

A GOLD MINE ON EVERY LOT.

Recent Developments in the KENWOOD district, comprising the Bradford, Brooke and Syndicate Additions to Helena, make the above statement almost absolutely true.

But there are other features of this part of Helena that outweigh the probability of finding gold in paying quantities, and those are the freedom from smoke and dust that

KENWOOD

Enjoys beyond any other suburb, the direct water service, insuring purity and freshness, the fine view, the rich soil, school facilities, street car service, good drives and numerous other advantages.

Prices are now reasonable, and the present is the time to buy. My list comprises many very choice locations.

FABULOUS WEALTH BURIED.

Sixty Millions Said to Be Hidden Near Warrensburg, Mo.

WARRENSBURG, Mo., Aug. 13.—For the last century there has not a decade passed without some one making an attempt to find a large sum of money that is said to have been buried five miles south of here. This sum, more than \$60,000,000, was buried by the French in 1783, and since that time thousands of dollars have been spent by sober-minded men in search of the hidden treasure. T. N. Williams, who owned the farm five years ago, mortgaged it for a large sum of money and spent every dollar of it in digging and searching for the money, which is supposed to be in gold coin. The farm next fell into the hands of H. A. Greening, an influential merchant of this city, and others continued the search for a short time, but for the last three years nothing has been said about the matter until J. U. Gaty, an insurance agent formerly of this place, but now of Arkansas, met J. H. Gordon of St. Louis and gave him the above facts. Gordon consulted a lady clairvoyant in St. Louis and about three months ago he came here and got a permit from Greening to search on his place for the money. After spending a week and a considerable sum of money, he returned and was not again heard from until this morning, when he and the lady clairvoyant whom he had previously consulted, registered at the St. Cloud Hotel. The clairvoyant says she can locate the place where the treasure is hidden when taken to the farm. A thorough search will be made again. Many of the old settlers of the county firmly believe that the money is hidden somewhere on this farm.

SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken, it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation permanently. NOTICE OF APPLICATION TO CUT TIMBER.

Notice is hereby given that in accordance with the provisions of the rules and regulations prescribed by the honorable secretary of the Interior, on May 14, 1891, at the expiration of twenty-one days from the first publication of this notice, the undersigned, Charles W. Toole, whose post-office address is Wallace, Shoshone county, Idaho, will make written application to the honorable secretary of the Interior for authority to cut and remove timber for merchandise and sale from the following unreserved and unappropriated public lands of the United States situated in Missoula county, Montana, and described as follows:

Tract No. 1, beginning at a point on the north bank of the Kootenai river one mile below the "Big Bend" of the same, and the same distance east of the mouth of Fisher creek, thence running west along said north bank following the lands and curves of same for about four miles to the mouth of Rainy creek; thence north one-half mile (1/2) to highway corner, thence east along the top of the first hills or bluffs four miles; thence south one-half mile (1/2) to the place of beginning, comprising about twelve hundred (1,200) acres, and containing five hundred thousand (500,000) feet of pine timber, and one hundred thousand (100,000) feet of fir and tamarack timber. The land in this tract is rough and broken; the soil rocky and sandy, unfit for cultivation or grazing purposes.

Tract No. 2, beginning at a point on the north bank of the Kootenai river one-half (1/2) mile below, or west of the mouth of Rainy creek, which is also 1/2 mile below or west of the mouth of Fisher creek, which is at the big bend of the Kootenai river; thence from said initial point west along the north bank of the Kootenai river a distance of two and one-half (2 1/2) miles to a point one-quarter of a mile west of where the point of beginning crosses the river bank; thence north one-quarter of a mile; thence west one-quarter of a mile; thence north one-quarter of a mile; thence east one-half (1/2) mile to a point one-half (1/2) mile north of the mouth of the same; thence north one (1) mile; thence east one and one-half (1 1/2) miles on a line parallel with the Kootenai river and two miles (2) north of the same to Rainy creek; thence south to the southeast corner, the place of beginning, comprising about six thousand (6,000) acres, and containing about one million (1,000,000) feet of pine timber, about one million (1,000,000) feet of tamarack timber, and about one hundred thousand (100,000) feet of fir timber. The land in this tract is rocky, broken and mountainous; the soil is rocky and sandy, and unfit for cultivation or grazing purposes.

Tract No. 3, beginning at a point on the north bank of the Kootenai river one-half (1/2) mile below, or west of the mouth of Fisher creek, thence running west along the said north bank following the lands and curves of the same for a distance of a mile north of the head of the creek and of the Kootenai river, thence north one-quarter (1/4) of a mile; thence east eight miles on a line parallel with the Kootenai river, thence south one-quarter (1/4) of a mile to the northeast corner, the place of beginning, comprising about one million (1,000,000) feet of pine timber, five hundred thousand (500,000) feet of tamarack timber, and one hundred thousand (100,000) feet of fir timber. The land in this tract is rocky, broken and mountainous; the soil is rocky and sandy, and unfit for cultivation or grazing purposes.

Reference is hereby made to plat filed in the United States office at Helena, Montana, identifying and showing a more particular description of the locality of the land upon which the above described tracts are situated. The total area of the above described tracts is about 12,000 acres, and it is estimated that there are growing there about 8,000,000 feet of pine timber, about 1,000,000 feet of tamarack, and about 200,000 feet of fir, which it is desired to cut. The character of the lands upon which all of the above named timber is growing is rough, broken and mountainous; the soil is rocky, sandy and broken, unfit for cultivation or grazing purposes, and non-mineral in character. The purpose for which the timber is to be cut and used is for the manufacture of lumber, shingles and other merchantable lumber, to be used for mining, building and other usual and beneficial purposes.

C. W. TOOLE.

NOTICE OF APPLICATION TO CUT TIMBER.

In accordance with the provisions of section 8, of the act of March 3, 1891, and under the rules and regulations of May 1, 1891, I, the undersigned, hereby give notice that at the expiration of twenty-one days from the first publication of this notice, I will make written application to the honorable secretary of the Interior for authority to cut and remove all the merchantable timber and red pine, on the following described land:

The land being unreserved, but commencing at what will be the southwest corner of section 21, township 12 north, of range No. 2 west, and extending south three miles, thence north one mile, thence west three miles, thence south one mile to the head of the same, comprising sections 21, 22 and 23, of the said township, and containing nineteen hundred and twenty (1,920) acres. Said land having thereon about six hundred thousand feet of white and red pine in about equal quantities, the land being non-mineral rough and steep and not fit for agricultural purposes, and is located in the county of Meagher in the state of Montana.

CHAS. COCHRAN.

Dated Aug. 4, 1891. First publication Aug. 14.

\$2.50
