

A FRIEND
Speaks through the Houthbay (Me.) Register, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."

AYER'S PILLS
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Every Dose Effective

DR. GUNN'S ONION SYRUP
FOR COUGHS, COLDS AND CROUP.
GRANDMOTHER'S ADVICE.
To raise a family of nine children, my only remedy for Coughs, Colds and Croup was onion syrup. It is just as effective to-day as it was forty years ago. Now my grandchild takes Dr. Gunn's Onion Syrup which is already prepared and more pleasant to the taste and easier to take. There is nothing so good. Take no substitute for it. There's nothing so good.

ROUSES A TORPID LIVER
DR. HENRY'S CATHARTIC TONIC
CURES MALARIA, MAKES AN APPETITE.

RIPAN'S TABLETS
REGULATE THE STOMACH, LIVER AND BOWELS AND PURIFY THE BLOOD.

THE CODES.
Political, Civil, Civil Procedure.
FOR SALE AT THIS OFFICE.
\$2.50 Per Volume.

To Stamp Collectors.
Cancelled Postage Stamps For Sale or Exchange.
I have a very large stock of cancelled stamps of India, China, England, Hong Kong, Japan, Philippine Islands, Ceylon, Straits Settlements, Turkey and Siam, as well as duplicates of those of various parts of Europe. Address, R. W. LORA, No. 63 West 132d St., New York, S. S. A.

THE MOVING WORLD.
A wave power motor has been invented by Joseph Serb of San Francisco.
A meteorological station has been established at Siberia, Palestine, 682 feet below the level of the Mediterranean sea.
The triplograph is the name of a combined typewriter, cash register and calculator, invented by a young man at Ellensburg, Wash.
A new patent window cleaning chair, which projects from the window sill and upon which the maid can sit while she shines the glass, has found favor.
A draft indicator has been invented which is intended to be placed at either or both ends of a vessel for the purpose of showing at a glance to the officer of the deck how much water his vessel is drawing.

SIMPLE SALVE.
One pint of buttermilk in which a well beaten egg is stirred will break up any fever in half an hour if not of too long standing.
A poultice made of Indian meal, covered with Young Hyson tea, moistened with hot water and laid on a burn will relieve the pain in five minutes.
There is nothing like hot water and the rubber bandage for a sprain. The hot water soothes lacerated ligaments; the bandage prevents swelling. Liniments are worse than useless.
For a bad cough hold a tablespoonful of flaxseed 10 or 15 minutes in a pint of water. Strain, add the juice of a lemon, sweeten to taste and drink a few spoonfuls at a time every few minutes.

ELECTRIC SPARKS.
It is intended to hold an exposition at Lyons next year. Electricity will play a prominent part in the exhibits.
Sir Henry Trueman Wood, secretary of the British commission to the World's fair, says that American electricians outrank the British.
Lightning is zigzag because as it condenses the air in the immediate advance of its path it flies from side to side in order to pass where there is the least resistance to its progress.
Professor Bell of the Thomson-Houston Electric company in an address the other day said that electricity can be made to carry its energy 25 miles and then be used as a motive power more cheaply than coal.

Like Greek Meeting Greek.
The other day a son of the Green Isle, whose heavy brows still bore the traces of the hogs and whose tongue was thick with the brogue of County Cork, stepped into a police station and asked for the captain.
"Whar d'yez want here?" inquired the haughty sergeant at the desk.
"Oi want a job," says the verdant visitor.
"Whar is it, boy? An is thot th' way yer got yer job on the foorce?"
His haughtiness nearly fell off his stool. He faintly came around the rail and looked the singular visitor over.
"Whar sent yer to the station fur a job?"
"Every Orish lad Oi met," retorted the man. "Whinever Oi axed fur wurreck they told me to go on th' p'lice."
"Whar long sines yer come over?"
"Whar long sines yer come over?" said the man.
"An whar kind of a job is it you'd be after havin here?"
"Shure, an yer don't s'poge Oi kem here to food chickens? Oi want a job on th' foorce."
"Whar mother," exclaimed the sergeant, running his hands through his hair, "not here two wakes an are wantin to be a policeman?"
"Oi am that, mon!" was the confident reply.
"Thare, go long wid yer. They wuz a kiddin yer, lad!" The officer spoke sympathetically. "Wait till y' km spake th' langwidge of the country an know Broadway from Baxter street."
"Whar, an it's langwidge, is it, yer givin me? Shure an yer ain't bin over mo'n siven wakes yerself! Yer brogue's as thick as a bog! I'll see the capt'n."
And he waited half an hour and required the entire reserve to put him out.—New York Herald.

Ask Your Friends
Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. One has been cured of indigestion and dyspepsia, another finds it indispensable for sick headaches, others report remarkable cures for scrofula, salt-rheum and other blood diseases. Still others will tell you that it overcomes "that tired feeling," and so on. Truly, the best advertising which Hood's Sarsaparilla receives is the hearty endorsement of the army of friends it has won by its positive medicinal merit.

A New Fad.
Instead of tea and toast, they say, folks now take snuff down east. Upon the theory, no doubt, that snuff's as good as a feast. —Harper's Bazar.

A Good Definition.
Teacher—Define "gentleman."
Boy—A gentleman is a grown up boy wot used to mind his mother.—Good News.

Pleasant Prospects.
Mrs. Potts—I know that one of the young men who visit you so regularly is your brother, but who is the other one?
Marie Ann—Yes'm, one of 'em is my brother, and—and—I guess the other one is going to be his brother-in-law after a little while.—Indianapolis Journal.

ANNALS OF THE LAW.
1694—Only sergeants were permitted to plead in the courts of common pleas. Sir Francis Bacon was the first sergeant.
1694—Forgery, whether of deeds or notes, made punishable by death.
1697—Trials for witchcraft and heresy in Massachusetts; Anne Hutchinson and others imprisoned.
1696—Quakers and other dissenters in Massachusetts tried and condemned.
1693—Sir Francis North, afterward lord keeper, was appointed the first modern king's counsel.
1697—The first regular lord high chancellor, Hereford, appointed in England by William the Conqueror.
1695—Lord justices were appointed by William III to govern the kingdom during his absence on the continent.
1696—Council first allowed to persons charged with treason.
1697—The principle laid down that juries should not be fed after hearing the evidence until they had reached an agreement. Cases occurred of jurors being fined for having fruit in their pockets when they retired to consider their verdict, although they did not eat the fruit.
1722—The black act passed by parliament to punish persons who blacked their faces to prevent recognition when engaged in the commission of crime.
1725—Trials in New York for libelling the government. Accused persons found not guilty.
1734—William Vaughn, the first forger of Bank of England notes, executed. He made a number of the notes to induce his sweetheart to believe him a man of wealth.
1734—A general principle laid down by Lord Mansfield, "No fiction of law shall ever so far prevail against the real truth of the fact as to prevent the execution of justice."—St. Louis Globe-Democrat.

Nature Demands a Tonic.
We ought never to forget, even those of us who possess vigorous health, that we are wearing out—that the vital clock-work, so to speak—must eventually run down. This of course we cannot prevent, because it is in the ordinary course of nature, but we may retard the too speedy arrival of decay by the use of an invigorant which takes rank of every other, namely, Hostetter's Stomach Bitters. This century has not witnessed a parallel in success to this famous medicine, which not only sustains health by promoting vigor, but overcomes constipation, dyspepsia, chills and fever, nervousness, rheumatism and other disordered conditions of the system fostered by weakness and an impoverished condition of the blood. The feeble, persons convalescing after exhausting disease, and the aged derive infinite benefit from the use of this helpful and efficient tonic.

Bald Heads!
What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or is it a humid condition? If these are some of your symptoms be warned in time or you will become bald.

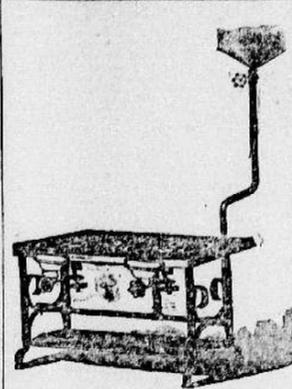

SKOOKUM ROOT HAIR GROWER
It is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the causes of the hair and scalp is the key to the discovery of how to treat them. "Skookum" contains neither mercury nor arsenic. It is a dry, but a delicately cooling and refreshing tonic. It stops falling hair, cures dandruff and grows hair on bald heads.
Use Skookum on the scalp clean, healthy, and free from irritating eruptions. Wash the scalp with Skookum Root Soap. It destroys parasitic insects, which feed on and destroy the hair.
If your druggist cannot send you send direct to us, and we will forward prepaid on receipt of the money.
Skookum Root Hair Grower, 50¢ per bottle; 1 for \$1.00, 5 for \$5.00, 10 for \$10.00.
