

HOW THE MAORIS LIVE.

Their food, dress, occupations and home and church religious ceremonies. The Maori lives mainly on the food that nature has provided, but adds to it provision of various kinds imported from other lands.

Cotton is picked, or the magnificent oranges are gathered when a paying market can be found. They take the trouble to make lime juice on the safe condition, but their chief export is coffee, for which a market is always sure.

When the seasons come, copra making, cotton picking, and coffee or orange gathering are turned into a picnic performance rather than made work in our sense of the term. The people sail forth from the village in merry parties, and in this spirit the whole work of the country is done.

A good remedy and there is not anything on the market that equals French Tassy Tablets for the relief and cure of painful or irregular menses. These tablets remove all obstructions, no matter what the cause.

Hebting piles are known by moisture like to sprouting, causing intense itching when warm. This form as well as blind, bleeding or protruding, yield at once to Dr. Rossenbo's Pile Remedy, which acts directly on parts affected, also by tonics, astringents and effects a permanent cure.

Hairs on the chin will disappear if rubbed with a pumice stone which has been dipped in dairy cream or butter. It will take time, but the result is certain success. On no account use vaseline, as this tends to growth of hair.

Parke's Sore Cure is a positive specific for women who are all "run down" and at certain times are troubled by backache, headache, etc. Sold by Parchen-D'Achuel Drug Co.

THE SWELL COTERIE.

New twilled cloth for spring costumes resembles the weave of French vicuna. Velvet capes, coats, costumes and combinations will be worn for months to come, and in some guises through the entire summer.

Double twilled silks of various kinds are revised. The satin finished surfaces of many are of the smallest twills, while plain sarahs are woven in rather wide diagonals. Black and ecri lace insertions of every width are displayed very prominently just now.

Panniers, slashed skirts showing a bit of the contrasting underskirt, overdresses both long and short and draperies variously adjusted are features of the season's gowns.

Exhibitions have already been made of handsome invoices of india silks for spring and summer wear, the majority for the former uses being in dressy evening colorings and effects.

The summer season will show a general revival of the corded cottons of the old fashioned type, but of greatly improved quality—pique linen duck in ivory, cream white and pale yellow or tan color; also dimity, marcellines, cotton bedford cord, etc.—New York Post.

The world's production of gold for 1893 amounts to about \$18,000,000, divided as follows: United States, \$5,000,000; Australia, \$3,000,000; South Africa, \$3,000,000; Russia, \$2,500,000; India, \$1,000,000; China, \$3,000,000; other countries, \$16,000,000. This is an increase of more than \$17,000,000 over the figures of the director of the mint.

Mrs. N. Moyetta, the Genesee county treasurer of the W. C. T. U. and a very influential worker in the cause of women, says: "I have used Parke's Tea and find it is the best remedy I have ever tried for constipation. It requires smaller doses and is more theough. I shall use nothing else in future." Sold by Parchen-D'Achuel Drug Co.

Among Nevada curiosities are the "traveling stones," as large as a walnut and round. When laid on the table two or three feet apart, they begin traveling toward each other, meet at a common center and there lie huddled in a bunch, like eggs in a nest. They are said to be largely composed of magnetic ore.

W. L. Chereh, of Stanton post, G. A. R., says: "I have tried nearly every cough remedy but have found nothing to compare with Parke's Cough Syrup. There is nothing on earth like it for bronchitis. I have suffered ever since my discharge from the army and Parke's Cough Syrup is the only remedy that has ever helped me." Sold by Parchen-D'Achuel Drug Co.

Go to California via "Albert Lea" Route. Only line with through cars.

Saved Her Life.

Mrs. C. J. Woolridge, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral. "One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited for relief. From the moment the Pectoral was given, the child's breathing grew easier, and in a short time, she was sleeping quietly and breathing naturally. The child is alive and well today, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."

AYER'S Cherry Pectoral Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Prompt to act, sure to cure.

PROPOSALS FOR WORK HOUSES AND BUILDING MATERIALS. U. S. INDIAN SERVICE. PLATEAU AGENCY, MONTANA. JACOBI, MISSOULA, MONT., March 1, 1894. Sealed proposals, addressed "to the Chief of Work House," or "Building Materials," as the case may be, and addressed to the undersigned at JACOBI, MISSOULA COUNTY, MONT., will be received at this agency until one o'clock p. m. of Monday, March 20, 1894, for furnishing and delivering at this agency a variety of building materials, consisting of doors, windows, hardware, etc. A full list and description of which may be obtained by application to the undersigned, and twenty (20) work houses, to conform with the following specifications, viz:

Houses to be either goldings or mares, young (not over six years), sound in every way, thoroughly broken to harness, and true, and to weigh 1,000 pounds each or over. All animals offered for delivery under a contract will be subject to a full inspection. Bids for building work must show the proposed price of each item offered for delivery under a contract.

Each bid must be accompanied by a certified check or draft upon some United States depository or solvent bank, in the full amount of the residence of the bidder, to be held by the order of the commissioner of the U. S. Indian Service, at least five per cent of the value of the proposal, which check or draft will be returned to the United States in case any bidder or bidders receiving an award shall fail to promptly execute a contract with good and sufficient sureties, otherwise to be returned to the bidder. Bids accompanied by cash in lieu of a certified check will not be considered. For any further information apply to JOHN V. FURRY, U. S. Indian Agent.

PROPOSALS FOR CONSTRUCTION OF Office of Chief Quartermaster, Department of Dakota, at Fort, Minn., March 14, 1894. Sealed PROPOSALS, in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock a. m., April 14, 1894, and opened then, for the construction of a set of hospital steward quarters at Fort Yellowstone, Wyo. Plans and specifications may be seen and blank forms of proposals with full instructions to bidders, and upon application to this office, or to the post quartermaster, Fort Yellowstone, Wyo., and the disbursing quartermaster at Helena, Mont. The government reserves the right to reject any or all bids. JOHN V. FURRY, Quartermaster, U. S. A., Chief Quartermaster.

EXTRAORDINARY EXHIBITION!

AT THE
