

FUGITIVES STARVING

Macedonians Are Given Food and Shelter by Monks.

BY ASSOCIATED PRESS.
London, Oct. 15.—The correspondent of the Daily Telegraph on the Macedonian frontier has sent his paper a long description of the refugees arriving at Rila monastery, after fasting for days and sleeping in the open air with the thermometer at 34 degrees, and their gratitude to the monks who shared with them their black bread and salt and exhausted all their resources to help the hungry fugitives. The correspondent adds: "But this help, despite the sacrifices it imposed on the monks, was but a drop of water in an ocean of fire. Scores of people must have perished miserably but for the timely assistance of a beneficent American lady, Madame Bakmetieff (formerly Miss Beal) of Washington, D. C., wife of the Russian diplomatic agent at Sofia, Bulgaria. "Without losing a moment, this philanthropic lady dispatched \$5,000 and a sister of charity to relieve the needs of the innocent outcasts. My companion, Charles Crane of Chicago, likewise gave a liberal contribution for the same purpose. When we were leaving the monastery a couple of days later over 600 refugees lined the avenue in front of the doors and insisted on shaking hands with us."

MOUNT M'KINLEY MAY BE CLIMBED FROM WEST

BY ASSOCIATED PRESS.
Seattle, Wash., Oct. 15.—That Mount McKinley is possible of ascent from the west side is the opinion of Dr. Ferdinand Cook of New York, who with a party of explorers and scientists, has just returned to Seattle from Valdez, Alaska.

They have spent the summer in vain attempts to ascend the Cooks Inlet peak. A member of the party is of the opinion that this came to naught through the employment of so-called skilled Alpine climbers who did not display the same physical resistance to hardships as did the other members.

Dr. Cook says the mountains can be ascended from the east side. He leaves for New York tomorrow.

CORONER JOHNSON DENIED ENTRANCE

FORMER OFFICIAL TESTIFIES AS TO TREATMENT OF HIM BY THE PHYSICIANS.

IN THE HANSON LABEL SUIT

Editor Keith of the Miner and Dr. Hanson on the Stand—Artist on the X-Ray Photographs.

The \$50,000 libel suit against the Miner was resumed in the federal court this morning. Dr. Hanson was on the stand during the afternoon yesterday and gave a description of his method of treating Dr. Cayley during the time he was confined in the hospital, suffering from a bullet wound.

Dr. Hanson was followed by Editor Keith of the Miner, who explained the purport of the article written in the Miner which is the basis of the suit. He testified that the article was in a general sense and treated the subject of surgery in a hypothetical manner.

William K. Semple, the Miner reporter, testified as to the finding of the trace showing the course of the bullet, and to being denied admittance to the secret autopsy on the body of Cayley.

Former Coroner Johnson stated that he was denied admittance to the room in which the autopsy was held and was finally admitted on protest.

George Long gave expert testimony as to taking copies of X-Ray photographs. An adjournment was taken until 2 o'clock, while Long was under cross-examination.

Former Governor Smith objected to the introduction of the X-Ray photographs and plates as evidence, but they were allowed to be exhibited to the jury. Later the court ordered both plates and photographs excluded. Judge Bickford cited several authorities on the subject, but the court ruled that they could not be used as exhibits. The defendant excepted to the ruling.

SON CHARGES FATHER

SAYS HE KILLED NOT ONLY HIS WIFE, BUT HIS BROTHER AS WELL.

BY ASSOCIATED PRESS.
Chicago, Oct. 15.—Frank Pavlick created a sensational scene in Judge Clifford's court by pointing an accusing finger at his father and declaring the latter was guilty not only of wife murder but also of parricide.

"The murder of my mother is not the first one committed by my father," declares the accuser. "In Bohemia, where I was born, he killed his own mother, too. He became enraged at my grand mother and struck her many blows. For three weeks she suffered and finally died. "My father was never punished for the crime. Attorneys for the defendant told the jury they would make no denial of the charge that the defendant killed his wife, but would seek to prove insanity."

NATIONAL CIVIC FEDERATION IS IN SESSION

BY ASSOCIATED PRESS.
Chicago, Oct. 15.—Employers and labor leaders of national reputation were in attendance at Steinway hall at the opening session of the National Civic Federation conference which is to discuss questions affecting wage earners and capitalists in an effort to better relations between them and the industrial world.

Judge Waterman made a brief address stating the purpose of the conference and asserting that no industrial progress was possible except under the reign of peace, which the conference is endeavoring to bring about.

Howard W. Taylor, city prosecuting attorney, welcomed the visiting delegates on behalf of Chicago, Mayor Harrison having been unable to be present.

Mr. Oscar Strauss presided and spoke on "How to Establish Better Relations Between Employers and Employees," advocating conservatism in dealing with labor troubles.

Real Strong Booze.

John Schacht, a lumberman who has been under treatment at Brainerd, Minn., for alcoholism, has been taken to Minneapolis for examination by physicians there, in order that a peculiarity of his disease may be clinically considered.

Schacht is turning black all over his body in patches. He has a black patch on his face nearly the size of a man's hand, and other spots of almost as great in size have appeared on different portions of his anatomy.

The opinions of the physicians who have treated the man for alcoholism are unanimous that the lumber camp whisky he has been drinking for a year or more contains some chemical that has the effect upon his skin above referred to.

Similar phenomena are observed where nitrate of silver has been taken internally, but there is no known ingredient of even lumber camp whisky which could produce such a result. Schacht is a giant in physique, standing 6 feet 2 inches in his stocking feet. He does not appear to be greatly perturbed at the curious affliction of which he is the victim, and declares that the doctors are all astray. He insists that the discoloration is due to an inordinate consumption of a certain brand of chewing tobacco, which a doctor in Duluth informed him contained deleterious chemicals. Schacht also insists that lumber camp whisky, so called, is better than Minneapolis whisky, because it is hotter stuff.—St. Paul Globe.

NORTH FORK OF SUN RIVER TO BE STOCKED

Game Association Receives Word That the Government Will Send 50,000 Young Trout There.

SPECIAL TO THE INTER MOUNTAIN.
Helena, Oct. 15.—The Helena division of the Montana Fish and Game Protective association has received word from the government that 50,000 young trout will be available for stocking the north fork of Sun river. The fish will be furnished by the United States fish hatchery at Bozeman and will be transported by the government in the first car to Craig, on the Montana Central.

From Craig the young fish will be taken by wagon in cans to a point 70 miles northwest, thence packed on horses 70 miles further to the headwaters of the north fork of Sun river, where they will be dropped into the stream.

The north fork of Sun river is an excellent mountain stream, but it has never had trout because of the falls in the stream, which prevented the fish going to its source. Two years ago the local members of the Fish and Game association put some trout into the stream, and now propose to add 50,000 more. In a few years it is expected this will become one of the finest fishing streams in the state.

BY ASSOCIATED PRESS.
Portland, Ore., Oct. 15.—The Emperor of Japan, through the Japanese consul at San Francisco, will make a thorough investigation of the case of Masa Shengawager, a 16-year-old Japanese girl, who is held by the Humane society in Denver. Japanese Council Takagi of this city said today:

I believe that he complained to the society hoping to force her to marry him for the purpose of gaining her liberty. I believe the Humane society is being deceived, but I know they will take good care of her. The matter has been placed in the hands of the consul at San Francisco, under whose jurisdiction Denver is."

FIFTY CENTS A MONTH

A small bottle of Scott's Emulsion costing fifty cents will last a baby a month—a few drops in its bottle each time it is fed. That's a small outlay for so large a return of health and comfort.

Babies that are given Scott's Emulsion quickly respond to its helpful action. It seems to contain just the elements of nourishment a baby needs most.

Ordinary food frequently lacks this nourishment; Scott's Emulsion always supplies it.
