FRIDAY, JANUARY 15, 1909

GOOD PRACTICE.

The Tillman-Forker fellows are really giving Mr. Roosevelt a fine bit of practice upon the eve of his departure for the jungles of Africa. What roaring lion will have any terror for the president now that he has listened to the bombast of the retiring senator from Ohio?

IN ATLANTA.

Taft is marching through Georgia; his track is not marked by the devastation that accompanied the famous Sherman expedition over the same route, but his conquest of the people is much more complete than that which was accomplished on the famous march from Atlanta to the sea.

TWO VIEWS.

The banking interests of the country are naturally looking askance at the proposition contained in the bill of Senator Carter to establish postal savings banks.

LABOR COUNCIL ELECTS.

The Missoula County Trades and Labor Council elected officers last evening to serve for the next year. They were as follows: O. H. Elliot, president; Thomas Scott, vice president; H. L. Eastridge, secretary;

for its stockholders by loaning the money for business uses. It is expended in extending industries, which provide work for many trades and a permanent payroll, besides giving a return to their promoters.

GAINING STRENGTH.

Mercantile and industrial conditions all over the country are improving; the gain is not a spurt, but is moving along at a steady gait that betokens permanency.

Harvard university need not put on airs because she has a new president. Montana university has had one for six months, and just as good a one as Harvard's.

It is reasonable to assume that the house committee of five will be liberally supplied with whitewash before it starts its state-land investigation.

Ben Phillips will not mind a little thing like a land-conspiracy indictment; he has been up against much more serious charges than that.

The most pitiable figure in the Hains case is the venerable father of the accused men, rendered penniless by his efforts in their behalf.

The stocking of local streams with trout and the construction of an electric railway will be a popular combination for fishermen.

If the Japan current persists in veering away from our coast, the Kenney creek coal beds will be a better property than ever.

Indiana denies John W. Kern even the privilege of looking at the vice president's chair from a senator's seat.

Anyway, with Carrie Nation, we are getting even with England for some of the frocks she has sent over here.

New names are being added to the membership roll of the chamber of commerce. Is yours one of them?

It seems strange to have Ben Phillips accused without Sam Hobson's name being coupled with his.

Augusta, Lewis and Clark county, may safely claim the medal with its record of 51 below zero.

Carrie Nation, having landed in jail in England, Castro must hustle to make good.

Tennessee adds her melodious voice to the grand southern chorus. "How Dry I Am."

Our old friend John W. Kern admirably maintains his place in the list of also-rans.

Meanwhile, you can save yourself a lot of trouble by using a Missoulian class ad.

Let you \$4 that neither Tillman nor Forker can ride 95 miles horseback in a day.

The committee clerks make no speeches, but they get there just the same.

With the rise in temperature, the old-timer story will resume activity.

Good advertising, supported by good goods, makes successful business.

On horseback or on foot, the president is going some all the time.

"Senator-elect Burton" sounds good; it also sounds a knell.

CHAMPIONSHIP GAME. At 4:10 this afternoon, in the University of Montana gymnasium, will be played the first of a series of basketball games to decide the inter-class championship of the state school.

LABOR COUNCIL ELECTS. The Missoula County Trades and Labor Council elected officers last evening to serve for the next year.

TWO CONFESS. Union City, Tenn., Jan. 14.—The prosecution in the night rider cases secured further evidence today when two of the men held in connection with the lynching of Captain Quentin Rinken made voluntary confessions, telling of the part they had played in the affair and of others who they asserted participated.

HAINS' FATE RESTS WITH JURY

DEFENDANT ACCUSED OF IMPLICATION IN ANNIS MURDER AWAITS VERDICT.

Flushing, N. Y., Jan. 14.—At midnight tonight the jury in the trial of Thornton Jenkins Hains, charged with the killing of William E. Annis, was still deliberating upon the case. It has been out several hours, but no word has come to Justice Crane on what progress has been made.

The jury retired at 4:55 o'clock this afternoon to determine whether the indictment charging him with being a principal with his brother, Captain Peter C. Hains, Jr., in the killing of William E. Annis, was proved or not. The jurors had deliberated about 50 minutes when they went out for dinner, returning to the jury room in less than half an hour.

The state's attorney attacked the plea of insanity that had been made with regard to Captain Hains, saying it was the plan of the counsel for the defense to endeavor when the captain comes to trial to show that he had recovered his mental balance within two months after the killing of Annis.

"Captain Hains" said Darrin, "was sane enough to stand there on the dock with his arms folded across his weapon to conceal it; he was sane enough when he heard the name 'Annis' and saw his brother beckon to run down on the float. He was sane enough to point his gun at Haraway and realize that he was not the man he wanted. He was sane enough when he walked along his boat and was sane enough to know that he had committed his act in the presence of a score of witnesses, and remarked: 'Of course I did it; there is no doubt of it.'"

Justice Crane took an early recess, stating that he desired to give the case to the jury this afternoon.

ALCOHOL IS A PRESERVATIVE.

Alcohol is recognized the world over as the proper, most efficient and wholesome preserver of medicinal compounds, and while some journalists try to alarm the world by the cry that potent medicinal wines contain more alcohol than beer, they neglect to state that proprietary medicines are taken in doses from a teaspoonful to a tablespoonful, while beer is a beverage that is consumed in quantities from a glass to several quarts a day.

DAY'S WORK IS LOST BY FREAK OF WIND

Yesterday there was little work done on the bridge that Contractor Peppard is throwing across the river at Van Buren street, and a freak in the weather was to blame. A few minutes before 9 o'clock yesterday morning the regular force was working, and at 5 minutes after 9 o'clock all hands were beating it up town, anxious to escape from the withering cold blast that was tearing down the canyon. When "all hands" got uptown they were surprised to find that there was a comfortable warmth in the air and that the blizzard had not followed them. A few of the more hardy went back to investigate the situation at the bridge, and were just as much surprised to find that there was no situation to investigate. The wind had died away as rapidly as it had arisen, but it was too late to collect the men again and a day's work was gone. Ward Peppard is the man who called surrender to the blast.

"HOBOS" PINCHED. Police Officers Beeson and White-man and Night Watchmen Kennedy early this morning made a roundup of about 20 hoboes. The men were arrested at the Northern Pacific depot and will be tried this morning in police court on the charge of vagrancy. They have been loafing around the depot for several days, refusing all orders of the police to "move on," and their arrest this morning is the result of their refusal.

HONORS REQUISITION. Sacramento, Jan. 14.—Governor Gillett honored today the requisition of Governor Hughes of New York for the extradition of Peter Reagen, under arrest in Los Angeles. He is wanted by the New York authorities for an alleged murderous attack made with a knife upon Edward Weston on April 13, 1905.

FIREMAN IS KILLED. Kallispell, Jan. 14.—Fireman I. M. Smith of train No. 2 on the Great Northern, was caught in a snowslide near High Gate and killed this morning. Coroner Waggoner has gone to the scene.

A MIGHTY GOOD PAPER IN A MIGHTY GOOD TOWN THE DAILY MISSOULIAN PUBLISHED EVERY DAY IN THE YEAR

If You Want the News, You Must Have The Missoulian The Reasons Are Plain

Local News THE MISSOULIAN covers its local field thoroughly; in its columns you get the happenings in your city and amongst its neighbors, fresh and crisp and up to the minute. The Missoulian gives you the news as it happens and when it happens. Its reports are accurate, not swayed by partisanship or moulded by prejudice. The Missoulian's news is news. If you want to know what is going on, you must have The Missoulian.

State News THE MISSOULIAN has a Montana special news service that covers the happenings in the state as they occur. The news of the mining camps and the stock ranges, of the manufacturing cities and the farming regions, is told every morning—told tersely and accurately. You can depend upon it if you see it in The Missoulian. The Missoulian's Coeur d'Alene service is prompt and dependable. You get the news in The Missoulian.

General News THE MISSOULIAN receives the full leased-wire service of the Associated Press. The news of the world is clicked by the telegraph into The Missoulian office all day and all night. There is no newspaper in the northwest that has a more complete service than this and it enables The Missoulian to give you, every morning, at your home, the news of the world while it is news. You don't have to wait for trains if you take The Missoulian.

Special News THE MISSOULIAN has recently secured a special news service which supplements the general service which it has for so long placed at the disposal of its patrons. This special service is designed to present to The Missoulian's readers in more detailed form such news as they are specially interested in. This will be found to be an admirable detail of The Missoulian's makeup. You can't afford to be without The Missoulian if you live in Missoula.

SOUTHERNERS VISIT MR. TAFT

ONE HUNDRED AND EIGHTY DEMOCRATS CALL UPON PRESIDENT-ELECT.

Augusta, Ga., Jan. 14.—One hundred and eighty men, who said they were democrats, citizens of Anderson, S. C., visited the president-elect today. Ten men from Thompson, Ga., all Confederate veterans, called Mr. Taft's attention to the cotton tax levied on several southern states after the war and collected to the total of \$65,000,000.

Mr. Taft, in his address to the Anderson delegation, referred to the growing prosperity of the south, under which "we are willing to let bygones be bygones and forget everything of the past that we ought to forget." He had no quarrel because his callers were democrats, remarking that under our form of government parties were necessary "machines" for making effective the republic.

"All that we can hope for," he added, "all that we ought to ask is that the people of all sections shall make up their minds to an independent way and then vote for the principles they favor."

MURDERS TWO PERSONS AND COMMITS SUICIDE

Modena, Mo., Jan. 14.—John Brooks, a farm hand in the employ of John Thompson, a young rancher living near here, drove his employer off the premises at the point of a revolver today and after killing Mrs. Thompson, who was lying ill in bed and his employer's brother, Butler Thompson, committed suicide. No motive for the shooting has been learned.

Brooks is reported to have been addicted to drink and it is supposed he committed the crime while intoxicated.

Six Fur Scarfs Found by Missoulian Class Ads

Zero weather is a poor time to lose a fur scarf but seven were lost in Missoula during the past 10 days. Six have been restored to their owners and the seventh awaits an owner at The Missoulian office. The class ad did it every time and that shows its effectiveness.

NOMINATES OFFICIALS TO CLUB

(Continued From Page One.) received another circular sent out by Dorr, in which this statement was made: "Some day I shall have justice and reparation, and when that day comes, now not far distant, there will be a noise that will be heard around the world."

That statement by Dorr, Mr. Tillman insisted, was conclusive proof that Dorr had received assurance from the president that he would "drag Tillman down as a liar and a scoundrel."

"They exploded their bomb here last Friday," he declared, "and now two members of the cabinet are endeavoring to make the people believe that Mr. Roosevelt is the most honest, noble, disinterested proponent of great manufacturers that ever existed. Dorr says he is going to get revenge. Who could promise that to him two months ago, before the explosion of the bomb?"

Government Uneasy. Mr. Tillman wanted to know what degree of falsehood was to be charged to the two cabinet officers, "or head clerks or bootlickers, or whatever the president has around him."

The attorney general, he said, had a splendid memory for various details of his conversation with him, but he could not recollect whether he had brought suit or not against the Southern Oregon company, and had to ask a subordinate "whether he had performed this important duty for congress."

He suggested that there should be a meeting of the executive committee of the Ananias club, with William E. Chandler or some other member to determine what degree should be conferred upon "Charles J. Bonaparte and this man Meyer."

Mr. Tillman laid stress on the fact that he had not endeavored to obtain any government land, but only to purchase land that had been given a corporation, with the stipulation that that corporation should sell it to the public at \$2.50 per acre. He insisted that he was entitled to a full investigation of these charges and to a report, as he did not wish to rest under the imputations that had been cast upon him. If no report should be made, he said, the impression would go abroad that the senate had whitewashed him and that he was guilty of some wrongdoing—an impression that he did not wish to rest under.

ROOSEVELT IS HONORED.

New York, Jan. 14.—President Roosevelt was elected honorary president of the American Bison society at its third annual meeting tonight and Earl Grey, governor general of Canada, honorary vice president. In his annual report President W. N. Hornaday stated that the plans of the society, which has for its object the preservation and maintenance of the buffalo in the United States, were progressing satisfactorily. Plans for the coming year look to the establishment of state parks in every state in which to maintain a buffalo herd.

'GHOST' WALKS AT CAPITOL

(Continued From Page One.) of such examinations, and relating to the revoking of licenses and to provide penalties for the violation of the provisions of this act and to repeal sections 4055, 4063, 4071, 4128 and 4129 of the revised codes of Montana, 1907.

An Amendment. Lehrkind—To amend sections 4019 and 4023, revised codes, 1907, relating to the disadvantage of the government and argued state control of the forests and reclamation.

Lehrkind—To provide that the state auditor shall also be designated as commissioner of insurance, ex officio, and to provide for the appointment of a deputy state auditor, who shall also be known as deputy commissioner of insurance and to fix his salary and to provide for the employment of an actuary.

Cott—To amend sections 3474, 3475, making it unlawful to herd or drive livestock upon another's land, providing penalties therefor and to give a right of action for damages.

PUBLICATION SCHEME DEFEATED IN HOUSE

Washington, Jan. 14.—For a time today in the house it looked as though that body would further resent the president's statement affecting members of congress and the secret service by ordering the publishing of 2,000,000 copies of the proceedings of last Friday, tabling his remarks. A resolution to that end was presented by Mr. Landis (Ind.), but so strong was the sentiment against it that it was tabled. The District of Columbia appropriation bill was passed, minus the major part of the appropriation of \$15,000 for playgrounds. The house at 3:23 p. m. adjourned.

FAVORS PROHIBITION.

Austin, Texas, Jan. 14.—Governor Campbell, in his message to the Texas legislature today, requests favorable action for the submission of the prohibition question to a popular vote of the people. He also asks for a law making it a felony to sell liquor in local option districts.

TO TOUR UNITED STATES.

Seattle, Jan. 14.—Miss Katherine Goodson, the well-known pianist, has arrived here, after a very successful concert tour of Australia. She will be in San Francisco on January 19, and after giving a series of concerts will make a tour of the United States.

FROZEN TO DEATH.

Great Falls, Jan. 14.—A ranch hand named Scott was frozen to death last night while walking from this city to a farm about six miles north.

WOOL RAISERS ROAST BUREAU

(Continued From Page One.) familiar with western conditions, to make a thorough investigation and report on these national forest and reclamation projects.

State Control. He compared private and Government irrigation enterprises in Idaho to the disadvantage of the government and argued state control of the forests and reclamation.

After outlining the plan for a great central wool market under the control of the growers themselves, to sell directly to manufacturers, President Gooding spoke of the efforts made by the buyers to defeat the project by bidding up individual clips. He said: "There are about six or seven firms in the city of Boston that today control more than 75 per cent of all the wool of the United States and they dictate the prices to the woolgrowers regardless of market conditions. They see in this move an opposition which, if once started, will throttle their profits and a chance for the woolgrowers to retain for themselves a large portion of the rich harvest which these commission men have reaped for so long."

Joseph E. Wing of Mechanicsburg, Ohio, eastern vice president, was unable to be present, and his address was read by W. W. Burch of Chicago.

At 5 o'clock the convention adjourned until tomorrow morning at 10 o'clock.

SAILS TO MESSINA.

Gibraltar, Jan. 14.—The United States transport Colde, which sailed from New York December 31, with large quantities of supplies for the earthquake sufferers in Italy and Sicily, arrived here today and sailed to Messina.

ENGINE OF FREIGHT PLUNGES INTO LAKE

Vancouver, B. C., Jan. 14.—Carrying its engineer and fireman with it, the locomotive of a westbound Canadian Pacific freight train ran into a snowslide at Three Valley lake, 350 miles east of Vancouver, at full speed at 9 o'clock this morning and plunged down the embankment and into the lake. Both men were pinned in the cab of the engine and were drowned. It is reported here that the locomotive went into the lake, which is said to be about 20 feet deep, at this point, rapidly shelving to a greater depth a short distance from shore.

METCALF IS ELECTED.

Bozeman, Jan. 14.—The Montana Dairymen's association has elected the following officers: Elmer Metcalf of Summerville, Missoula county, president; W. H. Thompson of Great Falls, vice president; Professor W. J. Elliott of Bozeman, secretary and treasurer.
