

SUMMER FASHIONS.

With laudable enterprise, *Ehrich's Fashion Quarterly* for the present summer presents its readers with a beautiful chromolithograph, illustrative of the fashions of the season. Unlike most fashion plates, which are merely creations of the artist's brain, the present is a faithful reproduction of actual, existent costumes, of which not only the full descriptions, but the prices as well, accompany the plate. For the benefit of our lady readers we append a brief summary of these costumes, extracted from an advance sheet furnished by the publishers.

No. 1 represents a walking costume in brown, of summer camel's hair cloth and polka dot satin. The front is of satin arranged in soft folds, with side draperies of camel's hair, edged with silk and tape fringe. The back of the skirt is of camel's hair, divided from the side draperies by broad bias bands of satin, and ornamented with satin bows. The basque is made in French coat style, with broad hip pieces of the polka dot material, and tastefully trimmed cuffs and collar. Price, \$47.00.

No. 2 is a second walking dress, appropriately named the "Sunrise," and made of gend'arme blue French bunting and silk brocade. By an ingenious arrangement of the two materials, the front is ornamented with the representation of a sun with rays; the side draperies being of bunting meeting at a point below the basque, and drawn to either side of the central design of the front. The basque is of bunting, cut long and round, and appropriately trimmed with the brocade. Price, \$35.00.

The third figure in the illustration represents a combination dress of silk in two contrasting shades of drab. The underskirt in front is made of alternate strips of the two materials laid in kilt platings, the back being of a single shade, plain and full. The overskirt is trimmed across the bottom with revers of contrasting silk, with a full bow of silk in two shades; the back being of a darker shade of silk, neatly draped. The basque is made *en panier*, trimmed to correspond with the lower part of the costume. Price, \$28.50.

The last figure is that of a dinner or reception dress of garnet colored satin duchess, elaborately trimmed with cashmere bead fringe and passementerie. The skirt is arranged in a double sear, on which the trimming is imposed to great advantage; while the back drapery is formed of a double box plaiting extending from the waist downward. The basque is cut with a coat back and elaborately trimmed. The sleeves are open on the upper side, and laced with cords of satin, with bands of passementerie on either side; the lower part of the sleeves, as well as the trimming of the neck, being finished with rubings plaiting of lace and satin. Price, \$145.00.

OUR NEW ROUTE EAST.

Quick Time, Low Rates, and a Pleasant Trip.

Hundreds of Montanians who have not been to the "States" for years are looking forward with pleasure to a trip sometime during the present spring. The cause of this general leave taking is due largely to our long season of prosperity, but vastly more to the fact that we now have, practically, a through rail route from Montana to cities of both the Atlantic and Pacific slopes. The Utah and Northern Railroad is at last so near that the former dreaded stage line has dwindled down to one that, in comparison, is a mere pastime. Passengers can leave Helena, Deer Lodge, Butte or Virginia City on Monday morning (or White Sulphur Springs a day earlier), take breakfast at Ogden about Wednesday, and dine at Chicago, St. Louis or San Francisco Saturday; or, about the 1st of July, they can shorten this time about one day.

The rails are now at Red Rock, and one may fairly consider that the point at which the East bound travel will this spring change from the Concord coach to the luxurious Horton reclining chair cars of the Utah and Northern. Red Rock is only 150 miles south of Helena, 150 miles south of Deer Lodge, 120 miles south of Butte, 108 miles from Virginia City and 80 miles from Salisbury. Taking the average of the distances as a basis, we find that the Railroad at Red Rock has a large advantage over the River at Benton. Stages and trains run daily, and connections are close and sure through to all points in the United States. The delays and uncertainties of navigation are thus unknown on our southern route. Considering the luxury, safety and speed assured, the rates to Omaha from our prominent cities (\$100 first class; \$75 second class, and \$45 emigrant) are really very reasonable. Through tickets are also on sale at the different offices of Gilmer, Salisbury & Co. to all important cities of the Union, at proportionally low rates. Emigrant and second class passengers have first class ac-

commodations on stages—a marked improvement on last year's custom of putting them through on mail wagons. Indeed, there is much pleasure in store for the average Montanian who is about to make his long anticipated trip East by rail, and to our readers in the East who contemplate a journey to Montana we can commend the above showing just as heartily. Save 1,000 miles distance, two to three weeks' time, and avoid the dangers and delays which always attend river navigation, by taking the Union Pacific and Utah Northern through rail route.

BISHOP TUTTLE'S APPOINTMENTS FOR 1880.

The following are the appointments of Bishop Tuttle in Montana for the present year: Sundays, May 30th and June 6th, at Butte.  
 Sunday, June 13th, at Deer Lodge.
