

IN BROAD LIGHT OF DAY ON A HIGHWAY

FULL OF PEOPLE HURRYING HOME, A JEWELRY STORE WINDOW IS ROBBED OF DIAMONDS.

BY ASSOCIATED PRESS. New York, Dec. 30.—In full view of passing crowds the window in the pawnshop of R. Simpson & Co., in West Forty-second street, was smashed with a Belgian paving block and \$1,000 worth of diamonds were stolen.

Only three of the gems were recovered after the capture of the robber. It is believed by the police that several men were in the job, and that the man who smashed the window passed the jewels to confederates.

After an exciting chase the robber was captured. He was more dead than alive when the police rescued him from the crowd of pursuers. He is Angus W. McPherson, 19 years old, and is a bell-boy at a well-known hotel in this city. He said he was heavily in debt and sought to relieve his financial stringency by robbery.

It was one of the most daring robberies in New York for a long time. The shop was about to close, when a paving block covered with paper crashed into the window and in an instant a tray of diamond rings and pins disappeared. One of the clerks jumped over the counter and pursued the man who broke the window.

A great crowd followed, and when the man was overtaken he was hurried under a score of men and so badly battered that a physician's services were required.

It is said at the store that at the time the window was broken there was on show about \$150,000 worth of jewels.

SHE LOVES SAXON FOLK, SO SHE DOES

BUT SHE JUST COULD NOT BEAR HER LIFE AT COURT, SAYS THE CROWN PRINCESS, SADLY.

BY ASSOCIATED PRESS. New York, Dec. 30.—The Herald correspondent at Zurich, Switzerland, cables the report of an interview with the crown princess of Saxony in which she is quoted as saying that M. Giron is the only man she ever met whom she felt she loved and that it was a question of mutual love and affinity which made her life impossible without him.

"Between my husband and myself," said the princess, "there was no bond of sympathy. He was a typical Roman officer."

"I myself was full of ideals. How miserable that life was! I tried so hard to bear it for the sake of my darling children, whom I adore.

"I also hesitated for the sake of the Saxon people whom I love deeply which they love me but all that could not alter my resolution. The ills of my life at court were too great to bear."

The committee also recommended the

suspension of President Oscar N. Partelow for the reason that it was believed that he knew of Lane's shortage for a long time prior to the investigation. The union accepted the report and suspended both men pending further investigation. It appears that the shortage in Lane's

SAYS THE MINERS DO NOT CARE NOW

THE PUBLIC MAY SCRAMBLE FOR FUEL AND GET AS BEST THEY MAY, SO THEY MAY.

BY ASSOCIATED PRESS. New York, Dec. 30.—The expressed belief of representatives of the coal-carrying companies and of coal dealers is that for the next three days the coal situation will be acute all over the country.

A representative of the coal department of the Delaware, Lackawanna and Western railroad said:

"The strikers clamored for public sentiment while they were on strike and through public sentiment they got contributions from all over the country to support them while in idleness. The public can scramble for coal as it likes or do without, as far as the miners care."

FOR THE HIGHER COURTS, FOR HIS ALLEGED COMPLICITY IN THE MONTANA ROBBERY.

BY ASSOCIATED PRESS. Chattanooga, Tenn., Dec. 30.—Attorney A. J. Hook appeared before United States Judge C. D. Clark yesterday in the case of Harvey Logan, convicted of complicity in the robbery of the Great Northern train in Montana, and presented a bill of exceptions to Judge Clark, which was practically accepted, although Judge Clark holds the matter under advisement before rendering final decision.

This bill of exceptions is presented preparatory to the case being taken into the higher courts. The decision in the original cases gave Logan a long term in the penitentiary.

SANTA FE RAILWAY PEOPLE Will Build a Bigger and Better Hospital in Albuquerque, N. M.

BY ASSOCIATED PRESS. Albuquerque, N. M., Dec. 30.—Dr. Morrison, chief surgeon of the coast lines of the Santa Fe railway, who has been here for the past few days, has started on his return to Los Angeles, having approved the plans inaugurated by the local surgeon, Dr. J. P. Cutler, in caring for the patients since the hospital fire. He said the company would undoubtedly build a larger and more substantial hospital here in the near future.

Dr. Cutler has all the patients, with the exception of the worst cases, in tents and each tent is supplied with a small stove, a table and three cots. He has converted the laundry houses and reading room, which were saved from the fire, into wards for the serious.

Meet me at the Pfister.

cash has existed for a long time. The treasurer's books were straight enough, except that the balance of cash on hand, which they showed should be in the bank, was conspicuously by its absence. Partelow's connection with the matter grew out of his friendship for Lane, it is said.

So far as the investigating committee could learn, the original shortage was \$820, but part of this amount was replaced, until the amount now due the union from Lane is \$646.80.

Bills that should have been paid from the money voted by the union for that purpose have been left standing, and when presented for the second or third time had not been read at the meetings. One instance of this was a bill for \$111, which the union owed Hawes, the photographer. The union voted the money to pay this indebtedness, but as there were no funds in the treasury Lane gave his personal note for the amount.

The note was endorsed by President Partelow and since the time it was executed \$50 has been paid. There is now due \$61 from the union to Mr. Hawes. This will be paid when the bond company has made good the shortage.

This morning the investigating committee, in compliance with instructions from the Barbers' union, formally made demand of the representatives of the United States Fidelity and Casualty company for the amount due from the treasurer. This doubtless will be paid within a short time and the settlement then will be between the bond company and Mr. Lane. If there is any prosecution the bond company must take the initiative. The Barbers' union will ask for nothing more than the missing money.

ALABAMA GOLD IS WORTH THE WORK

WALL STREET IS SET IN A FLURRY BY MEANS OF DISCOVERIES 'WAY DOWN SOUTH.

BY ASSOCIATED PRESS. New York, Dec. 30.—Something of a flurry has been caused in Wall Street, says the World, by the formal announcement that gold had been discovered in Alabama in sufficient quantities to make the mining of it profitable. There was more of a flurry when it was announced that none of the stock was on sale. For more than two years the land has been worked secretly.

A 20-stamp mill was erected without even the knowledge of the natives. Chance led to the discovery of the vein of ore. A company was formed and the stock was bought up by New York, Philadelphia and Washington capitalists before the news became public. The value of the ore has been averaging \$35 a ton for the past 60 days, and another 20-stamp mill is going up. The mine is 20 miles from Anniston, Ala., and 70 miles from Birmingham. The ledge of ore runs for a mile and a half northeast and southwest. The pay streak varies in width from two feet to four feet.

NEW YORK BANKS TO GO TOGETHER NATIONAL BROADWAY, SEVENTH NATIONAL AND MERCANTILE NATIONAL TO COMBINE.

BY ASSOCIATED PRESS. New York, Dec. 30.—The Times, referring to a proposed consolidation of the National Broadway bank, the Seventh National and the Mercantile National banks, under the last named title, says negotiations with a view to the combination have been in progress for some time. The National Banking law requires that 66.2-1 per cent of the capital stock of a bank must agree to a proposition of this kind before it can be carried through. The consent of at least this proportion of the stock of each of the three banks has been secured, so there is no danger of the plan being defeated by any vote of stockholders. It is believed by those in touch with the situation that the formal consolidation can be effected within the next 60 days, although the necessary time may be longer.

Each of the banks concerned in this deal are very old institutions. The Seventh National was established in 1833. The bank was apparently prosperous until June 28, 1901, when after a run the bank's doors were closed. The institution was reorganized by Edwin Gould and others and reopened its doors on November 12, 1901, with Mr. Gould as president.
