PRECINCT ELEVEN HAS FIRST FIGHT

FELLOW WHO HAS NO RIGHT TO VOTE THERE ATTEMPTS TO PASS BY A DEPUTY SHERIFF.

AND IS HANDLED VERY ROUGHLY FOR TROUBLE

Rumor That a Heinze Man Had Been Deprived of His Vote Causes a Crowd of Faugustus's Adherents to Gather, but They Are Awed by the Officials and No Demonstration is Made.

Election day started out bright and calm this morning in precinct 11, and it looked as if there would be no particular excitement to disturb the equilibrium of affairs. But an unusual calm generally foretells a coming storm, and so it was expected that there would be "doings" before the day was over.

About 11 o'clock a little fellow staggered up to the voting booth and started to go in. One of the deputy sheriffs recognized him, and knowing that he had no right to vote in that place, he was told to move on before there was any trouble. In his wabbling condition he started to argue the case, but the big man with the club would stand for no phony business, and catching the man with the alcoholic breath by the nape of the neck he lifted him across the curbstone and told him to run around the block and yell "fire."

Trouble Feared Later.

The word passed that a Heinze man had been prevented from casting his vote and before many moments there was a crowd that seemed to have come from all corners of the town.

There were mutterings of discontent, and it looked as if a small-sized outbreak might occur. But just about that time the old fellow bobbed up again and was led away by a policeman. Several officers were posted in the vicinity, as it was believed that an attempt would be made to create a disturbance later.

CHARLES RAY GETTING BETTER AT HOSPITAL

He Was Cut in the Leg by Dancing Master Dailey and a Main Artery Severed.

Charles Ray, the young man who was stabbed in the leg by T. J. Dailey last Saturday night, and who is now being treated at the St. James' hospital, is growing gradually stronger and will in all probability recover.

The attending nurse said this morning that she had strong hopes of Ray's recovery. He was still very weak, she said, but that was from loss of blood, and with the return of good blood he would get well. As for the wound itself, it is healing rapidly.

According to Ray, he and Dailey had a quarrel early Saturday evening. Dailey had been drinking, and when he met Ray later in the evening he provoked a fresh quarrel. The two men fought on Main street in front of the California brewery, and when the fight was ended it was found that Ray had a dangerous wound in the left leg. An artery was severed and Ray almost bled to death before he reached the hospital.

BERNICE HAZEL SAYS THAT SHE IS INNOCENT

Austrian Who Was Green Just Lost His Money or Spent It in the Bad Lands.

Bernice Hazel, the resident of East Galena street who is locked in a cell at the city jail, charged with having robbed Nick Melitz of \$54 last evening, declares she is innocent of the charge and that she will be able to prove as much to Judge Boyle when her case is called in police court tomorrow morning.

The Hazel woman's apartments are at No. 54 East Galena street. Last night Melitz, who is an Austrian, with a sad lack of knowledge of the ways of the world, was wandering through the "bad lands" when he stopped in to pay a call on Bernice Hazel. When he left he was minus his roll, and to the jailer at police headquarters he declared the Hazel woman had done the work.

She was arrested at once. It is doubtful if there is enough evidence to convict her.

RUNAWAY TROLLEY CAR CAUSES DEATH OF TWO

Crashes Down Hill in Kansas City and Pushes Woman and Negro into a Saloon, Killing Both.

[BY ASSOCIATED PRESS.]
Kansas City, Nov. 4.—A very heavily loaded trolley car on the Broadway line jumped the track today at Fifth and Broadway and dashed into a saloon. Two persons, a woman and a negro, were killed and six others were injured.

The dead:
Mrs. MARGARET CHRIST, Olathe, Kan.
CHARLES JOHNSON, Kansas City, driver.

All of the injured will recover. The motorman lost control of the car at the top of the hill, two blocks away, and it descended at a terrific speed. At Fifth street, where the track turns, the car continued straight ahead. It struck a wagon driven by Johnson and pushed it with Mrs. Christ through into the saloon. The store front was completely demolished and the car badly damaged. Mrs. Christ and Johnson were instantly killed. None of the passengers had time to jump.

COLOR TREATMENT FOR INSANE FOLKS

NEW SYSTEM IS BEING TRIED DOWN IN NEW YORK WITH ENCOURAGING RESULTS SO FAR.

DIFFERENT EFFECTS OF THE DIFFERENT COLORS

Black Is Used for Patients Suffering From Acute Mania and All the Colors Figure in the Treatment, Having Their Special Uses for Special Cases—A Few of the Treatments Given.

[BY ASSOCIATED PRESS.]

New York, Nov. 4.—A new cure for insanity is being tested by Drs. Bond and Monette on Ward's island. The color cure is a treatment new to alienists, but one that promises to become very successful, for, so far, a great many of the patients taken to the color ward have been cured. Dr. Dent, superintendent of the woman's hospital on the island, directed that a ward be set aside for the color treatment, and be fitted with all that the experiment required.

In this new treatment only the primary colors are employed, but so completely is a patient surrounded by an atmosphere of a particular color, deemed best by the physicians for his particular mania, that the vibrations must act upon him. The rooms of this ward are small, and the furniture consists of an iron bed and a chair. The walls are painted in vivid color, the bed and chair colored to correspond with the walls, and the light sifts into the room through a shade of the same color, so that an atmosphere of this color is created.

Black for the Acute.

When one of the patients suffers from acute mania the room that is painted black, a very dungeoned of a room, falls to her lot. This complete darkness and the silence of the place seldom fail to have some effect on the patient. As a matter of fact, it tends to soothe, and soon it is noticed that the subject becomes quiet. Red, producing more vibrations to the second than any other color, is employed when melancholia is being treated. These rays of red attract the mind, their vibrations are necessarily felt by the patient, and the thoughts in the poor brain are set in motion. There are violet rooms for mild forms of insanity, blue and green rooms for the hysterics, and a white room for the person who is practically well.

A recreation room or hall extends through the middle of the long, low building. On each side of this hall are ranged the rooms, and as the visitor steps from the outdoor light into the subdued quiet of the hall the combination of the rays of light from the different rooms is quite startling for a moment.

Effects of Different Colors.

That the different colors have effect on the insane patient was well illustrated the other day when a woman suffering from melancholia was led down the hall. First come the black rooms; these she passed without evincing any difference in her state of observation. The violet, green and blue rooms had the same effect; before each door she paused, but did not raise her eyes. Then came the brilliant orange room. For a moment she raised her eyes, then lowered them again. Three of these rooms she passed, and was then brought up abruptly in front of the room with the red walls.

She raised her head instantly, looked into the room, and then about her. The vibrations produced by this color had evidently been felt by her, while the others had had no effect. In this way the room is generally selected for the patient. Of course, when the case of melancholia is so bad that nothing will attract attention, a red room cannot be supposed to have immediate effect, but after a week or two weeks in this room some slight improvement may be noticed. The glance of an eye, the motion of a hand or the head mean much to the doctors—more than the layman would ever imagine.

There are three rooms of three shades of the same color, each lighter by several degrees than the preceding one. From red the patient is removed to a deep pink room, from this to one of a flesh tint, and then they generally come out well, or so nearly well that only a certain number of hours in the day need be spent in the color room.

THREE KINGS WILL LAY ROYAL HEADS TOGETHER

England, Germany and Portugal Are to Discuss Feasibility of Dividing a Part of East Africa.

[BY ASSOCIATED PRESS.]
London, Nov. 4.—Emperor William's approaching visit being closely connected in time with the arrival of the king of Portugal has revived discussions of a secret pledge of Anglo-German diplomacy. No diplomatist doubts the existence of a secret agreement between the two governments relating to the partition of Portuguese East Africa, and many well-informed men suspect that Asia Minor also is included in the scope of this convention. The most reasonable theory is that the British government, having secured an option to buy the Portuguese territory whenever the Lisbon government is ready to sell it, arranged with the Berlin government for a scheme for dividing it and readjusting the frontiers.

The German emperor is believed to be anxious to have this sale carried through and the advantages for Germany made known for the sake of vindicating his own course of action in keeping on good terms with England. The British ministers, on the other hand, are believed to be reluctant to reveal a partition scheme in advance of actual purchase of the territory, and the king of Portugal is not expected to lend encouragement to the idea that the sale can be hurried on.

He Was Cool and Easy.

Clinton, Iowa, Nov. 4.—A burglar entered the residence of Editor C. A. Fay, took a pistol from under Fay's head, lighted the gas, covered Fay and his wife with the gun and compelled them to give up money and diamonds valued at \$1,300. The robber was cool and joked with his victims.

CLOSING MEETING OF THE CAMPAIGN

FORMER GOVERNOR RICKARDS AND E. B. HOWELL ADDRESS GATHERING IN THE GRAND.

ENTHUSIASTIC AUDIENCE GREETES THE FAVORITES

A. F. Bray Acts as Chairman and Makes a Forceful and Characteristic Speech in Introducing the Orators—What They Said to Clinch Down Hard and Fast a Local Republican Victory.

Former Governor J. E. Rickards and E. B. Howell made splendid speeches at the Grand opera house last evening. There was a large audience and much interest was manifested in the telling points made by the two orators.

The meeting was presided over by A. F. Bray, who made one of his characteristic speeches and expressed his high appreciation of the honor of presiding over a republican meeting. He introduced E. B. Howell as the first speaker.

The Montana State band played some splendid music and there was a large and appreciative audience, who were ready to applaud every telling point made by the orators.

Mr. Howell talked along the same lines that he has in other speeches and discussed the whole situation, both local and national.

It Carried Conviction.

Mr. Howell made a forceful and logical talk that carried conviction to the hearts of his hearers.

Former Governor Rickards was the last speaker and he was at his best and made a splendid speech that raised the enthusiasm of the large audience to a high pitch. The governor said that Montana had degenerated under democratic rule and warned the voters from voting to support any of Mr. Heinze's pretensions. He feared that if the man who wants to control the courts should succeed that it would be even worse than under the democrats.

The meeting closed with three cheers for the republican ticket, which was given with a will.

Fall of Forty Feet.

APPRENTICES CAN'T JOIN
What is Doing and Who is Doing It Down in the Hoosier State.
[BY ASSOCIATED PRESS.]
Indianapolis, Ind., Nov. 4.—The annual report of the bureau of state labor statistics of Indiana, advance copies of which have been received, show that 250 industries pursued by corporations employ 26,797 wage-earners and 3,363 on salary. The average paid skilled laborers was \$2.43 per day, unskilled \$1.33.
Reports were received from 1,215 industries carried on by individuals or firms, and in which 24,136 persons were employed as wage-earners. In this category skilled labor averaged \$2.13 a day and unskilled \$1.25.
An exhaustive investigation was evidently made by the commissioner, in which he shows that the employes of corporations in Indiana receive higher wages than those of individual employes, and the former work fewer hours. It also shows that it is the corporation employe who makes a fight for higher wages and better conditions, when one is made.

ANOTHER UNION FOR MARRIAGE

St. Paul Women Will Wed No Man Outside of the Union Ranks.
[BY ASSOCIATED PRESS.]
St. Paul, Nov. 4.—Matrimony among the women clerks in St. Paul is to be conducted along union lines hereafter, if reports that come from that city be true. Female members of the clerks' union there have organized a league which has for its purpose the rejection of the attentions of men who are not members of their respective trade unions.
The platform of the league states that "a union built for two should be loyally affiliated with a union standing for decent hours and proper compensation." Suitors for the hands of the lady clerks will be compelled to show their cards of membership in their union when they put in an appearance, and when a man's card is recognized at one home it will not be good anywhere else.
Apprentices in the art of lovmaking are barred, as they believe that only competent journeymen in this particular science should be recognized.
