NO CHANCE OF RIVALRY.

What Would Happen if the Haggin People Got the State Capital.

They Usually Have Their Own Way Where They Control the Situation.

Their "Clutch" in the Black Hills Was Such That No One Dares Oppress Them.

To the Independent:

The question to be decided by the good people of Montana on Nov. 6 is in reality this: Shall we allow the Haggin people to blind us hand and foot and dispose of us to the highest bidder, or crush our lives out, as will best subserve their imperial will? I hear people say: "What could the Haggin people do to injure the industries of Montana if they locate the capital at Anaconda?" and I say to them that should such a deplorable event occur, the Haggin people would hold the destinies of every industry in the state of Montana in the hollow of their hand. All rivalry would be crushed out in one of their three modes of procedure. Ask any resident of your Queen City who lived in Lead City or Deadwood from 1877 to 1880 how they acquired the "Golden Star" and other quartz mines. They will tell you that the Haggin people said to the owners of the Golden Star, "We will give you \$40,000 for your mine or expend \$40,000 in a law suit, and we don't care a d—n which proposition you accept." The owners were wise enough to accept the first proposition. Had it been \$10,000 it would have been accepted just the same, because once they got after you on your property, the game was up—you had to take what you could get. I hear some persons say, "Perhaps \$40,000 was all or more than the Golden Star was worth." To all of that opinion I would say, you never had any dealings with the Haggin people when they were so fortunate as to have the clench and that is their normal condition. Besides, the Golden Star mine adjoins the Homestake on the side, and it was on the same lead, for the Homestake and adjoining claims are on what is practically a mountain of ore. It was the first mine in the Black Hills to have erected a 120-stamp mill. It was in 1873 stealing the ground for the Golden Star millsite that the Haggin people, through their agents, murdered Frankenburg.

The Alameda claim, or that portion upon which was the discovery shaft, was wanted by the Haggin crowd as a part of the Highland millsite. So they had two men locate across the Alameda ground and apply for a patent. The result was that the owners of the Alameda ground were compelled to sell out for \$2,000 that for which they had refused \$7,000 six months previous. You ask why we did not file an adverse claim in the land office? That would have necessitated a law suit, and you might just as well go to law with his satanic majesty and hold the court in his den, as to go to law with the Haggin crowd in the Black Hills. They never lost but one suit all the while I resided in the Hills. That was when they tried to steal the Caledonia through what was known as the Chisholm Boulder, which was one corporation against another, or dog eat dog.

Some people speak of Haggin as being a very liberal gentleman, an assertion which cannot be successfully contradicted, for I myself have known the Haggin people to pay as high as \$7,000 apiece for jurors. If that does not indicate a liberal spirit, what does? I have also known the same firm to pay a witness \$1,500 to remain for only ten days out of sight of the officer with the subpoena.

And yet there are people living in the state of Montana who would rob the state of its commercial supremacy, its honor, paralyze her every industry and infamously stain her escutcheon by delivering her destinies over to those foreign potentates, Haggin, Tevis et al.

It is to the personal interest of every property holder within the state of Montana outside of Anaconda, and the duty of every voter who has the best interest of Montana at heart, to cast his ballot on Nov. 6, as to prevent the consummation of the stupendous crime now attempted by Haggin et al.—not of removing the capital from Helena, but that of debauching the state, making serfs of freemen and placing upon this commonwealth a blight from which it will be impossible to recover.

THE REPORT ABOUT TROOPS.

Secretary Keith Denies That any Arrangement Has Been Made

The report gained currency on Tuesday last that ADJ-Gen. C. F. Lloyd, of the National Guard, had informed Gov. Rickards that he anticipated trouble in Butte on election day, and advised that the militia be held in readiness for a call. In view of the early hour, 7:30 a. m., at which the Montana Central train left here for Butte, it was suggested that such a call would result in taking Helena companies away from home before the polls opened. Others thought they saw in it danger of the fact that the Helena militia had been ordered to Butte might be telegraphed to that city by Anaconda agents in the hope of influencing some voters there. Nobody taking either view of the matter, in any way connected the governor with it further than that if called upon by the legally constituted authorities it would be his duty, if he considered the emergency demanded it, to respond to the call for troops. ADJ-Gen. Lloyd and Maj. Brannigan, of the Montana National Guard, were in Helena on Wednesday night and left for Butte yesterday morning. Their presence here revived the story, which had begun to drop out of public notice. Gov. Rickards also left the city yesterday morning going to Miles City. He will not be back until Saturday. In his absence his private secretary denies the entire story in the following communication:

To the Independent.

In the absence of His Excellency, Gov. Rickards, a cock-and-bull story has been started from some source to the effect that he had entered into an arrangement to send the National Guard of Helena to Butte on election morning. I am authorized by the governor to say that not one word has been said to him by any one about sending the national guard to Butte, that no one has ever suggested such a move, and that no such action has for one moment been contemplated by him. Whoever started such a rumor is a silly and malicious liar who over-reached himself in an effort to impeach the intelligence of the executive of this state.

A. B. KEITH,
Private Secretary to the Governor,
Helena, Nov. 1, 1894.

HOLDING UP WELL.

The Registration Likely to Go as High as Predicted.

The registration in Lewis and Clarke county, so far as heard from, is as follows: First ward of Helena, 675; second ward, 439; third ward, 627; fourth ward, 481; fifth ward, 452; sixth ward, 479; seventh ward, 798; College, 110; valley, 88; Unionville, 73; East Helena, 322; French Bar and Spokane, 22; Wolf creek, 109; Rimini, 56; Butler, 58; Mouth of Nelson, 85; Kessler's, 147; a total of 5,020. Marysville, though not heard from officially, has registered over 600. The precincts from which no reports have been received polled 586 votes on the capital question two years ago. It is therefore safe to assume that the total registration of the county, as estimated by the Independent, will not be less than 6,200 and may go higher.

The additional counties heard from yesterday were Valley and Dawson, the former with 462 and the latter with 535, the two together polling but two votes short of the estimate published by the Independent yesterday. Custer county has registered 1,500, or 200 more than estimated.
So far there is no reason to reduce the figures published yesterday that the total registration of the state will go to 53,000 or 54,000.

In a transcontinental journey nothing can keep out of the cars the volcanic ash or alkali dust raised by the whirl of the passing train. But the Great Northern is entirely free from this annoyance; it runs through no sand deserts and its roadbed is rock ballasted.

OLD SPANISH CHIVALRY.

It Will Be Seen at Ming's Opera House on Monday Night.

One may almost anticipate the breath of old Spanish chivalry which will be wafted over the auditorium of Ming's opera house on Monday night. The air of courtly grace, the bombast of knightly speech, the pleading of passionate love, and the clank of ready swords, conveys a pleasing sentiment to an audience satiated with dramatic effort in which the spirit of genuine romance is wanting. Salvini in the ideal, rollicking soldier of fortune, the tender lover, the brave man facing death, the patriotic subject of a king, the defender of the weak, and the bright mirror of the offenses of the great, all just as L'Enery intended his hero Don Caesar to be. In his characterization of Don Caesar de Bazan, he displays no mean ability as a comedian, and ably illustrates the delicious humor with which this grand old romance is complete.
