

NEWS OF MINES AND MARKETS

IS IT WRONG TO GIVE A GRUBSTAKE?

METHODIST MINISTER OF CHICAGO DEFENDS HIS ACTION IN GIVING MONEY TO A PROSPECTOR.

Robert McIntyre, a Methodist minister of Chicago, has stirred up some of his brethren because he "grubstaked" a miner for the Klondike. He says: "Conscientious scruples against such an undertaking? No scruples whatever entered my mind then, nor have they since. It was purely and simply a matter of principle. The sermon on the mount and the ten commandments don't come into the matter and theology needn't."

"The fact is, I admire a miner's wealth. It's clean. There are no tears or blood upon it. It is acquired away from the scheming and out-throat competition that characterizes ordinary business ventures, where the success of one man so often means the disaster and downfall of some other man or perhaps a number of men. Nobody has been wronged. The miner who digs a fortune out of the ground has the satisfaction that he hasn't robbed a soul, even though he becomes a hundred times a millionaire."

"Then, too, there is another factor to take into consideration. A man who makes a fortune on the board of trade, or stock exchange, adds nothing to the world's stock of wealth. The world, in other words, is no richer. He is rich, rather, because somebody else is poorer. The miner, on the other hand, whether he digs out \$100,000 or \$100,000,000, adds that much to the world's wealth, and with the added wealth he contributes just that much to the world's comforts and pleasures. As I look at the matter, there are few producers of wealth. The many live on the few. The only man comparable with the miner is the farmer. He gets what he has direct from nature, but he produces perishable wealth. While he meets a want, his contribution to the world's wealth therefore is not a permanent one like the miner's. The miner is today the king wealth producer of the country, and I honor him above the others. It is no dishonor, it needs no apology to emulate his example or assist him in his efforts. There's the whole question in a nutshell. As I just said: On the miner's wealth there is no blood, no tears, no groans, suffering nor sorrows caused to others."

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers, and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by Paxson & Rockefeller, Newbro Drug Co., Christie & Leys, Newton Bros.

SCREENINGS

The new 10-stamp quartz mill being erected by the Gladstone Mining company about three miles west of Pioneer in Powell county, it is now expected will be finished and ready for operation in about three weeks.

At a meeting of the directors of the Gold King Mining company, held at Livingston, Thursday, steps were taken toward consolidating the Gold King and Bear Gulch properties, in pursuance of the recent agreement. A. J. Campbell of Butte was elected president of the company, and a meeting of the stockholders was called for January 28.

GREATEST MINE IN ALL THE UNIVERSE

MAJOR BURKE DISCOVERS IT AGAIN, THIS TIME IN TONOPAH—TELLS A REPORTER ALL ABOUT IT.

Major J. M. Burke, who is a familiar figure in Butte, is now in Tonopah where he is president of the Tonopah Extension Mining company. The other day Major Burke told the Tonopah Miner what a great camp the new wonder is. The Miner says:

"Major Burke, who has had more than 30 years experience in quartz mining throughout the West, particularly in the Coeur d'Alene, where he made a fortune from the Tiger mine 20 years ago, talked entertainingly to a Miner reporter about the future of Tonopah. Like many other men of long experience in mining he believes the Mizpah to be the greatest mine in the world, and furthermore he believes that the Mizpah lead extends far beyond the boundaries of the claim from which it takes its name. In discussing this point, the Major said:

"I believe that the Mizpah lead extends through the Mizpah and Buckboard claims and that it carries other shoots than those now known to exist. I reason that this belief is that the porphyritic mineral zone or belt in which the ores are found is weaker than the surrounding country formations, and that when the upheaval occurred which made the gashes in the earth that were afterward filled with ore, it naturally broke through the weakest formation. Consequently it perforated this porphyritic mineral zone or belt with many gashes which were afterward filled with ore, the main one of which, so far as development has gone, is what is known as the 'Mizpah lead.' That lead, which has been explored for 1,400 feet and been sunk on to a depth of 500 feet, gives almost positive evidence that the fissure was so strong when it broke through the formation that it will not break off or discontinue inside the 3,000 feet embraced by the Mizpah and Buckboard. Figuring from this standpoint, I am satisfied from my observation and experience of 34 years in mining in porphyry belts similar to this, that large shoots of ore will be found both east and west of the Mizpah and Buckboard. Since there is a thick capping at both ends, it would be impossible for anyone to say exactly what course the lead will take after leaving the east and west ends of the ore shoot now explored; but according to my judgment which may be at variance with that of many others, I cannot see how it can possibly avoid going at least through the Silver State on the east and the Grand Trunk on the west; for even at that, its length would be only 6,000 feet, which is certainly a short distance for a fissure as strong as this to extend."

DEMAND IS LIGHT DOWN ON STREET

DEALINGS ARE UNIMPORTANT AND ON A SMALL SCALE—SOME OF THE STOCKS DEALT IN.

BY ASSOCIATED PRESS. New York, Dec. 5.—The attendance at the stock exchange opening was very small. The dealings were unimportant and the price changes were insignificant. The light demand for stocks at the opening induced moderate sales for good accounts and Louisville and B. & O. lost a point each. Other speculative favorites declined substantial fractions, including St. Paul, Union Pacific, Missouri Pacific, and Manhattan. Minor stocks also felt the pressure. North American dropped to points on two transactions with a rally of 5 and General Electric 2.

Shorts bought here and there until near 11 o'clock and the market hardened slightly. There was another dip which carried prices lower than before, and then a rally on covering by room shorts which caused full recoveries. The market was narrow and listless and reflected an obvious disposition to await developments in the money market.

Bonds were about steady and very quiet at noon. The bulls attempted to unload stock on the rally, but the room traders took the market away from them. St. Paul ran off to 17 1/2, and other leading stocks touched the lowest.

Minneapolis, St. Paul & Sault Ste Marie preferred declined 2 1/2 and Sugar, Consolidated Gas and Reading first preferred 1 1/2. Leading stocks fluctuated narrowly and continued heavy on nominal dealings until near 1 o'clock, when another rally occurred. Colorado Fuel advanced 1 1/2 and immediately lost it, and Delaware & Hudson lost 3/8.

BUNCH OF SHERIFFS FUREY HAD IN TOW

SILVER BOW OFFICIAL TOOK THEM TO SEE THE FIGHT, AS THEY HAD HAPPENED IN.

Some people who saw Sheriff Furey last night leading a bunch of husky, handsome sheriffs from the outside counties about, might have thought there was a convention of sheriffs in progress in Butte. Such an idea would have been in error.

It just so happened that Sheriff H. E. Benner of Cascade county, Sheriff John McMahon of Powell county and Sheriff Henry L. Sherlock of Jefferson happened to be here on official business. It also happened that Mose Lafontise and Jerry McCarthy were conducting a physical culture exhibition at the Broadway theater last night, but there was no connection between the two—none whatever.

Sheriff Benner came down with two prisoners, one for the reform school at Miles City and one for the penitentiary at Deer Lodge. To keep them from getting mixed and to make proper connections with trains he had to lay over here last night. Sheriff Sherlock had to make a trip on official business, which happened to bring him into town. Sheriff McMahon didn't know at first what he came for, but thought it was to have a consultation with Sheriff Furey on official matters. He became convinced of the fact later.
