IS A DIVINE HEALER

KANSAS CITY, KANSAS, PASTOR IS CALLED UPON TO RESIGN BY HIS CONGREGATION.

BY ASSOCIATED PRESS.
 Kansas City, Mo., Oct. 26.—Rev. A. E. Gammage, pastor of the Lawn Avenue Baptist church, Kansas City, Kan., has resigned his pastorate at the evening service last night at the request of the board of deacons because of heretical teachings. Many members of the church withdrew with Reverend Gammage, who say he will establish a new church.

J. W. Mode, chairman of the board of deacons, said: "The action was taken because we did not believe Mr. Gammage was preaching the true Baptist religion. He is an advocate of divine healing and believes men can become so sanctified as to be without sin."

SERIOUS FIRE IN PORTLAND

BY ASSOCIATED PRESS.
 Portland, Ore., Oct. 26.—In a fire which broke out in P. Sharkey & company's collar factory on the corner of Union and East Yamhill street last night \$25,000 worth of property was destroyed. The fire started in some straw stored in the basement and it kept the fire department busy until late this morning. It is believed the fire is the work of an incendiary.

PRESIDENT GIVES PUBLIC A SERMON

ROOSEVELT TALKS AT GREAT CATHEDRAL OF ST. PETER AND PAUL.

NEED HONESTY ESPECIALLY

No Nation is Great in Which the Average Citizen and Public Servant is Not Truly Honest.

BY ASSOCIATED PRESS.
 Washington, Oct. 26.—President Roosevelt spoke at the public open-air missionary service at Mount St. Albans yesterday afternoon on the ground of the Cathedral of St. Peter and Paul.

The president was accompanied by Mrs. Roosevelt, Admiral Dewey and Brigadier General John M. Wilson. After a procession led by the Marine band and the choir of 500 voices, the clergy of Washington and the bishops of the anglican communion of America, the opening prayers were read by Bishop Doane of Albany.

The president was introduced by Bishop Satterlee. At the close of the president's address the Most Reverend Enos Nuttal, archbishop of the West Indies, asked permission to say a word on behalf of the British people.

Speaking, as he said, for them, he told of the reverence and respect which all Englishmen feel for the president of the United States and for Theodore Roosevelt, "the man and the Christian."

He declared that England welcomed the expansion of the United States into a world power and that if President Roosevelt should visit England he would receive the greatest welcome ever extended a foreign visitor. The president spoke in part as follows:

"I wish to dwell upon certain thoughts suggested by three different quotations: In the first place, 'Thou shalt serve the Lord with all thy heart, with all thy soul and with thy mind.'

"The next, 'Be ye therefore wise as serpents, and harmless as doves,' and finally, 'We being ready both in body and soul, may therefore accomplish these things which thou commandest.'

"We have the right to claim from you not merely that you shall have heart in your work, but that you shall give the best that your minds have got to it also. In the eternal and unending warfare for righteousness and against evil, the friends, the friends of what is good, need to remember that in addition to being decent, they must be efficient; that good intentions, high purposes, cannot be effective and a substitute for power to make those purposes, those intentions, felt in intention. We may have the purpose and the intention. If our powers are not guided aright, it is better that we should not have them at all, but in addition to being guided aright, we must have the power also; you must cultivate the power, also.

"In the second quotation, remember that we are told not merely to be harmless as doves, but also to be wise as serpents. We are not to be excused if we do not show both qualities. It is not very much praise to give a man to say he is harmless. We have a right to ask that in addition to the fact that he does no harm to any one, he shall possess the wisdom and the strength to do good to his neighbor. Finally we ask that we may be made ready, both in body and soul; that we may cheerfully accomplish the things that we are commanded to do, both in body and soul; that we shall fit ourselves physically and mentally, fit ourselves by the way in which we work with the weapons necessary for dealing with this life, no less than with the higher spiritual weapons; that we fit ourselves to do the work commanded, and, moreover, do it cheerfully. Small is our use for the man who individually helps any of us and shows that he does it grudgingly. I would rather not be helped than be helped in that way. We have a right to ask a cheerful heart, a right to ask a buoyant and cheerful spirit among those to whom is granted the privilege of doing the Lord's work in this world. The chance to do work, the duty to do work is not a penalty; it is a privilege."

Continuing, President Roosevelt said: "In the seventh hymn which we sang in the last line you all joined in singing 'God Save the State.' Do you intend merely to sing that, or to try to do it? If you intend merely to sing it, your part in doing it would be but small. The state will be saved if the Lord puts it into the heart of the average man, so to shape his life that the state shall be worth saving and on those terms. We need civic righteousness. The best constitution that the wits of man has ever devised, the best institutions that the ablest statesmen in the world have ever reduced to practice by law or by custom, shall be of no avail if they are not vivified by the spirit which makes a state great by making it honest, just and brave in the first place."

MOTHER MURDERS THREE CHILDREN

SHE SAYS SHE WAS TOLD TO DO SO BY SOME MYSTERIOUS "SUPREME POWER."

GO LOOK AT YOUR CHILDREN

Husband and Father Returns to Find His Offspring Weltering in Their Blood and Wife Insane.

BY ASSOCIATED PRESS.
 Monterey, Cal., Oct. 26.—While temporarily deranged, Mrs. Louise Iverson, wife of a Salinas machinist, murdered three of her four children yesterday at Pacific square, at the dictation, she says, of "a supreme power." She first strangled her daughter, Leonard, 12 years; then she attempted the life of her eldest son, aged 17, who had just come into the house, but the boy broke away from her and took a train for his home in Salinas.

She then strangled her son Harold, aged 6, and then went out of the house and got an axe with which she struck him a blow on the head. Later in the evening she killed her 7 months' old babe Maria, by strangling.

The boy who escaped went to his home in Salinas and reported to his father that the eldest girl was ill and had been lying on the bed, but said nothing of his mother's attack upon him.

The father telegraphed to a Pacific Grove physician, asking him to call at the house and see the child. The doctor did so and was met at the door by Mrs. Iverson, who said there was no one sick in the house, and that some mistake had been made.

Early this morning Mr. Iverson drove to Pacific Grove. He knocked at the front door and was told to go around to the back door. He did so, and entering the house was about to kiss his wife when she said: "Don't touch me. Don't put your hands on me, go and look at your children."

With that he opened the door of an adjoining room where lay the bodies of the three children, the boy on one bed and the two girls on another. Mrs. Iverson had been ill for several months and had shown signs of mental derangement, her mania being of a religious nature.

BOY AND A WIFE HELD BY POLICE

LEONARD IS ONLY 20 AND HIS NEW SPOUSE IS SIX YEARS OLDER THAN HIM.

BY ASSOCIATED PRESS.
 Vancouver, B. C., Oct. 26.—Clarence Leonard of East Orange, N. J., and his young wife, have been arrested here and detained at the request of the police. Leonard, who is only 20 years of age, is accused of embezzling \$10,000 belonging to a New York firm for whom he worked.

On the persons of the young couple was found \$8,200, the young woman having eight \$1,000 bills. The remainder of the money was in smaller denominations and was found in Leonard's clothing.

The Leonards were arrested in the most fashionable hotel here. They arrived a couple of days ago. Leonard has agreed to return to the United States to stand trial. The arrests were made by the local police on telegraphic descriptions from New York.

Forged Checks.
 New York, Oct. 26.—Young Leonard was employed in the financial department of Haskins & Sells, public accountants in this city. He disappeared October 3 with \$10,076 of the firm's money, secured, it is said, through forged checks passed upon two New York banks.

It was part of Leonard's duty to make the deposits and to draw the money from the banks for the current uses of the firm. The day before Leonard disappeared Miss Katherine Miller, also a resident of East Orange, was reported missing.

It was stated by their intimate friends that they had long planned an elopement, but could not obtain sufficient money. The young woman, who is six years older than Leonard, declared after their arrest that they had been married after starting from New York.

The Northern Pacific railway now offers a reward of two thousand five hundred dollars (\$2,500.00), plus a one thousand dollar (\$1,000.00) for information leading up to the arrest and conviction of parties implicated in the work of dynamiting bridge at Livingston.

\$600,000 TO HOLD ELECTION

Estimate of Expense in Coming Battle of Ballots in New York.

BY ASSOCIATED PRESS.
 New York, Oct. 26.—An estimate made by a member of the board of elections fixes the cost of the coming election in this city at \$600,000, to which is to be added \$300,000 which was spent in the recent primary elections.

In order to give voters a chance to express their desire as to candidates, 2,764,800 ballots have been printed, which include the ballots for votes on the canal question and 307,000 sample ballots, which are to be used to explain to voters how a legal vote should be cast.

KENTUCKIAN IS MURDERED

BY ASSOCIATED PRESS.
 Mount Vernon, Ky., Oct. 26.—At Livingston yesterday B. N. Roller, master of trains on the Livingston division of the Louisville & Nashville railroad, was shot and killed by A. R. Bentley, master mechanic of the same road. Bentley surrendered and claimed self-defense.

Bad feeling has existed between the men because of clashes over authority. Both are prominent in railroad circles and have families. Roller was 48 and Bentley 52 years of age.

In San Antonio.
 San Antonio, Texas, Oct. 26.—The yellow fever situation in San Antonio is greatly improved. Last night's bulletin showed one new case and one death within the past 24 hours.

HONDO AND URTON LAKE VICINITIES

GOVERNMENT HAS TWO IMPORTANT PROJECTS IN NEW MEXICO UNDER CONSIDERATION.

ALL GOOD IRRIGABLE LAND

Possibility That Large Section Will Be Taken in Hand and Made to Bloom Like the Rose.

Washington, Oct. 26.—A preliminary examination has been made by the engineers of the United States reclamation service of two important projects in New Mexico, known as the Hondo and the Urton Lake projects. A cursory examination indicates that each project is feasible from both an engineering and a financial standpoint of view.

The land on the Hondo project which could be irrigated to advantage, amounts to possibly 15,000 acres, and the first estimate of cost of putting the water on the land is about \$20 per acre. Land which can be irrigated most easily from the Hondo reservoir is nearly all in the hands of private parties, so that the question of colonization would cause no trouble.

Good Irrigable Land.
 It is all first-class irrigable land, free from alkali, and because of the underlying limestone formation, it will never be troubled from that source. The lands, if watered, will be easily worth \$100 an acre when planted in alfalfa or corn, and if used for fruit raising will eventually have a higher value.

The works contemplated for this project are the enlarging of the natural reservoir and an inlet and outlet canal, which involve no engineering difficulties.

The land on the Urton Lake project is all government land with the exception of a few claims bordering the river. This land is underlain by a very porous red sandstone, which will probably afford good subdrainage and prevent trouble from alkali. The reservoir site is an excellent natural depression and will hold 100,000 acre-feet without any expense except for the outlet works, which will be in red sandstone.

Dam on Pecos.
 The works contemplated in this project are a dam and head works on the Pecos river about 10 miles above Fort Sumner, about 30 miles of canal to carry 1,200 second-feet in times of flood, three structures at crossings of creeks, the necessary outlet works, including a tunnel 2,000 feet long, and about 30 miles of distributing canals on the lands to be irrigated. A rough estimate of cost of this project is \$10,000,000, of \$17 per acre. There is little doubt that this land would all be settled up rapidly, as it is within 20 miles of the Pecos valley and North-eastern railroad, which line would undoubtedly build a branch to this section.

There are, however, some uncertainties in connection with the project which will have to be considered, one being the possibility of the reservoir not being filled some years. The data relating to the stream measurements are not complete, and it will be necessary to continue the records of the run-off of the Pecos river during the time the surveys of the canal and of the irrigable lands are being made, and during the construction until the works are finished.

Might Go Dry.
 It appears from the best information that the reservoir could be filled every ordinary year, but occasionally a dry year, such as 1903, creates a doubt as to the possibility of always filling the reservoir. It is possible that the seepage from the irrigated lands under these conditions would eventually more than make up for any apparent loss below them occasioned by the proposed disposal of the water from the Pecos river.

SON SHOTS FATHER

OLD MAN WAS BEATING WIFE AND MOTHER WHEN STEPSON INTERFERED.

BY ASSOCIATED PRESS.
 Chicago, Oct. 26.—As he was about to strike his wife with an iron bar Nicholas Rolle has been shot and killed by his stepson, Henry Walscheid, 18 years old. Rolle came home and went to the kitchen, where his wife was preparing dinner. He was abusive and threatened her because dinner was not ready.

While they were quarreling young Walscheid returned.

He started for the kitchen and as he reached the door, saw Rolle raise an iron bar and strike his wife. The youth drew a revolver and fired at his step-father. Walscheid was arrested.

He said his stepfather had abused his wife on several occasions and that he, himself, had quarreled with the man because of his ungovernable temper.

MORTIMER DURAND APPROVED

London, Oct. 26.—King Edward has approved the appointment of Sir Henry Mortimer Durand as British ambassador to the United States.

THE CHEAPEST YET.

FATHER MURDERS TWO LITTLE SONS

INDIANA MAN SPIRITED AWAY BEFORE IRATE MOB CAN WREAK THEIR VENGEANCE.

QUARREL WITH HIS WIFE

In Revenge, Farm Hand Decoys Two Tots From Home and Puts Bullet Each in Innocent Heads.

BY ASSOCIATED PRESS.
 Marion, Ind., Oct. 26.—Jessie McClure, a farm hand, murdered his two sons, aged 5 and 7 years, yesterday afternoon near Franklin, because his wife refused to see him.

Later he came to the city and surrendered. Last night it was learned that a mob was forming to come to Marion and he was spirited from the jail here and started for Indianapolis.

Mrs. McClure had taken her children to her father's home. Yesterday McClure found them playing in the yard and induced them with candy to take a ride with him.

McClure admitted the murder to the turnkey and said he had killed his children because his wife had refused to see him. He said: "I decided to be revenged and drove down the road to a little clump of trees. My children were asleep in the buggy."

"When I stopped the jolt awoke my little boy, Dee. He looked up at me and said: 'Papa, what are you going to do?' I held my hand over his eyes and took my gun from my pocket and shot him in the forehead, killing him instantly. The shot awoke little Homer and I took him by the shoulder and fired a shot into his head. They both fell to the bottom of the buggy. I drove the horse to the side of the road and laid their bodies out on the withered grass."

"The neighbors will lynch me when they find out what I have done. I don't care what you do with me. I am ready to die and expect to hang for this crime. All I ask is to see my dear little ones buried."

BAD MAN NO MORE

ED BEATON SHOT DOWN BY CONSTABLE WHILE TRYING TO RESIST ARREST.

SPECIAL TO THE INTER MOUNTAIN.
 Glasgow, Oct. 26.—Valley county has been relieved of another desperado. Ed Beaton, long known as a gunman and all-around hard character, bit the dust at Brown's ranch, 40 miles south of Saco, while resisting arrest on a warrant charging him with an attempt to kill.

Constable W. L. Vesko killed Beaton because the latter attempted to draw his gun when the officer was trying to arrest him. The officer was quicker in the game of draw, however, and firing instantly killed his man.

A coroner's jury exonerated Vesko from blame. Several hundred dollars were found on Beaton's body when searched by the coroner.

POPE PIUS IN PUBLIC

BY ASSOCIATED PRESS.
 Rome, Oct. 26.—The pope appeared before 2,000 Venetians in the garden at San Damaso yesterday and was enthusiastically received. He spoke to the Venetians most affably, saying he loved to hear spoken about him the Venetian dialect.

The reception given to the pontiff was notable.

Mr. and Mrs. W. E. Curtis of Washington have been received by the pope with marks of especial consideration.

While opening a box, J. C. Mount of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by Paxson & Rockefeller, Newburg Drug Co., Christie & Leys and Newton Bros.

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take a medicine of warm water once every 24 hours before I could have any action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to Cascarets I am free from all that this morning. You can use this in behalf of suffering humanity."

ANNUAL ESTIMATE OF ARMY EXPENSE

GILLESPIE BELIEVES MILLIONS WILL BE NEEDED FOR COAST AND INSULAR DEFENSE.

BASES FOR COALING STATIONS

Report on Guns Now at Hand and the Probable Amount Needed For Other Munitions of War.

BY ASSOCIATED PRESS.
 Washington, Oct. 26.—The annual report of George L. Gillespie, chief of engineers, U. S. A., for the past year, made public today, refers to the work of constructing the fortifications that has been going on under the general scheme of the Endicott board. It adds:

"The degree of defense to be provided for coaling and other naval stations scattered all over the world for the large naval bases which must be promptly established and for which appropriations are asked of congress by the navy department, for the port of Manila, Pearl harbor and Honolulu, and for the lake ports and the St. Lawrence river, should preferably be determined by a tribunal similar to that of the Endicott board. The absence of legislation on the subject of insular defenses, a mixed board of engineers and artillery officers, organized by the secretary of war, has already been practically considered and plans reported upon for the emergency defense of several of the most important harbors in the insular possessions."

"Besides these, the preliminary plans actually entered upon, it might be well to invite the co-operation of the navy by the assignment of a number of naval officers upon a new joint board of army and naval officers appointed to revise or enlarge the preliminary plans of defense heretofore prepared."

General Gillespie says prospects for the defenses of 37 localities have been approved. He adds:

"Projects for the defense of San Juan, Porto Rico; Pearl harbor and Honolulu, Hawaii; San Luis, Apia, Guam, Manila bay and Subig bay, in the Philippines, have been approved by the secretary of war and actual construction should begin thereupon at an early date.

"It is believed the time will come when it will be no longer wise to ignore coast defenses. The department is properly insistent that all its important coaling stations should receive proper defense protection to keep off attacks from possible hostile fleets."

"The sea coast defenses of the United States are now somewhat more than 50 per cent completed. Twenty-five of the principal harbors of the United States have a sufficient number of heavy guns and mortars to make a defense against naval attack, and during the past three years considerable progress has been made in the installation of improved rapid fire guns, now the matter of first importance."

At present there are provided for the defense of the United States 105 12-inch guns, 133 10-inch guns, 95 8-inch guns, 567 rapid fire guns and 376 12-inch mortars.

General Gillespie submits a total estimate of \$10,366,100 for the fortifications of the fiscal year ending June 30, 1905, as follows:

Construction of gun and mortar batteries and the installation of range and position finders, \$4,575,000; sites for fortifications and sea coast defenses, \$2,000,000; searchlights for harbor defense, \$500,000. Protection, preservation and repair of fortifications, \$300,000; preparations of plans for fortifications, \$5,000,000; supplies for sea coast defense, \$35,000; sea walls and embankments, \$200,000; torpedoes for harbor defense, \$225,000; defense of insular possessions, \$2,000,000; procurement of land for sites for defenses of the Hawaiian Islands, \$250,000.

Among the estimates of improvements are the following: Coquille River, Ore., \$30,000; Goosebay, Ore., \$60,000; Columbia river, at Three Mile rapids, Oregon and Washington, \$300,000; canal at Cascade of Columbia river, Oregon and Washington, \$80,000; Willamette river and Yamhill river, above Portland, Ore., \$90,000; Columbia and Willamette rivers, below Portland, Ore., \$500,000; mouth of Columbia river, Oregon and Washington, \$500,000; Gray's harbor and Chehalis river, Washington, \$55,000; Puget Sound and tributary water, \$30,000; New Whatcom harbor, Wash., \$35,000; improvement of Yellowstone Park, \$250,000.
