PROMPT DELIVERY

ROOSTER KILLS A CHILD

Two-Year-Old Near Ramona, I. T., Teases Bird Into Violence.

Ramona, I. T., Aug. 4.—A 2-year-old child of Lee Montgomery, an Osage farmer, was killed by a Plymouth Rock rooster yesterday.

The child was throwing sticks and pebbles at the bird, when it suddenly flew at its childish tormentor and drove its spurs deep into the child's head, neck and back.

The parents rescued the baby and started immediately to Cleveland for medical assistance, but before they reached the town the child was dead.

Constable Is Shot.

Clayton, Del., Aug. 4.—Constable James D. Wright was shot in the abdomen and fatally wounded last night by Fletcher Hollis, a negro desperado whom he was trying to arrest. A large posse is in pursuit of the negro.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by Paxson & Rockefeller, Newbro Drug Co., Christie & Leys, and Newton Bros.

Outing for August.

Outing for August is a mid-summer number. The health of the woods is in the opening article and pictures, "Going to the Woods," by Leonidas Hubbard, Jr., and the smell of the sea in A. J. Kenedy's story of "Small Boat Sailing," and Robert Dunn's characterization of the Atlantic summer shore, the last illustrated by some striking drawings by Henry McCarter, who also designed the attractive seashore cover of this number. There are, also, a practical description of how best to build Seaside Lodges, by E. E. Holman, and a study by John R. Spears, of "The Usefulness of the America's Cup Races." Adventure characterizes Ralph Paine's story of filibustering off the Cuban coast before the war with Spain; Robert Hichens' weird Eastern story, "Desert Air," and "The Florida Fast Mail, A. D., 1835." Photographs full of human interest illustrate Vance Thompson's story of "Paris Race Courses" and "The Fishermen of Gloucester," by Victor Slocum. People interested in nature-study will enjoy L. W. Brownell's "Mid-Summer Musicians," fishermen and their wives will like "Fishing a Trout Stream," by W. C. Harris, and "Angling, as Viewed by an Angler's Wife," by Justina Johnson. Those who like to be amused will enjoy "Some Snakes I Have Known," by W. S. Dunbar, and everyone will read Edwin Sandys' "Woodcock Philosophy."

French Steamer Seized.

Hullfax, N. S., Aug. 4.—A Sydney dispatch says the French steamer Marie was seized near Sydney yesterday by one of the fishing cruisers in charge of smuggling and also for setting trawls within one mile of Bird Rock. The steamer will be held pending further instructions from Ottawa.

LEADERS OF LABOR TO MEET

Coming Convention of State Trades and Labor Council.

DELEGATES SELECTED

Session to Be Held in Missoula Aug. 24, Will Be Important.

Labor leaders of the state are looking forward with great interest to the coming convention of the Montana State Trades and Labor Council, which meets in Missoula August 24.

This convention amounts to a gathering of the representative labor advocates all over the state. At this time the delegates from the various unions will discuss matters of common interest and take such action as seems to them advisable under the circumstances of each particular case.

Secretary Is Busy.

Secretary Partlow has been kept busy for the last week answering inquiries in regard to the prospective action of the convention on subjects of current interest, and receiving the names and credentials of delegates.

Great preparations are going on in Missoula for the reception and entertainment of delegates.

List of Delegates.

Following is the list of delegates to the assembly who have sent credentials up to date to Secretary Partlow, which will convene in Missoula:

- Miners' union, Chestnut—Charles Swan and Thomas Gibson.
- Anaconda, Central Labor council—J. H. Schwend.
- Butte, Women's Protective union—Francis Calvin.
- Butte, Street Car Men's union—C. Q. Bates.
- Butte, Teamsters—F. W. Price and Max Hendricks.
- Butte, Workingmen's union—J. W. Dale, R. C. Scott, Henry Davis and Charles Dempster.
- Butte, Carpenters—D. F. Staten, J. E. McNally, W. H. Pierce and H. J. Grimes.
- Butte, Typographical union—Sam S. Harrison.
- Helena, Typographical union—Howard O. Smith.
- Missoula, Typographical union—E. A. Frazer.
- Missoula, Farmers' union—William Dolbeer and D. E. Bandmann.
- Winston, Miners' union—J. J. Goodman and L. H. Detom.
- Livingston, Brotherhood Railway Trainmen—W. F. Cunningham.
- Missoula, Clerks' union—R. Dwight and M. R. Hardenburg.
- Lothrop, Lumbermen—Ira Higgins, Jefferson Wade and Mike Lahey.
- Bonner, Lumbermen—Walter Cameron and Edwin Swanson.
- Helena, Trades assembly—R. J. Lemert.

At the convention held at Livingston last year more than 65 delegates presented their credentials at opening of session, and this year it is reasonable to suppose there will be more than this number.

The usual order of business at the meeting of the assembly is as follows:

Calling council to order, presentation and reading of credentials, roll call of officers, roll call of delegates, reading of minutes, reading, referring and acting on communications and bills, reading and referring of resolutions, reading of reports of officers and organizations, reports of committees, unfinished business, new business, nomination and election of officers, installation of officers, good and welfare, adjournment.

Discussion to Be Had.

When the routine business of the convention has been finished there will be a discussion of the work of the year and suggestions as to the policy of the assembly during the year to come.

Strikes and other labor troubles having taken place since the last meeting of the assembly will be reviewed by the convention. Considerable discussion will probably be had in regard to the recent labor troubles in Colorado.

Delegates from various parts of the state will report on the progress of organized labor in his own section and due consideration will be given to the grievances and troubles of the affiliated organizations. Appropriations will be made for necessary expenses.

The convention will probably last five or six days.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

NOTED TOBACCO MAN DEAD

Louisville, Ky., Aug. 4.—John Doerhoefer, aged 54, a tobacco manufacturer of national reputation, died at his home today of a complication of diseases.

In 1891 he sold the National Tobacco works, an immense concern of which he was president, to the American Tobacco company.

Shortly afterward he started another large factory which he sold to the combine in 1900. He soon entered the field as an independent for the third time and remained there until his death.

SCHWAB TO STEP DOWN AND OUT

HEAD OF THE UNITED STATES STEEL CORPORATION WILL RETIRE TODAY.

CHARLES M. SCHWAB.

New York, Aug. 4.—The resignation of Charles M. Schwab as president of the United States Steel corporation will be accepted at today's meeting of the executive committee of that corporation.

HOTEL IS FORCED TO CLOSE

Rockefeller as Soon as He Controls Property Forbids Sale of Liquor.

Cleveland, Aug. 4.—Although it will be five months before the last lease of the Weddell house building expires, Landlord Swan of that famous hotel was notified today by John D. Rockefeller's agent here that he must close the house at midnight tonight.

The reason assigned is that Rockefeller will not allow liquor to be sold on property which he owns and controls.

Almost a year ago the Weddell house property was sold to foreclose a mortgage which was held by the Standard Oil magnate.

The hotel lease and the leases of a number of stores in the building prevented Rockefeller from assuming control to carry out his plan to build a skyscraper. Landlord Swan asked to have his lease extended to the time of the expiration of the longest lease, with the above result.

It was then discovered that until today the property had been held in the name of the Cleveland Trust company, as Rockefeller was powerless to interfere with the bar of the hotel until the lease expired.

LAWYER HAS THREE WIVES

Third Spouse of Brooklyn Politician Sues for Divorce.

New York, Aug. 4.—Three wives and thirteen children are accredited to Baldwin F. Strauss, a well-known lawyer and politician of Brooklyn, who disappeared several months ago after complaint had been made against him by several of his clients.

In documents that have just been filed in the supreme court of Kings county by Mrs. Marguerite M. Strauss, the third wife seeks a decree of absolute divorce on the ground of her husband's relations with Ida M. Perkins, who claims to be Mrs. Strauss No. 1 by virtue of a common law marriage entered into in the latter '70's or early '80's.

Baldwin F. Strauss was for many years one of the best-known members of the bar in the old city of Brooklyn, counsel for its health department, and at one time an active candidate for a nomination as justice of the supreme court.

He had hosts of friends, and according to the latest Mrs. Strauss had an income of not less than \$40,000 a year.

WOMAN HAS FLY FACTORY

Miss Carrie Frost of Stevens Point, Wis., Makes Fish Snare.

Stevens Point, Wis., Aug. 4.—This city can claim the honor of having the only factory for making artificial flies for bait in the middle West and one of the very few in the whole country. It is owned and operated by a woman and all of the employees are girls and women.

Miss Carrie Frost, who is the proprietor, learned how to make artificial flies from her fisherman father and uncle, who learned in England and have always been enthusiastic sportsmen. She herself can choose her bait and cast and catch as well as any frequently indulges in the sport. She made her fly hooks so well for her father and uncle that their friends clamored for her work and when she soon had so many orders that she could not fill them she began to employ and teach a few girls to help her. After that she undertook the manufacture of fly hooks as a regular business.

She rents a long, low one-story building, originally put up for a bowling alley. There she employs from 60 to 70 girls, who, working all the year around, turn out 3,000 to 4,000 flies every day. Miss Frost herself manages the whole business, sees to the ordering of supplies, teaches the girls how to do the work, fills her own orders, keeps the books and when she wants an extra good one makes it herself.

BIG BOND ISSUE COMING

BY ASSOCIATED PRESS.
New York, Aug. 4.—Circulars have been mailed to stockholders of the Consolidated Gas company of this city announcing the issue of \$6,000,000 of treasury stock, which is offered for subscription at \$150. The object of the stock issue is to meet the cost of a plant now being erected on Long Island, which will supply all of Manhattan and do away with the present scattered plants in this city.

The present capital of the Consolidated company is \$80,000,000.

THE MATTERHORN.

Bold giant, cold companion of the sky,
What mighty effort tossed aloft thy brow?
And reared thy snow-robed, terraced,
frontlet high—
That like some being rises o'er me now,
Did Heaven, prophetic in its wisdom bring
That crown of sunshine, and proclaim
thee king?
Or did some wrathful god with mighty
hand—
Carve down the rest of earth, but let
thee stand?
Blink, senseless, stubborn, pinnacle of
stone,
Last of the towering few that yet remain,
Defiant still of wintry storms that moan
Around thy head, drenched by the sleet
and rain,
There is a lesson in thy mighty form,
King of the range, and monarch o'er the
storm.
Oh, that each life might tower aloft like
thee,
And noble deeds mount upward before
thee—
To stand embazoned through eternity,
Crowned with the smiles of Heaven
without end,
To teach oppressions few, and folly's train,
That other strive than this, were all in
vain.
—From Four-Track News for July.

SETTING TRAP FOR THE BIGGEST BEAR

BRUIN HAS BEEN EATING PIGS IN YELLOWSTONE PARK AND HAS CHEWED UP A HORSE.

TOO BIG FOR THE PITFALL

First Attempt to Land Monster Animal a Failure—Will Be Sent to the Zoo at Columbus, Ohio.

Gardiner, Aug. 4.—The city of Columbus, Ohio, is in need of a bear. It procured permission from the secretary of the interior to get one out of the park—if it could.

Correspondence was opened with Major Pitcher and it was thought the big one that has been eating most of VanDyck & Deewe's pigs could be spared. A trap was set for him and he went into it and secured the bait, but the trap was too small and when the automatic doors fell the rear one evidently hit the bear on the back and failed to shut him off from the world.

Billy Hofer, who has caught many bears has the job and Frank Stephens is making the new trap which is now ready to take out.

A Very Large Bear.

The trap is 4 by 4 by 8 feet and will be none too big, as the bear is one of the largest in the park. He came into the hay corral a short time ago and with five or six men standing within 30 yards went and picked up a hog and started off with it, eating as he went.

The men grabbed clubs and attacked him when he dropped the hog and took to the brush, but the pig was so badly injured that it had to be killed.

Bears seem to have their own way of "carving" up a live hog for dinner, at least they have operated on a uniform plan, so far as known. They pick the porker up and begin eating on the back and soon trace a ring around the hog, while the poor thing is squealing for all it is worth. There are about a hundred cities yet that have a bear coming and they should lose no time in securing it. The park can spare about that many this year.

Chew Up a Horse.

For the first time so far as known, a horse has been killed by bears in the park. Not that the bears do not like horse meat, for they are especially fond of this diet, but a horse is a pretty good hand to take care of himself when danger is sensed, and he generally rates a bear as the highest mark of danger.

But it is said "familiarity breeds contempt" and this may have cost the horse his life. The animal in question was the herder in Contractor Wilson's canyon up near the canyon where bears are plentiful. He was a smart runner and a bear could scarcely have caught him.

He had been located there among the bears so long that he probably grew careless of their presence and it is surmised, went to sleep at an inopportune moment, when he was pounced upon and an undue advantage taken of him.

The ground showed evidence of a brief struggle and the pony showed evidence that the bear had dined sumptuously. Having tasted horse meat, the people of this section may expect this bear and his friends to catch other horses, until the Eastern city to which he belongs shall send for him.

ECZEMA, NO CURE, NO PAY.

Your druggist will refund your money if PAZO OINTMENT fails to cure Ringworm, Tetter, Old Ulcers and Sores, Pimples and Blackheads on the face, and all skin diseases, 25 cents.

HAY WILL BE HEAVY LOSER

Secretary of the Treasury Will Force Colleague to Part With Property.

Washington, Aug. 4.—Secretary Shaw has served notice upon Secretary Hay and several other owners of property which congress designated as the site for the hall of records.

For a long time Mr. Shaw has been trying to reach an agreement with the property as to the price to be paid for the property, but the owners, under the leadership of Mr. Hay, who owns the largest piece of the property, demanded an exorbitant price.

Failing in his persuasive efforts, Mr. Shaw today announced that he would pay no more than two and one-tenth times the assessed value of the property, and that if this was not satisfactory he would institute condemnation proceedings to obtain the land. At the price designated by Mr. Shaw the owners will receive over \$290,000.

Secretary Hay's real estate agents say that if he accepts the treasury offer, as he will have to do, he will lose 50 per cent on a portion of his holdings. Secretary Shaw, however, will stand by his proposition.

DIED BECAUSE HE TALKED

Warned of Danger of Lockjaw, But Would Not Keep Quiet.

Waterloo, Ill., Aug. 4.—Because he could not or would not keep silent Henry Motz is dead. Each time that he talked he caused wounds in his jaw to open and each time the services of a physician were required to close them up again.

A week ago Motz was injured in a runaway accident. When he was taken home and the family doctor had mended his injured anatomy he felt an uncontrollable impulse to talk.

And talk he did. Warnings by the doctor and by members of the family could not keep him still. The physician warned him of the danger of lockjaw if he continued his actions, and yesterday tetanus actually developed.

In a few hours Motz was dead.

LIVING BY WITS A PECULIAR GAME

MEN WHO PLAY THE MARKETS AND THE RACES FORM A CLASS BY THEMSELVES.

THRILLED BY EXCITEMENT

Sport Is Costly, However, and Nervous Strain Is More Than Intense.

"Southern railway, 88. Sugar 100 an' 18 an' three-fifths. St. Paul 48."

This is what the young fellow in his shirtsleeves is crying.

He is perched on a high stool and has his attention fixed on a telegraph board. Meanwhile another coastless chap is checking the numbers on a great blackboard, 10 feet high and twice as broad.

Reclining in chairs idly skimming the pages of a financial journal or standing in huddled groups, their eyes centered on the board, some of them yawn and stretch now and then, for this is a Butte bucket-shop, commonly called "poolroom" and the market is slow.

Calls the Numbers.

Suddenly the young fellow at the instrument begins to call out the numbers more rapidly.

It is as if there was a wager between the two as to which could read or write the faster.

The market is waking up.

Now there are races chalked on the board across the room.

The crowd turns its attention to the showing made by the "ponies" at Chicago, Oakland or St. Louis.

Their money is placed and their bets paid exactly as if they were on the ground and could view the course as the horses sweep around the circle.

The only thing they may see is the moving of the chalk and hear the calling of the progress made.

Cheers From Winner.

Now and then a winner cheers or even swings his hat in the same way he would swing it were he leaning over the fence at the track watching his horse come in ahead of the field.

Occasionally an oath bursts from the lips of a disgruntled loser.

"My luck's against me today," says one to his neighbor. "I knew when I met that one-eyed cat this morning there was something doing. Guess I'll cut it out."

Here he is drawn aside by a tout, for he is known the tout is as much an established factor in the poolroom as he is at the open-air course.

He comes and goes bringing his "dope" for those he can persuade to act on his advice and placing money for a friend who is too busy to call personally and has entrusted his bet to the young man who makes his living through a successful tipping off of events to come. Here is one who appears to be prosperous. He is shaved and his boots are shined.

Wears Jaunty Air.

A fat cigar protrudes from his mouth. His hat is pushed on the back of his head with a jaunty air.

One of his customers made a killing and he has come in for a comfortable commission.

Tomorrow his "dope may be bad" and he will be "bumming" his smokes from kind-hearted ones who possess the wretched.

It is a precarious existence, but a fascinating one. It is doubtful if he would exchange his lot for that of the well-fed and comfortable-looking commercial traveler who stands beside him drinking in his words of wisdom and wearing withal an incredulous look.

It is an atmosphere of excitement. It is an exciting game and it takes abundant nerve.

For his reason most of the frequenters of the place are young men. Still there are those who have passed the Biblical three score and ten.

It is said the game will pay if you play it properly, but usually by the time the novice has "learned the ropes" he has no money with which to exercise the knowledge acquired.

LIVELY MEETING TOMORROW NIGHT

WHAT IS LIKELY TO BE DOING AT THE SESSION OF THE CITY COUNCIL.

MAYOR MAY NAME MEN

City Attorney and Assistant May Be Put in Nomination—New Monthly Report Has Been Demanded.

Speculation is rife around the city hall as to what will happen at the meeting of the city council tomorrow night.

The two last meetings of the council have been remarkably tame from a spectacular point of view and those anxious for livelier sessions are wondering when there will be something doing.

If the mayor presses the names of his city attorney and assistant for confirmation it is expected there will be some excitement at least for a few minutes.

Feeding Prisoners.

There is expected to be an inquiry made about the collection of the fines of gamblers, women and slot machine owners.

The cost of feeding the city prisoners and other questions are also liable to be gone into if the council succeeds in getting beyond the routine business in hand.

The council has demanded a monthly report from the city jailer, something which has not been forthcoming of late.

New Alderman.

There will be plenty of routine business to take up the time of the city lawmakers. If another alderman resigns, as expected, his successor will have to be elected by the council.

As the majority that is opposed to the mayor's nomination for city attorney and assistant is in control it is to be expected that the alderman to be chosen by the council will be of the same way of thinking as the majority upon many important subjects.

RANCH HANDS ARE SCARCE

Glendive, Aug. 4.—Ranch hands are scarce in Dawson county, and several hundred could easily find employment. Those seeking employment can readily find a job by coming to Glendive.

Excursion Rates to Gregson Springs.

Every Saturday hereafter, until further notice, the B. & P. Railway will make the following round-trip rates to Gregson Springs: Anaconda to Gregson and return..... 90c
Butte to Gregson and return..... 80c
Tickets good on all trains from noon Saturdays until noon Mondays.
