

HER FIRST DIP.

The Good Ship St. Louis christened by Mrs. Cleveland.

Philadelphia, Nov. 12.—Shortly after 12 o'clock on Monday the steamship St. Louis, of the American line, was successfully launched at Cramp's ship yards. The affair was witnessed by fully 50,000 people. Mrs. Cleveland, wife of the president, broke the traditional bottle of champagne on the bow of the noble ship as it glided down the ways, at the same time uttering the words, "I christen thee St. Louis."

In this instance, and for the first time since the ceremony was observed at the shipyards, the champagne was of American make. All preparations for the launch had been carefully made, and although the ship is 120 feet longer than any that has ever been launched, the difficult feat of getting the vessel from the ways into the water was accomplished without a hitch.

After the launch, invited guests to the number of 400 were entertained at lunch in the office of the builders, Charles H. Cramp, in a speech of welcome to President Cleveland, said that with two exceptions the St. Louis was the largest and most powerful ship in the world. He referred to the progress of ship building under Cleveland's administration and credited to his policy the fact that such wonderful results had been accomplished in America. The St. Louis, he said, was built on American plans, by American workmen, and of American material. Twenty-six ships were recommended by Mr. Cleveland and authorized by congress.

Concluding, he said that while there may be honest differences on other questions, national approval of Cleveland's vigorous and patriotic naval policy would always be unanimous.

The toast to the president was drunk with cheers, and he made a felicitous response, alluding to the part he had taken in restoring American commerce and up-building the navy.

KILLED THEIR PAL.

Bank Robbers Save Themselves From Exposure by Murder.

Salina, Kan., Nov. 12.—Three masked robbers attempted to hold up the bank at Sylvan Grove, Kan., forty miles west of here to-day, and one of their number met death in an unusually tragic manner. He was shot by the cashier of the bank, and when in diving condition was perforated with bullets by his own companions, to save themselves from exposure. Three men, masked, rode into town, pulled their horses up in front of the bank, and while one robber remained seated holding the horses, two of his companions entered. The cashier was ordered to turn over the money. He reluctantly complied. It was but a few minutes from the time the bandits turned their horses into the business street before they were again mounted and away with all the ready cash the bank had.

The moment the robbers were out of the building, Cashier John Crane secured his gun, rushed to the door and opened fire. The bullet lodged in the back of one of the fleeing men. He fell heavily to the ground. His two companions pulled up their horses and riding up to the prostrate man, deliberately fired several shots into his body and dashed away. When picked up the desperate outlaw was dead.

The dead robber was found to have on his person \$1,500 of the booty. A letter was also found on him addressed to Stephen McKee, 302 Hickory street, St. Joseph, Mo. The gang is supposed to have been the same that robbed the Fort Scott bank in September. Their haunts are in the Blue hills of Osborne county.

Marvellous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia succeeding in grippe. Terrible paroxysms of coughing would last for hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Parthen-D'Acheul Drug Co. Regular size 50c and \$1.
