

KING OF SIAM WILL VISIT UNITED STATES

THE KING OF SIAM.

Who is Going to Pay Us a Visit in the Near Future and Study Our Customs.

(Correspondence of Inter Mountain.)
New York, Nov. 14.—Chulalongkorn I, king of Siam, has long been contemplating a visit to the United States. The crown prince is at present making a two months' tour here, and his father has definitely announced his intention of coming over in January next.
His highness Chulalongkorn—or we may be permitted to say his royal hairpins, as that is precisely what chu la lonk korn means—was born September 1, 1853, and at the age of 15 he succeeded to the throne upon the death of his father. Then, according to the Siamese custom, he went into novitiate for the priesthood for two days. In 1873 he was again crowned, and here, seated upon his magnificent throne, he released his scouriers from the time-honored custom of appearing in their sovereign's presence on hands and knees. This was the beginning of his doing away with many rigid and ridiculous court rules. Formerly the king was regarded as a sort of a semi-divine being. He dressed as no one else was allowed to utter. King Chulalongkorn attires himself in ordinary dress and knows how to make himself generally agreeable. He is unusually studious and progressive, and has during his

reign introduced a privy council, a cabinet and a legislative council. There is a noticeable lack of dogmatism in all his decisions.
To insure the greatest degree of welfare for his people the king is continually sending his officials on investigating excursions, and in the course of their travels they find any hints which may be used to advantage in Siam, he heartily operates in any feasible project. Not only is he educating his sons abroad but he is maintaining 60 other young men who are studying some one of the professions. He himself is an extensive traveler.
Chulalongkorn's vigor of mind is not confined to the affairs of state. For instance, he is an enthusiastic botanist and at his delightful summer palace, 60 miles from Bangkok, he gives garden parties and exhibits his rare flowers. On one occasion he had in bloom 60 varieties of the orchid.
Siam, on account of its central position in relation to the neighboring states, its influence over them and its maintenance of its own native government, has been called the "Heart of Further India." It invites foreign trade and would undoubtedly prove a good market for any American who might be enterprising enough to invite intercourse.

FOUND HIDDEN AZTEC TREASURES

SOME AMERICANS IN MEXICO FIND INTERESTING RELICS OF A FORMER RACE OF PEOPLE.

[BY ASSOCIATED PRESS.]
Hermosillo, Mexico, Nov. 14.—A remarkable story, duly authenticated, of the discovery of hidden Aztec treasures, has just been reported to the government authorities at Tepic by Rev. Pablo Martino, the parish priest of Yescá.
The priest makes a statement, which is concurred in by several reliable parties, that a party of Americans headed by an archeologist expert, who gave the name of Heverick, arrived at Yescá several weeks ago and went from there into the mountains accompanied by three Mexican guides. The archeologist obtained his bearings by means of a chart, which he claimed to have copied from an Aztec stone tablet in the National Museum in the City of Mexico.

He located a vast cavern in a mountain near Yescá. Immense stone images stood about the chamber. At one end was a handsome altar, above which burned a bright flame, supplied by natural gas from a crevice in the wall. In the chamber adjoining this main temple was found a great store of ornaments and utensils belonging to the Aztecs or some other prehistoric race. Twelve burros were required to transport the articles to San Blas, where they were shipped to San Francisco, accompanied by the Americans. As such articles cannot be removed from Mexico without the consent of the government an investigation is in progress.

TELEGRAPHERS WANT TO HAVE A NATIONAL ORDER

They Ask the Federation of Labor to Unite the Different Sections and a Convention is Called.

[BY ASSOCIATED PRESS.]
Pittsburg, Pa., Nov. 14.—A convention of Commercial Telegraphers from all parts of the country has been called to meet in this city November 26. Delegates from about 50 cities are expected to be present. The object is to form a national organization with which all the existing locals may affiliate.

At present there are two national organizations which are affiliated with neither. Both the national organizations, the Brotherhood of Commercial Telegraphers, and the International Union of Telegraphers, have applied to the American Federation of Labor for a charter.

The executive council of the federation on October 17 decided to call a convention of all the locals and let this convention amalgamate the three sections, draw up laws to govern it and select a name after which a charter will be issued by the American Federation of Labor.

Pursuant to these instructions, President Gumpers, of the Federation yesterday sent out the call for the convention from headquarters in Washington.

AGREEMENT BETWEEN CHICAGO WORKINGMEN

Machinists and United Metal Workers Have Come to a Definite and Satisfactory Understanding.

[BY ASSOCIATED PRESS.]
Chicago, Nov. 14.—The community of interest plan is being taken up by the International Association of Machinists and the United Metal Workers which come close together in the 500 machine shops in Chicago.

"The handy man," who is common in shops of the smaller sizes, formed a bone of contention between the orders. He was able to work as a machinist or as a metal worker as the occasion demanded and his dual capacity led to disputes over jurisdiction. An agreement has been ratified in the Chicago district which takes in all the territory within a radius of 25 miles from the city, where the unions new plan to take in every man employed in a machine shop, not matter what his work. The new plan will do away with friction which has seriously embarrassed contractors. On several occasions the difference between the two union has resulted in long and costly delays to big buildings as well as strikes in machine shops.

[BY ASSOCIATED PRESS.]
New York, Nov. 14.—Secretary Healy of Typographical Union No. 6 of New York city, in his annual financial report, gives these figures showing expenses in benevolent work:

Funeral benefits, \$12,500; hospital fund for care of sick members, \$1,075; for the relief of those out of work, who might otherwise be dependent on public charity, \$38,252—a total of over \$50,000 in one year to support the unemployed, care for the sick and decently bury the dead.

SWITCHMEN RECEIVE RAISE

Daily Scale Goes Up Four Cents an Hour for Helpers.

[BY ASSOCIATED PRESS.]
St. Joseph, Mo., Nov. 14.—Burlington switchmen in St. Joseph have received a raise in wages of 4 cents an hour and helpers have been advanced 3 cents an hour. The action is voluntary on the part of the road. The wages are now the same in St. Joseph, Kansas City and Chicago. President Perkins said the scale would be put into effect November 15. The new wages will be as follows:
Night foreman, 33 cents an hour; night helpers, 30 cents an hour. Day foremen, 31 cents an hour; day helpers, 28 cents an hour.
Between 75 and 100 men will be affected here.

KNIGHTS OF LABOR MEETING

Important Session of Body is Being Held in Niagara Falls, N. Y.

Niagara Falls, N. Y., Nov. 14.—About 60 delegates from all parts of the United States assembled here last night to take action which may mean the reorganization of the Knights of Labor.

Among those present were John Parsons, Simon Burns, president of the National Glassworkers; Mr. O'Meara, of Washington, J. F. Durlacher of New York and John Carmody, representing the United Hatters of America.
The most important step thus far was the deposition of Secretary-Treasurer John W. Hays of Washington.

WHERE MEN PRODUCE.

Owing to the scarcity of boys for messenger service at St. Louis, Mo., the district messenger companies have been experimenting with men, who are paid \$1.25 a day and are not required to wear uniforms.

Resolutions favoring and urging the movement for an eight-hour-day law were passed at the recent convention of the National Association of Blast Furnace Workers and Smelters held at Buffalo, N. Y.

John A. Hobson, the London sociologist, who is now the guest of Harvard university and the Twentieth Century club, prophesies a serious conflict soon in England between organized labor and organized capital.

The International Longshoremen, Marine and Transportation Workers Association, recently passed resolutions forbidding the members of any craft or class of longshore workers to enter another craft in any but his home port.

The printing trades of Germany, after many years of strikes, have agreed on a uniform scale of wages for the entire German empire. All disputes are to be settled by an arbitration committee, composed of both employers and employees, either having the right to demand arbitration proceedings. Working hours are fixed at nine a day, with "intervals," but the actual hours of labor must not exceed eight a day.

FOR AN INCREASE IN PAY

Sante Fe Switchmen Are Formulating a Demand on Officials.

[BY ASSOCIATED PRESS.]
Omaha, Nov. 14.—Representatives of the switchmen of the Union Pacific gathered in this city yesterday preparatory to laying before the officials of that road a demand for an increase of 12 per cent increase in wages, bringing the scale up to that recently adopted in Chicago.
Representatives of the order of Railway Trainmen are presenting the demand on behalf of the switchmen, there being one member each from Grand Island, North Platte, Cheyenne, Denver, Kansas City and Omaha.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to relieve him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house she thought she would try it. In less than half an hour after applying it the child was quiet and asleep and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by Paxson & Rockefeller, Newbro Drug Co., Christie & Leys, Leys, Newton Bros.

YOUNG DETECTIVES WHO VOTE OFTEN

COLLEGE STUDENTS WHO CLAIM TO HAVE DISCOVERED SOME ELECTION FRAUDS.

[BY ASSOCIATED PRESS.]
New York, Nov. 14.—Two district captains in the Ninth assembly district have been held by Magistrate Barlow in bonds of \$4,500 each to answer charges of violating the election laws.
The evidence in the case was procured by six young collegians who volunteered their services to Superintendent of Elections McCullagh. One of the young men is said to be a millionaire. Another is a young physician and the four remaining are medical students. They claim to have made themselves noticeable around West Twenty-sixth street just before election day. Disguised as tramps they were accosted by workers who, after becoming acquainted, disposed of them in various rooms. On election day they say they were provided with slips bearing the names of men who had registered in good faith, but who had been called away. In this manner they say they voted many times each and for each ballot they allege they received \$3. Superintendent McCullagh's deputies at the polls were aware of the movements and the ballots are said to have been marked for identification.
The plan came nearly ending disastrously in one booth, where the alleged "repeater" had been provided by mistake with a slip bearing the name of a negro. The exposures have caused a sensation among the politicians of the district, as the officials claim their agents were admitted to the clubs and availed themselves of every opportunity for collecting information.

BOSTON BANK HAS CLOSED ITS DOORS

CENTRAL NATIONAL WILL NOT OPEN FOR BUSINESS—HAVE ENOUGH TO PAY ALL.

[BY ASSOCIATED PRESS.]
New York, Nov. 14.—A special from Boston, Mass., says the Central National bank will not, it is stated, open its doors today, the clearing house commission having decided to refuse aid. When the factors of the currency he is understood to have authorized the bank examiner to close the doors. W. H. Neill is slated to be appointed receiver. It is believed there are sufficient assets to pay all depositors in full without calling for an assessment on the stock. This turn of affairs is a surprise as the Central, although neither a large or old bank, had good commercial patronage and was said to be financially strong. Its capital was \$500,000. The condition of the bank is stated to be due to a certain amount of slow loans, an inheritance from the old Pacific bank.
The Central National bank was organized in 1873. Its statement shows surplus and profits of about \$230,000, and deposits of about \$3,500,000.
Two years ago its deposits were nearly \$6,000,000. Otis H. Luke is president of the institution.

Pick Up Some Survivors.
Wellington, N. Z., Nov. 14.—The British survey steamer Penguin has picked up a raft belonging to the British steamer Ellingamite which was wrecked on one of the Three King's islands off the north coast of New Zealand, November 9. On the raft were eight survivors and the bodies of eight others of the company of the wrecked vessel.
