THURSDAY, JANUARY 21, 1909.

FOR WESTERN MONTANA.

After a consultation with the chamber of commerce and with representatives of the business interests of Missoula, Hamilton and other western Montana towns, the management of The Missoulian has decided to undertake the preparation of a special edition, to be published at an appropriate date in the early spring, which will be devoted to the exploitation of the resources of western Montana with a special view to interesting those people who will be attracted by the opening of the Flathead reservation.

The preparation of this edition has already been started; the very general endorsement which the proposition has received wherever it has been presented has been encouraging; the work is undertaken in the confident belief that The Missoulian's efforts in the line of publicity have been appreciated in the past and that this special line of endeavor will receive the support of the people in the district which is to be covered.

Without going into detail in this discussion of the edition, it is well enough to say that the entire plant and staff of The Missoulian will be devoted with all possible energy to the work of making this issue a thorough presentation of the advantages and resources of this section of Montana. The exact date of issue will be determined somewhat by the opening of the reservation, but it is likely that the edition will go to the public about the first of May.

The ten weeks or more that will be devoted to the preparation of this reservation edition will be crowded full of hard work; in the labor of preparing the material necessary for the production of this number, The Missoulian bespeaks for itself the co-operation of its friends and this includes, we are sure, all who are interested in the development of western Montana. For its own part, The Missoulian promises that the edition will be a newspaper of which western Montana need not feel ashamed; it will be a complete presentation of the resources of the Land of the McIntosh Red.

PUBLICITY.

Reference has already been made in these columns to the splendidly successful publicity work that has been carried on for a year or more by the cities of Spokane and St. Paul. These cities, one on the east and the other to the westward of Missoula have given the publicity system a thorough test. The best indication of its results, as measured by the people who pay for it and who are directly affected, is found in the fact that each city has this year appropriated a larger sum than ever before for carrying on the work. The example of these two cities has been followed by others and, this week, commenting upon the policy adopted by the city of Vancouver, the Spokesman-Review of Spokane, says:

"The little city of Vancouver in this state, long regarded as a Portland suburb, has grown ambitious with the building of the Spokane, Portland & Seattle railroad, and in a single day last week raised \$4,000 of its proposed \$10,000 for publicity work for 1909. The public spirit and enterprise that prompt the raising of \$4,000 in a single day in a town of 8,000 population rather put to blush the publicity work of the more pretentious cities of the northwest. To do relatively as well, Spokane would have to raise \$50,000 in one day or get a publicity fund this year of \$150,000."

THE SECRET SERVICE.

The discussion of the secret service work of the federal government, which has been brought out by the resentful attitude of congress toward the president, has been instrumental in calling forth some valuable and interesting accounts of the services that have been rendered by this branch of the executive department of the administration. Writing in Harper's Weekly, Edward C. Lowry presents much new information concerning the operations of this little-known department. "It was not until 1907," he writes, "that the law authorized secret service agents to protect the president of the United States. Prior to that time the law presumed that no operative was engaged in any business other than

the detection and punishment of counterfeiters. Had Chief Wilkie's men been confined actually as well as legally to the strict letter of congressional investigation one of the 'inside stories' in the history of the Spanish war could not have been written." It was through the "emergency operatives" of the secret service that the spy system inaugurated in this country by Spanish agents was disorganized. "It was due to the technically illegal practice of detailing secret service men for duty under the various departments that many of the land frauds in the western country were uncovered," says the author, who proceeds to recount a thrilling episode between William J. Burns, a "star" of the service, and Puter, known as "King of the Oregon Land Fraud Ring." One of the notable feats of the secret service was the seizure of large quantities of ammunition and rifles in Brooklyn, destined for the revolutionary party in Hayti. How the service protects the president, the achievements of this branch, and the origin of the dispute at present existent, with regard to its operations, between the president and congress are strikingly shown in this graphic and able article.

Idaho is for tariff revision, provided it does not revise the duties on lead, wool and lumber. And there were those who disputed General Hancock's assertion that the tariff is a local issue.

The World and the Sun of New York and the News of Indianapolis are wondering who is running the buzz saw that they are being pushed up against.

The appropriations committee at Helena evidently realizes the necessity of doing something to give the assembly the reputation of a busy aggregation.

Meanwhile we are learning something about the New York World's position, although the World doesn't know who is making the inquiry.

The Duke of the Abruzzi shows good sense when he will relinquish his royalty if he can have his American sweetheart for his wife.

Although they stood pat on their pledge, those Oregon republicans, no doubt, would like to see the primary law changed.

Tennessee strikes a business gait when she proposes to prohibit liquor consumption by stopping the manufacture.

The moral tone of this year's senatorial elections indicates that there has been a decided uplift in 10 years.

A farm that is under three feet of snow in January will be buried beneath three feet of grain in July.

Two days have passed since the Willett speech was delivered and Mr. Roosevelt has not resigned.

The January returns in Indiana are as unsatisfactory to John W. Kern as was the November figures.

The eleventh assembly will find the solution of the state revenue problem in the assessment system.

It is certainly worth a hundred thousand a year to be the target for the Tillmans and Willetts.

The Helena mystery is a common affair in that it hinges either upon gold dust or a woman.

Even at a hundred thousand a year, most of the president's profit will be in the glory column.

When Tennessee prohibits the manufacture of liquor, she overlooks her moonshiners.

The poolroom is as harmful as the faro layout, and the grocer needs the money.

Tillman resorting to technicalities is Tillman in a corner.

The last stand of the poolroom men is largely bluff.

NOT CONSTITUTIONALLY A CHRISTIAN COUNTRY

Philadelphia, Jan. 20.—After a spirited debate on the question of means to prevent sectarian teachings in the public schools, the delegates to the 21st council of the Union of American Hebrew congregations today passed a resolution appointing a committee to circulate literature that shall take the position that, from a constitutional standpoint, this is not a Christian country.

NEUMONIA IS RAGING AMONG THE FLATHEADS

Special to The Daily Missoulian. Arlee, Jan. 20.—Pneumonia is raging among the Flathead Indians and physicians appear to be unable to cope with the dread disease. Five cases have, within the past five days, resulted in as many deaths. The 2-year-old daughter of Billy Giles and the 3-year-old son of Octave Coultre both died this afternoon of pneumonia, after a short illness. Several other cases have been reported here.

LEGISLATURE IN DEADLOCK.

Springfield, Ill., Jan. 20.—The joint session of the house and senate on the election of a United States senator adjourned this afternoon in a deadlock after five consecutive ballots had been taken.

WAR AGAINST VICE SPREADING

CRUSADE AGAINST "WHITE SLAVE" TRADE IS MEETING WITH SUCCESS.

Chicago, Jan. 20.—France has set an example in dealing with magnates of the white slave traffic, the Dufours, husband and wife, who fled to Paris only to be promptly sent to prison there for importation of an American girl. However the forfeiting by the Dufours of a \$25,000 bond to make good their escape had salutary effect in checking the international traffic, for word has gone out from the vicious that "Chicago is accused by reform." The crusade against the systematic capture of young womanhood is gaining headway, but already one ingenious fraud, masquerading under its cover, has been unmasked by the same federal authorities and others who uncovered the scope of the white slave trade. Complaints from Indianapolis to United States District Attorney Sims brought into the limelight a bogus "White Slave Aid and Protective association," for which a pretty young woman was discovered peddling "life memberships." A warning against frauds of similar character has been issued by the "Woman's World," which started the crusade and which has also taken a notable rap at prudish parents who protest against the publication of Mr. Sims' disclosures of the appalling facts. "How much difference is there between the attitude of the ostrich and that of the parent who has a feeling that if people and papers and magazines wouldn't talk about the white slave traffic, all would be well?" is the caustic query of its editorial. "The simple fact of the matter is that, up to very recently, the parents of ostrich proclivities have had it all their own way. They have stuck their own heads in the sand and hugged the delusion that ignorance is bliss and that their children were safe from the touch of the moral destroyer because 'such things' were not talked about before their children or with them, or discussed in the pages of family papers. The day of the ostrich is gone by, so far as the sex question is concerned! Of late this has been distinctly proven by a courageous group of public benefactors who have had the moral grit to tell the truth straight from the shoulder."

This crusade has had able support in Judge "Ben" B. Lindsey, the famous "probation judge" of Denver; Judge Julian W. Mack of Chicago, Margaret Deland, the author; Charles Nelson Crittenton, president of the National Florence Crittenton mission, and others.

TO LEVY ASSESSMENT.

Special to The Daily Missoulian. Wallace, Jan. 20.—Directors of the Temple Mining company, at a meeting held here yesterday, decided to levy an assessment of 5 mills a share upon the capital stock to further develop the property. It was thought better to levy the assessment than to sell treasury stock of the company, owing to the dullness of the market and the low prices of stock generally.

FIRE ON LAKE KILLS MANY WORKMEN

Spread the public schools were deserted and weeping wives and their children huddled about them watched anxiously for the return trips of the struggling craft with their cargo of injured and dead. According to the records of the George W. Jackson Construction company 46 men are missing.

OIL TRUST TO PAY BIG FINE IN SILVER

El Paso, Texas, Jan. 20.—Nearly 50 tons of silver in the form of dollars will be turned over to the state of Texas by the Waters-Pierce oil company, according to a special from Austin. The attorneys for the Waters-Pierce Oil company, which has been ousted from the state and fined \$1,623,900 for violation of anti-trust laws, announced at Austin today that the big fine, with the attendant costs, will be paid to the state in silver dollars. The state will have to employ a small army of clerks to count it.

OWES HER LIFE TO

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound. It worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. Emma Wheaton, Vienna, W. Va.

PLAN AN EXHIBIT.

Special to The Daily Missoulian. Wallace, Jan. 20.—Members of the Mine Makers' association, representing all the principal properties under process of development in the Coeur d'Alene, will hold an important meeting in this city February 1, at which time plans for an exhibit at the Alaska-Yukon-Pacific exposition at Seattle will be discussed and a committee named to take charge of the arrangements. The Mine Makers' association is planning an exhibit of ores from this district which promises to be one of the finest mineral displays at the Seattle fair.

BONAPARTE DECLINES.

Washington, Jan. 20.—Attorney General Bonaparte will not appear before the sub-committee of the senate committee on Judiciary when it meets tomorrow to begin the inquiry into the merger of the Tennessee Coal & Iron company and the United States Steel corporation. Senator Clark of Wyoming, chairman of the committee, received a reply from Mr. Bonaparte today declining the invitation to testify before the committee tomorrow on the ground that he had a prior engagement in the supreme court for that time.

A MIGHTY GOOD PAPER IN A MIGHTY GOOD TOWN

THE DAILY MISSOULIAN

PUBLISHED EVERY DAY IN THE YEAR

If You Want the News, You Must Have The Missoulian The Reasons Are Plain

Local News

THE MISSOULIAN covers its local field thoroughly; in its columns you get the happenings in your city and amongst its neighbors, fresh and crisp and up to the minute. HARMLESS LUNATIC EN ROUTE TO MISSOULA

Special to The Daily Missoulian. Wallace, Jan. 20.—"Gudoby. I tank I cum back hyar sometime soon. You ban have purty good hotal hyar I tank."

ONE MORE JUROR.

San Francisco, Jan. 20.—A single talesman ran the gauntlet of inquiry today in the trial of Patrick Calhoun upon an indictment for bribery, and 11 others, whose examination occupied the entire day, were challenged or excused. The proceedings were almost monotonous and there was not a single clash between opposing attorneys.

DYSPEPSIA

No One Can Have That Healthy Glow If Digestion is Imperfect—Try the Money Back Cure.

Nine times in ten stomach derangements are responsible for sallow complexion, dull eyes, thin body and colorless cheeks. It is the stomach that supplies nourishing blood to the muscles, the nerves, and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and unabsorbed, the food will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

Senator Clark of Wyoming, chairman of the committee, received a reply from Mr. Bonaparte today declining the invitation to testify before the committee tomorrow on the ground that he had a prior engagement in the supreme court for that time.

General News

THE MISSOULIAN receives the full leased-wire service of the Associated Press. The news of the world is clicked by the telegraph into The Missoulian office all day and all night. There is no newspaper in the northwest that has a more complete service than this and it enables The Missoulian to give you, every morning, at your home, the news of the world while it is news. You don't have to wait for trains if you take The Missoulian.

Special News

THE MISSOULIAN has recently secured a special news service which supplements the general service which it has for so long placed at the disposal of its patrons. This special service is designed to present to The Missoulian's readers in more detailed form such news as they are specially interested in. This will be found to be an admirable detail of The Missoulian's makeup. You can't afford to be without The Missoulian if you live in Missoula.

ALL MUST GET SHARE OF CONTRACT PROFITS

Special to The Daily Missoulian. Butte, Jan. 20.—By a heavy vote the miners' union has decided to allow "contracting" under ground under certain new conditions. The conditions are that all miners, timbermen and muckers engaged in contract work must share alike in the profits of the contract, their pay, whether the contract is profitable or not, not to be less than the scale of \$3.50 per day. Under the old conditions of contracting the company would hire muckers on contracts for \$3 per day, and these men did not share in the profits of the contract, profits which were divided equally between the men engaged in drilling and mining on the ground included in the contract. The new system goes into effect immediately and will be enforced in all mines.

YOUNG MAN ACCUSED OF ROBBING A BANK

Special to The Daily Missoulian. St. Louis, Jan. 20.—Don Carlos Wisley, 20 years old, is under arrest here charged with complicity in a series of robberies, by which the Old National bank of Spokane is said to have suffered considerable loss. He was apprehended last night by a private detective, who asserted that his prisoner is one of a band of clerks who executed the thefts. It is said that Wisley has imparted information which is expected to lead to the arrest of other members of the band. Over \$1,000 was found in his possession.

WOODS TO SPEAK.

Special to The Daily Missoulian. Wallace, Jan. 20.—It appears to have been appendicitis and not a heart affection with which R. H. Webb of Mullan was suffering when, a few days ago, he imprinted three kisses upon the wife of a Mullan miner with whom he fell in love at first sight. Webb said at the time that he was desperately in love and was going to write a novel about the object of his affections, whom he had only seen once. He was sentenced to 90 days' imprisonment for his rash act. Yesterday he was taken ill at the county jail and he is now in a critical condition, suffering from appendicitis.

SMOULDERING RUINS.

Messina, Jan. 20.—The area swept yesterday by fire in the ruins left by the earthquake is still smoking today. A cordon of troops is maintained about the burned district to be ready in case of emergency.

Simple Remedy for La Gripe.

Racking is gripe coughs that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar. The sore and inflamed lungs are healed and strengthened and a dangerous condition is quickly averted. Take Foley's Honey and Tar in the yellow package. For sale by Garden City Drug Co.

NORRIS SENDS A SPECIAL MESSAGE

(Continued From Page One.)

104—Committee on Appropriations—Appropriating money for notary public fees erroneously collected.

105—By Kilgallon—Appropriating \$2,500 to aid in the establishment, maintenance and stocking of a bison range within the state.

106—Committee on Appropriations—For payment deficiency claims account requisition.

107—Committee on Appropriations—Authorizing payment bounty of claims and providing for payment.

108—By Berkin—Providing that owners of land on lakes and ponds may catch fish and sell them.

By Giovannetti—Appropriating money for building and equipment of dormitory and gymnasium at school of mines.

By Burke—To amend section 2746, relating to licenses.

By Pomeroy—Prohibiting persons from unlawfully representing themselves as members of any profession for which licenses are required.

By Butzerin—Making an appropriation for an exhibit at the Alaska-Yukon-Pacific exposition. This bill provides for an appropriation of \$40,000.

By Cummings—Relating to compensation of officers, employes and members of the legislature.

By Gray—For the disposal of the property of Baptist churches which have become extinct.

By MacGinnis—Regulating the practice of public accounting.

By Smith—To amend section 4822, relating to the compensation of water commissioners.

The following notices of bills were given:

By the committee on livestock and public ranges—Making an appropriation for the protection of livestock industry and to defray expenses incurred therefor, for the years 1909 and 1910.

By Roy—To amend section 82, revised codes, relating to the letting of contracts by school trustees.

By Burke—Providing for an independent water supply for the state capitol building and grounds.

By Kelesy—Relating to the record of horses and other livestock sold at public markets.

By Byrnes—Providing for the payment of all liens and claims against the grandstand of the Montana state fair.
