SUBSCRIBERS' PAPERS

The Missoulian is anxious to give the best carrier service; therefore subscribers are requested to report faulty delivery at once.

MONDAY, JANUARY 18, 1909.

A LOOK AHEAD.

Yesterday morning it was the pleasant privilege of The Missoulian to make authoritative announcement of the fact that the work of constructing the new electric railway will be started as soon as the weather will permit.

The new electric line will run over the new bridge and the substantially large figures which represent the size and strength of the new structure. These two items, no doubt, furnished pleasant reading for the Missoulian's friends.

A New Fort.

This morning, again, The Missoulian goes to its readers with cheering news. A special dispatch from Washington brings the tidings that the plans have been decided upon by the war department for a new Fort Missoula.

"HOP" IS CHARGED WITH MANY SUICIDES

Cleveland, Ohio, Jan. 17.—"Opium causes 500,000 suicides a year," declared Rev. A. S. Gregg of the International Reform bureau today, with reference to the opium conference called by President Roosevelt.

CLARA MORRIS ILL.

New York, Jan. 17.—It was learned tonight that Clara Morris, the actress, who has been ill for a long time, is in a serious condition.

TO FIGHT STRIKE.

New York, Jan. 17.—The open shop and a fight to the finish was the action decided upon by the Hat Manufacturers' association at a meeting held here today to discuss the situation growing out of the strike of the hat makers, which began Friday.

material contribution to the volume of business in the city this season. Formal announcement of the completion of the plans is looked for very soon.

DEFEATED DEBATERS RETURN

HIGH SCHOOL TEAM GIVES ALL CREDIT TO THEIR CONQUERORS IN CONQUEST.

The defeated high school debating team returned early yesterday morning from Boulder, where it met the Boulder high school team Friday night in the first debate of this year. The local team upheld the affirmative of the question, "Resolved, That the United States should maintain an offensive as well as a defensive navy."

London papers declare that reciprocity between Canada and the United States will surely lead to the absorption of the Dominion by the Union.

Wallace extends her compliments to Butte, via Missoula, with the assurance that there is nothing doing in the gambling line.

Once more we have the discussion of a change in the date of the inauguration. Some day this discussion will bring results.

The state horticulturists could not meet in a better place than Hamilton and they will receive a genuine Red Apple welcome.

A Boston physician recommends that every adult eat a dozen eggs a day. Prosperity must have hit Boston an awful swat.

One of the signs of development at the university is the way Greek letters are lying around the campus.

New bridge, new railway, new post, new federal building—you don't have to watch to see Missoula grow.

The Oregon republicans who halt between love and duty will eventually follow the call of the latter.

Mr. Clark says, "Start early." That is good advice in matters other than the electric railway.

The snow ordinance applies with equal force to Joe. Keep your walks clean all the time.

In our case a bigger navy means a better navy because our ships are built that way.

Mr. Taft's cordial indorsement of possess will clinch his popularity in the south.

Of course Mr. Roosevelt will give the senate the information which it seeks.

The meshes in the local dragnet are becoming smaller all the time.

The aggregate of free use of the forests for grazing cannot be exactly known, since no permit is required to be taken out, and there is therefore no record preserved.

The purpose of this free-use privilege is to make the forests contribute more effectively to the public welfare. The timber given to individuals is given for the development of the country through settlement.

The total receipts from timber sales each year since the national forests have been under the administration of the forest service have been as follows: 1905, \$60,136.62; 1906, \$245,013.49; 1907, \$668,813.12; 1908, \$849,027.24.

The average acreage to each officer theoretically available for patrol duty was 116,665 acres. But more than three-fourths of the time of these forest officers is now required by the fast-growing volume of national forest business, so that in point of fact the force on duty at the close of the year provided about one patrol officer to each 600,000 acres of forest.

Experimental broadcast sowings were made during the year in 27 forests, in the states of Idaho, Montana, Washington, Oregon, Wyoming, Colorado, Utah and New Mexico.

About 700,000 trees were planted last year on forests in the states of Nebraska, Kansas, Colorado, New Mex-

DEFEATED DEBATERS RETURN

HIGH SCHOOL TEAM GIVES ALL CREDIT TO THEIR CONQUERORS IN CONQUEST.

Washington, Jan. 17.—Listing receipts and expenditures and explaining the plan in English, much as a road president reports to his board of directors, Gifford Pinchot, forester, has just made a retrospect of the work of the United States forest service for the fiscal year 1908.

Although many needed improvements could not be undertaken, the benefits of what has been accomplished are seen in the more convenient and economical manner in which the forest officers are enabled to carry on their work and in the opening up to forest users of territory hitherto inaccessible.

The forest service is one of the branches of the government where everything is not done, just as everything is not done in the receipts from sales of timber, grazing fees, and permits for special uses of forest resources.

In addition, the national forests yielded heavily to the public in free use. There were 30,714 permits granted for the free use of timber by settlers, schools and churches during the year against 17,396 in 1907.

The aggregate of free use of the forests for grazing cannot be exactly known, since no permit is required to be taken out, and there is therefore no record preserved.

The purpose of this free-use privilege is to make the forests contribute more effectively to the public welfare. The timber given to individuals is given for the development of the country through settlement.

RETROSPECT IS MADE BY PINCHOT

CHIEF OF FORESTRY SERVICE, IN PLAIN WORDS, REVIEWS YEAR PAST.

Washington, Jan. 17.—Listing receipts and expenditures and explaining the plan in English, much as a road president reports to his board of directors, Gifford Pinchot, forester, has just made a retrospect of the work of the United States forest service for the fiscal year 1908.

Although many needed improvements could not be undertaken, the benefits of what has been accomplished are seen in the more convenient and economical manner in which the forest officers are enabled to carry on their work and in the opening up to forest users of territory hitherto inaccessible.

The forest service is one of the branches of the government where everything is not done, just as everything is not done in the receipts from sales of timber, grazing fees, and permits for special uses of forest resources.

In addition, the national forests yielded heavily to the public in free use. There were 30,714 permits granted for the free use of timber by settlers, schools and churches during the year against 17,396 in 1907.

The aggregate of free use of the forests for grazing cannot be exactly known, since no permit is required to be taken out, and there is therefore no record preserved.

The purpose of this free-use privilege is to make the forests contribute more effectively to the public welfare. The timber given to individuals is given for the development of the country through settlement.

The total receipts from timber sales each year since the national forests have been under the administration of the forest service have been as follows: 1905, \$60,136.62; 1906, \$245,013.49; 1907, \$668,813.12; 1908, \$849,027.24.

The average acreage to each officer theoretically available for patrol duty was 116,665 acres. But more than three-fourths of the time of these forest officers is now required by the fast-growing volume of national forest business, so that in point of fact the force on duty at the close of the year provided about one patrol officer to each 600,000 acres of forest.

Experimental broadcast sowings were made during the year in 27 forests, in the states of Idaho, Montana, Washington, Oregon, Wyoming, Colorado, Utah and New Mexico.

About 700,000 trees were planted last year on forests in the states of Nebraska, Kansas, Colorado, New Mex-

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Louisville, Ky.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a world of good and I cannot praise it enough. I suffered from irregularities, dizziness, nervousness, and a severe female trouble. Lydia E. Pinkham's Vegetable Compound has restored me to perfect health and kept me from the operating table. I will never be without this medicine in the house."—Mrs. SAM'L LEE, 3523 Fourth St., Louisville, Ky.

Another Operation Avoided. Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, R. F. D. 3.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

Arizona, Utah, Idaho and California. There are now growing at the planting stations over 2,200,000 trees which will be ready for planting in 1909. Sufficient seed was sown in the spring of 1908 to produce 4,600,000 seedlings.

Besides administering the national forests, the forest service renders, on request, expert advice and assistance to other parts of the executive government regarding the practice of forestry. Work of this kind was carried on on several military and Indian reservations in various parts of the country. Co-operative state forest studies were carried on with Kentucky, Mississippi, New Hampshire and Illinois.

The forest service conducts investigations of forest products along the two lines of wood preservation and wood utilization. Some of these investigations aim primarily to promote better use of national forest timbers; others seek results either of general application or contributing to the best use of the forest of some special region.

IS IT AN INDIVIDUAL?

Washington, Jan. 17.—The latest suggestion as to yesterday's sensational developments regarding the service of subpoenas on newspaper men in this city and elsewhere is that an individual and not the United States government is the real plaintiff in the case. It is true that the subpoenas served here read "The United States versus the Press Publishing company." But if the proposed action is criminal, as is generally assumed to be the case, that would be the form of a subpoena even where an individual is the complainant, according to the practice in the District of Columbia.

The identity of this individual or individuals is purely a matter of speculation for the public will have to await the issue of the promised statement of Attorney General Bonaparte.

TWENTY-FOUR INJURED.

Coffeyville, Kan., Jan. 17.—A south-bound passenger train on the Missouri Pacific railroad, from Kansas City, collided head-on with a northbound freight train two miles west of this city this morning. Twenty-four passengers were hurt, but only two are in a serious condition.

To Be Safe

To be safe confine yourself to the use of such flavors as your experience and judgment tell you are of the purest quality.

are just as they are represented to be. If not the cheapest they are the best, and no puddings, cakes, creams, or other table delicacies, are spoiled by their use.

University Lecture Course

Union Theater Tuesday, Jan. 19 8:30 P. M.

Russell Conwell

OF PHILADELPHIA

Will deliver his magnetic lecture, delivered hundreds of times to thousands of hearers, and which is still as interesting and fresh as ever.

"Acres of Diamonds"

Conwell's personal charm and magnetism have given him a place on the platform with the world's best speakers. Every seat in the opera house should be taken. There are 100 reserved seats for \$1.00. Reserved Seats, \$1.00. General Admission 50 cents.
