

NEWS OF MINES AND MARKETS

BAD WEATHER HAS RETARDED MINING

BUT A PAYSTREAK THAT PROMISES \$10,000 TO THE TON OUGHT TO HOLD THEM FOR AWHILE.

SPECIAL TO THE INTER MOUNTAIN. Central City, Colo., Dec. 12.—The weather of the past two weeks has been so bad that in many instances it has retarded mining to a certain extent, and especially the shipment of ore from the outside districts.

The richest streak that has been found in Gilpin county for many days was this week uncovered. A cap box full of the ore panned a streak of gold three inches in length, one-eighth inch thick and one-eighth inch wide.

It is reported that the properties of the Denver & Boston Mining company, who own nearly all the properties along the Gregory and Hobtail veins and a large number of other claims, will soon take on a period of great activity, and that L. H. Stockbridge, who operated these properties so successfully a few years ago, will again have the management of the property.

Meet me at the Pkster. CORUNDUM IN LARGE AMOUNTS TURNED OUT Montana Company, Across the West Gallatin, Has Valuable Product Soon to Be Marketed.

SPECIAL TO THE INTER MOUNTAIN. Bozeman, Dec. 12.—Corundum is being turned out in large quantities by the mill of the Montana Corundum company, which is working the large deposits across the West Gallatin. Shipments will begin at an early date and the valuable product is expected to soon become famed in the markets of the world.

At a meeting of the directors of the company here it was decided to make Bozeman the shipping point if satisfactory arrangements can be made with the Northern Pacific company. The corundum company desires a tract of land upon which it can construct a large tank for gasoline. The fluid is used in operating the machinery of the mill and the wagons that bring in the product will return with gasoline.

If satisfactory arrangements cannot be made here it is probable that Belgrade will be chosen as the shipping point for the output of the big mill. FLORENCE TROUBLE SETTLED Striking Miners Are to Work the Bluff Springs Mine.

SPECIAL TO THE INTER MOUNTAIN. Florence, Colo., Dec. 12.—The trouble in connection with the Bluff Springs mine has finally been adjusted and the mine will be operated in the future on the co-operative plan. Mr. James has relinquished

FACE HUMOURS

Pimples, Blackheads, Red, Rough, Oily Skin Prevented by

Citricura SOAP

MILLIONS OF PEOPLE USE CITRICURA SOAP, assisted by CITRICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chappings, and for all the purposes of the toilet, bath, and nursery.

Complete Treatment for Humours, \$1. Consisting of CITRICURA SOAP (25c.), to cleanse the skin of crusts and scales, and soften the thickened cuticle; CITRICURA OINTMENT (50c.), to instantly allay itching, inflammation, and irritation, and soothe and heal; and CITRICURA RESOLVENT PILLS (50c.), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the severest case.

CITRICURA RESOLVENT PILLS (Chocolate Coated) are a new, untainted, odorless, economical substitute for the celebrated liquid CITRICURA RESOLVENT, 60 doses, price, 50c. Sold through all druggists. Retail Depot, 27th Street, Philadelphia, Pa. Frank J. Taylor, Proprietor, 100 N. 2nd St., Philadelphia, Pa.

the individual lease and will work in conjunction with the other co-operators. Union wages will be paid, and from now on the striking miners will operate the mine.

COMMERCIAL GAS MADE DOWN IN BOULDER NOW

And the People of the Colorado Town Are in High Fettle Over the Introduction of Innovation.

SPECIAL TO THE INTER MOUNTAIN. Boulder, Colo., Dec. 12.—Commercial gas is being manufactured here from a combination of lignite coal and Boulder county petroleum. The inventor of the process is President and General Manager Peter English of the Boulder Gas company, and he states positively that he has demonstrated that his process is a complete success.

The cost of the gas made from lignite and oil is less than that made from any recognized gas coal. Today Mr. English filled a tank containing 50,000 feet with gas made from oil and lignite, and tonight gave a demonstration of its purity and illuminating powers at his plant.

This is believed to be the first successful attempt to manufacture gas from lignite oil. There is considerable enthusiasm here over the invention. Boulder has now nearly a score of producing oil wells, while underlying an immense area of the county are fine beds of lignite awaiting a market.

Dressing and manure sets, the latest styles, at Calkins'. FAMOUS COBRE GRANDE LITIGATION IS REOPENED Greene Consolidated Copper Company Sued Again at Phoenix—What It Is All About.

SPECIAL TO THE INTER MOUNTAIN. Phoenix, Ariz., Dec. 12.—The famous Cobre Grande litigation has been reopened by the filing by Axel W. Hallenberg and John Edward Adickes of Delaware of a suit against the Greene Consolidated Copper company, the Cobre Grande and certain officers and directors of the last-named company.

Hallenberg also filed a claim for \$60,000 for money advanced the Cobre Grande in its litigation against Greene and his associates. The object of the suit is to convert back into the Cobre Grande treasury the mining properties in Sonora which were transferred to the Green Consolidated by the settlement of the suit which had been pressed for two years by the Cobre Grande and the Greene people. The court is asked to set aside the judgment and grant the relief prayed for in the original petition of the Cobre Grande against Greene.

START TO WORK ON SUMMIT Will Work Snowshoe, in Hopes That It Will Lead Into Former Mine. SPECIAL TO THE INTER MOUNTAIN. Helena, Dec. 12.—S. Johnson and Jacob Pollock have started work on the Summit claim. The Summit is located south of the Silversmith in the Basin district, and has always been a fair producer.

It is the intention of the parties interested in the property to work the tunnel on the Snowshoe claim, which is located further down the hill, and continue until they strike the lead in the Summit. It is estimated that they will have to run the drift 200 feet before they encounter the lead, and will obtain a depth of about 300 feet.—Montana Record.

CLAIMS IN FERGUS COUNTY Great Falls, Dec. 12.—While in Kendall the latter part of last week L. S. Woodbury of Great Falls secured an option on several claims north of the Kendall property from August Schilling and Albert Russi.

The claims are said to be good ones and there is a likelihood of a mill being erected if the deal is closed.—Fergus County Argus.

Meet me at the Pkster. RAILROADS ARE ALL AFTER THE CLERGY'S PATRONAGE Northern Pacific Is Ready to Receive Applications From Ministers Who Desire the Low Rates.

All the railroads are after clergy business now. The recent combination whereby the chief Western lines created a clergy bureau whose certificates entitled the ministers to the clergy rate on all the roads in the agreement has started the ball rolling. Now all the railroad offices are trying to see which can secure the most applications for the certificates.

Today the Northern Pacific local office made announcement that it was ready to receive applications and from now on they will be filed as rapidly as possible. MR. STEVENS MUST PUT UP FOR SUPPORT OF A WIFE For the County Attorney Is to Take the Matter in Hand on a Complaint Filed by the Spouse.

The husband of Mrs. Tilda Stevens will receive a reminder of his duties in the way of providing for his wife and child. It will come from the office of the county attorney and will be in the nature of a warning that his conduct warrants the taking of the case into court if his wife's account of his actions is true.

According to Mrs. Stevens, who called at the office yesterday, her husband fails to properly provide for her and for their child, aged 11 years. She says he draws a good salary at Silver Bow Junction, but does not give anything to his family. ANNUAL MEETING. The annual meeting of the stockholders of the First National Bank of Butte will be held at the office of said bank in Butte, Montana, on Tuesday, January 13, 1903, between the hours of 10 a. m. and 4 p. m. The object of the meeting is the election of directors for the ensuing year, and the transaction of such other business as may properly come before the meeting.

MINER CREEK AND THE AJAX MINE

WILL ONE DAY BE AMONG THE RICH PRODUCERS OF THE STATE—HARD TO GET AT NOW.

SPECIAL TO THE INTER MOUNTAIN. Dillon, Dec. 12.—The Miner creek and Ajax mines, in Beaverhead county, although separated by mountain peaks, are only about three miles apart and the lay of the rich croppings show that they are in the same highly mineralized district—a district that will one day prove to rival in wealth the richest districts in the Northwest.

Only its inaccessibility has kept back development in the district. The prospects on Miner creek have been represented for 12 years by men who had more faith in their resources than money with which to develop them. But their persistence has attracted others, who are held by the wonderful showing. This will continue till a prosperous future for the district is assured.

One of the finest prospects in the main ledge is that of B. O. Fournier, who has about 33 feet of tunnel and a 65-foot shaft. The vein descends into the earth at an angle of about 30 degrees, but at a depth of 50 feet straightens out and descends perpendicularly. Over 200 tons of rich copper ore, which also bears gold and silver, have been taken out during this development work. Mr. Fournier has optioned his mine to local parties for \$75,000.

The Fanchier brothers have a fine gold prospect developed by about 150 feet of tunnel. They have not over 150 tons of high grade ore, and it is only a question of a short time when their "prospect" will be a "mine."

Not the least among the promising claims is that of Martin Sorrenson of Dillon, who has on the surface some 200 tons of fine gold ore. The ledge on which Mr. Sorrenson is located runs parallel to the main drift ledge and is in all probability a fissure vein.

Several other parties own valuable properties here and have contributed much to the opening up of the district, more than 1,000 tons of ore now being on the dump. There are 37 claims in this group, and not one but has a well-defined lead of gold or copper ore.

Just across the range in Idaho and not 1,500 feet from the edge of this group of claims is located the Ore Cache mine and mill that have been running for several years. There is now an excellent road to the Miner creek properties and from the head of the canyon a trail leads across to the Salmon valley in Idaho.

About 25 miles from Wisdom, near the summit of the main range of the Bitter Root mountains, is located the Ajax mine. The big hole in the basin, destined to become famous as a mining region, has many excellent prospects and among the two or three that have passed the stage of mere prospect is the Ajax, which may with propriety be called a "mine."

The Ajax mine is owned by J. E. Morse of Dillon and A. J. Noyes of Wisdom, two of Beaverhead county's most enterprising men. The mine is now reached by an excellent road. The 12 miles from the edge of the timber to the head of the canyon in which the Ajax is located has been built by the proprietors at no little expense. Almost the entire distance the way had to be cleared through the dense timber. In some places cuts and side hill grades had to be made; in others, long stretches had to be corduroyed. It is now not only a passable road but a good one.

HOTEL ARRIVALS. At the Thornton. E. A. Gran, Helena; H. Lazore, Chicago; Robert G. White, Philadelphia; Edwin Mosier, Dillon; M. S. Gerner, Helena; W. A. Wallace, Louisville; J. M. LARGE OFFERINGS WHEN MART OPENS

PRICES BREAK WITH VIOLENCE AND HEAVY DROPS ARE REPORTED FROM WALL STREET.

BY ASSOCIATED PRESS. New York, Dec. 12.—There were some large offerings again at the opening today and prices broke with some violence. The offerings of the United States Steel stocks were especially heavy, the common falling 1 3/4 and the preferred 1 1/4. Some full recoveries were made, but the speculation was quite feverish and prices fell again toward 11 o'clock.

Southern Pacific dropped abruptly 2 1/2. The calling of loans and the rise in call money to 10 per cent precipitated a fresh spasm of liquidation and the market became somewhat demoralized. Twenty or twenty-five leading stocks lost 2 points or more.

United States Steel declined 2 1/2 and Louisville 4 1/2. St. Louis and San Francisco 1st preferred 6, Lake Erie & Western 7, Tennessee Coal 3 1/2, North American 4, Virginia-Carolina Chemical 4 1/2, International Pump 4 1/2, Wheeling & Lake Erie 1 1/2, and Southern Pacific, Rock Island, Locomotive and Anaconda 3 or thereabouts. The announcement that \$1,000,000 Pennsylvania Canal trust certificates had been placed abroad and the proceedings made available through the exchange market rallied prices. Rallies of a point were numerous. Louisville recovered 2 1/2 and Northwestern to a point above last night.

Bonds were weak at noon today. Prices worked slowly upward, but the transactions dwindled greatly as the advance proceeded. St. Paul, Pennsylvania, New York Central, Reading, Baltimore & Ohio, Atchison preferred, Sugar, Brooklyn Rapid Transit and Steel preferred recovered to about yesterday's close or a fraction above. Generally speaking, rallies reached a point or two in all the speculative favorites.

New York Stocks. (Reported by Coo Commission Co.) New York, Dec. 12.—Noon quotations follow: American Ice 94 1/2, 100 do, preferred 36 1/2, 100 Amalgamated Copper 54 1/2, 100 Anaconda Mining Company 81 1/2, 100 American Cotton Oil 40 1/2, 100 Atchison, Topeka & Santa Fe 79 1/2, 100 do, preferred 97 1/2, 100 Baltimore & Ohio 94 1/2, 100 Brooklyn Rapid Transit 60 1/2, 100 Canadian Pacific 124 1/2, 100 C.
