A Sure Cure. The merchant was rather blue, and his wife, noticing it, asked what the matter was.

"Matter enough," he sighed. "I've been looking over my books and I find I've lost in every month for the last year."

Nothing Made in Yain. Housekeeper—It's perfectly abominable! Why don't you go to work and earn your living?

He Found No Hard Times. Bustler—Hello, Hustler! How you knock in 'em? Hustler—Making money hand over fist. Can't half fill orders.

A Feminine Sorrow. Dame Nature is sad on a winter's day. As she thinks of her summer time garb so gay, And her signs come trembling upon the air Because she has "nothing at all to wear."

No Danger. Helen—Oh, dear! What will I do with this awful blot on my letter to Harry? Florence—Never mind, dear; he won't see it.

The Brute. "Why don't you take me with you sometimes of evenings, dear? I get so tired of staying at home alone."

SEEKING A WARM ROOST.

Manner of Flight and the Speed Made by Migratory Birds. Nearly all the native American summer birds make migratory journeys southward at the approach of winter.

Singularly enough, the warblers make these journeys in the night. That noisy and now unwelcome and voracious pet, the English sparrow, is not migratory, so far as autumn journeys pertain to immigration.

A puzzle to the scientist is to solve the problem of where the energy can come from to sustain the expenditure of force involved in many occasions of bird flight.

One versed in ornithology should know the kind of bird in flight, and walk, as well as if in hand. Each family of birds has a wing stroke peculiar to its class.

Women as Femmes. About the beginning of the eighteenth century ladies wrote a large, round, open hand, not much unlike the Italian.

One Lady Says. I have been troubled for years with a hacking cough. Have had many doctors and tried fifty cough cures.

Brief and Close Study. In his tribute to the memory of Francis Parkman President Eliot recalled the fact that neither Darwin nor Parkman could study over half an hour at a time.

Cause For Gratitude. Photographer's Assistant—Mrs. Van Perkin complains that her portraits don't look like her.

I Owe It. To suffering humanity to tell the great benefit my wife has received from Park's Sure Cure, the truly great liver and kidney cure.

A Popular Book. Persons who are reviving the question as to which is the most popular book mustn't forget the pocketbook, whose popularity still continues after hundreds of years of daily perusal.

All His That Fits. Are good for are treated more successfully by Park's Tea. It is not a cathartic, nor gripping or pain, yet moves the bowels every day.

Old London Bridge. New London bridge was opened in 1831. Old London bridge was a monstrosity. It dated back to the year 1176 A. D. and at least three wooden bridges are known to have occupied the same site prior to that date.

Automatic Cotton Winder. An automatic winder of cotton thread has been contrived, a mechanism which takes thread from eight large spools loosely wound and transfers it to eight small spools containing 200 yards exactly.
