BRUSSELS, Oct. 15.—Not a single journal, except the government organs, supports the military bill. It is the general belief that a crisis is impending in the Prussian cabinet on account of the bill.

It is reported that the meeting between Emperor William and the duke of Cumberland, for the purpose of discussing the question of the Brunswick succession, fell through, owing to the ex-queen of Hanover refusing the duke not to attend.

THE REGISTRATION OVER.

In the Two Helena Districts It Is 4,242 for the Year 1892.

Lewis and Clarke County Will Show a Total of About 5,700.

In Common With Other Sections of the State, This Is a Big Increase Over 1890.

Yesterday was the last day of registration, and the total in the two Helena districts, 4,242, is a sufficient refutation of the charge made by the papers of Great Falls and Butte especially that Helena is falling off in population.

In 1890 the total registration in these two districts was 3,804, showing an increase of 438, or 12 per cent this year over two years ago. By districts the increase was: First 110, second 328. The registration for the other districts of the county have not been received as yet. The registration of the whole county two years ago was 5,085.

At the same rate of increase in 1892 outside the city districts as there was in Helena this year, the entire county of Lewis and Clarke should have nearly 5,700 qualified voters who can go to the polls on the 8th of November. The outside districts of the county, however, are expected to show even a larger percentage of increase, and it would not be at all surprising if Lewis and Clarke county's registration should go nearer 5,900.

Of the 6,085 votes registered in Lewis and Clarke county in 1890 there were cast 3,882 votes, showing that about 25 per cent of the vote was not cast. This is accounted for by the fact that many men who were engaged on sewer and railroad work during the registration, got through with their work and went elsewhere before election day.

This year, however, no such conditions are expected to arise. The men who are at work in Helena and in the county outside the city are engaged on works of more permanent and lasting character. There is no occasion for them to leave now or at any time before election day, or, in fact, for many weeks after the election. As long as the weather holds good there is no doubt but that all who are in the county and city now will have no occasion to change their places of residence in search of employment.

There are other considerations that bespeak a fuller vote this year than there was in 1890. In the latter year there was but one office, congressman, to be voted on outside those counties which had to elect state senators. This year many voters, in fact a large proportion of them, will have a first opportunity of their lives to cast a ballot in a presidential election.

This, if nothing else, will bring them to the polls, if they have to go on snow shoes. There is the capital question, in which the voters of Lewis and Clarke county, outside of Helena, have as vital an interest as the people of the city have.

From various parts of the state come reports of increased registration over 1890. The conditions at other places are pretty much the same as here. The people want to avail themselves of the opportunity to take part in the selection of a president.

It is safe to predict that the vote of the state this year will come within five per cent of the registration.

Helena for the capital.

Increase in Park County.

LEWISTOWN, Oct. 15.—[Special.]—There were 1,005 voters registered in this city up to the close of registration to-night. This is an increase of about 220 over the number registered two years ago. Reports from the various registration offices in the county indicate that the number registered will exceed that of any previous year by about 350. The registration for Park county will reach 2,200. The work of registering has been pushed with vigor by all parties, and it is possible that nearly every voter in the county was registered by 10 o'clock to-night.

The democrats feel confident that they will succeed in electing the majority of the county ticket and that the usual republican majority for the state and national tickets will be very materially reduced. Democrats through the county are united and are doing very effective work. The republicans already concede that the contest will be close.

At Butte.

BUTTE, Oct. 15.—[Special.]—The registration of the city of Butte, complete at the close to-night, is 5,289. The registration for Silver Bow county is 9,801, which will vary but a trifle from the official figures. The increase in the county is more than 2,000 over two years ago, and of this increase 1,300 is in the city.

Deer Lodge County.

ANACONDA, Oct. 15.—[Special.]—The registration for Deer Lodge county so far as heard from is: District No. 1, which includes Anaconda, 2,121; Granite and Phillipsburg, about 1,300; Deer Lodge, about 600; Carroll about 500. The total for the county will exceed 7,000.

Yellowstone County.

BILLINGS, Oct. 15.—[Special.]—At the close of registration to-night 545 votes were registered in Billings. The total approximate registration in Yellowstone county is over 1,000.

Missoula County.

MISSOULA, Oct. 15.—[Special.]—Registration in Missoula foots up 1,833. In the county it is thought it will be 6,500. Kalspell reports 850.

Wants to Press the Button.

NEW YORK, Oct. 15.—The Lyceum League of America, a patriotic organization, is endeavoring to arrange to have one of its members beside the orator at the World's fair dedication who will touch the button when the word "dedicated" is spoken. This pressure will complete the electric circuit which will raise to the top of the flag-staff on Newesick Highlands the first stars and stripes which the ladies of Philadelphia gave Paul Jones when he sailed away against the British.

Of Duplex Character.

NEW YORK, Oct. 15.—Domingo L. Ruise, consul general of Ecuador, was arrested on the charge of forgery. He admits having signed the name of Gustav Preston, vice consul, to two notes of \$1,000 each. Ruise, who is aged 71, says he gave the money to a woman who, the police say, is his mistress, Mrs. Bartha Laws by name. Preston is a Boston merchant. Ruise has a wife living in the city and has been apparently leading a double life for some time.

MARRIAGE AND DIVORCE.

Discussed by the Congregational Ministers in Council Assembled.

MINNEAPOLIS, Oct. 15.—The Congregational council this morning fixed the assessment for the next three years at one and one-half cents per capita per annum for the membership of the churches. The report of the committee on the American Home Missionary society showed a gratifying increase in contributions. Resolutions were passed endorsing the plan of the home missionary society not to plant churches in places cared for by other evangelical denominations. A resolution of sympathy with President Harrison in his affliction by the illness of Mrs. Harrison was adopted by a standing vote.

The committee on marriage and divorce presented a report protesting against the disgusting spread of divorce among the wider knowledge among those to be married of what marriage means; holding that the church has fostered too many organizations to the exclusion of the home; authorizing the committee to co-operate with committees from other similar bodies on the subject of reform in these matters.

The following resolution, recommended by the committee on marriage and divorce, was adopted: That a committee of five be appointed to consider the dangers, needs, functions and opportunities of the family in modern life, and what can be done to guard, develop and strengthen it and especially noting the results of various agencies to accomplish the end.

The report of the committee on World's fair was adopted. It leaves to the committee the matter of making an exhibit and applauds the action of closing the fair on Sunday.

AN UNKNOWN SUICIDE.

Took a Large Dose of Laudanum at Butte.

BUTTE, Oct. 15.—[Special.]—A well dressed young man, about 25 years old, with a light mustache, called at the Carleton home late last night and engaged a room without registering. He was found this afternoon in a dying condition and expired at four o'clock. He had taken about an ounce and a half of laudanum out of a four-ounce bottle. There is nothing to show who he is, where he came from, or what he did it for.

Fine Meeting at Missoula.

MISSOULA, Oct. 15.—[Special.]—A large democratic mass meeting was held in the Bennett opera house this evening. The post band was engaged to furnish music for the occasion and bon fires had been built on the streets. A large crowd collected early in the evening, but there was something wrong with the electric light works and the hall was in darkness for some time, but finally lights were obtained. The crowd was the largest that has congregated this season. The hall was crowded to its full standing capacity. Judge De Wolfe was introduced and spoke for forty-five minutes on the tariff question, which he said was irrepressible. Until settled definitely by the people of the United States it would, like Banquo's ghost, rise to confront the American statesman. He was frequently applauded.

Judge McConnell spoke for an hour and a half on the history of the democratic party, the tariff and the silver issue. He held his audience well and was frequently applauded.

Rickards at Kalspell.

KALSPELL, Oct. 15.—[Special.]—Lieut. Gov. Rickards and Col. A. C. Botkin addressed quite a large audience at Conrad last to-night. The candidates for state treasurer, Mr. Wright, is traveling with the party.

Special Election in Roseman.

ROSEMAN, Oct. 15.—[Special.]—A special election took place here to-day to fill the office of police magistrate, made vacant by the death of William L. Perkins. C. W. Cook, republican, carried the four wards, defeating D. A. Rouse, democrat, by a majority of forty-six.

Great Falls 2,187.

An Officer Arrested.

BILLINGS, Oct. 15.—[Special.]—Policeman McCurdy was arrested to-day charged by Charles Fisher with false arrest. Bail in \$1,000 was promptly given.

Caused by Craps.

ROYVILLE, Mo., Oct. 15.—A terrible battle was fought with knives and pistols on a Missouri, Kansas & Texas passenger train, which reached here from the south this afternoon. A party of negroes was returning from the Indian Territory where they had been ransacking, and four of the party engaged in a game of craps. Within a few miles of town they quarrelled and fought desperately. Frank Harris was shot through the abdomen, Hany Wheatley stabbed near the heart, and both will die. Another battle occurred when the officers boarded the train here to arrest John Kearny who shot Harris. Kearny fled from the train, firing five shots at the officers as he ran. He was finally overcome and lodged in jail.

Briggs Case Makes Trouble.

NEW YORK, Oct. 15.—The differences between Prof. Briggs and those who are opposed to his theological views and teachings have caused fresh trouble at Union Theological seminary. Briggs' transfer from one chair to another without the sanction of the general assembly, and in violation of the compact of 1870, is causing the trouble. The board of directors, at a meeting Thursday, voted that the relations which existed between it and the general assembly of the Presbyterian church for the last twenty-two years should be dissolved. The vote stood nineteen for to one against. The synod will meet next week, when developments are expected.

A Skyrocket Exploded.

ST. LOUIS, Oct. 15.—A skyrocket exploded as a democratic rally was breaking up here this evening. The injured was Michael Rathford, candidate for the legislature, struck in the right eye, fatally hurt; Fritz Marquardt, hurt in the right temple, skull fractured, will die; Henry Koenig, injured in the head and neck; Theodore Englemann, injured in the breast and internally. Ten others were more or less severely hurt.

STOOD IT MANY YEARS.

But at Last He Left It to Preserve His Own Political Consistency.

Hon. Wayne McVeagh, Ex-Republican Cabinet Officer, on the Democratic Stump.

A Speech by Blaine Remarkable for the Absence of Any Commitment for President Harrison.

PHILADELPHIA, Oct. 15.—One of the largest political meetings of the campaign was held to-night under the auspices of the Young Men's Democratic association of this city, which invited Wayne McVeagh, former U. S. attorney general under Garfield, to make an address.

Mr. McVeagh was introduced by President Thompson, of the association. McVeagh said that up to the present time he had not felt at liberty to vote for any but republican candidates. In 1876 he believed Tilden entitled to the electoral vote of Louisiana, but President Grant, Secretary Chandler, Secretary Cass, and Gen. Sheridan were in command of the troops in the state and Secretary Robeson, with gun boats in its waters, deeply interested in the election of United States Marshal Packard, seeking the governorship with a host of deputies at his command, and yet when the polls closed Tilden had 7,000 votes more than Hayes. The speaker objected to this. He has watched with pain the steady growth of the corrupt use of money in politics and he is convinced that unless the republican party is checked it would make the poor poorer and the rich richer, more corrupt, selfish and less patriotic.

"There is too much truth," he said, "in the remark that the election of 1888 was bought. There is no way of accounting for the action of the republican party for the last four years other than the bargain and sale legislation." He did not see how any man in his right senses thought it wise to inflict upon the poor the awful burdens of the McKinley bill or to debauch voters by offering them pensions, or to impoverish the taxpayer by buying masses of silver, for which there is no use, or to insult a small, weak, sister republic like Chile by sending such a diplomat as Patrick Egan, or to threaten her with war without waiting to translate her apology.

On the tariff question, McVeagh said less than 12 per cent of the labor force of Pennsylvania could secure employment in protective industries, while the other 88 per cent had to pay a bounty on almost everything they eat or wear owing to the corrupt trust and similar evils. The American farmer each year found himself poorer, until in Ohio and Pennsylvania land is worth less than half what it was twenty years ago. Laboring men are obliged to pay artificial prices for sugar on account of sugar trusts, kept alive by the McKinley bill and what is true of the McKinley bill and the great group of gigantic monopolies is also true of the reckless pension legislation.

The speaker did not object to just pensions. He said it was known that in the present year silver was mined in vast quantities at a cost of 35 cents an ounce and sold to the government at over 70 cents, so it is probable that silver dollar is not worth over 50 cents. It was only a question of time, he declared, when it would be reduced to a silver currency. In closing the speaker said he would rather place money in the hands of a burglar to bribe a watchman to rob a bank than to contribute money to be placed in the hands of Quay, Martin or Hockett to be used in politics.

MORE ICE.

Blaine Puts a Chunk in the Wagon—Chilly for Harrison.

WHITE PLAINS, N. Y., Oct. 15.—James G. Blaine has spoken. A big crowd from the village of Westchester heard the man from Maine. The politicians had tried to obtain the same results, but failed. The ex-secretary, however, yielded to popular enthusiasm and spoke. The demonstration was spontaneous and arranged at short notice. Delegations were present from all surrounding towns. A singing at Ophir farm the band which accompanied the crowd played several selections and Mr. Reid appeared upon the rostrum. He was followed by the distinguished party which gathered to meet the ex-secretary. After a few words of introduction, Mr. Blaine stepped forward he was greeted with round after round of cheers. When sufficient silence was secured Mr. Blaine spoke in part as follows:

"Yellow Citizens of New York: I should be cheerful indeed if I did not make response to your call. At this time I am making no speeches in the canvass for reasons which are well known to friends and have no connection with the political arena. The administration in presidential elections is challenged on account of the condition of the business of the country and I submit that the republican administration of President Harrison can triumphantly endure such a test. I sincerely doubt if since the government of the United States was instituted, anybody at any time has seen what we call good times so general, taking in so many interests, and spreading such prosperity throughout the whole domain of trade. The opponents of the republicans always represent New York as a commercial city, not a manufacturing center, but more men in New York get a living from pursuits prosecuted in agriculture than in any other source. All men engaged in commercial affairs in and about New York are smaller in numbers than those engaged in manufactures. Now, if you go west, where the democrats this year are making considerable effort and doing a vast amount of boasting, will you find it different? Take Ohio, Michigan, Indiana, take Illinois, and the products of the manufacturers are greater in pecuniary amount than the products of agriculture in agriculture. I do not think that when democratic orators try to arouse hostility in these states against the protective tariff they will encounter a sentiment which they have not dreamed.

"We learn from the democratic party that these western states are in desperate condition, that the amount of their farm mortgages has risen into millions. This is not so among the farmers of New York nor among the farmers of any state near by, whose condition can be easily ascertained by singular fatality. It is the western states that have got all these farm mortgages burdening them and taking the life out of the people.

"Democratic papers say the tariff is the origin of plutocratic government. I shall venture to challenge all such statements and shall make the democrats make pledges in the case. Careful examination of the list of wealthy men in the country has demonstrated an agriculture which is more diverse, such an extent that in New York city, of 150 fortunes not more than one would be considered as derived from manufacturing investments.

"I have stated that the democrats boast of having the mass of the Irish in their
