineers are in Chicago to attend a secret meeting of engineers of the principal roads of the West. The object is to draw up a formal demand for a 10 per cent increase in pay, obeying the instruc-

tions of the national convention recently held.

The engineers say of late years the size of the engine and cars have increased, as well as the tonnage, while the rate of pay is unchanged. Officials say that the demand will hardly be granted.

While admitting the contentions of the men are true, they say freight rates recently have decreased heavily, leaving the earnings practically unchanged.

TRY TO CARRY PEOPLE ON CARS MEANT FOR MAELS

New Orleans Street Railway Strike Said to Be Assuming a Very Serious Phase These Days.

After useless parleying between the striking car men and the company, in New Orleans, through Mayor Capdeville, as intermediary, negotiations came to a positive end last night, and today will witness a determined effort by the company to run the cars.

Cars with United States mail signs were run without molestation yesterday. It was announced that passengers would be taken on these cars, but when several passengers started to board a car on Canal street, the conductor abandoned the car and was received with cheers by a crowd of strikers.

The company discovered the abandoned car a few minutes afterwards and took it to the barn. The big feed wires of the Carrollton line were cut during the night on Carrollton avenue. There was no other violence during the day.

CHICAGO STRIKE SETTLED.

The strike of the coal teamsters in Chicago which for a time threatened to deprive the public schools of their fuel supply, has been settled. The anthracite and bituminous coal company which supplies the schools on the Northwest Side conceded all the demands of the teamsters.
