—A fire occurred at Carl Zehntner's Tuesday evening last, burning his stables, henhouse and other out buildings, and it was only with the greatest difficulty that his dwelling was saved. The fire is supposed to have caught from a spark from the stove pipe alighting in the hay stack. The loss though not so bad as it might be is much more than Mr. Zehntner is able to stand.

—C. Barr Smith's stallions, Smuggler and Drennon, are the finest saddle animals in Montana; in fact, is about the only breeder that we know of who is making a specialty of introducing horses with saddle qualities. These Mr. Smith has secured to perfection, as any equestrian will readily find out by mounting one of them. Saddle qualities at this day and age are very important, and those wishing to grow horses that will be good under saddle as well as drive well, should take a look at these horses.

—J. T. Moore had his fine stallions, Tam O'Shanter and Fathom, in town this week. Mr. Hayes, his trainer, was in charge, and had the horses looking well, and is getting them so they move well to a sulky. These horses are well bred as will be seen from their breeding in the advertisement of Glen-Moore Stock Farm. He also brought six head of Jersey cows. This is a valuable addition to the stock interest of our county.

—We take pleasure in calling the attention of our readers to the advertisement of T. C. Power & Bro. This is one of the first business houses of Fort Benton, and in fact one of the wealthiest and most enterprising in that town. The lines of goods carried by this firm are probably the largest and most complete to be found anywhere in Montana, and embrace nearly every article of use to the farmer, wool grower and stock raiser. The firm owns a line of steamboats and numerous freight trains. Besides doing a large transportation business for other firms it carries its own freight, bringing it from the East at a less cost than other firms are prepared to do. We ask our readers to bear this in mind, read the advertisement, and if they would establish a trade with a good firm to go to the reliable house of T. C. Power & Bro.

WHITE SULPHUR SPRINGS.

The dawn of a better day is beginning to break upon Montana's health resort. The work of improving the property was set on foot, Monday last, and within a couple of weeks a full crew of laborers will be at work under the direction of competent superintendents and things will be pushed as rapidly forward as is practicable. A bath house at the mud spring is to be the first improvement. This is to be arranged so that after the mud bath a shower bath may be administered. The plans for the improvement of the Springs square, which will be commenced in a few days, have not yet been made public in full, but we are assured it will be in keeping with the progressive age in which we live, and will enhance the value of real estate in town and vicinity fully three-fold during the summer. It is the intention to increase the hotel accommodations very materially by the time the heated term begins, in order to make the place a pleasant and comfortable home for those fleeing from the oppression of the meridian sun or sultry nights, mosquitoes and other pests, which are so harassing at that season to fully one half the world. The place is not only to be made an asylum for the afflicted far and near, but with the necessary accommodations which are to be supplied as rapidly as possible, will become the summer retreat for the nation.
