

Local News.

RELIGIOUS.

"I was glad when they said unto me, let us go into the house of the Lord."

Preaching at White Sulphur Springs the 1st and 3d Sundays of the month, 10:30 a. m. and 7:30 p. m. Sunday school every Sunday at 11:30 a. m. Prayer meeting Thursday evenings at 7:30 p. m. M. J. HALL, Resident Pastor.

Preaching on 3d, 4th and 5th Sundays at 10:30 a. m. and 7:30 p. m. Mr. Catlin.

—J. E. Sprague is on a visit to Ubet.

—Mrs. Halbert is succeeding nicely with music class.

—Dr. G. E. Kumpe purchased a lot in the new cemetery this week.

—Mrs. Henry Foster is in town and will remain until after Christmas.

—Advertisements in the HUSBANDMAN never fails to bring inquiries.

—Mr. & Mrs. R. S. Price made a visit to the Capital during the past week.

—E. E. Chase, who has been sick with erysipelas for the past week, is better.

—A number of very fine monuments have recently been erected in the new cemetery.

—Andy Holland starts next week for the World's Fair, that is, if the weather continues good.

—The boys at Neihart are having a splendid season for pushing development on their mines.

—Mrs. C. C. Ray returned to Townsend this week having had a very pleasant visit at the Springs.

—The young ladies who receive musical instruction of Miss Alma Barclay are making fine progress.

—F. E. Adkinson, assistant cashier of the Montana National bank, is at the Health Resort on business.

—Miss Vie Wilkins, one of the belles of Townsend, made the Springs a visit during the past week.

—The skating rink, since its completion, is the most comfortable building of the kind in the Territory.

—The grand Christmas carnival on skates at the skating rink, Christmas Eve, is looked forward to as the event of the season.

—T. H. Carter, one of the promising young attorneys of Helena, made the Springs a visit this week.

Every one should read James Brewer's new advertisement, and those visiting the Springs should not fail to give him a call.

—Charlie Severance, of Oka, one of the leading wool growers of Meagher county, was at the health resort this week.

—The roads are still dry and dusty, and the several coach lines that center at the Springs are making good time.

—Mrs. Geo. Taylor left last week for a visit to friends in New York and Boston, and will be absent a couple of months.

—The site selected for the M. E. Church is a plot of ground 70x100 feet, lying immediately south of the old school house.

—Butord Farris contemplates shipping several car loads of young Short-horns from his Kentucky breeding farm next spring.

—A. R. Barrows, having passed a week pleasantly at the Health Resort, left on Tuesday's coach for his home at Judith Gap.

—J. W. Dunham spent last week at the Capital and returned home Friday. He contemplates a visit to the Cotton Exposition this winter.

—Wm. Gabriel, who has been representing the *Stock Growers' Journal* through the eastern part of the Territory for some time, is stopping at the Springs.

—Wm. Boggy and Jean Brug attended the party at Al. Van Camp's, Tuesday last, and are wild in their praise of the warm-heartedness of the people of the Musselshell.

—The Sunday school concert a week since was a decided success, and the projectors are so encouraged that they have decided to have another at an early date. The collections amounted to \$17.

—Al. Van Camp had a house-warming in his new residence near Martinsdale, Tuesday evening last, and the indications are that he will have some one to warm it permanently before the winter's frost fades into summer's green.

—Thos. Cooper and Con Murphy have taken a winter's contract to mine certain ground in the old Lowry claim back of Diamond, on the shares from James King. Mr. Cooper thinks it will yield \$24.00 to the set of timbers.

—Now is the time for the people of the town and vicinity to learn their boys and girls telegraphy. A wire can be put up and an outfit procured at a very slight expense. This is an excellent school for the young, and no very small source of amusement.

—Rev. M. J. Hall is endeavoring to raise subscriptions sufficient to warrant the building of a church. We learn he has thus far succeeded well and is greatly encouraged. He expects to commence the building early in the spring and will push it to completion.

—The work of removing the bodies from the old grave yard to the new cemetery continues. Robert Coburn removed the remains of Mrs. Coburn this week, and Mr. Gibson and Mr. Burt have purchased lots and will have the remains of their children moved soon.

—George Grayson, of the firm of Grayson & Elwell, owners of the pioneer Angora goat farm in Montana, made the HUSBANDMAN office a pleasant call last Sunday. He reports the goats in fine health and condition. He is much pleased with the bucks he recently imported from California,

—The carnival at the roller skating rink, Christmas eve, will be looked forward to by our people, young and old, with bright anticipations.

—Having been in training regularly one or two evenings out of every week, the Glee Club announces an entertainment for Dec. 19th. As the Club contains some most excellent vocalists, organists and pianists the concert will be well worth attending.

—Miss Mary Catlin spent several days at the Springs last week. She was the guest of Miss Amella Lapey and Mrs. Heitman during her stay.

—Miss Mary Blessing, writing from Cleveland, Ohio, to a friend here, says their entire party are having a jolly good time attending parties, eating Thanksgiving turkeys, and "sieh."

—We learn that arrangements are about to be perfected for the establishment of a large farm for breeding Kentucky horses and Short-horns. A leading farmer in this county is expected to become a partner in the business.

—The people of Meagher county never had a better opportunity of securing good Short-horns at reasonable figures than is afforded them by Butord Farris, whose herd gradually grows smaller as sales are made.

—Our friend, James Kneene, whose station is on the divide between here and Townsend, is having more winter than any of his neighbors. The snow lies all about him, while a short distance below the valley is brown and beautiful.

—A. Lincoln has secured a large body of fine land immediately above the mouth of Warm Spring creek, and is preparing to have the same fenced. Some of the finest meadow in the lower Judith country is upon this land.

—Our "devil" is sporting a new hat won from the firm of Messrs. Humbert & Kennet, Helena, the senior of the members being sanguine that "Jimmy" would be the next President. The hat is a good one and represents the firm as they are—the outfit-fitters of the Capital city.

—According to the canvass of the votes on the Constitution, out of 27,000 votes cast in the Territory there were 15,503 for the Constitution and 4,266 against it, and 7,231 who did not vote at all. The document, however, is adopted by a very small majority of the votes in the Territory.

—Robert Coburn and his son returned from Chicago via Flat Willow a few days ago. They have been absent from home since the round-up commenced last May, having put in the season on the range and marketed his crop of beaves, 288 head. They are looking well and are in remarkable good spirits.

—It is stated that Samuel Langhorne, founder of the *Bozeman Chronicle*, has sold the same to A. K. Yerkes and stepped down and out of the publishing business. Mr. Yerkes is a practical printer and newspaper man of considerable experience and will doubtless prosper. We wish him great success.

—The Good Templars' lodge has secured the new school room of Miss Nichols' private school and will, after next week, hold regular meetings every Monday evening. The lodge has lost its hall, but the organization is in tack and is gaining in membership. Its main effort hereafter, we learn, will be to supply White Sulphur Springs with a reading room.

—It has of late come to the notice of our people that the children of the Springs are remarkably free from disease. Scarlet fever which has prevailed more or less throughout Montana at different times, has only occurred here in the very mildest type, and diphtheria, which is so much dreaded, has never yet been known here. It is believed that the pure air of this altitude, coupled with the fumes of sulphur which arise from the springs and impregnate the air, have the very salutary effect to prevent the spread of disease and nullify its force, and thereby tend to make the Springs one of the healthiest places for children existant.

—Master Robert Coburn met with a serious accident last Saturday. He was riding home from town on a high spirited animal, and being unable to hold him and not wishing to let him run by the team, fearing it would take fright, circled him over the flat below town. The horse being ungovernable ran onto a piece of ice, falling, throwing the rider with great violence to the ground, bruising his arm and shoulder very seriously. No bones were broken, but he will probably be confined to his bed for several weeks.

—Our assertion a few weeks ago that Montana stood in great need of a school for the education of young ladies, is fully verified by the number of applications received from abroad for rates and other information by Miss Alice S. Nichols since our announcement of the fact that she had opened a private school which she hopes to make a Territorial Institute for the education of young ladies. We are confident that the enterprise is bound to prove a success, from the fact that Miss Nichols is a thoroughly competent teacher, having devoted her life to the work, and the Springs is one of the healthiest locations in Montana or the great Northwest. The sending of young ladies from a healthy country like Montana to the States, has always been attended with evil results, and our people should rejoice that they can now place their girls under the care and training of so estimable a lady as Miss Nichols in their own Territory, and at figures quite as reasonable as are to be obtained at any first-class school in the States.

—At the election last Saturday for the purpose of authorizing the Trustees of White Sulphur Springs school district to issue bonds to the amount of two per cent of the taxable property of the district and build a school house, considerable interest was manifested, a large majority of our citizens and taxpayers favoring the project. The opposition was very mild, the objection being principally to the site selected, some of the citizens in the upper town favoring a location nearer their place of residence. There were 108 votes in favor of the issue of bonds and 20 votes against. As the taxable wealth of the district is about \$600,000 bonds amounting to between \$11,000 and \$12,000 will be issued and employed in erecting the building. The site selected is the block at the southeast corner of Springs Square, a present to the district from White Sulphur Springs Association, and it is well worth two thousand dollars. It is the design of the Trustees to erect a brick school building that will be an ornament to the Health Resort and a credit to the district.

SOCIAL HOP.

Instead of the Maple Floor ball Dec. 13, as advertised, there will be a Social Hop. Everybody is invited. Tickets \$2.00. Come and bring your 'best girl.'

CONCERT.

The Glee Club will give a concert Friday evening, Dec. 19. This club has been practicing since June last, and is thoroughly organized and prepared to give a rare musical treat. Admission, 50 cents; reserved seats, 75 cents. The proceeds are to go towards the purchase of an organ for the use of the club and on public occasions.

A CHRISTMAS CARNIVAL.

The social hop, advertised for Friday evening Dec. 13th, will not interfere with a grand Christmas carnival on rollers which is herewith announced to come off on Christmas Eve. It will be the largest and most interesting carnival ever witnessed at the Springs. Ladies in costume free; gents in costume, same as skating; spectators, 50 cents each.

TERRITORIAL TEACHERS' ASSOCIATION.

Acting upon the generally expressed wishes of the teachers of the Territory, as expressed at the several county institutes, there will be a general meeting of the teachers and county superintendents of the Territory at Helena on the 29th-31st inst. The leading purpose will be to consider such changes of the school law as may be deemed essential to urge upon the attention of the Legislative Assembly, but it will be the purpose to consider any and all subjects that will benefit the schools of Montana.

The railroads have been asked to give reduced rates, and the citizens of Helena will, it is believed, furnish free entertainment. It is desired that as many as possible of those intending to come will notify the President.

CORNELIUS HEDGES,
President Teachers' Ass'n of Montana.
