VICTIMS OF HEAT KILLED BY STORM

NEW YORK IS VISITED BY DEATH-DEALING WIND ON HEELS OF HOT TERM.

SUFFERERS THROWN IN PANIC

Considerable Damage Done in Various Sections of the City—Prostrations in Other Cities.

BY ASSOCIATED PRESS. New York, June 3.—A terrific storm here followed a period of most intense heat. There were four deaths from the heat yesterday and a score or more of prostrations.

Already three deaths directly traceable to the storm have been reported and many persons caught in the fury of the wind were injured.

At one time the gale blew at the rate of 72 miles an hour in the upper part of New York, according to the weather bureau. Many places were struck by lightning, which played continuously for an hour or more.

Almost a Panic. A great section of the Manhattan field fence was blown down and there was almost a panic among the thousands of men and women who had gathered at the polo grounds adjoining to witness the New York-St. Louis game.

The polo grounds were flooded with a foot of water, the game was called off and the attention of the officials and police was directed to getting the panic-stricken baseball enthusiasts to a place of safety.

There were in reality two storms, but they blended into one.

The Bronx was the first to feel its effects and the lower portion of that borough suffered most.

A wind of extremely high velocity swept from west to east, uprooting trees, smashing plate glass windows, blowing pedestrians from their footing and doing all kinds of damage.

In Two Divisions. Apparently the storm was in two divisions, one advancing down the valley of the Hudson river and the other approaching from Long Island sound, which was thrown into a fury by the wind.

These two divisions met over the lower Bronx with a display of electricity. The first wind storm was followed by a fall of rain like a cloudburst in character and a shower of large hailstones.

Fanny Kinsler, a 6-year-old child, frightened by the storm and blinded by the rain, ran directly under a swiftly-moving wagon and was immediately killed.

John Dominick, a dock laborer, was knocked into East river by a plank which had been picked up by the wind and was drowned.

The wind swept the embers of a bonfire over the pinefire of 3-year-old Clarence Hadden and he was burned to death.

Nine Persons Prostrated. BY ASSOCIATED PRESS. Washington, July 3.—Nine prostrations, several of which were attended by serious results, resulted from the heat yesterday. Though the weather bureau reported a maximum temperature of 96 degree, the thermometers on the street registered as high as 103 1/2.

Philadelphia, July 3.—The torrid weather which set in Wednesday continues, the thermometer reaching a maximum of 95 at 3 p. m. yesterday. Two deaths and more than 30 prostrations due to heat were reported by the police yesterday.

Many Are Stricken.

Chicago, July 3.—Heat claimed many victims yesterday, and while the death list was not so large as on Wednesday, the prostrations increased and in two cases temporary derangement was the direct result. Two deaths and nine prostrations were reported. The temperature reached 90 degrees.

Two Deaths Reported.

Philadelphia, July 3.—The torrid weather which set in Wednesday continues, the thermometer reaching a maximum of 95 at 3 p. m. yesterday. Two deaths and more than 30 prostrations due to heat were reported by the police yesterday.

Stricken to Earth.

Pittsburg, Pa., July 3.—Four deaths, two of the victims being children, and a number of prostrations represent the effect of the intense heat here yesterday. The highest temperature recorded at the weather bureau was 89 degrees at 5 p. m.

NICE PLACE FOR BARRETT

Washington, July 3.—John Barrett of Oregon is to be appointed minister to the Argentine Republic, to succeed William P. Lord, formerly governor of the same state, who will retire, it is said, on account of age.

Barrett has accepted the office, and the announcement of his appointment will be made tomorrow, probably.

While the Oregon senators endorsed Barrett, his appointment is regarded as personal with the president. Barrett was formerly a democrat and was appointed minister to Spain by President Cleveland during the second administration of the latter.

A year ago he was offered the mission to Japan, but that government objected because of Barrett's remarks on the Japanese some years before, and he was not appointed.

Recently Barrett has been a special agent of the Louisiana Purchase exposition, and has just returned home from a trip to China, Japan, the Philippines and other oriental countries in the interest of the exposition.

HARRIMAN BEHIND THE NEW RAILWAY

LITTLE DOUBT THE OREGON SHORT LINE MAGNATE WILL BUILD INTO CENTRAL IDAHO.

ARE PROMISED A RAILROAD

Salmon City People Confident of Getting Line Within Three Years—To Begin at Dillon, Mont.

GOOD CONNECTIONS.

The proposed road would have no trouble in making good connections, as it would touch the Great Northern Line at Dillon, and if necessary the Northern Pacific at Stites.

It is thought, however, that the idea is not to establish a new connection, but to develop the central Idaho mining and agricultural lands. The proposed route would carry the road well into the Thunder mountain district.

It is believed that the St. Louis people are acting for E. H. Harriman, as Doddridge has been managing operator of the Union Pacific at times.

HARRIMAN BEHIND THE NEW RAILWAY

LITTLE DOUBT THE OREGON SHORT LINE MAGNATE WILL BUILD INTO CENTRAL IDAHO.

ARE PROMISED A RAILROAD

Salmon City People Confident of Getting Line Within Three Years—To Begin at Dillon, Mont.

SPECIAL TO THE INTER MOUNTAIN. Salmon City, Idaho, July 3.—P. B. Moss and W. E. Doddridge of St. Louis have left here after an extensive investigation into the resources of this section.

They promise Salmon City a railway within three years, and although they refused to say as much there is no doubt that their proposed road is the one being surveyed from Dillon, in the Beaverhead for Montana.

A St. Louis engineer has been at work at Dillon for some time. He has shrouded his purposes in an air of mystery, but there is no longer doubt that the railway being laid out from Dillon will run to Salmon City.

Country Is Rich. The country to be opened up by this new road is rich in the extreme and will repay exploitation. Salmon City, Lemhi and Stites, the latter now on the Northern Pacific Clearwater branch, all lie in the heart of a section little known, but nevertheless possessed of great possibilities.

J. B. Collins, the surveying engineer who has been at work in and around Dillon for some three months, has been at all the Idaho towns mentioned.

He will say nothing, but it is known that the best route for the road is being considered.

Good Connections. The proposed road would have no trouble in making good connections, as it would touch the Great Northern Line at Dillon, and if necessary the Northern Pacific at Stites.

It is thought, however, that the idea is not to establish a new connection, but to develop the central Idaho mining and agricultural lands. The proposed route would carry the road well into the Thunder mountain district.

It is believed that the St. Louis people are acting for E. H. Harriman, as Doddridge has been managing operator of the Union Pacific at times.

FIGHTING OVER A PARDON Governor of New York and District Attorney in a Clash.

BY ASSOCIATED PRESS. New York, July 3.—An interesting controversy is now going on between District Attorney Jerome and Governor Odell over the announcement that the governor had said he would pardon Frank S. Weller of Brooklyn, who was convicted of grand larceny in the first degree last week, in connection with the "Horseshoe Mining company" scandal.

Weller was sentenced to serve a year in prison. It came out during the trial that Weller's father and Governor Odell's father, Benjamin B. Odell, senior, who now lives in Newburg, were formerly in business together in that city.

Former Judge Brown and Attorney H. W. Harding called on Mr. Jerome yesterday and such a case for the pardon of Weller's being pardoned by Governor Odell, to proceed against Weller on other indictments found against him.

"I told them," said District Attorney Jerome, yesterday, "that if I was consulted in the regular way about the pardon and if the judge who sentenced him was consulted by the governor, as I would be the custom for many years, I would have no objection to the pardon; but if Mr. Odell pardons Weller without consulting me I will put the man on trial again and will work up as many cases against him as I can until I make the governor sick of granting pardons."

SHE NOW SEEKS A DIVORCE Wife of Young Promoter Sentenced for Perjury Wants Freedom.

BY ASSOCIATED PRESS. New York, July 3.—Mrs. Curtis Wakefield has begun suit for the dissolution of her marriage by filing papers in the supreme court.

Wakefield, the defendant, is the 22-year-old financier whose operations recently started bankers here and in London.

He organized many large firms, principally mining companies in the West, and floated the stocks in this country and abroad.

Mrs. Wakefield met him in Switzerland. He followed her across the Atlantic, and they were married by a New York alderman.

Wakefield was subsequently arrested and sentenced to a term in the reformatory for perjury in swearing that a copper-mining company which he had organized had a paid-in capital of \$250,000.

DRIVEN INSANE BY SHOCK

Elevated Line Conductor Steps on Third Rail and Becomes a Maniac.

BY ASSOCIATED PRESS. New York, July 3.—Shock from the third rail of the Brooklyn Elevated line has deprived Conductor Satchel of his reason.

When he stepped on the rail he was thrown into the air. Half a dozen fellow workers rushed to the rescue. Satchel scrambled to his feet and attacked them.

He was restrained with difficulty and it was found necessary to give him ether before he could be taken to a hospital.

The physicians could not find a single burn or mark on Satchel's body, though he received the full power from the rail. They think he will recover his reason in a few days.

PACIFIC CABLE TO BE OPENED

President Roosevelt Will Send Message Around the World Tomorrow.

BY ASSOCIATED PRESS. Oyster Bay, N. Y. 3.—Arrangements were completed yesterday for the opening of the Pacific cable on the morning of the Fourth of July.

Clarence H. Mackay of the Pacific Commercial company was expected here yesterday, but he notified the president of his inability to come on account of work incident to the opening of the new cable line.

President Roosevelt will send a message to Mr. Mackay, which will encircle the world in its transmission.

MORE GOLD FROM ALASKA

Steamer Roanoke Reaches Seattle With \$50,000.

BY ASSOCIATED PRESS. Seattle, Wash., July 3.—The steamer Roanoke arrived from Nome last night, bringing \$50,000 in gold and 16 passengers.

This makes the third arrival from Nome with a total of \$350,000 in Nome treasure. The Roanoke was the first ocean vessel to reach St. Michael this year.

GREAT GRAIN FIRES RAGING

Much Damage Being Done in Various California Districts.

BY ASSOCIATED PRESS. San Francisco, July 3.—Grain fires were raging yesterday in the Sacramento and Stockton districts.

In Yolo county an area of six by four miles was burned over. On Union Island \$150,000 of barley was destroyed.

Reports of forest and grain fires are here from other sections of the state. The weather is excessively warm.

OSTENTATION. "You say that man's relations won't speak to him?" said the surveyor who had stopped at the log cabin.

"Yes. An' it serves him right. Jed's as soon as he comes into a little property he bought himself a glass eye an' a set o' false teeth, an' his kin reckoned it was mighty ill-mannered to come around puttin' on style an' wearin' all that jewelry."—Washington Star.

A Cash Combine. "Is there a beer trust in this town?" asked the stranger within the gates.

"No," replied the native, sadly. "Only spot cash goes here."—Cincinnati Enquirer.
