Mrs. Parish of Gotham's Four Hundred is one of the crowned queens of society. The tiara which she wears upon all grand occasions, such as the opera and balls, is worth a king's ransom.

Mrs. A. H. Hurling, wife of a well known clergyman, recently told the Woman's Christian Temperance union in Kingston, N. Y., that corsets are worse than rum and that they dwarf the soul.

Mrs. C. P. Huntington is a Louisiana creole and quite attractive. She spends a good deal of her time in being photographed. She likes to have the artist come to her and to be photographed in the midst of her own luxuriant surroundings.

Mrs. Caruth, wife of Congressman Caruth, has something to say when her husband is engaged in a professional way. When she heard he was to be one of Breckinridge's counsel, she wrote in haste: "I see the papers say that you are to be one of the defenders of Mr. Breckinridge at his trial when it comes off. You are not going to be one." And he wasn't.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75 cents.

A GOOD THING is always imitated. This is a well-known fact, and, therefore, it is not strange that the country has been flooded with condensed milk, said to be just as good as the Gail Borden Eagle Brand. Experience has proven that it has no equal. It stands to reason that the superior facilities of the New York Condensed Milk Company, with persistent, conscientious, scientific study of the production of milk, give it a decided advantage. Consider this.
